Section 1 of this bill: (1) requires the regional transportation commission in a county whose population is 700,000 or more (currently Clark County) to establish and administer the Nevada Yellow Dot Program in coordination with each regional transportation commission in this State; (2) requires the regional transportation commission in a county whose population is 700,000 or more (currently Clark County) to disseminate information about the Program to the public and to public safety agencies; (3) authorizes that commission to obtain grants or sponsorships for the Program; and (4) provides that first responders are immune from civil liability for damages as a result of any act or omission taken by the first responder relating to a collision or other emergency in connection with the Program.

Sections 3-46 of this bill provide for the permitting by the Nevada Transportation Authority of transportation network companies and the regulation by the Authority of the provision of transportation services. **Section 19** of this bill defines a “transportation network company” as an entity that uses a digital network or software application service to connect passengers to drivers who can provide transportation services to passengers. **Section 20** of this bill defines “transportation services” as the transportation by motor vehicle of one or more passengers between points chosen by the passenger or passengers and prearranged with a driver through

the use of the digital network or software application service of a transportation network company. **Section 21** of this bill provides that it is the purpose and policy of the Legislature in enacting this bill to ensure the safety, reliability and cost-effectiveness of the transportation services provided by drivers affiliated with transportation network companies in this State.

Sections 4-14 of this bill establish certain requirements concerning the provision of insurance for the payment of tort liabilities arising from the operation of a motor vehicle by a driver who provides transportation services.

Section 25 of this bill prohibits any person from doing business in this State as a transportation network company unless the person holds a valid permit issued by the Authority pursuant to the provisions of **sections 4-14 and 16-46** of this bill.

Section 25 also: (1) empowers the Authority to regulate, pursuant to the provisions of this bill, all transportation network companies and drivers who operate or wish to operate within this State; and (2) prohibits the Authority from applying any provision of chapter 706 of NRS, relating to motor carriers, to a transportation network company or driver who operates within the provisions of **sections 4-14 and 16-46** of this bill. **Section 26** of this bill provides for the submission to the Authority of an application for a permit. **Section 27** of this bill requires the Authority to issue a permit to an applicant upon a determination by the Authority that the applicant meets all the applicable requirements for the issuance of the permit. **Section 27** of this bill further provides that a permit issued by the Authority authorizes a transportation network company to: (1) connect passengers to a driver who can provide transportation services through the use of a digital network or software application service; and (2) make its digital network or software application service available to one or more drivers to receive connections from the company. **Section 27** of this bill provides that a permit issued by the Authority does not authorize a transportation network company to engage in any activity regulated pursuant to chapter 706 of NRS, relating to motor carriers. Additionally, **section 27** provides that a person who is regulated pursuant to chapter 706 of NRS may be issued a permit to operate a transportation network company if the person meets the requirements for the issuance of a permit.

Section 29 of this bill authorizes a transportation network company to enter into agreements with one or more drivers to receive connections to potential passengers from the company. **Section 29** also establishes the minimum qualifications for drivers and requires a transportation network company to conduct an investigation of the background of each driver, which must include a criminal background check, a search of a database containing information from the sex offender website maintained by each state and a review of the complete driving history of the driver. Further, **section 29** sets forth the conditions for which a transportation network company must terminate an agreement with a driver.

Section 30 of this bill: (1) provides that a transportation network company may, on behalf of a driver, charge a fare for the provision of transportation services by the driver; and (2) places certain requirements on the company concerning the fares and the information which must be provided to passengers concerning the amount and the calculation of fares.

Section 31 of this bill: (1) prohibits a transportation network company from allowing any driver who operates a motor vehicle that is not in compliance with all federal, state and local laws governing the operation and maintenance of a motor vehicle to be connected to potential passengers; and (2) requires annual inspections of each motor vehicle operated by a driver.

Section 32 of this bill prohibits discrimination on account of national origin, religion, age, disability, sex, race, color, sexual orientation or gender identity or expression by a transportation network company or driver. **Section 33** of this bill

requires a transportation network company to provide to passengers certain information relating to the identification of a driver. **Section 34** of this bill requires a transportation network company to provide an electronic receipt to each passenger. **Section 35** of this bill allows a transportation network company to enter into certain contracts with the Department of Health and Human Services. **Section 36** of this bill imposes on transportation network companies certain recordkeeping requirements. **Section 37** of this bill imposes on transportation network companies certain reporting requirements.

Section 38 of this bill establishes certain requirements relating to the provision of transportation services by a driver. **Section 38** also prohibits a driver from soliciting passengers or providing transportation services except to persons who have arranged for such transportation services through the digital network or software application service of a transportation network company. **Section 39** of this bill prohibits a driver from consuming, using or being under the influence of any intoxicating liquor or controlled substance during any period when the driver is providing transportation services or is logged into the digital network or software application service of a transportation network company. With certain exceptions, **section 40** of this bill prohibits a transportation network company from releasing the personally identifiable information of passengers.

Section 41 of this bill provides for the investigation of complaints against a transportation network company or driver. **Section 42** of this bill: (1) authorizes the Authority to impose certain penalties for any violation of the provisions of **sections 4-14 and 16-46** of this bill by a transportation network company or driver; and (2) provides that a person who violates any provision of **sections 4-14 and 16-46** of this bill is not subject to a criminal penalty.

Section 43 of this bill provides that this bill does not exempt any person from any other laws governing the operation of a motor vehicle upon the highways of this State, except that a transportation network company or a driver who provides transportation services within the scope of a permit issued by the Authority is not subject to the provisions of existing law governing motor carriers or public utilities.

Section 44 of this bill prohibits a local government from: (1) imposing any tax or fee on a transportation network company, a driver who has entered into an agreement with such a company or a vehicle operated by such a driver or for transportation services provided by such a driver; (2) requiring a transportation network company or driver to obtain from the local government any certificate, license or permit to provide transportation services; or (3) imposing any other requirement on the operation of a motor vehicle by a transportation network company or driver which is not of general applicability. **Section 44** does not prohibit a local government from requiring a transportation network company or driver to obtain from the local government a business license or to pay any business license fee in the same manner that is generally applicable to any other business that operates within the jurisdiction of the local government. **Section 44** does not prohibit an airport from requiring a transportation network company or driver to obtain a permit or certification to operate at the airport, pay a fee to operate at the airport or comply with any other requirement to operate at the airport. **Section 44** also states that **sections 4-14 and 16-46** of this bill do not exempt any person from the requirement to obtain a state business license and requires a transportation network company to notify each driver of the requirement.

Section 45 of this bill requires each transportation network company to provide the Authority with reports at certain times containing certain information about damages resulting from accidents involving drivers who are providing transportation services or logged into the digital network or software application service of the company and available to receive requests for transportation services.

Section 45 also requires the Authority to collect these reports, determine whether the limits of coverage required pursuant to **section 11** of this bill are sufficient and report to the Legislative Commission or Director of the Legislative Counsel Bureau.

Sections 47-53 and 58 of this bill revise the provisions of Assembly Bill No. 175 of this session to make the Authority, rather than the Public Utilities Commission of Nevada, responsible for carrying out the provisions of that bill relating to fees, assessments and excise taxes for transportation network companies.

Section 54 of this bill provides that: (1) a transportation network company may commence operations within this State immediately upon being issued a permit; (2) any regulation adopted by the Authority pursuant to **sections 4-14 and 16-46** of this bill on or before July 1, 2017, shall not be effective for at least 30 days after filing with the Secretary of State; (3) the Authority must begin to accept applications for permits within 30 days after the effective date of **section 26** of this bill; and (4) the Authority shall not issue a permit until July 1, 2015.

Section 55 of this bill requires the Nevada Transportation Authority to investigate and compare specific types of background checks to determine the efficacy, efficiency and effect on public safety and report the results of its investigation to the Legislative Commission.
