Informational Statement Form

The following statement is submitted for adopted amendments to Nevada Administrative Code (NAC) Chapter 644A.

1. A clear and concise explanation of the need for the adopted regulation.

The proposed regulatory amendments address continuing education, apprenticeship training, supervision requirements, facility and equipment standards, and disciplinary procedures. These revisions are intended to clarify existing regulations, improve consistency, and strengthen public protection. Specifically, the changes will clarify Continuing Education requirements by establishing a clear, fixed CEU requirement for instructor license renewal to eliminate ambiguity and prevent shifting standards that create barriers to timely renewal, streamline apprenticeship curriculum standards by allowing greater flexibility in curriculum categories and increasing hours in categories that impact public safety, expanding the categories of qualified supervisors within establishments, strengthen safety requirements for facilities operating laser devices to better protect the public, modernize equipment standards to ensure students have adequate exposure to certain equipment that poses significant health and sanitation risks to the public, improve disciplinary procedures by refining the licensing and disciplinary functions and structured enforcement framework for violations.

2. A description of how public comment was solicited, a summary of public response, and an explanation of how other interested persons may obtain a copy of the summary.

Copies of the proposed regulations, notices of workshop, and notices of intent to act upon the regulation were sent by U.S. mail and email to persons who were known to have an interest in the subject of cosmetology, any persons who had specifically requested such notice, as well as Chambers of Commerce throughout the State of Nevada. These documents were also made available at the offices of the Nevada State Board of Cosmetology at the following locations:

5. A description of how comment was solicited from affected businesses, a summary of their response, and an explanation of how other interested persons may obtain a copy of the summary.

The Nevada State Board of Cosmetology requested input from small business owners and operators. A survey was sent to each of the Board's licensed businesses, including schools of cosmetology, requesting input as to the projected adverse and beneficial impacts of the proposed regulation changes.

Surveys were sent to all licensed Nevada cosmetology schools and businesses via email. In addition to the open-ended comment section at the end of the survey, business owners/operators were asked whether they anticipated any direct or indirect economic benefits or adverse effects upon their businesses. Survey participants were able to select "yes", "no", or "unknown" as their response.

Board staff reviewed the "yes" responses for businesses that indicated that a regulation change was likely to have a negative impact on their business. Any "yes" response was compared to the open-ended comment response at the end of the survey to determine the specific concerns of the individual business owner/operator.

The survey was sent via Alchemer, an online survey tool. Responses were solicited from December 4, 2025, to December 18, 2025. In total, 45 responses were collected.

Response Summary:
Question 1: Do you anticipate the regulation to have an adverse economic effect on your business?
Yes: 5

Yes: 6
No: 18
Unknown: 22

Question 4: Do you anticipate any indirect beneficial effects upon your business?

No: 18
Unknown: 23

The end of the survey left room for open-ended comments and was intended to provide the small business owner or operator the ability to expand on his/her responses.

Any person interested in obtaining a copy of the summary may mail a request to:

NOTICE OF INTENT TO ACT UPON A REGULATION

Notice of Hearing for the Adoption of Regulations of the Nevada State Board of Cosmetology, as proposed in LCB File No.R2021-26.

The Nevada State Board of Cosmetology will hold a public hearing at 9:00 am, on April 13, 2026, at 8945 W. Russell Rd, Ste 200, Las Vegas, NV 89148 and 740 Del Monte Lane, Suite 12, Reno, Nevada 89511. The purpose of the hearing is to receive comments from all interested persons regarding the Adoption of regulations that pertain to Chapter 644 of the Nevada Administrative Code.

The following information is provided pursuant to the requirements of NRS 233B.0603:

1) **The need for and the purpose of the proposed regulation or amendment.**

   The proposed regulatory amendments address continuing education, apprenticeship training, supervision requirements, facility and equipment standards, and disciplinary procedures. These revisions are intended to clarify existing regulations, improve consistency, and strengthen public protection. Specifically, the changes will clarify Continuing Education requirements by establishing a clear, fixed CEU requirement for instructor license renewal to eliminate ambiguity and prevent shifting standards that create barriers to timely renewal, streamline apprenticeship curriculum standards by allowing greater flexibility in curriculum categories and increasing hours in categories that impact public safety, expanding the categories of qualified supervisors within establishments, strengthen safety requirements for facilities operating laser devices to better protect the public, modernize equipment standards to ensure that students have adequate exposure to certain equipment that poses significant health and sanitation risks to the public, improve disciplinary procedures by refining the licensing and disciplinary functions and structured enforcement framework for violations.

2) **For a temporary regulation, the terms or the substance of the proposed regulation to be adopted, amended or repealed, or a description of the subjects and issues involved.**

This is a permanent regulation.

3) **For a proposed regulation, a statement explaining how to obtain the approved or revised text of the proposed regulation.**

A copy of the proposed regulation language may be downloaded from the Board's Website: https://www.nvcosmo.com/board-meeting-information

4) **The estimated economic effect of the regulation on the business which it is to regulate and on the public. These must be stated separately and in each case must include:**
(a) Both adverse and beneficial effects; and
(b) Both immediate and long-term effects.

There are no adverse or beneficial economic effects of this regulation on the businesses it regulates or on the public, as the proposed regulations intend to streamline requirements, provide clarity to existing provisions, and reinforce or strengthen safety standards.

There are no immediate and long-term effects of this regulation on the businesses it regulates or on the public, as the proposed regulations intend to streamline requirements, provide clarity to existing provisions, and reinforce or strengthen safety standards.

5) **The methods used by the agency in determining the impact on a small business.**
The Nevada State Board of Cosmetology requested input from small business owners and operators. A survey was sent to each of the Board's licensed businesses, including schools of cosmetology, requesting input as to the projected adverse and beneficial impacts of the proposed regulation changes.

Surveys were sent to all licensed Nevada cosmetology schools and businesses via email. In addition to the open-ended comment section at the end of the survey, business owners/operators were asked whether they anticipated any direct or indirect economic benefits or adverse effects on

their businesses. Survey participants were able to select "yes", "no", or "unknown" as their response.

Board staff reviewed the "yes" responses for businesses that indicated that a regulation change was likely to have a negative impact on their business. Any "yes" response was compared to the open-ended comment response at the end of the survey to determine the specific concerns of the individual business owner/operator.

The survey was sent via Alchemer, an online survey tool. Responses were solicited from December 4, 2025, to December 18, 2025. In total, 45 responses were collected.

Response Summary:
A description of the methods that the agency considered to reduce the impact of the proposed regulation on small businesses and a statement regarding whether the agency actually used any of those methods.

There is no significant economic impact on small businesses. The proposed changes were intended to either reduce regulatory burdens on businesses or enhance existing sanitation requirements are already in place.

How was that conclusion reached?

Based on this review of the feedback from small businesses, as well as consideration of the intent of the language, the Board of Cosmetology determined that the proposed regulations will have minimal, if any, economic impacts on businesses, either directly or indirectly.

The end of the survey left room for open-ended comments and was intended to provide the small business owner or operator the ability to expand on his/her responses.

Any person interested in obtaining a copy of the summary may mail a request to:
