6. If the regulation was adopted without changing any part of the proposed regulation, a summary of the reasons for adopting the regulation without change.

The permanent regulation was adopted on January 14, 2016, without change because there were no changes recommended at either the hearing on January 14, 2016, or at the workshop on December 7, 2015.

7. The estimated economic effect of the regulation on the business which it is to regulate and on the public. These must be stated separately, and each case must include:

- a. Both adverse and beneficial effects; and**
- b. Both immediate and long-term effects.**

On one hand, the proposed regulation only concerns training and experience of an individual APRN. Therefore, arguably, there is no adverse or beneficial effect on small business. On the other hand, an individual APRN may be employed by a small business

as defined by NRS 233B.0832. The consensus was that an individual APRN may require additional training and experience under the proposed regulation, but once qualified, the APRN will have greater practice capabilities in the world of mental health. Additionally, by adding APRNs to the list of persons who can make certain certifications, the overall efficiency of mental health facilities will improve (regarding admission and discharge of patients), which will save those mental health facilities money.

The immediate and long-term effect of the proposed regulation is APRNs will now have an enhanced knowledge (with proper training and experience). Therefore, facilities will have more qualified persons with which to make determinations about the status of certain patients. This will have a positive immediate and long-term effect on the efficiencies on these small businesses.

8. The estimated cost to the agency for enforcement of the adopted regulation:

There is no additional cost to the agency for the enforcement of this regulation.

9. A description of any regulations of other State or governmental agencies which the regulation overlaps or duplicates and a statement explaining why the duplication or overlap is necessary. If the regulation overlaps or duplicates a federal regulation, the name of the regulating federal agency.

The Nevada State Board of Nursing is not aware of any similar regulations of other state or government agencies which the proposed regulations overlap or duplicate.

10. If the regulation includes provisions that are more stringent than a federal regulation that regulates the same activity, a summary of such provisions.

This regulation does not include provisions which are more stringent than a federal regulation which regulates the same activity.

11. If the regulation provides a new fee or increases an existing fee, the total annual amount the agency expects to collect and the manner in which the money will be used.

The regulation does not provide for a new or increased existing fee.
