

Digest for Adopted Regulation R_087-13

Existing law provides for the regulation and registration of dispensing technicians by the State Board of Pharmacy. (NRS 639.0727)

Under existing regulations, the State Board of Pharmacy establishes certain requirements for registration as a dispensing technician. (NAC 639.7425) This regulation amends these provisions by adding a requirement that dispensing technicians complete a certain amount of in-service training hours every 2 years. Further, this regulation establishes certain requirements concerning the records which prove completion of such training.
