Legislative Counsel’s Digest:

1 Existing law allows a person, subject to certain conditions, to operate a craft
2 distillery and to sell and transport in any calendar year in this State not more than
3 10,000 cases of spirits to a wholesale dealer of liquor and to manufacture for
4 exportation to another state in any calendar year not more than 20,000 cases of
5 spirits. A craft distillery may also serve samples of and sell the spirits manufactured
6 at the craft distillery on the premises of the craft distillery. (NRS 597.235) This bill
7 increases the quantity of spirits which a craft distillery may export to another state to
8 40,000 cases of spirits. This bill also allows a craft distillery to serve samples of or
9 sell the spirits manufactured at the craft distillery at one other location in addition to
10 the premises of the craft distillery itself, and increases the quantity of spirits that may
11 be sold at retail for off-premises consumption from 2 bottles per month to 2 cases of
12 spirits per product, per month. Finally, this bill authorizes a craft distillery to donate
13 and transport spirits manufactured at the craft distillery for charitable or nonprofit
14 purposes in accordance with the terms and conditions of a special permit for the
15 transportation of spirits obtained from the Department of Taxation.
