A REGULATION relating to unmanned aerial vehicles; establishing certain prohibitions relating to the operation, purchase and acquisition of unmanned aerial vehicles and certain equipment and services relating to unmanned aerial vehicles; authorizing a public agency that operates an unmanned aerial vehicle and is registered with the Department of Public Safety to conduct certain scheduled inspections; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Senate Bill No. 11 (S.B. 11) of the 2023 Legislative Session requires the Department of Public Safety to adopt regulations to establish a list of: (1) countries, businesses and entities from which a public agency or law enforcement agency shall not purchase or acquire any unmanned aerial vehicle or other equipment or service relating to the operation of an unmanned aerial vehicle; and (2) unmanned aerial vehicles and other related equipment or services that a public agency or law enforcement agency shall not operate, purchase or acquire. (NRS 493.118, as amended by section 1.9 of Senate Bill No. 11, chapter 446, Statutes of Nevada 2023, at page 2736) **Section 1** of this regulation establishes this list. **Section 1** also adopts by reference a publication of the United States Department of Defense relating to countries, businesses and entities from which a public agency or law enforcement agency may not operate, purchase or acquire unmanned aerial vehicles or other equipment or services relating to the operation of unmanned aerial vehicles.

S.B. 11 authorizes a public agency in this State to operate an unmanned aerial vehicle only if the agency: (1) registers the unmanned aerial vehicle with the Department; and (2) operates the unmanned aerial vehicle in accordance with any regulations adopted by the Department. (NRS 493.115, as amended by section 1.3 of Senate Bill No. 11, chapter 446, Statutes of Nevada 2023, at page 2735, NRS 493.118, as amended by section 1.7 of Senate Bill No. 11, chapter 446, Statutes of Nevada 2023, at page 2735) S.B. 11 requires that the regulations adopted by the Department include provisions that authorize, as a public purpose, a public agency to operate an unmanned aerial vehicle that is registered with the Department to conduct scheduled inspections to ensure compliance with building and fire codes and laws, ordinances, regulations and rules adopting or establishing building and fire codes. (NRS 493.118, as amended by section 1.7 of Senate Bill No. 11, chapter 446, Statutes of Nevada 2023, at page 2735) **Section 2** of this regulation adds such scheduled inspections to the list of public purposes for which a public agency may operate such an unmanned aerial vehicle.

Existing law requires the Department to adopt regulations that prohibit a public agency from collecting any photograph, image or recording through the operation of an unmanned aerial vehicle during a scheduled inspection to ensure compliance with building and fire codes and laws, ordinances, regulations and rules adopting or establishing building and fire codes. (NRS 493.118, as amended by section 1.7 of Senate Bill No. 11, chapter 446, Statutes of Nevada 2023, at page 2735) **Section 2** prohibits a public agency from collecting any photograph, image or recording through the operation of an unmanned aerial vehicle during such an inspection.
