AN ACT relating to taxation; revising the provisions governing transferable tax credits for film and other productions; narrowing the class of persons who may apply for such tax credits; revising the process for making and acting upon such an application; revising the provisions governing the calculation of the tax credits; revising the limitation on the total amount of tax credits that may be issued; repealing the prospective expiration of the provisions governing the tax credits; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law establishes a program for the issuance of transferable tax credits by the Office of Economic Development to the producer of a motion picture or other qualified production, based upon production-related expenditures made for the purchase of personal property or services from a Nevada business. (NRS 360.758-360.7598)

This bill makes various changes to the program. Under existing law, transferable tax credits are available to a “producer,” defined as a “natural person or business that finances, arranges to finance or supervises the production of a qualified production.” **Section 8** of this bill revises this definition to substitute “production company” for “producer” and eliminate the reference to a natural person, with the result that only a business meeting the requirements of the definition may apply for and receive the tax credits.

Existing law requires an applicant for the tax credits to show that at least 60 percent of the expenditures for the production, including expenditures for preproduction and postproduction, will be incurred in Nevada. (NRS 360.759) **Section 10** of this bill removes expenditures for postproduction from this calculation unless such expenditures will be incurred in Nevada, and **sections 10 and 15** of this bill otherwise revise the process for applying for the tax credits. **Section 10** also extends the time allowed, after the receipt of a postproduction audit, for the Office to make a final determination concerning the issuance and amount of the tax credits.

Existing law specifies the expenditures that may serve as the basis for the issuance of the tax credits. (NRS 360.7591) **Section 11** of this bill: (1) clarifies that expenditures may be made for the rental or lease of personal property in addition to purchases; (2) excludes payments made to a joint venturer or an affiliate of a production company, except payments representing the fair market value of a purchase, rental or lease; and (3) limits the inclusion of expenditures made for property acquired by a Nevada business from a vendor outside Nevada for immediate resale, rental or lease to a qualified production.

Existing law governs the calculation of the “base amount” of tax credits and certain additional amounts for the employment of Nevada residents and the performance of production work in certain counties in this State. (NRS 360.7592, 360.7593) **Section 12** of this bill increases the additional amounts and revises provisions relating to the employment of Nevada residents by, among other things, excluding work performed by extras. **Section 13** of this bill revises the formula for the inclusion of wages and salaries paid to certain persons who are not Nevada residents.

Under existing law, the total amount of tax credits that may be approved over the life of the program is \$10,000,000. The Office is prohibited from approving any application for tax credits received on or after January 1, 2018, and the program is scheduled to expire by limitation on June 30, 2023. (NRS 360.7594, Chapter 491, Statutes of Nevada 2013, p. 3097) **Section 14** of this bill removes the \$10,000,000 limitation on the total amount of tax credits that may be approved and the deadline for the submission of applications. Instead, **section 14** limits the amount of tax credits that may be approved for any fiscal year to the amount appropriated or authorized for expenditure for that purpose for that fiscal year. **Section 19** of this bill eliminates the prospective expiration of the program.

Existing law authorizes the governing body of a city or county, on or before December 31, 2017, to abate some or all of any fee for a permit or license that would otherwise be charged in connection with a qualified production for which tax credits have been approved. (NRS 360.7596) **Section 16** of this bill eliminates the prospective expiration of the period within which such an abatement may be granted.
