AN ACT relating to juveniles; prohibiting, under certain circumstances, a minor from using an electronic communication device to possess, transmit or distribute certain sexual images of a minor; clarifying the definition of “cyber-bullying” for the purposes of certain provisions relating to education; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law prohibits a person, under certain circumstances, from distributing to a minor material that is harmful to minors. Such material includes certain nude pictures of a person. If an adult violates these provisions, the adult is generally guilty of a misdemeanor. (NRS 201.265) If a minor violates these provisions, the minor may be adjudicated delinquent. (NRS 62B.330) Existing law also prohibits a person from committing certain acts regarding pornography involving minors. (NRS 200.700-200.760) If an adult violates these provisions, the adult is guilty of a felony and is subject to registration and community notification as a sex offender. (NRS 179D.010-179D.550) If a minor violates these provisions, the minor may be adjudicated delinquent and subject to registration and community notification as a juvenile sex offender. (Chapter 62F of NRS) This bill provides an alternative prohibition with alternative penalties for violating that alternative prohibition which can be applied to certain minors instead of the penalties in existing law. Thus, this bill preserves prosecutorial discretion in addressing this issue.

Section 1 of this bill prohibits, under certain circumstances, a minor from using an electronic communication device, such as a cell phone, to possess, transmit or distribute a sexual image of himself or herself or of another minor. A minor who uses an electronic communication device to transmit or distribute a sexual image of himself or herself is considered a child in need of supervision for the purposes of the laws governing juvenile justice. A minor who uses an electronic communication device to possess or transmit a sexual image of another minor is considered a juvenile in need of supervision.
device to possess, transmit or distribute a sexual image of another minor is considered to have committed a delinquent act. **Section 1** also provides that a minor who violates the provisions of **section 1** is not considered a sex offender and is not subject to registration or community notification as a juvenile sex offender or as a sex offender.

Existing law requires the Department of Education to prescribe a policy for all school districts and public schools to provide a safe and respectful learning environment that is free of bullying, cyber-bullying, harassment and intimidation, including the provision of training to school personnel and requirements for reporting violations of the policy. (NRS 388.121-388.139) **Section 4** of this bill revises the definition of “cyber-bullying” to clarify that the term includes the use of electronic communication to transmit or distribute a sexual image of a minor.

This revised definition of “cyber-bullying” also applies to certain other provisions related to education. Specifically, the term applies to existing law which requires the Council to Establish Academic Standards for Public Schools to establish the standards of content and performance for courses of study in computer education and technology. (NRS 389.520) Those standards must include a policy for the ethical, safe and secure use of computers and other electronic devices which includes methods to ensure the prevention of cyber-bullying. Further, the revised definition applies to existing law which prohibits a person from using any means of oral, written or electronic communication, including the use of cyber-bullying, to knowingly threaten to cause bodily harm or death to a pupil or school employee with the intent to: (1) intimidate, frighten, alarm or distress the pupil or school employee; (2) cause panic or civil unrest; or (3) interfere with the operation of a public school. (NRS 392.915)
