Legislative Counsel’s Digest:

Existing law provides for the licensure and regulation of physicians, physician assistants, perfusionists and practitioners of respiratory care by the Board of Medical Examiners. (Chapter 630 of NRS) Existing regulations require an original signature on certain documents submitted to the Board by licensees or applicants for any license to practice medicine. (NAC 630.045)

Section 7 of this regulation authorizes a licensee or applicant to submit a document that bears his or her authenticated electronic signature to the Board. **Sections 8, 11, 19 and 22** of this regulation remove a requirement that an applicant for any license to practice medicine who is not a citizen of the United States must include with his or her application satisfactory evidence that he or she is lawfully entitled to remain and work in the United States. **Section 23** of this regulation eliminates a requirement relating to the termination of a license issued to a person who is not a citizen of the United States.

Sections 12, 20 and 22 of this regulation replace a requirement that an application for licensure as a physician assistant, practitioner of respiratory care or perfusionist, respectively, be sworn to before a notary public or other officer authorized to administer oaths with a requirement that such an application must be accompanied by a signed affidavit. **Section 20** requires an application for licensure as a practitioner of respiratory care to include the mailing address at which the applicant prefers to receive correspondence from the Board.

Existing law requires a licensee to provide certain notice to patients concerning the health care records of patients. (NRS 630.139) **Sections 2 and 3** of this regulation prescribe the required contents of this notice.

Existing law prescribes a procedure for the reinstatement of a license that has been revoked by a regulatory body. (NRS 622A.410) **Section 4** of this regulation additionally requires a person whose license has been revoked by the Board and who wishes to reinstate his or her license to apply for a license as though the person had never been licensed by the Board.

Existing law authorizes the Board to hold hearings pertaining to its duties. (NRS 630.140) Existing law also authorizes the Board to employ hearing officers necessary to the discharge of its duties. (NRS 630.106) **Section 5** of this regulation prescribes the qualifications a person must meet to be employed by the Board as a hearing officer.

Existing regulations prescribe procedures concerning prehearing conferences in proceedings relating to physicians and physician assistants. (NAC 630.465) **Section 17** of this regulation makes those requirements additionally applicable to prehearing conferences in proceedings relating to practitioners of respiratory care and perfusionists. **Section 17** also requires each party to provide to every other party any evidence that the party proposes to introduce at a hearing. **Sections 16 and 21** of this regulation increase, from 20 days to 21 days, the number of days before a disciplinary hearing certain notice is required to be served on a physician assistant and the supervising physician or practitioner of respiratory care, respectively. **Sections 18 and 23** of this regulation eliminate certain requirements relating to disciplinary hearings. **Section 18** also provides that a brief may be filed only upon the order of the Board.

Existing regulations define the term “malpractice” to mean the failure of a physician, in treating a patient, to use the reasonable care, skill or knowledge ordinarily used under similar circumstances. (NAC 630.040) **Section 6** of this regulation expands the definition of the term “malpractice” to include the failure of a physician assistant, practitioner of respiratory care or perfusionist, in treating a patient, to use the reasonable care, skill or knowledge ordinarily used under similar circumstances.

Existing regulations require a physician to seek consultation with another provider of health care in certain doubtful or difficult cases. (NAC 630.210) **Section 9** of this regulation additionally requires a physician assistant to seek consultation with another provider of health care under the same circumstances.

Existing regulations require the Board to keep confidential certain records relating to a program established by the Board to enable a licensee to correct an impairment which could result in the revocation of his or her license. (NAC 630.275) **Section 10** of this regulation requires the Board to also keep confidential a consent or settlement agreement between the Board and a licensee that provides for the licensee to enter a diversionary program for the treatment of an alcohol or other substance use disorder.

Existing law authorizes a physician assistant to perform such medical services as he or she is authorized to perform by his or her supervising physician. (NRS 630.271) Existing regulations require a supervising physician, at least once a month, to spend part of the day at any location

where the physician assistant provides medical services. (NAC 630.370) **Section 15** of this regulation provides that this requirement is satisfied if the supervising physician spends part of a day at any location where the physician assistant uses telehealth to provide medical services. Existing regulations also require a supervising physician to develop and carry out a program to ensure the quality of care provided by a physician assistant. (NAC 630.370) **Section 15** revises the requirements of such a program.

Existing regulations require a physician assistant and supervising physician to immediately notify the Board of the termination of the supervision of the physician assistant by the supervising physician. (NAC 630.340) **Section 13** of this regulation requires such notice to be provided within 72 hours of the termination. **Section 14** of this regulation makes a conforming change.
