October 26, 2017

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §§1-4 and 8, NRS 366.110, 366.220, 366.260 and 366.265; §§5, 6 and 9, NRS 481.051 and 482.160; §7, section 6 of Senate Bill No. 31, chapter 180, Statutes of Nevada 2017, at page 974.

A REGULATION relating to transportation; imposing a fee for the initial issuance, renewal or reinstatement of a license of a special fuel dealer, special fuel exporter, special fuel manufacturer, special fuel supplier, special fuel transporter and special fuel user; requiring the Department of Motor Vehicles to refuse to renew the certificate of registration or revoke the certificate of registration of certain motor carriers who fail to provide certain information to the Department or who are subject to certain out-of-service orders; repealing the fee imposed for an identifying device; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law requires a person to obtain a license from the Department of Motor Vehicles to engage in business as a special fuel dealer, special fuel exporter, special fuel manufacturer, special fuel supplier, special fuel transporter or special fuel user. The Department is authorized to adopt regulations relating to the issuance of such a license and the collection of fees therefor. (NRS 366.220) **Section 1** of this regulation imposes a fee of \$115 for a person applying for the initial issuance, renewal or reinstatement of a license as a special fuel dealer, special fuel exporter, special fuel manufacturer, special fuel supplier or special fuel transporter. A person applying for the initial issuance, renewal or reinstatement of a license as a special fuel user is required to pay a fee of \$25. **Sections 2-4** of this regulation make conforming changes.

Existing law requires a person who is required to be licensed as a special fuel user and who uses special fuel in a motor vehicle to display an identifying device obtained from the Department on the exterior of the motor vehicle. (NRS 366.265) Existing regulations impose a fee of \$6 for each such identifying device. (NAC 366.800) **Section 8** of this regulation repeals that fee, and **section 1** requires the Department to provide such devices to a special fuel user at no cost to the special fuel user.

The 79th Session of the Nevada Legislature enacted a law that prospectively requires certain motor carriers registering commercial motor vehicles in this State to: (1) obtain an identification number from the United States Department of Transportation, known as a

“USDOT number”; (2) display that USDOT number on certain commercial motor vehicles of the motor carrier; and (3) notify the Department of Motor Vehicles of the USDOT number and the name of the motor carrier responsible for the safety of each such vehicle. (Section 5 of Senate Bill No. 31, chapter 180, Statutes of Nevada 2017, at page 973) Another such provision prospectively authorizes the Department of Motor Vehicles to refuse to renew the certificate of registration of a commercial motor vehicle if the motor carrier fails to meet those requirements or if the motor carrier is subject to certain out-of-service orders. (Section 8 of Senate Bill No. 31, chapter 180, Statutes of Nevada 2017, at page 974) Existing law was amended prospectively to authorize the Department of Motor Vehicles to revoke the certificate of registration of a motor vehicle for the same reasons. (NRS 482.465, as amended by section 13 of Senate Bill No. 31, chapter 180, Statutes of Nevada 2017, at page 979) **Section 6** of this regulation makes such a refusal to renew or such a revocation of a certificate of registration mandatory by the Department of Motor Vehicles. **Section 6** also requires the Department of Motor Vehicles to renew or reinstate the certificate of registration, as applicable, if the motor carrier provides evidence satisfactory to the Department of Motor Vehicles that each condition which resulted in the refusal to renew or the revocation has been corrected, and the motor carrier meets all other applicable registration requirements.

The 79th Session of the Nevada Legislature also prospectively amended existing law to require the Department to adopt regulations which set forth each provision of federal regulations which, when a violation of the provision is a basis for a temporary prohibition against operation by a motor carrier, qualifies that temporary prohibition as an out-of-service order for the purposes of certain registration requirements and enforcement authority. (Section 6 of Senate Bill No. 31, chapter 180, Statutes of Nevada 2017, at page 974) **Section 7** of this regulation sets forth those provisions.

The new provisions and amendments to existing law related to **sections 5-7** of this regulation will become effective on the earlier of: (1) July 1, 2020; or (2) the date on which the Director of the Department of Motor Vehicles notifies the Governor that sufficient resources are available to enable the Department to carry out the amendatory provisions of Senate Bill No. 31. (Section 26 of Senate Bill No. 31, chapter 180, Statutes of Nevada 2017, at page 987) **Section 9** of this regulation provides that **sections 1-4** and **8** become effective on January 1, 2019, or upon the filing of this regulation with the Secretary of State, whichever occurs later. **Section 9** also provides that **sections 5-7** become effective on the date: (1) the underlying bill becomes effective; or (2) the regulation is filed with the Secretary of State, whichever occurs later.
