AUTHORITY: §§1-4, NRS 385.080 and 389.805.

A REGULATION relating to education; revising provisions relating to end-of-course examinations; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires a pupil to pass at least four end-of-course examinations in courses of study prescribed by the State Board of Education as a condition to receiving a high school diploma. (NRS 389.805) Existing regulations prescribe the end-of-course examinations for pupils scheduled to graduate at the end of the 2016-2017 school year and thereafter. (Sections 10 and 52 of LCB File No. R061-14) **Section 1** of this regulation removes the requirement that, in order to receive a standard high school diploma, a pupil in the graduating cohort of 2019 must pass end-of-course examinations in science and any additional subject area for which the State Board has adopted the common core standards and instead makes those end-of-course examinations a requirement for a pupil in the graduating cohort of 2020 or any year thereafter.

Existing regulations provide that a pupil who has enrolled in or has completed each course for which an end-of-course examination is approved is eligible to take the examination after entering grade 7. (Section 12 of LCB File No. R061-14) **Section 2** of this regulation revises this requirement to provide that such a pupil is eligible to take an end-of-course examination after entering grade 6.
