EXPLANATION – Matter in *bolded italics* is new; matter between brackets [omitted material] is material to be omitted.

AN ACT relating to education; establishing a program by which a child enrolled in a licensed private school may receive a grant of money in an amount equal to a certain percentage of the per-pupil amount apportioned to the resident school district of the child; providing for the amount of each grant to be deducted from the total apportionment to the school district; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Existing law requires each child between the ages of 7 and 18 years to attend a public school of the State, attend a private school or be homeschooled. (NRS 392.040, 392.070) Existing law also provides for each school district to receive certain funding from local sources and to receive from the State an apportionment per pupil of basic support for the schools in the school district. (NRS 387.1235, 387.124) This bill establishes a program by which a child enrolled in a private school may receive a grant of money in an amount equal to 90 percent of the sum of the amounts of local and basic support per pupil. Money from the grant may be used only for specified purposes.

**Section 7** of this bill authorizes the parent of any child required to attend school to enter into an agreement with the Department of Education, according to which the child will be enrolled in a private school and receive the grant. Each agreement is valid for 1 school year and may be renewed for any subsequent school year. Not entering into or renewing an agreement for any given school year does not preclude the parent from entering into or renewing an agreement for any subsequent year.

If such an agreement is entered into, an education savings account must be opened by the parent on behalf of the child. Under **section 8** of this bill, for any

18 school year for which the agreement is entered into or renewed, the Department  
19 must deposit the amount of the grant into the education savings account. Under  
20 **section 16** of this bill, the amount of the grant must be deducted from the total  
21 apportionment to the resident school district of the child on whose behalf the grant  
22 is made. The Department may deduct from the amount of the grant not more than 3  
23 percent for the administrative costs of implementing the provisions of this bill.

24 **Section 9** of this bill lists the authorized uses of grant money deposited in an  
25 education savings account. **Section 9** also prohibits certain refunds, rebates or  
26 sharing of payments made from money in an education savings account.

27 Under **section 10** of this bill, the Department may qualify private financial  
28 management firms to manage the education savings accounts. The Department  
29 must establish reasonable fees for the management of the education savings  
30 accounts. Those fees may be paid from the money deposited in an education  
31 savings account.

32 **Section 11** of this bill provides requirements for a private school to participate  
33 in the grant program established by this bill by accepting for enrollment children on  
34 whose behalf the grants are made. The Department may refuse to allow a private  
35 school to participate in the program if the Department finds that the school fails to  
36 comply with applicable provisions of law or has failed to provide educational  
37 services to a child who is participating in the program.

38 Under **section 12** of this bill, each child on whose behalf a grant is made must  
39 take certain standardized examinations in mathematics and English language arts.  
40 Subject to applicable federal privacy laws, a private school must provide those test  
41 results to the Department, who must aggregate the results and publish data on the  
42 results and on the academic progress of children on behalf of whom grants are  
43 made. Under **section 13** of this bill, the Department must make available a list of all  
44 private schools who are participating in the grant program and must require resident  
45 school districts to provide certain academic records to private schools.

46 **Section 14** of this bill provides that the provisions of this bill may not be  
47 deemed to infringe on the independence or autonomy of any private school or to  
48 make the actions of a private school the actions of the government of this State.

42 behalf a grant of money is made pursuant to section 8 of this act to  
43 provide to the participating school in which the child enrolls any  
44 educational records of the child.

1     **Sec. 14.** *Except as otherwise provided in sections 2 to 15,*  
2 *inclusive, of this act, nothing in the provisions of sections 2 to 15,*  
3 *inclusive, of this act, shall be deemed to limit the independence or*

8 *15, inclusive, of this act.*

9     **Sec. 16.** NRS 387.124 is hereby amended to read as follows:

10     387.124 Except as otherwise provided in this section and  
11 NRS 387.528:

12     1. On or before August 1, November 1, February 1 and May 1  
13 of each year, the Superintendent of Public Instruction shall  
14 apportion the State Distributive School Account in the State General  
15 Fund among the several county school districts, charter schools and  
16 university schools for profoundly gifted pupils in amounts  
17 approximating one-fourth of their respective yearly apportionments  
18 less any amount set aside as a reserve. Except as otherwise provided  
19 in NRS 387.1244, the apportionment to a school district, computed  
20 on a yearly basis, equals the difference between the basic support  
21 and the local funds available pursuant to NRS 387.1235, minus all  
22 the funds attributable to pupils who reside in the county but attend a  
23 charter school, all the funds attributable to pupils who reside in the  
24 county and are enrolled full-time or part-time in a program of  
25 distance education provided by another school district or a charter  
26 school, ~~and~~ all the funds attributable to pupils who are enrolled in  
27 a university school for profoundly gifted pupils located in the  
28 county ~~and~~ *and all the funds deposited in education savings*  
29 *accounts established on behalf of children who reside in the*  
30 *county pursuant to sections 2 to 15, inclusive, of this act.* No  
31 apportionment may be made to a school district if the amount of the  
32 local funds exceeds the amount of basic support.

33     2. Except as otherwise provided in subsection 3 and NRS  
34 387.1244, the apportionment to a charter school, computed on a  
35 yearly basis, is equal to the sum of the basic support per pupil in the  
36 county in which the pupil resides plus the amount of local funds  
37 available per pupil pursuant to NRS 387.1235 and all other funds  
38 available for public schools in the county in which the pupil resides  
39 minus the sponsorship fee prescribed by NRS 386.570 and minus all  
40 the funds attributable to pupils who are enrolled in the charter  
41 school but are concurrently enrolled part-time in a program of  
42 distance education provided by a school district or another charter  
43 school. If the apportionment per pupil to a charter school is more  
44 than the amount to be apportioned to the school district in which a  
45 pupil who is enrolled in the charter school resides, the school district

1 in which the pupil resides shall pay the difference directly to the  
2 charter school.

3 3. Except as otherwise provided in NRS 387.1244, the  
4 apportionment to a charter school that is sponsored by the State  
5 Public Charter School Authority or by a college or university within  
6 the Nevada System of Higher Education, computed on a yearly  
7 basis, is equal to the sum of the basic support per pupil in the county  
8 in which the pupil resides plus the amount of local funds available  
9 per pupil pursuant to NRS 387.1235 and all other funds available for  
10 public schools in the county in which the pupil resides, minus the  
11 sponsorship fee prescribed by NRS 386.570 and minus all funds  
12 attributable to pupils who are enrolled in the charter school but are  
13 concurrently enrolled part-time in a program of distance education  
14 provided by a school district or another charter school.

15 4. Except as otherwise provided in NRS 387.1244, in addition  
16 to the apportionments made pursuant to this section, an  
17 apportionment must be made to a school district or charter school  
18 that provides a program of distance education for each pupil who is  
19 enrolled part-time in the program. The amount of the apportionment  
20 must be equal to the percentage of the total time services are  
21 provided to the pupil through the program of distance education per  
22 school day in proportion to the total time services are provided  
23 during a school day to pupils who are counted pursuant to  
24 subparagraph (2) of paragraph (a) of subsection 1 of NRS 387.1233  
25 for the school district in which the pupil resides.

26 5. The governing body of a charter school may submit a  
27 written request to the Superintendent of Public Instruction to  
28 receive, in the first year of operation of the charter school, an  
29 apportionment 30 days before the apportionment is required to be  
30 made pursuant to subsection 1. Upon receipt of such a request, the  
31 Superintendent of Public Instruction may make the apportionment  
32 30 days before the apportionment is required to be made. A charter  
33 school may receive all four apportionments in advance in its first  
34 year of operation.

35 6. Except as otherwise provided in NRS 387.1244, the  
36 apportionment to a university school for profoundly gifted pupils,  
37 computed on a yearly basis, is equal to the sum of the basic support  
38 per pupil in the county in which the university school is located plus  
39 the amount of local funds available per pupil pursuant to NRS  
40 387.1235 and all other funds available for public schools in the  
41 county in which the university school is located. If the  
42 apportionment per pupil to a university school for profoundly gifted  
43 pupils is more than the amount to be apportioned to the school  
44 district in which the university school is located, the school district  
45 shall pay the difference directly to the university school. The

1 governing body of a university school for profoundly gifted pupils  
2 may submit a written request to the Superintendent of Public  
3 Instruction to receive, in the first year of operation of the university  
4 school, an apportionment 30 days before the apportionment is  
5 required to be made pursuant to subsection 1. Upon receipt of such a  
6 request, the Superintendent of Public Instruction may make the  
7 apportionment 30 days before the apportionment is required to be  
8 made. A university school for profoundly gifted pupils may receive  
9 all four apportionments in advance in its first year of operation.

10 7. The Superintendent of Public Instruction shall apportion, on  
11 or before August 1 of each year, the money designated as the  
12 "Nutrition State Match" pursuant to NRS 387.105 to those school  
13 districts that participate in the National School Lunch Program, 42  
14 U.S.C. §§ 1751 et seq. The apportionment to a school district must  
15 be directly related to the district's reimbursements for the Program  
16 as compared with the total amount of reimbursements for all school  
17 districts in this State that participate in the Program.

18 8. If the State Controller finds that such an action is needed to  
19 maintain the balance in the State General Fund at a level sufficient  
20 to pay the other appropriations from it, the State Controller may pay  
21 out the apportionments monthly, each approximately one-twelfth of  
22 the yearly apportionment less any amount set aside as a reserve. If  
23 such action is needed, the State Controller shall submit a report to  
24 the Department of Administration and the Fiscal Analysis Division  
25 of the Legislative Counsel Bureau documenting reasons for the  
26 action.

27 **Sec. 17.** This act becomes effective on July 1, 2015.
