Existing regulations require the financial statement of an administrator to include: (1) a balance sheet that reports the assets, liabilities and net worth of the administrator; (2) an income statement that reports the revenue and expenses of the administrator; (3) a statement of cash flow; and (4) notes to the financial statement. (NAC 683A.131) **Section 1** requires the financial statement of an applicant for a certificate of registration as an administrator or its parent company to include such information as it applies to the applicant.

Existing law requires each application for a certificate of registration as an administrator to include a notarized affidavit from each person who manages or controls the administrator, including members, directors or officers, that contains certain information. (NRS 683A.08522) Existing regulations require an administrator to notify the Commissioner of any change in its members, owners, directors or officers within 90 days after the change. (NAC 683A.125) **Section 3** of this regulation requires an administrator to notify the Commissioner of any change in its members, owners, directors or officers within 30 days after the change. **Section 3** further requires the administrator to submit a notarized affidavit for each new member, owner, director or officer within 30 days after the change.

Existing law requires each application for a certificate of registration as an administrator to include the complete name and address of each office of the administrator, including offices located outside of this State. (NRS 683A.08522) **Section 3** requires an administrator to notify the Commissioner of any change in the physical location, the mailing address or the electronic mail address of an office of the administrator within 30 days after the change.

Existing regulations require an administrator to provide to the Commissioner a copy of each written agreement that the administrator enters into with an insurer or other entity within 90 days after he or she enters into the agreement. (NAC 683A.125) **Section 3** removes this requirement.
