**LEGISLATIVE REVIEW OF ADOPTED REGULATIONS AS REQUIRED  
BY ADMINISTRATIVE PROCEDURES ACT, NRS 233B.066**

**LCB File No. R049-17**

**Amendments to NAC 391.057 – A Regulation relating to Education; revising the authorized activities of the holder of a conditional license; providing for the conversion of a conditional license to a license that is not conditional under certain circumstances; providing that a conditional license becomes invalid under certain circumstances; authorizing the holder of an invalid conditional license to apply for the reinstatement of the license under certain circumstances; and providing other matters properly relating thereto.**

**INFORMATIONAL STATEMENT**

The following statement is submitted for adopted amendments to Nevada Administrative Code 391:

**1. A clear and concise explanation of the need for the adopted regulation.**

The need and purpose of the proposed amendments to NAC Chapter 391 are based on recommendations from the Nevada Department of Education. Existing law requires the Commission on Professional Standards in Education to adopt regulations prescribing the qualifications for licensing teachers and other educational personnel. (NRS 391.019) Existing regulations authorize the Superintendent of Public Instruction to issue a conditional license to a person who has been accepted by a qualified provider for enrollment in a program for an alternative route to licensure and meets certain other requirements. Such a license authorizes the holder to teach in a county school district, charter school or private school. (NAC 391.057) This regulation instead provides that a conditional license authorizes the holder to teach in a county school district, charter school or university school for profoundly gifted pupils. This regulation also provides for the conversion of a conditional license to an initial license after the completion of 2 full school years if the holder meets certain requirements.

Existing regulations provide for the revocation of a conditional license if the holder withdraws from or is no longer enrolled in a program for an alternative route to licensure. (NAC 391.057) This regulation instead provides that a conditional license becomes invalid if the holder withdraws from or is no longer enrolled in a program for an alternative route to licensure. This regulation also authorizes the holder of a license that has become invalid to apply to the Department of Education for the reinstatement of the license if he or she: (1) has not previously applied for reinstatement of the license; and (2) is accepted by another program for an alternative route to licensure offered by a qualified provider.
