

**ADOPTED REGULATION OF THE
BOARD OF MEDICAL EXAMINERS**

LCB File No. R177-22

EXPLANATION – Matter in *italics* is new; matter in brackets ~~[omitted material]~~ is material to be omitted.

AUTHORITY: §§ 1, 2 and 5, NRS 630.130 and 630.275; § 3, NRS 630.130 and 630.311; § 4, NRS 630.130, 630.160 and 630.180; § 6, NRS 622.530, 630.130 and 630.279; § 7, NRS 622.530, 630.130 and 630.269.

A REGULATION relating to health care; establishing requirements for a physician or physician assistant to supervise an advanced esthetician who is performing a nonablative esthetic medical procedure; establishing requirements governing the procedure of an investigative committee designated by the Board of Medical Examiners; revising requirements governing licensure as a physician or physician assistant; establishing discounted fees for certain persons to whom an initial license as a practitioner of respiratory care or perfusionist is issued; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law defines “nonablative esthetic medical procedure” to mean a procedure performed for esthetic purposes using certain medical devices which is not expected to excise, vaporize, disintegrate or remove living tissue. (NRS 644A.127) Existing law authorizes an advanced esthetician to perform a nonablative esthetic medical procedure under the supervision of a physician, physician assistant or advanced practice registered nurse. (NRS 644A.545)

Section 2 of this regulation authorizes a physician or a physician assistant acting under the supervision of a physician to supervise an advanced esthetician in the performance of a nonablative esthetic medical procedure that is within the scope of practice of the physician or physician assistant, as applicable.

Existing law requires the Board of Medical Examiners to designate a committee to review each complaint against a licensee of the Board, with certain exceptions, and conduct an investigation to determine if there is a reasonable basis for the complaint. The committee must be composed of at least three members of the Board, at least one of whom is not a physician. (NRS 630.311) **Section 3** of this regulation provides that two members of such a committee constitutes a quorum.

Existing law requires an applicant for a license to practice medicine to pass a written or oral examination, or both, as to his or her qualifications to practice medicine. (NRS 630.160)

Existing regulations require such an applicant to: (1) pass a written examination concerning the statutes and regulations relating to the practice of medicine in this State; and (2) with certain exceptions, pass an examination designated by the Board to test the competency of the applicant to practice medicine. (NAC 630.080) **Section 4** of this regulation removes the requirement that such an applicant pass a written examination concerning the statutes and regulations relating to the practice of medicine in this State. **Section 4** also corrects certain statutory references.

Existing regulations require an applicant for licensure as a physician assistant who has not practiced as a physician assistant for 24 months or more to take and pass the same examination to test medical competency as that given to applicants for initial licensure. (NAC 630.280) **Section 5** of this regulation authorizes certain applicants who are ineligible to take the same examination given to applicants for initial licensure to take an alternate exam designated by the Board to test medical competency.

Existing law provides that an applicant for licensure by endorsement as a physician or physician assistant who is an active member of, or the spouse of an active member of, the Armed Forces of the United States, a veteran or the surviving spouse of a veteran may not be required to pay more than one-half the standard fee for the initial issuance of the license. (NRS 630.268) **Sections 6 and 7** of this regulation prescribe similar discounted fees for an applicant for licensure by endorsement as a practitioner of respiratory care or perfusionist, respectively, who is an active member of, or the spouse of an active member of, the Armed Forces of the United States, a veteran or the surviving spouse of a veteran.
