Legislative Counsel's Digest:

Existing law requires a person to obtain a state business license and pay a fee before conducting business within this State, unless exempted from the business license requirement. (NRS 76.100) Existing law further prohibits a person from entering into a contract with the State of Nevada unless he or she holds a state business license. (NRS 353.007) **Section 1** of this bill provides that a person is deemed not to be conducting business in this State, and thus is not required to obtain a state business license, if the sole activity of the person's business in this State is to provide, on a short-term basis, vehicles or equipment in response to a wildland fire, a flood, an earthquake or another emergency. **Section 2** of this bill authorizes such a person to enter into a contract with the State of Nevada without obtaining a state business license. **Section 3 of this bill provides that this bill becomes effective upon passage and approval.**

Senate Bill No. 48.

Bill read third time.

Remarks by Assemblyman Jones.

ASSEMBLYMAN JONES:

Senate Bill 48 eliminates the requirement that the Director of the Department of Health and Human Services establish a statewide health information exchange system, including the establishment of a governing entity for the system. Although a statewide exchange is eliminated, the bill retains existing provisions governing health information exchanges and revises the definition of a “health information exchange.” The Director is authorized to establish or contract with not more than one exchange to serve as the statewide health information exchange for certain purposes.

The bill establishes provisions governing the certification of health information exchanges and requires an exchange to obtain a certification from the Director before operation. An administrative fine may be imposed for a health information exchange operating without certification. The bill gives an existing exchange until July 1, 2016, to comply with this requirement. Finally, certain provisions are revised relating to the requirement of the patient’s consent for the retrieval, rather than the transmission, of a health record.

This measure is effective upon passage and approval for the purpose of adopting regulations and January 1, 2016, for all other purposes.

This bill is a perfect example of the inefficiencies of government. Originally we were supposed to have a health information exchange established by the Department of Health and Human Services, but they spent over \$4 million and could not accomplish the task. So now they are going out to private industry, which already has an exchange built, and we are going to allow private industry to do what government was unable to do. I really like this bill because it allows private industry to do what it does best.

Senate Bill 75 requires the State Board of Education to prescribe the minimum number of school days that must take place before certain standardized examinations may be administered. The Board is further required to prescribe a period of time during which the examinations must be administered by the board of trustees of each school district and the governing body of each charter school. This bill also removes the requirement that all such examinations be administered at the same time during the spring semester. This bill is effective upon passage and approval.

Because this bill applies to tests required under federal law, it will only impact the annual Criterion Referenced Tests administered in reading and mathematics for grades 3 through 8 and in science and writing for grades 5 and 8. The change in statute is needed to ensure that schools with nine-month schedules in either a year-round calendar or a traditional calendar are all able to provide a similar number of days of instruction before standardized tests are administered.

Senate Bill 246 increases from 20,000 cases to 40,000 cases the quantity of spirits that a craft distillery may manufacture for export to another state in a calendar year. This measure authorizes a craft distillery to donate and transport spirits manufactured at the craft distillery for charitable or nonprofit purposes or to transfer certain bulk spirits to another supplier. Such a charitable donation or bulk transfer is not included in the 10,000 cases per year that a craft distillery is permitted to sell and transport within the state. ASSEMBLYMAN EDWARDS:

I was kind of disappointed that this bill was actually brought to the State Legislature because, at best, I think it is a community issue. I do not think it should have been elevated to the state level. Furthermore, I was disappointed when, during the committee hearings, we actually seemed to have a resolution between the two parties. The resolution made a lot of sense, and I thought they should have gone with it. I was disappointed when they returned a couple of days later, and the proponents had kind of reneged on the deal and made it more extreme by changing a key word

of “may” to “shall.” In so doing, they totally lost my vote on this one. I do not believe this is the kind of legislation we should be working on. This should have been resolved between the parties, and I am disappointed that it was not. I will have to be a no vote on this.

Senate Bill 288 requires any person who is authorized to prescribe or dispense controlled substances to receive training in the prescription drug monitoring program developed by the State Board of Pharmacy and to be given access to the database of the computer program. Each practitioner who is authorized to prescribe controlled substances must, to the extent the program

allows, access the database at least once every six months, review the information concerning the person in the database, and verify to the Board that the person continues to have access. Also, various professional licensing boards are authorized to take disciplinary action against a person who is authorized to prescribe controlled substances and fails to comply with these requirements.

There has been a lot of controversy over this bill and some misunderstanding of this bill, and a lot of practitioners who do not prescribe narcotics say why should they have to do this. I think this is a good practice to make sure that someone has not stolen your prescription pad, someone is not using your name falsely to write these prescriptions. I think it is to the betterment of the practitioners to make sure their information is accurate.

Senate Bill No. 303.

Remarks by Assemblymen Dickman, Thompson, Benitez-Thompson, Armstrong, Joiner, O'Neill, Spiegel, Ohrenschall, and Paul Anderson.

ASSEMBLYWOMAN DICKMAN:

Senate Bill 303 provides that a child is, rather than may be, in need of protection if the child is in the care of a person responsible for the child's welfare and another child has been subjected to abuse by that person, unless the person has successfully completed a plan for services, as recommended by a child welfare agency, to address the abuse of the other child.

When making a determination to terminate parental rights, a court must consider certain factors if the child has been out of the care of a parent or guardian for at least 12 consecutive months. The bill also revises the conditions that a court must consider in determining neglect by, or unfitness of, a parent for the purpose of proceedings regarding the termination of parental rights.

Lastly, the bill requires the Legislative Committee on Child Welfare and Juvenile Justice to evaluate and review issues relating to reunification of foster children with a birth parent and adoption of foster children by a foster parent. This measure is effective on July 1, 2015.

There was a lot of work done between the parties to make this bill something that the majority of people could accept. I think it goes a long way in taking in consideration the best interest of the children into these court cases, and I encourage you to support this bill.

ASSEMBLYMAN THOMPSON:

I rise in opposition to Senate Bill 303. The main premise when you become a foster parent is that you have to understand that you are to work with the Department of Family Services on reunification of the family. It is important that we take the time; there are different levels, and it takes time with families to make them whole. Parents love their children. Putting such a tight timeline and time frame in which the parents must complete the plan absolutely will potentially cause a lot of parents who are really trying to put their best forward to lose their children. I truly ask and urge that this body look at this bill and oppose Senate Bill 303.

ASSEMBLYWOMAN BENITEZ-THOMPSON:

I rise in opposition to Senate Bill 303. I agree with the bill's sponsor that there are problems that need to be addressed within the child welfare system. Where we differ is where the problem lies and how it needs to be addressed.

We heard testimony from very caring and compassionate foster parents who have nothing but children's best interests at heart. What we heard is that children are languishing in care for too long. We heard stories about children entering foster care as infants and then not exiting for four or five years. That is absolutely not in line with what federal or state law allows, and it is not in line with the theory or premise of child welfare, which is to try to reunify children with safe, healthy, intact homes.

We have seen recent Supreme Court rulings that tell us that the problem is in practice. The problem is at the local level addressing how workers are individually writing case plans with families and how an agency is following up and complying with the case plan. That case plan is an agreement between the two agencies that gives a road map by which a child may be returned home safely. Returning children home ought to be our goal. We ought not to be in the business of trying to take children away under capricious circumstances or in a manner by which two identical families with two similarly situated children have very different outcomes. I look forward to working with folks during the interim and addressing the many problems we have with practice and child welfare in this state.

ASSEMBLYMAN ARMSTRONG:

I rise in support of Senate Bill 303. Today we stand up for those who need it most. We stand up for kids whose homes are filled with danger and abuse rather than safety and compassion. I think we also need to balance the needs of the children in this bill. I will be voting yes and encourage all of you to vote yes as well.

ASSEMBLYWOMAN JOINER:

I rise in opposition to Senate Bill 303. There was a lot of work done on this in committee and a lot of discussion. It is a very delicate balance between keeping our children safe with their parents or with foster parents. The reason I rise in opposition to Senate Bill 303 is because I think this creates an imbalance that is against the parents. It creates a situation where if a parent were to have services for one of their children early on in their life, that would carry with them for their entire life, including if they have additional children. I think that language is just imbalanced in the wrong direction. I think we need to be supporting parents in their attempts to be reunified with their children, and this bill takes the wrong approach to that.

ASSEMBLYMAN O'NEILL:

I stand today in strong support of Senate Bill 303. With all due respect to my colleagues, this bill gives clarity to the court in deciding when to terminate parental rights. It expands the definition of "abuse" and calls for judges to consider the length of time a child has been out of the home and away from the parents. That time out of the home and away from the parents is because of the parents' inability to correct some of their actions and is for the protection of the children.

In addition, language in the bill gives the Legislative Committee on Child Welfare and Juvenile Justice expanded authority to study the issue in the interim to recommend any additional changes to this topic. We have all said that things need to be done, there need to be improvements. This is the first step. We can continue moving forward for the protection of these most vulnerable children of ours during the interim and come back next session with a better bill. This is a sensitive topic, but I believe the approach to Senate Bill 303 will make our child welfare system better. I ask for your support on this.

ASSEMBLYWOMAN SPIEGEL:

I rise in opposition to Senate Bill 303. One of the provisions of this bill requires the court to consider placement options in assessing the fitness of the parent. It is one thing to require placement options in looking at what is in the best interest of the child, which is, indeed, already in statute. But in terms of requiring the court to look at whether or not there could be a placement option for the child in determining the fitness of the parent is just really, really wrong, and I urge you to vote no on this bill just because of that one clause.

ASSEMBLYMAN OHRENSCHALL:

I rise in opposition to Senate Bill 303. In our country you are innocent until proven guilty, and what I find very troubling that no one else has spoken to, in addition to other sections of the bill, is section 4, subparagraph 7, the new language on page 5. It talks about how a court must consider suspicions—not a conviction, not an adjudication. I was taught in law school that we are innocent until proven guilty. If you show me an adjudication, if you show me a substantiated report, that is different. But suspicions? That is where I think we have to draw the line.

I urge defeat of this measure. I know it is well intentioned, but there is data that shows that children do well when they are reunified with their families, not when they are in a place like Child Haven or taken away. If we can get the families back together, children will do a lot better.

ASSEMBLYMAN PAUL ANDERSON:

I rise in support of Senate Bill 303. I appreciate the comments that have been made today. Senate Bill 303 adds additional items that a court may consider when considering reunification with the family. I think the key here is the bill is subject to moving to the needs of the child versus looking more closely at the needs of the parents. That is a key factor in this bill and I would urge this body's support.

Senate Bill 390 gives a preference for enrollment at a charter school to students attending a public school that is overcrowded by 25 percent or more or is a one- or two-star performing school. If offered, the students residing within two miles of the charter school will have the first option for enrollment. Additionally, each school district is required to post on its website a list of schools in the district that are overcrowded by 25 percent or more. This bill is effective on July 1, 2015.

Senate Bill No. 390 having received a constitutional majority, Mr. Speaker declared it passed.

Bill ordered transmitted to the Senate.

Senate Joint Resolution No. 1.

Resolution read third time.

Remarks by Assemblymen Stewart, Elliot Anderson, Ohrenschall, Ellison, Hansen, Gardner, and Carlton.

ASSEMBLYMAN STEWART:

Senate Joint Resolution 1 urges Congress to enact legislation transferring title to certain public lands to the state of Nevada in accordance with the report prepared by the Nevada Land Management Task Force. The Nevada Land Management Task Force recommended certain lands that would be transferred to Nevada and also exempted certain other lands. As we know, the federal government owns approximately 85 percent to 87 percent of our lands, and this would be a way of getting some of those lands back to us. I strongly urge passage.

ASSEMBLYMAN ELLIOT ANDERSON:

I respectfully rise in opposition to Senate Joint Resolution 1. People think this sounds good, but there are a lot of unintended consequences of having to manage all this land. Right now the federal government has a number of environmental mandates in place that will not change if we take title to the land. Instead, we will be on the hook for managing that land. For example,

although the Carpenter 1 area was not a part of the Land Management Task Force report, the cost of firefighting for that one fire was \$25 million. For a state that has a small tax base and has a number of issues we have to deal with, this really does not make a lot of sense for us. At worst, we could find costs become exorbitantly higher and we wind up selling off a lot of this land. I do not think we are going to get a lot of money for most of it so what will happen is a loss of public use. Land that is managed for the benefit of multiple uses for all Nevadans is really at risk if Congress moves this way after our encouragement. For those reasons, I ask the body to defeat Senate Joint Resolution 1.

ASSEMBLYMAN OHRENSCHALL:

I rise in opposition to Senate Joint Resolution 1. As you know, you and I and my colleague from Assembly District 15 were here last session. We supported Assembly Bill 227, the study to look at trying to turn over some of the land to the state to see if we could better manage and use it. My concern with S.J.R. 1 is that I think if the proposal had been more narrow, if it had looked at rights-of-way that the federal government currently has, maybe that would be something I could support as I supported Assembly Bill 227 last session. But looking at how S.J.R. 1 is written, I am very concerned about what would happen. The burden on the taxpayers if this land were turned over to the state—there were a lot of issues in the committee that were never resolved. We asked about the management of the wild horses and burros; we asked about water rights, mining rights, and easements. These were not answered. The cost of firefighting that right now the federal government is picking up the tab on was not answered, either.

Mr. Speaker, you and I have been here with special sessions with budget crises where it was proposed to close all of our state parks because we could not afford to keep them open. I am concerned that even though we may have the best of intentions, down the line a decade or so if these lands are turned over to the state and if we are in another financial pickle, it will be closing down Lehman Caves or Lamoille. It is going to be things we would not want to see. We have sold state lands this session to try and preserve Stewart Indian School, and I am very concerned that these lands could be a source of funding in terms of their sale. Arizona has done this. The comparison was made in the committee with New Mexico, but New Mexico has oil and gas reserves that are not on these lands and would not be available to us for income.

Unfortunately, I think this is far too broad. If it were written more narrowly, it might be something I could support, but as it is, I think that we are in danger of losing a lot of our treasured public lands. It would hurt our constituents, our sportsmen, and people who just want to be able to go out and see a beautiful mountain or a valley.

ASSEMBLYMAN ELLISON:

I rise in support of Senate Joint Resolution 1. The July 2014 report of the Nevada Land Management Task Force concluded that our state could generate significant net revenue if afforded the opportunity to manage and expand the state lands portfolio. As it is well known the federal government owns more than 85 percent of the land. Senate Joint Resolution 1 simply requests from Congress some of it back for economic development and education. The Land Management Task Force spent a lot of time out there last summer. Seventeen counties came back in strong support of this. It gives access, it gives hunting, it gives ranchers rights, it gives water. Everything that could have been addressed was addressed in that study, so I strongly ask my colleagues to support S.J.R. 1.

ASSEMBLYMAN HANSEN:

I rise in strong support of Senate Joint Resolution 1. I want to echo what my colleague from Elko has said. I am probably the most active sportsman in this body, having spent more time on Nevada's public lands than anyone in the building. I am a strong supporter because slowly but surely, it is the federal government that is squeezing the sportsmen out of these areas of the state.

Obviously, we are not going to make up our minds in one brief hearing here, so I would urge my colleagues to read the report. I have copies of that report that my colleague from Elko mentioned; I probably have 20 of them. Seventeen different counties got together and studied these issues in great detail and compared some of the other states in the West to what we have here. All the states have found that when they have state public lands, it has been a tremendous benefit for these states, financially and otherwise. I would urge the passage of the Senate Joint

Resolution 1 and encourage my colleagues to read the details of the report that was done, by all those people who worked so hard. By the way, the report was denied to the Public Lands Committee. We were supposed to have a hearing on that, and the chairman shut that down. To me that was disgraceful because what we want is informational opportunities. In light of the refusal to even hear that, I would encourage my colleagues to come by my office. I will be happy to provide copies of that. It is a very detailed report and I think will alleviate a lot of the concerns that have been suggested today. I urge my colleagues to support S.J.R. 1.

ASSEMBLYMAN GARDNER:

I rise in support of Senate Joint Resolution 1. I find it hard to believe that we have so much of our land owned by the federal government without us having access to it. If you look at most states east of the Rockies, about 3 percent of their states are owned by the federal government. If you look west of there, we are by far the most federally owned. Even California only has about 40 percent of its state owned. If it is such good economic policy to have that much of your state owned by the federal government, why does nobody else have that? Shouldn't they be wanting to give their land back to the federal government if we are getting such an economic boon for not having it? For that reason, I am voting in strong support of Senate Joint Resolution 1.

ASSEMBLYWOMAN CARLTON:

I rise in opposition to Senate Joint Resolution 1. As a former member of the Public Lands Committee and former Chair of the Public Lands Committee, I can say this issue was thoroughly vetted. I believe it was on almost every agenda we had. It was included in the work session document, but it was not processed. Just because you are in the work session document does not mean you are going to get a vote, and it does not mean it is going to be in your favor. I have the report pulled up in front of me; you can get it online if you need to. The minutes of the meeting are not available yet; I did check on that. It even says in the report, "The task force acknowledges concerns over the extent to which wildfire suppression costs may challenge the ability of the State of Nevada to adequately protect and expand state land area and simultaneously generate net revenue."

We can talk about the money, that is pretty common sense. On the second side of this, I like the way Nevada is now. I enjoy it. I came from back East. I love the fact that these lands have been protected for me and for my children, and it is my job to do that for the next generations. I am not here to sell off their inheritance and their public lands. That is not up to me.

I understand the concerns about this. I was more than willing to talk to the Senators on the other side about the checkerboard lands that need to be addressed. I think if we really want to take a bite off of something, that is the thing we need to do. That would make a huge difference in the state, and we could address some real issues. But to just send this letter to Congress—basically a letter to Santa Claus saying Oh by the way, we want our money—I do not think this is a constructive way to approach this very important issue in this state. It is way too broad, and we should focus on the issues we can actually accomplish in the future.

ASSEMBLYMAN STEWART:

A previous Legislature urged a study, a committee was formed, they did the study. In their early meetings, they were not unanimous. There was some of the same disagreement that was brought up here, but in the end, they were unanimous. I urge you to go on the recommendation that these very wise people, who got together over a period of many months, came up with.

Assemblymen Ellison, Dickman, and Kirner moved the previous question.

The question being the passage of Senate Joint Resolution No. 1.

ASSEMBLYMAN STEWART:

Senate Joint Resolution 2 urges Congress to enact legislation requiring the sharing of federal receipts from all commercial activity occurring on Nevada's public lands with the state.

With all these lands that are owned by the federal government, there is some considerable commercial value coming out of them, and all we are asking here is that the state of Nevada get a portion of that money coming from these federal lands in Nevada.

ASSEMBLYMAN ELLIOT ANDERSON:

I rise in support of Senate Resolution 2. Just following up on our last conversation, I think this is the smart way to deal with our federal lands. This is the have-our-cake-and-eat-it-too approach. We do not have to pay any of the costs and we get all of the benefits. I would urge the body's support.

ASSEMBLYMAN MUNFORD:

Senate Joint Resolution 4 urges the United States Congress to pass the Marketplace Fairness Act, which would provide the states with the authority to require out-of-state retailers, such as online and catalog retailers, to collect and remit sales tax on purchases shipped into the state. The resolution is effective upon passage.

ASSEMBLYWOMAN SEAMAN:

I stand in opposition to misleadingly titled Marketplace Fairness Act. It is nothing more than a job-killing tax hike, plain and simple. I urge all my colleagues to vote no.

Senate Joint Resolution No. 5.

Resolution read third time.

Remarks by Assemblywomen Shelton and Seaman.

ASSEMBLYWOMAN SHELTON:

Senate Joint Resolution 5 expresses the Nevada Legislature's support of the 2014 Nevada Greater Sage-Grouse Conservation Plan prepared by the Sagebrush Ecosystem Council and confirms the Legislature's confidence in the ability of the state of Nevada to effectively conserve the greater sage-grouse and the sagebrush ecosystem.

The resolution requests the Bureau of Land Management [BLM] and the United States Forest Service [USFS] to adopt the Conservation Plan as the preferred management alternative for greater sage-grouse in Nevada. Moreover, the resolution urges Congress to intervene if the BLM and USFS do not follow the guidance of the resolution, and if so, urges Congress to enact legislation to extend for a period of ten years a decision on a sage-grouse listing to allow the implementation of the Conservation Plan.

Finally, Senate Joint Resolution 5 urges the U.S. Fish and Wildlife Service to not list the greater sage-grouse as endangered or threatened under the Endangered Species Act of 1973. The resolution is effective upon passage.

ASSEMBLYWOMAN SEAMAN:

I rise in support of Senate Joint Resolution 5. The Nevada Greater Sage-Grouse Conservation Plan we adopted takes into account all the scientific information available and recognized expertise from local stakeholders to preserve sage-grouse here in Nevada. I urge your support of Senate Joint Resolution 5 so Nevadans can continue to come up with our own solutions here in this state.
