## **HOW TO USE THE STATE OF NEVADA REGISTER OF ADMINISTRATIVE REGULATIONS**

All proposed regulations received by the Legislative Counsel Bureau are numbered in the order they are received. For example, the first regulation received would be numbered R001-04. Part 1 of each volume includes a preface and an alphabetical listing of the keywords used in the indexes with the complete name of the agency that is authorized to adopt regulations, followed by a numerical index and a keyword index. Each index is cumulative. In both indexes, each listed regulation is followed by the adopting agency, the chapter or chapters amended, a short summary of the regulation followed by the date it was placed on the Internet and the volume and part in which it appears.

Copies of the agency version of the regulations and the notices of intent to act upon a regulation, containing information relating to the location, date and time of the hearings, are included if available.

If a regulation has been adopted, that information will appear in the footer at the bottom of the regulation and be noted on the indexes at the beginning of the Register.
