AUTHORITY: §§1-4, Section 2 of Assembly Bill No. 483, chapter 498, Statutes of Nevada 2019, at page 3000 (NRS 482.2175).

A REGULATION relating to motor vehicles; establishing requirements for the pilot program of the Department of Motor Vehicles to gather data on annual vehicle miles travelled; exempting certain vehicles from the requirements of the pilot program; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Existing law requires the Department of Motor Vehicles to conduct a pilot program to gather data on annual vehicle miles traveled and other relevant information for certain motor vehicles registered in this State and to prepare a report using the collected data. Existing law also requires the Department to adopt regulations establishing procedures for implementing the pilot program, including the procedures required for a person to provide to the Department the mileage shown on the odometer of each applicable vehicle and other information as the Department may require. (Section 2 of Assembly Bill No. 483, chapter 498, Statutes of Nevada 2019, at page 3000 (NRS 482.2175))

**Section 2** of this regulation establishes definitions for certain categories of motor vehicles for which the annual vehicle miles must be addressed in the report prepared by the Department.

Existing law requires the owners of certain motor vehicles in this State to report the mileage shown on the odometer of the motor vehicle and certain other information required by the Department at the time of initial registration, renewal of registration and transfer of registration. (Section 3 of Assembly Bill No. 483, chapter 498, Statutes of Nevada 2019, at page 3001 (NRS 482.2177)) **Section 3** of this regulation establishes requirements for the reporting of the mileage shown on the odometer of certain motor vehicles at the time of initial registration, renewal or registration or transfer of registration.

Existing law requires the Department to mail to each holder of a certificate of registration a notification for renewal of registration for the following period of registration. (NRS 482.280) **Section 3** provides that the Department will include in the notification a statement describing the procedures for a person to provide the mileage shown on the odometer of the vehicle depending

on whether the renewal of registration must be submitted with evidence of compliance with standards for the control of emissions.

Existing law authorizes the Department to exempt certain vehicles from the pilot program as appropriate to avoid undue hardship for the registered owner of a motor vehicle. (Section 2 of Assembly Bill No. 483, chapter 498, Statutes of Nevada 2019, at page 3000 (NRS 482.2175)) **Section 4** of this regulation exempts certain categories of vehicles from the pilot program.
