AUTHORITY: §§1-6, NRS 388G.590.

A REGULATION relating to education; requiring a large school district that reorganizes to establish a dispute resolution process to address issues relating to organizational team members; requiring local school precincts to enter into service level agreements when acquiring services from such a large school district; authorizing local school precincts to use money allocated as they deem appropriate; clarifying when money is considered allocated for the use of a local school precinct; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law requires certain large school districts to reorganize. (NRS 388G.500-388G.810) As part of the reorganization, each school within the large school district is designated a local school precinct. (NRS 388G.600) The principal of each local school precinct is required to establish an organizational team, consisting of the principal and various stakeholders who, among other things, provide assistance and advice to the principal regarding the plan of operation for the local school precinct. (NRS 388G.700, 388G.720, 388G.740) Existing law further authorizes the State Board of Education to adopt such regulations as it deems necessary and appropriate to carry out the provisions relating to the reorganization of large school districts. (NRS 388G.590) **Section 2** of this regulation requires the board of trustees of a large school district that is required to reorganize to establish a dispute resolution process to address issues relating to a member of an organizational team. **Section 2** also sets forth certain requirements for that process.

Existing law requires a large school district that reorganizes to transfer to the local school precinct certain responsibilities that had been carried out by the large school district. (NRS 388G.610) If the local school precinct then wishes to have the large school district carry out the responsibility, **section 3** of this regulation requires the principal of the local school precinct to enter into a service level agreement with the large school district and sets forth certain requirements for the agreement. **Section 4** of this regulation requires a large school district to determine the responsibilities that it will offer to provide for the local school precincts and to establish a draft service level agreement for that purpose. The draft agreements are required to be posted on or before January 15 of each year for the next school year. **Section 5** of this regulation allows the principal of a local school precinct to use a draft service level agreement to negotiate the specific terms of the agreement.

Existing law requires the superintendent of a large school district that reorganizes to establish certain estimates regarding the money to be allocated to the local school precinct for the next school year. (NRS 388G.660) **Section 6** of this regulation allows the principal of a local school precinct to determine the manner in which to use money that is allocated, including whether to use the money to carry out the responsibility that was transferred, or to use it in another way. In addition, **section 6** clarifies that money is only considered allocated by law if the money is included in the portion of the budget for the local school precinct over which the local school precinct has control and discretion with respect to the manner in which the money may be used.

Section 1. Chapter 388G of NAC is hereby amended by adding thereto the provisions set forth as sections 2 to 6, inclusive, of this regulation.
