Legislative Counsel’s Digest:

Existing law defines the term “scrutinized company” to mean a company that engages in a boycott of Israel. (NRS 355.330) Existing law requires the State Treasurer to identify each scrutinized company in which a trust fund administered by the State Treasurer has either direct or indirect holdings. Existing law requires the State Treasurer to review and rely upon certain publicly available information in making the identification. (NRS 355.335) **Section 2** of this regulation specifies some examples of the publicly available information that the State Treasurer is required to review and rely upon in identifying a scrutinized company.

Existing law requires the State Treasurer to adopt regulations establishing: (1) a process for giving notice to a company of the inclusion of the company on the list of scrutinized companies; and (2) the process for the removal of a company from the list of scrutinized companies. (NRS 355.350) **Section 3** of this regulation requires the State Treasurer to: (1) initially identify each scrutinized company upon reviewing certain publicly available information; and (2) provide written notice to a company initially identified as a scrutinized company. **Section 3** requires this notice to include the reasons why the State Treasurer initially identified the company as a scrutinized company. **Section 3** authorizes a company initially identified as a scrutinized company to respond to such notice with: (1) an explanation regarding or rebuttal to the statement in the notice; or (2) evidence that the company has ceased to engage in an activity specified in the statement in the notice. **Section 3** provides that if a company fails to respond within 30 days to such notice, the company will be deemed to have admitted to being a scrutinized company and will be placed on the list of scrutinized companies when the list is next updated. **Section 3** also requires the State Treasurer to: (1) review any response received from a company initially identified as a scrutinized company before making a determination

concerning the company; and (2) provide written notice to a company upon making such a determination concerning the company.

Section 4 of this regulation authorizes a scrutinized company that responded to initial identification in the manner prescribed in **section 3** and was determined to be a scrutinized company to file a notice of appeal of the identification of the company as a scrutinized company with the State Treasurer. **Section 4** requires the State Treasurer or his or her designee to hold a hearing on the appeal. **Section 4** also provides that if the State Treasurer or his or her designee: (1) reverses the determination, the company will not be identified as a scrutinized company and, if the company has been included on the list of scrutinized companies, will be removed from that list; or (2) affirms the determination, the company will be included on the list of scrutinized companies when the list is next updated.

Section 5 of this regulation provides that a company can be removed from the list of scrutinized companies: (1) upon request of the scrutinized company and a determination by the State Treasurer; or (2) by the State Treasurer if he or she determines, based on publicly available information, that the company should no longer be identified as a scrutinized company. **Section 5** requires a company that requests to be removed from the list of scrutinized companies to provide to the State Treasurer written evidence that the company should no longer be identified as a scrutinized company. **Section 5** requires the State Treasurer to: (1) review the evidence submitted; and (2) make a determination concerning continued identification of a company as a scrutinized company. **Section 5** also provides that if the State Treasurer determines that a company should no longer be identified as a scrutinized company, the company must: (1) not appear on the list of scrutinized companies when the list is next updated; and (2) be reported as no longer being a scrutinized company in the annual report of investments in scrutinized companies.

Existing law requires the State Treasurer to sell, redeem, divest or withdraw all direct holdings of a scrutinized company from the assets under his or her management and request that the manager of the indirect holdings of any public fund consider taking the same action if the State Treasurer determines and adopts findings that such action is consistent with his or her fiduciary responsibilities. (NRS 355.345) **Section 6** of this regulation requires the State Treasurer to make certain considerations when determining whether to adopt such findings. **Section 7** of this regulation requires the State Treasurer to monitor any direct investment of the assets under the management of the State Treasurer in a scrutinized company and take certain action based on the maturity date of the investment.

Section 1. Chapter 355 of NAC is hereby amended by adding thereto the provisions set forth as sections 2 to 7, inclusive, of this regulation.
