AUTHORITY: §§1, 2, 5 and 6, NRS 481.051; §§3 and 7-13, NRS 481.051 and 483.875; §§4 and 14-23 and 25, NRS 481.051, 483.220, 483.383 and 483.908; §24, NRS 483.908.

A REGULATION relating to motor vehicles; authorizing the online renewal of identification cards and driver's licenses; revising provisions governing the renewal of identification cards and driver's licenses by mail; authorizing a commercial driver's license to be renewed using an alternate service transaction; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes the Department of Motor Vehicles to adopt regulations: (1) governing the activities of the Department in renewing driver's licenses; (2) relating to the renewal of identification cards; and (3) providing for the renewal of commercial driver's licenses. (NRS 481.051, 483.220, 483.875, 483.908) This regulation revises provisions governing the renewal of identification cards, driver's licenses and commercial driver's licenses through the use of an alternative service transaction, which **section 2** of this regulation defines as a transaction that is not conducted in person at an office of the Department, including, without limitation, a transaction that is conducted online or by mail. **Section 5** of this regulation makes a conforming change to ensure the codification of **section 2** in the appropriate part of the Nevada Administrative Code.

Existing regulations establish the procedure for a holder of an identification card issued by the Department of Motor Vehicles to apply for the renewal of the identification card by mail. (NAC 483.081-483.087) **Section 3** of this regulation establishes requirements to apply for the renewal of an identification card online. **Section 9** of this regulation revises the requirements to apply for the renewal of an identification card by mail. **Section 10** of this regulation revises provisions governing the persons who are eligible to apply for the renewal of an identification card using an alternate service transaction. **Section 12** of this regulation increases the number of days which must pass before the Department will replace a renewed identification card that was lost in the mail. **Sections 7, 8, 11 and 13** make conforming changes to reflect that an identification card may be renewed using an alternate service transaction.

Existing regulations establish the procedure for a holder of a driver's license to apply for the renewal of the driver's license by mail. (NAC 483.423-483.4595) **Section 4** of this regulation establishes requirements for renewing a driver's license online. **Section 17** of this regulation revises the requirements for the renewal of a driver's license by mail. **Section 16** of this

regulation revises provisions governing the persons who are eligible to apply for the renewal of a driver's license using an alternate service transaction. **Section 23** of this regulation revises provisions governing when an application for renewal of a driver's license by mail will not be processed due to insufficient information. **Sections 14, 15 and 18** of this regulation make conforming changes to reflect that a driver's license may be renewed by mail.

Section 19 of this regulation removes provisions relating to the express delivery of a renewed driver's license.

Section 20 of this regulation requires an applicant who has not received his or her renewed driver's license due to listing an incorrect address on the application to apply for a change of address.

Existing regulations provide that the Department will collect a late fee for the renewal by mail of a driver's license that has been expired for 30 days or more unless the applicant is on active military duty or certain other exceptions apply. (NAC 483.4585) **Section 22** of this regulation provides that the late fee does not apply to an applicant who is employed by the Federal Government or to an applicant who is a dependent of a person who is on active military duty or is employed by the Federal Government.

Sections 16 and 24 of this regulation remove provisions of existing regulations requiring a commercial driver's license to be renewed in person at an office of the Department and, thus, authorize the renewal of a commercial driver's license using an alternate service transaction in the same manner as other driver's licenses. **Section 21** of this regulation establishes the period of validity of a commercial driver's license that is renewed using an alternate service transaction.

Section 25 of this regulation repeals certain provisions relating to the renewal of an identification card or driver's license by mail. **Section 6** of this regulation makes a conforming change to update a reference to a section of the Nevada Administrative Code.
