**c. Submitted to the agency written comments:**

**Employment Security Council:** No written comments were submitted

**Small Business Workshop:** No written comments were submitted

**Hearing:** No written comments were submitted

**4. A description of how comments were solicited from affected businesses, a summary of their response, and an explanation how other interested persons may obtain a copy of the summary.**

Comments were solicited from affected businesses in the same manner as they were solicited from the public.

5. **If, after consideration of public comment, the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.**

No recommended changes submitted in written or public comment.

6. **The estimated economic effect of the adopted regulation on the business which it is to regulate and on the public. These must be stated separately, and each case must include:**

- a. **Both adverse and beneficial effects; and**
- b. **Both immediate and long-term effects.**

All Nevada employers subject to Unemployment Insurance (UI) contributions and eligible for Experience Rating will be affected by the proposed regulation, constituting approximately 46,710 employers or 64.9% of all employers registered with the Employment Security Division. This Regulation represents maintaining the average UI contribution rate at 1.95% in 2018, as recommended by the Employment Security Council on October 3, 2017.

#### **Beneficial Impacts**

With the 1.95% average contribution rate, the total costs paid by Nevada employers will fall from 2.63% on average to 2.00% of wages subject to contributions. This is a result of the end of the bond assessment, an additional charge made to employers in the last four years. Even with a statutory increase in the wages subject to unemployment contributions, which rose from \$29,500 in 2017 to \$30,500 in 2018, the average cost per employee at the maximum taxable wage base will fall from \$775.85 to \$610.00 in 2018. This regulation will lead to a continued increase in reserves in the UI Trust Fund, which is projected to grow by \$354 million from September 30, 2017 to September 30, 2018, bringing the state closer to the solvency target specified in NRS 612.550.

#### **Adverse Impacts**

In light of the overall rate decline employers will experience with end of the bond assessment, there are no significant adverse impacts to this Regulation, as the average contribution rate will remain the same at 1.95%. If only the 1.95% average contribution rate and the 0.05% Career Enhancement Program (CEP) rate are used to compare to 2017, the total costs paid by Nevada employers will be the same in 2018, at 2.00% of wages subject to contributions. With the statutory increase in the wages subject to unemployment contributions, the average cost per employee at the maximum taxable wage base will rise from \$590.00 to \$610.00 in 2018.

**Direct Impacts**

The direct impact of this regulation on any particular Nevada business depends on that business' prior experience with respect to Unemployment. Because the rates that employers pay are fixed in statute, the average rate is adjusted each year in the regulatory process by adapting a range of reserve ratios which will apply to those rates. Each employer's reserve ratio changes each year as well, rising or falling, depending on the net balance of UI contributions and benefit charges from and to that account.

**Indirect Impacts**

This regulation complies with the federal compliance regulations governing Unemployment Insurance Contribution rates. Therefore, employers maintain eligibility for a full 5.4% credit toward their federal Unemployment Insurance taxes. In addition, the additional solvency in the UI system will help to pay for unemployment benefits in the future. On average, evidence suggests that for each dollar in UI benefits, \$2 or more in economic activity results. In addition, employers benefit as funds are returned to the economy through UI benefit payments, helping to mitigate the drop in consumption that takes place in a recession. Finally, the UI system helps to maintain the attachment of workers to the local workforce and facilitate a faster return to work, both through job search and training services and through mandatory work search requirements.

**Immediate Effect:**

This Regulation will adopt the experience rating schedule that will be in effect for calendar year 2018. The Average Unemployment Contribution Rate of 1.95%, together with the Career Enhancement Program Assessment (CEP), will decrease the total rate from 2.63% in 2017 to 2.00% of wages subject to unemployment contributions in 2018.

**Long-Term Effect:**

This Regulation will continue to build reserves in the Nevada Unemployment Insurance Trust Fund, earning interest to the credit of that fund and helping to improve the State's ability to pay unemployment benefits in advance of a future recession.

**7. The estimated cost to the agency for enforcement of the adopted regulation.**

This regulation will be enforced as a regular part of ongoing UI operations, and does not represent any additional burden on staff time, as the regulation is used to modify contribution rates each year. Funding for the administration of the UI program is provided to the Department by the U.S. Department of Labor.

**Anticipated Revenue Increase and Use**

This regulation maintains the 2017 average UI contribution rate of 1.95%. By law, money collected from state Unemployment Insurance Contributions can only be used to pay Unemployment Insurance Benefits, so these funds will remain deposited in the Nevada Unemployment Insurance Trust Fund.

- 8. A description of any regulations of other state or government agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the regulation overlaps or duplicates a federal regulation, the name of the regulating federal agency.**

This regulation is only an annual modification to the Unemployment Insurance Contribution schedule. Therefore, this regulation does not duplicate or provide a more stringent standard than any other regulation of federal, state, or local governments.

- 9. If the regulation includes provisions that are more stringent than a federal regulation which regulates the same activity, a summary of such provisions.**

The proposed regulation is not required pursuant to federal law, nor is there a federal regulation that regulates the same activity.

- 10. If the regulation establishes a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.**

This Regulation does not impose any new or increased fees on employers, as it represents maintaining the average UI contribution rate at 1.95% from 2017 to 2018. The overall average rate, which includes the CEP rate of 0.05%, will decrease from 2.63% to 2.00%.
