During the Employment Security Council Meeting and Workshop, DETR staff members reviewed the proposed 2020 Tax Rate regulation. The final draft of the regulation was drafted by LCB on October 24, 2019; the Division posted the revised language to the DETR website and posted the revised language to the Nevada Legislature website. During the Small Business Workshop, DETR staff members reviewed the Amended Regulation to the 2020 Tax Rate, provided an explanation of the Regulation. The Small Business Impact Statement per NRS 233B.0608 pursuant to Subsection 3 was also reviewed by staff at the Small Business Workshop.

On October 3, 2019, the Division held the Employment Security Council Meeting and on October 23, 2019 held the Small Business Workshop. One written comment was received

and read into the record at the Small Business Workshop from Ann Silver, representing the Reno/Sparks Chamber of Commerce, expressing support of the proposed rate reduction.

On November 4, 2019, the Division issued a Hearing Agenda and a Notice of Intent to Act upon the 2020 Tax Rate Regulation. The Notice and Agenda was sent by a email, to all individuals and employers on the Employment Security Division mailing list. The Notice and Agenda was posted at the principal office of the Employment Security Division in Carson City, as well as numerous offices of the Employment Security Division throughout the state. In addition, the notice was submitted to the Legislative Counsel Bureau, the Nevada State Library, and all main county libraries in the state, including all locations in the workshop notification list above. These documents were also made available at the website of the Department of Employment,

Training and Rehabilitation (DETR):

Comments were solicited from affected businesses in the same manner as they were solicited from the public.

5. **If, after consideration of public comment, the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.**

No recommended changes submitted in written or public comment.

6. **The estimated economic effect of the adopted regulation on the business which it is to regulate and on the public. These must be stated separately, and each case must include:**

- a. **Both adverse and beneficial effects; and**

- b. **Both immediate and long-term effects.**

All Nevada employers subject to Unemployment Insurance (UI) contributions and eligible for experience rating will be affected by the proposed regulation, constituting approximately 52,363 employers, or 65.9% of all employers registered with the Employment Security Division. This regulation represents dropping the average UI contribution rate at 1.65% in 2020, as recommended by the Employment Security Council on October 3, 2019.

#### **Beneficial Impacts**

With the 1.65% average contribution rate, the total costs paid by Nevada employers will fall from 1.90% on average to 1.70% of wages subject to contributions. Even with a statutory increase in the wages subject to unemployment contributions, which rose from \$31,200 in 2019 to \$32,500 in 2020, the average cost per employee at the maximum taxable wage base will fall from \$592.80 to \$547.40 in 2020. This regulation will lead to a continued increase in reserves in the UI Trust Fund, which is projected to grow by \$376 million from September 30, 2019 to September 30, 2020, building reserves in the event of an economic downturn.

#### **Adverse Impacts**

With the overall rate decline employers will experience, there are no adverse impacts to this regulation, as the average contribution rate will fall to 1.65%. This will drop the average cost per employee by \$45.40 to \$592.80.

**Direct Impacts**

The direct impact of this regulation on any particular Nevada business depends on that business' prior experience with respect to unemployment. Because the rates that employers pay are fixed in statute, the average rate is adjusted each year in the regulatory process by adapting a range of reserve ratios which will apply to those rates. Each employer's reserve ratio changes each year as well, rising or falling, depending on the net balance of UI contributions and benefit charges from and to that account.

**Indirect Impacts**

This regulation complies with the federal compliance regulations governing Unemployment Insurance contribution rates. Therefore, employers maintain eligibility for a full 5.4% credit toward their federal unemployment insurance taxes. In addition, the additional solvency in the UI system will help to pay for unemployment benefits in the future. On average, evidence suggests that for each dollar in UI benefits, \$2 or more in economic activity results. In addition, employers benefit as funds are returned to the economy through UI benefit payments, helping to mitigate the drop in consumption that takes place in a recession. Finally, the UI system helps to maintain the attachment of workers to the local workforce and facilitate a faster return to work, both through job search and training services and through mandatory work search requirements.

**Immediate Effect:**

This Regulation will adopt the experience rating schedule that will be in effect for calendar year 2020. The Average Unemployment Contribution Rate of 1.65%, together with the Career Enhancement Program Assessment (CEP), will decrease the total rate from 1.90% in 2019 to 1.70% of wages subject to unemployment contributions in 2020.

**Long-Term Effect:**

This Regulation will continue to build reserves in the Nevada Unemployment Insurance Trust Fund, earning interest to the credit of that fund and helping to improve the State's ability to pay unemployment benefits in advance of a future recession.

**7. The estimated cost to the agency for enforcement of the adopted regulation.**

This regulation will be enforced as a regular part of ongoing UI operations, and does not represent any additional burden on staff time, as the regulation is used to modify contribution rates each year. Funding for the administration of the UI program is provided to the Department by the U.S. Department of Labor.

**Anticipated Revenue Increase and Use**

This regulation reduces the 2020 average UI contribution rate at 1.65%. By law, money collected from state unemployment insurance contributions can only be used to pay unemployment insurance benefits, so these funds will remain deposited in the Nevada Unemployment Insurance Trust Fund.

- 8. A description of any regulations of other state or government agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the regulation overlaps or duplicates a federal regulation, the name of the regulating federal agency.**

This regulation is only an annual modification to the Unemployment Insurance Contribution schedule. Therefore, this regulation does not duplicate or provide a more stringent standard than any other regulation of federal, state, or local governments.

- 9. If the regulation includes provisions that are more stringent than a federal regulation which regulates the same activity, a summary of such provisions.**

The proposed regulation is not required pursuant to federal law, nor is there a federal regulation that regulates the same activity.

- 10. If the regulation establishes a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.**

This Regulation does not impose any new or increased fees on employers, as it represents dropping the average UI contribution rate to 1.65% from 2019 to 2020. The overall average rate, which includes the CEP rate of 0.05%, will decrease from 1.90% to 1.70%.
