Legislative Counsel's Digest:

Existing law requires the Chiropractic Physicians' Board of Nevada to adopt regulations relating to the practice of chiropractic. (NRS 634.030) **Section 1** of this regulation requires a licensed chiropractor to maintain a copy of all documents relating to his or her advertisements for at least 2 years after the first date that the advertisement is broadcast or disseminated.

Under existing regulations, the Board charges and collects certain fees relating to the practice of chiropractic. (NAC 634.200) **Section 2** of this regulation eliminates the fee charged by the Board for the list of approved continuing education courses.

Under existing regulations, the Board requires an applicant for a license to practice chiropractic to submit fingerprints and agree to a background investigation. (NAC 634.220) **Section 3** of this regulation extends this requirement to an applicant for reinstatement of an expired license.

Existing law requires all applicants for licenses to practice chiropractic to pass all examinations prescribed by the Board. (NRS 634.070) Existing regulations prescribe additional examinations required for licensure and the period within which the required examinations must be taken. (NAC 634.290, 634.300) **Section 4** of this regulation removes the Special Purposes Examination for Chiropractic as an alternative examination that may be taken by an applicant who has practiced chiropractic in another state and is seeking licensure in this State. **Section 5** of

this regulation removes the limitation that an applicant may only take a required examination twice during the period in which an application is open and instead allows an applicant to take a required examination at such times as may be allowed by the Board and the testing vendor, if any, during the period in which the application is open.

Existing law requires the Board to establish a preceptor program to provide supervised clinical experience to students enrolled in colleges of chiropractic. (NRS 634.137) Under existing regulations: (1) a student who participates in the program is prohibited from establishing a plan of treatment or prognosis for a patient without the concurrence of the preceptor, which must be documented in the health care record of the patient; and (2) a preceptor is required to review and initial the plan in the health care record of the patient prior to any treatment of the patient by the student. (NAC 634.339, 634.341) **Section 6** of this regulation provides that the concurrence of the preceptor to a plan of treatment or prognosis may occur before or after a student has commenced treatment of a patient. **Section 7** of this regulation eliminates the requirement that the preceptor review and initial the health care record of the patient before the student may execute the plan of treatment.

Existing law authorizes the Board to grant a temporary license to practice chiropractic in this State for limited purposes to a person who holds a corresponding license or certificate in another jurisdiction which is in good standing and who actively practices chiropractic in that jurisdiction. (NRS 634.115) Existing regulations prescribe the limited scope of practice for a person who is issued a temporary license. (NAC 634.367) **Section 8** of this regulation provides that a person is not required to obtain a temporary license to demonstrate a chiropractic technique on a chiropractic physician at an educational class, seminar or conference.

Existing law requires persons licensed to practice chiropractic or certified as a chiropractor's assistant to biannually complete a minimum number of hours of continuing education which is approved or endorsed by the Board. (NRS 634.130) Existing regulations set forth the requirements for approval or endorsement of educational seminars that satisfy the continuing education requirements. (NAC 634.385) **Section 9** of this regulation adds educational seminars sponsored by other regulatory bodies governed by title 54 of NRS to the list of continuing education that may be approved or endorsed by the Board.

Existing regulations provide for the voluntary surrender of a license to practice chiropractic or a certificate as a chiropractor's assistant. (NAC 634.390) **Section 10** of this regulation provides that a voluntary surrender of a license or certificate granted: (1) while the holder is not under investigation by the Board, shall not be considered disciplinary action by the Board; and (2) while the holder is under investigation by the Board, shall be deemed a revocation of the license or certificate. **Section 10** also clarifies that the Board's acceptance or denial of a request for voluntary surrender is within the Board's discretion.

Existing law defines as unprofessional conduct, for which a licensed chiropractor is subject to discipline by the Board, any advertisement containing grossly improbable statements or that may in any manner tend to deceive, defraud or mislead the public. (NRS 634.018, 634.140) Existing regulations prescribe requirements and prohibitions relating to advertising by a person licensed to practice chiropractic. (NAC 634.515-634.570) **Section 12** of this regulation expands upon what constitutes false or misleading communications to include a testimonial or

endorsement representing that a person is a patient of the licensee made by a person who is not in fact a patient of the licensee. **Section 13** of this regulation revises the requirements that all advertisements and written communication must include relating to the licensee.

Section 15 of this regulation repeals provisions relating to: (1) a licensee authorizing another person to provide services for the licensee’s patients, other than chiropractic or clerical services, in the office of the licensee; and (2) including information relating to a licensee or chiropractic office in a list or directory of licensees or chiropractic offices. (NAC 634.419, 634.570)
