STATE BOARD OF PHARMACY**

LCB File No. R050-22

May 20, 2022

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §§ 1 and 2, NRS 453.221, 453.226 and 639.070; § 3, NRS 453.146 and 639.070.

A REGULATION relating to controlled substances; authorizing certain law enforcement officers to register with the State Board of Pharmacy to possess controlled substances; adding methoxetamine to the controlled substances listed in schedule I; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

The federal Controlled Substances Act requires every person who manufactures or distributes any controlled substance to obtain an annual registration issued by the Attorney General of the United States. (21 U.S.C. § 822) However, the requirement for such registration is waived for any officer or employee of any State, or any political subdivision or agency thereof, who is engaged in the enforcement of any State or local law relating to controlled substances and who is duly authorized to possess controlled substances in the course of his or her official duties. (21 C.F.R § 1301.24) Similarly, existing state law requires certain persons to obtain a registration from the State Board of Pharmacy in order to possess, dispense or conduct research with any controlled substance in this State. (NRS 453.226) Existing regulations: (1) exempt from the requirements of registration any person who is exempted from federal registration by federal laws or regulations; and (2) waive the requirement of registration for an officer or employee of this State or any of its political subdivisions or agencies who is engaged in the enforcement of any state or local law relating to controlled substances and is authorized to possess controlled substances in the course of his or her official duties. (NAC 453.100, 453.150)

Section 1 of this regulation authorizes a law enforcement officer who is employed by the State or any of its political subdivisions or agencies to register with the Board for the purpose of possessing controlled substances in the course of training canines to detect a controlled substance. **Section 1** further provides that a law enforcement officer is not required to register before possessing such controlled substances or engaging in certain other conduct which the law enforcement officer is otherwise authorized to perform without a registration.

Existing regulations: (1) provide that certain groups of activities related to controlled substances are deemed to be independent of each other; and (2) require, with certain exceptions, a person who engages in more than one group of independent activities to obtain a separate registration for each group of activities. (NAC 453.110) **Section 2** of this regulation provides that if a law enforcement officer is registered pursuant to **section 1**, possessing a controlled substance

in the course of training a canine to detect a controlled substance is also an activity that is deemed to be independent. Thus, such a law enforcement officer who is registered to possess controlled substances in the course of training a canine is not authorized to engage in certain other activities involving controlled substances.

Existing law authorizes the Board to add, delete or reschedule substances listed as controlled substances in schedules I, II, III, IV and V of the Uniform Controlled Substances Act by regulation. (NRS 453.146) Existing regulations set forth the drugs and substances that are enumerated in schedule I. (NAC 453.510) **Section 3** of this regulation adds methoxetamine to the list of controlled substances set forth in schedule I.

Section 1. Chapter 453 of NAC is hereby amended by adding thereto a new section to read as follows:

1. Notwithstanding the exemption from registration set forth in NAC 453.100 and the waiver of the requirement of registration set forth in NAC 453.150, a law enforcement officer who is employed by the State or any of its political subdivisions or agencies may register pursuant to this chapter for the purpose of possessing controlled substances in the course of training a canine to detect a controlled substance.

2. Nothing in this section shall be construed to require a law enforcement officer to register before:

(a) Possessing a controlled substance in order to train a canine to detect the controlled substance; or

(b) Engaging in any other conduct for which the law enforcement officer is otherwise authorized to perform without a registration.

Sec. 2. NAC 453.110 is hereby amended to read as follows:

453.110 1. For the purpose of registration under this chapter, the following groups of activities are deemed to be independent of each other:

(a) Manufacturing any controlled substance;

(b) Distributing any controlled substance;

(c) Dispensing, prescribing, conducting research, except for the research described in paragraph (d), and conducting instructional activities with any controlled substance listed in schedules II through V, inclusive;

(d) Conducting research with any narcotic drug listed in schedules II to V, inclusive, for the purpose of continuing the dependence of a person on the drug in the course of conducting an authorized clinical investigation in the development of a program for rehabilitation of narcotic addicts pursuant to a Notice of Claimed Investigational Exemption for a New Drug approved by the Food and Drug Administration;

(e) Conducting research and instructional activities with any controlled substances listed in schedule I; ~~and~~

(f) Conducting chemical analysis with a controlled substance listed in any schedule ~~I~~; *and*

(g) Possessing a controlled substance in the course of training canines to detect a controlled substance, if a law enforcement officer is registered pursuant to section 1 of this regulation.

2. A person who engages in more than one group of independent activities must obtain a separate registration for each group of activities except as provided in NAC 453.120.

3. Except as provided in subsection 4, a single registration to engage in any group of independent activities may include one or more of the controlled substances listed in the schedules which are authorized for that group.

4. A person registered to conduct research with the controlled substances listed in schedule I may conduct research with any substance listed in schedule I for which he or she has filed and had approved a research protocol.
