

**PROPOSED REGULATION OF THE
DEPARTMENT OF EDUCATION**

LCB File No. R132-16

Section 1. Chapter 386 of NAC is hereby amended by adding thereto the provisions set forth as sections 2 to XX, inclusive of this regulation.

Sec. 2. *1. “Single-Campus School” means a charter school that operates a distinct grade range with a single school administrator for the academic program for the entire grade span of the campus. A single-campus school may operate in multiple facilities, especially during periods of facility transition. A single-campus school will have a unique identifier assigned to it by the Department.*

2. “Multi-Campus School” means a charter school that operates two or more campuses under one charter contract each with its own distinct academic leader that is responsible for its staff. The campuses could offer the same grade spans or differing grade spans. Each campus will have a unique campus identifier assigned to it by the Department.

3. “Charter School Facility” means a building that houses a part of a campus, an entire campus, or multiple campuses. A charter school may operate a single-campus among multiple facilities or multiple campuses in one facility.

Sec. 3. *1. A charter school will have a unique identification number and each campus a charter school operates will have a unique campus identification number assigned by the Department.*

2. Each campus must report academic performance, attendance and attendance data under its unique identification number to the sponsor and on federal and state reports.

3. Each campus will be evaluated against the school’s performance framework and each multi-campus school will be evaluated in its entirety based on a weighted average of the academic performance of each campus and grade level configuration.

4. For multi-campus charter schools, pupils attending one campus may matriculate to another campus of the same charter school. If there are insufficient spaces, a campus may hold an internal lottery for students from another campus, prior to holding an external lottery. New students apply to each campus through a separate application and lottery process.

5. A sponsor may amend a charter contract to close a campus without closing the entire charter school.

Sec. 4. *1. The basic support for a charter school that has had an amendment approved to reduce enrollment, eliminate grade levels, or cease operations or whose sponsor requires a limit on future enrollment as a condition of renewal or ongoing operation of one or more facilities shall not be computed by using the average daily enrollment of pupils during the same quarter of the immediately preceding school year pursuant to NRS 387.1223.*
