Legislative Counsel's Digest:

Existing law requires certain regulatory bodies to adopt regulations providing for the issuance of a license by endorsement to engage in an occupation or profession in this State to a natural person who: (1) holds a corresponding valid and unrestricted license to engage in that occupation or profession in the District of Columbia or any state or territory of the United States; (2) possesses qualifications that are substantially similar to the qualifications required for issuance of a license to engage in that occupation or profession in this State; and (3) satisfies certain other requirements, including submitting to a background investigation by the Central Repository for Nevada Records of Criminal History or providing proof that he or she has passed a comparable background check. (NRS 622.530) **Section 1** of this regulation prescribes the requirements for licensure by endorsement as a barber.

Existing law authorizes the State Barbers' Health and Sanitation Board to adopt regulations relating to barbering, including licensure and sanitary requirements for barbershops and barber schools. (NRS 643.050) The Board may also adopt regulations governing barber schools. (NRS 643.176)

Sections 2 and 10 of this regulation make technical changes to the requirements for examination for licensure as an apprentice or a student.

Section 3 of this regulation increases the fee for examination for licensure as a barber or an apprentice from \$90 to \$100. **Section 4** of this regulation increases the fee for renewal of a license as a barber or an apprentice from \$50 to \$60. **Section 4** also increases the fee for the restoration of an expired license from \$100 to \$120.

Section 5 of this regulation revises the ratio of apprentices to licensed barbers that may work in a barbershop, from one apprentice per barber to not more than two apprentices per barber.

Sections 6 and 13 of this regulation decrease the number of waste receptacles that must be provided for each barber chair in a barbershop or workstand in a barber school, respectively, from two to one.

Sections 6 and 13 also require all single-use items to be disposed of immediately after a single use. **Sections 7 and 14** of this regulation revise the requirements for the cleaning, disinfecting and storage of implements used in a barbershop or barber school, respectively.

Sections 8 and 15 of this regulation require a barbershop or barber school, respectively, to use a clean, unused towel for each patron and to have a covered and vented receptacle available for the deposit of used towels. **Sections 9 and 16** of this regulation prohibit barbers and apprentices and students and instructors, respectively, from working on a person in an area that has open, reddened, ulcerated or swollen skin.

Section 11 of this regulation revises the tests that must be conducted during a physical examination that a student must undergo before a student's license will be issued by the Board to provide that the student must receive a one-step tuberculosis screening test or a chest X-ray at the physical examination.

Section 12 of this regulation removes the requirement that three members of the Board be present to administer an examination for an instructor's license as existing law prohibits the Board from administering an examination for an instructor's license. (NRS 643.1777) **Section 17** of this regulation revises the number of days in which the required hours of instruction for cosmetologists must be completed from within 60 days after enrollment in a barber school to 75 days after enrollment.

Section 18 of this regulation eliminates certain requirements for cuspidors, ashtrays, containers for hair and the posting of signs in a barber school regarding free services and materials.
