

Legislative Review of Adopted Regulations

LCB File No. R169-20

The following statement is submitted for adopted amendments to Nevada Administrative Code (NAC) Chapter 533.

1. A clear and concise explanation of the need for the adopted regulation.

The Division amended NAC Chapter 533 to add language in accordance with Assembly Bill 62 of the 2019 Nevada Legislature which directed the State Engineer to adopt regulations necessary to carry out the provisions of NRS 533.380. The regulations provide clear regulatory language for the contents of an application for extension of time to file proof of construction and/or proof of beneficial use as well as how the State Engineer will consider those applications filed pursuant to NRS 533.380.

2. A description of how public comment was solicited, a summary of public response, and an explanation how other interested persons may obtain a copy of the summary.

The Division solicited public comment on the regulation through a series of informal public workshops and public workshops. Copies of the proposed regulations, notices of the informal public workshops and notices of public workshops were sent via email through the Division's listservs. The initial communications were transmitted via the Division's waterinfo@water.nv.gov listserv. Subsequently, the Division established an administrative rulemaking listserve ndwradminregs@listserv.state.nv.us, which was utilized for communicating all subsequent notices. In addition, all notices and workshop materials were made available on the Division's website <http://water.nv.gov/news.aspx?news=AB%2062%20Regulations>, and delivered for posting at the following locations:

CARSON CITY

Bryan Building
901 S. Stewart Street
Carson City, NV

ELKO

Nevada Division of Water Resources
Elko Office
1250 Lamoille Hwy, Suite 1047
Elko, NV

LAS VEGAS

Nevada Division of Water Resources
Southern Business Office
400 Shadow Lane, Suite 201
Las Vegas, NV

Grant Sawyer Building,
555 E. Washington Avenue
Las Vegas, NV

Additionally, the Division posted all workshop notices at the following internet sites:

INTERNET WEBSITES

Nevada Public Notice website:

<http://notice.nv.gov>

Legislative Council Bureau

<http://leg.state.nv.us>

Nevada Division of Water Resources

<http://water.nv.gov>

Copies of all written public comment is available at <http://water.nv.gov/news.aspx?news=AB%2062%20Regulations>. Audio recordings of the informal public workshops and video recordings of the public workshops and public hearing are maintained on file with the Nevada Division of Water Resources' office at 901 S. Stewart Street, Ste. 2002 in Carson City, Nevada.

The Division conducted a Public Hearing adopting the regulation on November 10, 2021. Notice of Intent to Act Upon A Regulation was disseminated in the same manner as notices for the informal public workshops and public workshops identified above.

3. The number of persons who:

The Division did not maintain a record of public attendance at the informal public workshops.

a. Attended each hearing:

June 24, 2020, Public Workshop – 141 attendees (via video and telephone)
January 13, 2021, Public Workshop – 82 attendees (via video and telephone)
June 18, 2021, Public Workshop – 1 in-person attendee; 55 attendees (via video and telephone)
July 27, 2021, Public Workshop – 45 attendees (via video and telephone)
November 10, 2021, Public Hearing – 4 in-person attendees; 57 attendees (via video and telephone)

b. Testified at each hearing:

June 24, 2020, Public Workshop – 52
January 13, 2021, Public Workshop – 13
June 18, 2021, Public Workshop – 14
July 27, 2021, Public Workshop – 10

November 10, 2021, Public Hearing – 11

c. Submitted to the agency written comments:

June 24, 2020, Public Workshop – 34 written public comments

January 13, 2021, Public Workshop – 10 written public comments

June 18, 2021, Public Workshop – 7 written public comments

July 27, 2021, Public Workshop – 4 written public comments

November 10, 2021, Public Hearing – 5 written public comments

- 4. A list of names and contact information, including telephone number, business address, business telephone number, electronic mail address, and name of entity or organization represented for each person identified above in #3 as provided to the agency, is attached as Exhibit A.**

Exhibit A contains copies of the participant information for the June 24, 2020, January 13, 2021, June 18, 2021, and July 27, 2021, Public Workshops as well as November 10, 2021, Public Hearing.

- 5. A description of how comment was solicited from affected businesses, a summary of their response, and an explanation how other interested persons may obtain a copy of the summary.**

The Division solicited comment from affected business via the Division's waterinfo@water.nv.gov listserv, which as of December 9, 2021, has 724 subscribers. The Division established an online survey in which affected businesses and the public could provide responses. The survey elicited 51 responses, of which 34 respondents identified themselves as a small business as defined by NRS 233B.0382. A copy of the responses is available on the Division's website at http://water.nv.gov/AB%2062%20Regulations/Small_Business_Survey/NAC%20Chapter%20533%20Administrative%20Rulemaking%20Small%20Business%20Impact%20Survey%20Responses.pdf.

- 6. If the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.**

The regulation adopted by the State Engineer on November 10, 2021, included changes responsive to public comment received between June 2020 and November 10, 2021.

- 7. The estimated economic effect of the adopted regulation on the businesses which it is to regulate and the public. These must be stated separately, and each case must include:**

a. Both adverse and beneficial effects.

Adverse effects of the regulation may result in some water right holders having to initially take more time to perform due diligence to understand the history of use (or non-use) of their water right and make effort to learn the history of their water right, if not already known. It is anticipated that some water right holders will have to dedicate more time than has previously been dedicated to supply the Division and State Engineer the information required to be included in applications for an extension of time to complete works or apply water to a beneficial use pursuant to NRS 533.380. This dedication of additional time is only anticipated for the first year in which an applicant files for an extension. Should subsequent extensions be necessary, it is expected that applicants will be able to update the information from the prior application to provide the requisite information.

Beneficial effects of the regulation are many. One such benefit is that water right holders who may not understand the history of a later acquired right that has previously been subject to multiple extensions of time will gain an understanding of their water right and requisite steps to perfect their water right and to comply with Nevada law while doing so. An additional beneficial effect of the regulation is that the Division and State Engineer will have much more detailed and comprehensive information from an applicant necessary to give full consideration as to whether the applicant is proceeding in accordance with the standards established under NRS 533.380 to perfect the water right. By establishing more explicit standards for the contents of an application, the Division will not be required to solicit additional information from applicants, which will ultimately result in greater efficiency in reviewing and deciding applications for extensions of time. Further beneficial effects include establishing more explicit standards for the content of such applications to allow the State Engineer to make more defensible decisions on whether to grant an application for extension of time. These decisions are increasingly subject to greater legal challenges, and by establishing more explicit standards for the content of applications, the State Engineer will be afforded greater information within his record to make findings as to whether the applicant is complying with the requirements established within NRS 533.380. Further, the Division and State Engineer believe that the regulations will improve awareness of water right holders to the statutory standards to justify an extension of time and necessity to perfect the right as expeditiously as possible, as required by law.

b. Both immediate and long-term effects.

See response to Item No. 5(a).

8. The estimated cost to the agency for enforcement of the adopted regulation.

There is no additional cost to the agency for enforcement of this regulation.

9. A description of any regulations of other state or government agencies which the proposed regulation overlaps or duplicates and a statement explaining why the duplication or overlapping is necessary. If the regulation overlaps or duplicates a federal regulation, the name of the regulating federal agency.

There are no other state or governmental agency regulations that the proposed regulation duplicates.

10. If the regulation includes provisions that are more stringent than a federal regulation which regulates the same activity, a summary of such provisions.

There are no federal regulations that apply.

11. If the regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.

This regulation does not provide for a new fee or an increase to an existing fee.

EXHIBIT A

NDWR Regulation Workshop
June 24, 2020
Total Participants: 141
Start Time: 8:46 AM
End Time: 11:08 AM
Duration: 2 hrs 23 min
