Notice of Regulatory Hearing Adoption of Regulations and Other Matters Before the State Environmental Commission

The State Environmental Commission (SEC) will hold a meeting on Wednesday, December 4, 2019 at 9:00 am in Carson City. The meeting will be held in the Tahoe Conference Room (second floor) of the Richard H. Bryan Building, 901 South Stewart Street. The meeting will also be video-conferenced in Las Vegas at the Nevada Division of Environmental Protection office located at 2030 East Flamingo Road, Suite 230. The purpose of the meeting is to receive comments from all interested persons regarding the information listed on this notice and the meeting agenda. The following information is provided pursuant to the requirements of NRS 233B.0603.

R043-19: Bureau of Water Quality Planning - Selenium

The proposed amendments pertain to NAC Chapter 445A. NDEP is proposing to amend NAC 445A.1236 to align with the most current recommended numeric criterion published by EPA for selenium to protect the aquatic life beneficial use. The proposed revisions include changes to the toxics table in NAC 445A.1236 and addition of a footnote to the table, and addition of NAC 445A.1237, describing the complex criterion for selenium, which was published by the EPA in June 2016.

The proposed amendments may have an economic impact on dischargers because the selenium standard will become more restrictive; however, it is less stringent than national recommended values. States are required to review water quality standards at least once every three years and, if appropriate, revise or adopt new standards. If NDEP does not maintain appropriate water quality standards EPA may revoke NDEP's delegation of the Clean Water Act and enforce the program itself, which is not in Nevada's best interest. No economic impact will be realized by the public or by the enforcing agency. The proposed amendments do not overlap, duplicate or conflict with any other state or federal regulations and are not more stringent than what is established by federal law. The proposed amendments do not address fees.

Additional Information: Persons wishing to comment on the proposed actions of the SEC may appear at the scheduled public hearing or may address their comments, data, views, or arguments in written form to: State Environmental Commission, 901 South Stewart Street, Suite 4001, Carson City, Nevada 89701-5249. The SEC must receive written submissions at least five days before the scheduled public hearing.

If no person who is directly affected by the proposed action appears to request time to make an oral presentation, the SEC may proceed immediately to act upon any written submissions.
