NEW PROVISIONS (INTERPRETATIONS/DEFINITIONS):

“Design” interpreted. As used in this chapter and NRS 637.022, the Board will interpret the term “design” to mean the making of recommendations to customers regarding the proper lens materials or other favorable design features of ophthalmic products based upon a prescription, and the preparation of paper or electronic work orders for the fabrication of such products.

“Verification” interpreted. As used in this chapter and NRS 637.022, the Board will interpret the term “verification” to mean a physical final inspection of the finished product by a licensed optician before it is delivered to the customer directly or by any other means.

“Delivery” interpreted. As used in this chapter and NRS 637.022, the Board will interpret the term “delivery” to mean written authorization to deliver an ophthalmic product to a customer, given by the dispensing optician who verified the quality of the product; it does not mean the physical delivery of the final product to the customer, whether delivered in person or by mail or another delivery method.

“Preparation and delivery of work orders” interpreted. As used in this chapter and NRS 637.022, the Board will interpret the term “preparation and delivery of work orders” to mean the creation and transmission of laboratory orders for the fabrication of prescription ophthalmic products by means of entering prescription information or other fabricating instructions into a paper or electronic form or ordering system.

LICENSING

Rationale: remove redundant language (dispensing optician defined above); clarity

~~NAC 637.130 Definitions. ([NRS 637.070](#)) As used in [NAC 637.130](#) to [637.230](#), inclusive, unless the context otherwise requires:~~

~~“Dispensing optician” means a person who holds a license as a dispensing optician pursuant to [NRS 637.120](#); and “Dispensing optician with a limited license” means a person who holds a limited license as a dispensing optician pursuant to [NRS 637.121](#).~~

~~— (Added to NAC by Bd. of Dispensing Opt. by R108-04, eff. 12-1-2004)~~

Rationale; clarify licensing/experience requirements; remove extraneous contact lens training requirement for applicants licensed to dispense contacts in other jurisdictions.

NAC 637.132 Special license: Interpretation of statutory requirements. ([NRS 637.070](#)) With respect to an applicant for a special license as a dispensing optician pursuant to [NRS 637.127](#), the Board will interpret:

1. *The requirement of holding an active license as a dispensing optician issued by the District of Columbia or any state or territory of the United States to mean a license issued by a state or territory with licensing requirements that meet or exceed those of Nevada.*
2. ~~1.~~ The requirement of passing an examination administered by the Board set forth in paragraph (i) of subsection 1 of [NRS 637.127](#) to mean that the applicant must pass the Board’s examination for a license as a dispensing optician set forth in [NAC 637.160](#).
3. ~~2.~~ The requirement of 5 years of experience as a dispensing optician set forth in subparagraph (2) of paragraph (j) of subsection 1 of [NRS 637.127](#) to ~~include as a portion thereof the requirement of 100 hours of experience relating to the fitting and filling of prescriptions for contact lenses set forth in subsection 1 of [NAC 637.148](#).~~ *mean five or more consecutive years of experience concluding not more than 2 years prior to the date of application to the Board for a Special License.*

(Added to NAC by Bd. of Dispensing Opt. by R201-07, eff. 4-17-2008)

Rationale: remove wordy/redundant language; streamline provisions exempting lab personnel from licensing requirements

NAC 637.140 License required to provide ophthalmic products directly to public; authorized scope of practice of laboratory personnel. ([NRS 637.070](#), [637.090](#))

1. Except as otherwise provided by specific statute, a person who ~~does not hold a license as a dispensing optician, a limited license as a dispensing optician or a license as an apprentice dispensing optician~~ *is not licensed pursuant to NRS Chapter 637* shall not ~~provide~~ *dispense* any ophthalmic products directly to the public.
- ~~2. Laboratory personnel, including, without limitation, laboratory technicians, shall be deemed not to be engaged in the practice of ophthalmic dispensing and are not required to be licensed pursuant to [NRS 637.090](#) if the laboratory personnel:~~
 - ~~(a) Except as otherwise provided in subsection 3, do not perform any of the acts described in subsection 1 or 2 of [NRS 637.022](#); and~~
 - ~~(b) Provide ophthalmic products only and directly to licensed dispensing opticians, licensed ophthalmologists and licensed optometrists:~~
3. *Laboratory personnel, including, without limitation, laboratory technicians, may, without obtaining a license pursuant to this chapter and [chapter 637](#) of NRS, a laboratory technician may perform any act to the fullest extent for which a license is not required pursuant to this chapter and [chapter 637](#) of NRS, including, without limitation, grinding lenses or fabricating eyewear, as described in paragraph (b) of subsection 2 of [NRS 637.022](#), provided the laboratory personnel provide ophthalmic products only and directly to licensed dispensing opticians, licensed ophthalmologists and licensed optometrists.*
4. As used in this section, “ophthalmic products” includes, without limitation:
 - (a) Ophthalmic lenses for sunglasses, dive masks, sports goggles and occupational goggles;
 - (b) Ophthalmic prescription lenses;
 - (c) Ophthalmic devices that have dioptric power and are attached to eyeglasses; and
 - (d) All prescription and nonprescription contact lenses, including, without limitation, prepackaged contact lenses, individual contact lenses, cosmetic contact lenses and theatrical contact lenses.

(Added to NAC by Bd. of Dispensing Opt. by R042-02, eff. 8-29-2002; A by R108-04, 12-1-2004; R073-12, 6-3-2013)

Rationale: create distinction between “business engaged in ophthalmic dispensing” and individual optical departments (physical locations) for clarity regarding management and reporting requirements; create clear roles for ophthalmic managers; require signage when a licensed optician is not on duty.

637.144 Requirements for managing ophthalmic dispensing.

- ~~1. 2.~~ Each ~~ophthalmic dispensing area~~ *optical department* of a business engaged in ophthalmic dispensing must have an ophthalmic manager ~~as described in subsection 1~~ *who is a dispensing optician. The ophthalmic manager:*

~~1. An ophthalmic manager:~~

- ~~(a) Must be a dispensing optician or a dispensing optician with a limited license;~~
- ~~(b) Is responsible for supervising the all aspects of ophthalmic dispensing and the day to day operations consulting on optical fashions of the department, including but not limited to:~~
 - ~~(i) opening and closing the department to the public~~

 - ~~(iii) ensuring all dispensing duties are performed by licensed personnel and that the department adheres to all laws and regulations of the Board pertaining to employment and supervision of licensed personnel,~~

 - ~~(v) displaying the current license certificate for each licensed employee in a public and conspicuous area of the department, and~~

(vi) ensuring each licensed apprentice employed in the department has a Board-approved supervision form on file with the Board and access to a copy of their form within the department.

If the business manager is not the ophthalmic manager, the business manager may not make decisions concerning ophthalmic dispensing but may make other business decisions.~~

~~4.2. An apprentice dispensing optician shall not:~~

~~(a) Act as an ophthalmic manager or a business manager; or~~

If no dispensing optician is on duty in an optical department, a sign, as prescribed by the Board, must be posted for public view at the department's main entrance or cashiering station indicating the absence of a licensed optician, and that the business may not engage in ophthalmic dispensing until a licensed optician is on duty.~~

Rationale: remove inflexible and unnecessary provision related to contact lens training; requirement now combined with other licensing requirements in Section 637.150.

~~NAC 637.148—Completion and proof of required hours of training and experience. (NRS 637.070, 637.100)~~

~~1.—Except as otherwise provided in subsection 3, an applicant for a license as a dispensing optician must furnish proof on a form provided by the Board and signed by the supervisor of the applicant that he or she has completed the following hours of training and experience relating to the fitting and filling of prescriptions for contact lenses required pursuant to subparagraph (2) of paragraph (g) of subsection 1 of NRS 637.100:~~

~~4.—As used in subsection 1, “supervisor” means an ophthalmologist, an optometrist or a dispensing optician.~~

~~—(Added to NAC by Bd. of Dispensing Opt. by R108-04, eff. 12-1-2004; A by R073-12, 6-3-2013)~~
