Legislative Counsel’s Digest:

Existing law requires the Commission on Professional Standards in Education to adopt regulations that: (1) authorize a person who is employed as a paraprofessional and enrolled in a program to become a teacher to complete an accelerated program of student teaching in the area in which the person is employed as a paraprofessional while remaining employed; (2) require the Department of Education to accept a program of student teaching or other teaching experience completed in another state or foreign country by an applicant if the Department determines that the experience substantially fulfills the requirements of a program of student teaching in this State; and (3) authorize a person who is employed by a public school to provide support or other services relating to school psychology to complete a program of internship in school psychology while remaining employed. (NRS 391.019)

Section 1 of this regulation authorizes a person who is employed as a paraprofessional and enrolled in a program to become a teacher to simultaneously complete an accelerated program of student teaching to qualify for an initial license to teach pupils in a program of early childhood education, an initial elementary license or an initial license to teach middle school or junior high school education, while remaining employed, if the person: (1) is enrolled in a program to become a teacher which the Department has determined satisfies certain requirements of existing law; (2) performs instruction as a student teacher in the same or substantially similar area in which the person is employed; (3) completes the accelerated program of student teaching as determined by the institution providing the program to become a teacher; (4) completes the accelerated program of student teaching at the same school where the person is currently employed; and (5) continues to receive ongoing feedback and support from the teacher in the classroom in which the person is currently employed and from the cooperating teacher in the classroom in which the person is completing the accelerated program of student teaching.

Section 2 of this regulation makes a conforming change to carry out the provisions of **section 1**.

Section 1 also requires the Department to accept a program of student teaching or other teaching experience completed outside of this State to satisfy certain licensing requirements in this State if the Department determines the program or experience substantially fulfills the requirements of a program of student teaching in this State.

Finally, **section 1** authorizes a person who is currently employed by a public school to provide support or other services relating to school psychology and is enrolled in a program to obtain a license or endorsement in the area of school psychology to simultaneously complete a program of internship in such a position while remaining employed.

Section 1. Chapter 391 of NAC is hereby amended by adding thereto a new section to read as follows:
