A REGULATION relating to motor vehicle crashes; setting forth the contents of crash reports required after certain motor vehicle crashes; setting forth requirements for certain agreements concerning payments for liability for certain motor vehicle crashes; setting forth requirements for certain security deposits made under certain circumstances regarding certain motor vehicle crashes; setting forth requirements for reinstating a suspended license or registration following certain motor vehicle crashes; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the driver of a vehicle involved in a crash to forward a report of the crash to the Department of Motor Vehicles in certain circumstances. (NRS 484E.070) **Section 1** of this regulation sets forth the requirements for such a crash report.

Under existing law, when a motor vehicle crash occurs which has resulted in bodily injury or death, or damage to the property of any one person in excess of \$750, the Department, upon a finding that there is a reasonable possibility that a judgment may be rendered against an owner or operator of a vehicle involved in the crash, is required to suspend the license and all registrations of such an owner or operator under certain circumstances concerning the ability of the owner or operator or an insurance policy of the owner or operator to satisfy any judgment for damages that may be rendered against the owner or operator. (NRS 485.190) Such an owner or operator may be exempt from such suspension if he or she had a policy of liability insurance that was valid on the date of the crash. (NRS 485.200) **Section 5** of this regulation requires that, if an owner or operator is seeking to be exempt from such a suspension based on a motor vehicle liability policy that became effective on the day of the crash, the owner or operator must submit to the Department a letter from the insurer stating the effective date and time of the policy. If the owner or operator did not have a valid motor vehicle liability policy that was effective at the time of the crash, that owner or operator may seek reinstatement of a suspended license or registration, or both, by depositing security in a sum determined by the Department, or by providing certain evidence satisfactory to the Department that the owner or operator has: (1) been released from liability; (2) been finally adjudicated not to be liable; or (3) executed an acknowledged written agreement providing for the payment of an agreed amount in installments

to the injured or damaged party or parties. **Section 5** also requires a person seeking to reinstate a suspended license or registration, or both, to submit certain information to the Department. **Section 3** of this regulation sets forth the requirements for such an acknowledged written agreement, and **section 4** of this regulation sets forth the requirements for such a deposit of security. **Section 4** also sets forth the duties of the Department concerning such a deposit, and sets forth the procedures for requesting a refund of the security or the remaining balance of the security in certain circumstances.
