Legislative Counsel’s Digest:
Existing regulations establish the qualifications and duties of a person who manages a business engaged in ophthalmic dispensing. (NAC 637.144) Section 1 of this regulation clarifies provisions which prohibit: (1) a business manager who is not the ophthalmic manager from making decisions concerning ophthalmic dispensing; and (2) an apprentice dispensing optician from performing certain managerial functions or exercising certain authority at a business engaged in ophthalmic dispensing.

Existing regulations set forth the required information and documentation to be submitted with an application for an examination to obtain a license as a dispensing optician. (NAC 637.150) Section 3 of this regulation adds a requirement to include proof that he or she has correctly neutralized the prescriptions of not less than 100 pairs of prescription spectacles.
Existing regulations provide that a dispensing optician who received his or her license by examination is not required to submit a copy of a certificate of continuing education for the first renewal of his or her license. (NAC 637.190) **Section 4** of this regulation instead provides that a dispensing optician or dispensing optician with a limited license is not required to submit such a copy for the first renewal of a license. Therefore, no continuing education is required for the first year of licensure.

Existing regulations limit the number of credits of continuing education which a dispensing optician or a dispensing optician with a limited license may receive for completion of self-study courses or courses offered over the Internet. (NAC 637.200) **Section 5** of this regulation removes such limitations and provides that the requirements for continuing education may be satisfied through any combination of live courses, self-study courses and courses offered over the Internet.

Existing law provides that a license issued to a dispensing optician or apprentice dispensing optician or limited license as a dispensing optician expires on January 31 of each year. (NRS 637.121, 637.123, 637.140) Existing regulations set forth the fees for the annual renewal of a license as a dispensing optician, a limited license as a dispensing optician and a license as an apprentice dispensing optician. (NAC 637.220, 637.265) **Sections 7 and 10** of this regulation provide that the Board will waive the annual renewal fees for the first renewal of certain licenses which are initially issued or reactivated on or after November 1.

Existing regulations set forth the acts which the Board of Dispensing Opticians will interpret as “unethical or unprofessional conduct” for the purposes of refusing to issue a license to an applicant or taking disciplinary action against a licensee. (NAC 637.235) **Section 8** of this regulation revises this provision to include: (1) failure to cooperate with an investigation conducted by the Board; and (2) for a supervisor of record of an apprentice dispensing optician, allowing the apprentice to perform certain prohibited acts.

Existing regulations provide that the Board of Dispensing Opticians will not reinstate the delinquent license of an apprentice dispensing optician whose license expires and who does not apply for reinstatement before March 1 of each year. (NAC 637.263) **Section 9** of this regulation prohibits an apprentice dispensing optician whose license is not so reinstated from reapplying for licensure as an apprentice dispensing optician sooner than 1 year after the expiration date of his or her license.

Existing regulations require an apprentice dispensing optician, within 6 months after initial licensure, to submit evidence to the Board of Dispensing Opticians that he or she has enrolled in an educational program on the theory of ophthalmic dispensing approved by the Board. (NAC 637.285) **Section 11** of this regulation authorizes an apprentice dispensing optician to submit evidence to the Board of adequate prior ophthalmic experience in lieu of the completion of such an educational program. **Section 11** also provides that the Board will inactivate the license of the apprentice dispensing optician if the apprentice dispensing optician fails to comply with such education and experience requirements within the required time. Finally, **section 11** provides that: (1) the Board will notify an apprentice dispensing optician that the license has been inactivated; and (2) the apprentice dispensing optician may appeal the decision by requesting a hearing not later than 30 days after the license becomes inactive.
Existing regulations set forth the procedure for the review and investigation of complaints alleging violations of certain provisions of chapter 637 of NRS or chapter 637 of NAC. (NAC 637.337) **Section 12** of this regulation provides that the Executive Director of the Board of Dispensing Opticians: (1) shall review each complaint and may cause the complaint to be investigated; (2) may enlist the assistance of the Board in the conduct of an investigation; and (3) shall prepare a charging document if he or she determines that allegations of one or more violations of chapter 637 of NRS or chapter 637 of NAC have been substantiated. **Section 15** of this regulation repeals provisions providing that the Board files charging documents. **Section 15** also repeals provisions governing the procedure by which a person may petition to appear before the Board and be heard on a matter within the Board’s jurisdiction.

**Section 13** of this regulation revises provisions governing the filing of motions with the Board of Dispensing Opticians and hearings and determinations thereon to limit the types of motions which may be filed and establish the timing of such filings.

Existing regulations establish procedures for the drafting of a declaratory order or advisory opinion by a member of the Board of Dispensing Opticians with the assistance of the Attorney General, if necessary. (NAC 637.670) **Section 14** of this regulation provides that the member of the Board may be assisted by legal counsel other than the Attorney General.
