

## Digest for Adopted Regulation R\_004-14

Existing law requires the Division of Public and Behavioral Health of the Department of Health and Human Services to adopt such regulations as it determines to be necessary or advisable relating to medical marijuana. (NRS 453A.370)

**Sections 23-49** of this regulation provide for the registration of medical marijuana establishments and medical marijuana establishment agents. **Section 25** requires the Division to determine annually whether additional medical marijuana establishments are necessary to serve the people of this State and, if so, to issue a request for applications. **Section 26** establishes the information that must be submitted with an application for a medical marijuana establishment registration certificate. **Sections 28-30** establish the procedure for the Division to determine which applicants receive a medical marijuana establishment registration certificate. **Sections 33 and 37** prohibit a medical marijuana establishment from operating without a medical marijuana establishment registration certificate and provide for inspections of medical marijuana establishments by the Division. **Sections 34 and 35** provide for the revocation or surrender of a medical marijuana establishment registration certificate in certain circumstances. **Section 36** provides for the renewal of a medical marijuana establishment registration certificate. **Section 40** provides for the issuance and renewal of medical marijuana establishment agent registration cards. **Section 41** establishes the categories of medical marijuana establishment agent registration cards and the requirements for the various categories. **Section 49** establishes various fees relating to medical marijuana establishment registration certificates and medical marijuana establishment agent registration cards.

**Sections 50-65** of this regulation provide various requirements that apply to all medical marijuana establishments. **Section 52** prohibits a medical marijuana establishment from selling a

lot of usable marijuana or edible marijuana products or marijuana-infused products until all testing has been completed. **Section 53** restricts the persons who may be present at a medical marijuana establishment. **Section 56** provides the procedures that a medical marijuana establishment agent must complete before dispensing medical marijuana. **Section 57** provides requirements relating to inventory control for medical marijuana establishments. **Section 60** provides requirements relating to the security of a medical marijuana establishment.

**Sections 66-69** of this regulation provide additional requirements for the operation of medical marijuana dispensaries. **Sections 70-72** of this regulation provide additional requirements for the operation of cultivation facilities and facilities for the production of edible marijuana products or marijuana-infused products. **Sections 73-79** of this regulation provide requirements for the packaging and labeling of medical marijuana products. **Sections 80-101** of this regulation provide various standards relating to the production of edible marijuana products and marijuana-infused products. **Sections 102-115** of this regulation provide the minimum good manufacturing practices for the cultivation and preparation of medical marijuana products. **Sections 116-127** of this regulation provide additional requirements for the operation of independent testing laboratories. **Sections 128-138** of this regulation establish various other provisions relating to medical marijuana. **Section 130** establishes the maximum quantity of edible marijuana products and marijuana-infused products that a person may possess at one time. **Section 131** allows for the Division to limit the amount of marijuana in production within this State. **Section 135** provides for the confidentiality of certain information. **Section 136** requires the Division to track physicians licensed in this State who prescribe medical marijuana and to notify the Board of Medical Examiners or the State Board of Osteopathic Medicine if the

Division determines that a physician is advising the use of medical marijuana at a rate that appears to be unreasonably high.
