AN ACT relating to health care; making certain provisions relating to the licensing and regulation of a medical facility applicable to a program of hospice care; revising the definition of the term “psychiatric hospital”; requiring persons who operate or work for psychiatric residential treatment facilities and certain psychiatric hospitals to undergo a criminal background check; revising certain administrative penalties; authorizing the Division of Public and Behavioral Health of the Department of Health and Human Services to take certain actions concerning a facility required by regulation of the State Board of Health to be licensed; amending the procedure by which the Division may impose a penalty or seek an injunction against certain persons; and providing other matters properly relating thereto.

Legislative Counsel's Digest:
Existing law requires: (1) each medical facility to be licensed by the Division of Public and Behavioral Health of the Department of Health and Human Services according to standards adopted by the State Board of Health except in certain circumstances; and (2) each program of hospice care to be licensed by the State Board of Health. (NRS 449.030, 449.0302) Section 1 of this bill includes a program of hospice care in the definition of “medical facility” for the purposes of the provisions relating to licensing, and section 3 of this bill removes the separate licensing requirement for a program of hospice care. Sections 1 and 3 therefore provide for a program of hospice care to be licensed and regulated in the same manner as a medical facility. Sections 4-8, 13, 14, 17 and 18 of this bill make conforming changes.

Section 2 of this bill amends the definition of “psychiatric hospital” to remove the requirement that a hospital for the diagnosis, care and treatment of mental illness must provide residential care in order to be considered a psychiatric hospital. Existing law: (1) requires persons who apply for a license to operate certain facilities, hospitals, agencies, programs or homes and persons employed to work for such a facility, hospital, agency, program or home to undergo a criminal background check; and (2) prohibits a person from being licensed to operate or employed to work for such a facility, hospital, agency, program or home if he or she has been convicted of certain crimes. (NRS 449.089, 449.119-449.125, 449.174) Sections 8, 9-12 and 15 of this bill provide that persons who apply for a license to operate a psychiatric hospital that provides inpatient services to children or a psychiatric residential treatment facility and persons employed to work at such a psychiatric hospital or a psychiatric residential treatment facility are subject to those provisions. Sections 1.6, 1.9, 3-8, 13, 17 and 18 of this bill make conforming changes.
Existing law authorizes the State Board of Health to adopt regulations requiring the licensing of facilities that provide medical care or treatment that are not required by statute to be licensed. (NRS 449.0303) Section 4 of this bill clarifies that such facilities are not required to be licensed if they are operated by the United
Sections 7.3, 7.6, 8.5, 12.5 and 14 of this bill provide for the inspection of, issuance of a provisional license to and imposition of discipline against such a facility under the same circumstances as a medical facility or facility for the dependent. Section 14.6 of this bill authorizes the Division of Public and Behavioral Health of the Department of Health and Human Services to take control of and ensure the safety of the medical records of such a facility if the facility ceases to operate.

Existing law: (1) authorizes the Division to impose a maximum administrative penalty of $1,000 per day against a medical facility or facility for the dependent that violates certain provisions of law; and (2) establishes the minimum and maximum authorized amounts of such a penalty for a violation relating to the health or safety of a patient. (NRS 449.163) Section 14 of this bill: (1) additionally authorizes the imposition of administrative penalties against a facility that is required by the regulations of the Board to be licensed; (2) increases the maximum civil penalty imposed for any violation to $5,000 per day; and (3) removes the minimum and maximum penalty for a violation relating to the health or safety of a patient. The general penalty provisions would apply to any violation relating to the health and safety of a patient. Section 14.3 of this bill requires the Board to adopt regulations establishing an administrative penalty to be imposed when a facility commits a violation that causes harm or a risk of harm to more than one person.

Existing law prescribes the procedure by which the Division may impose a civil penalty or seek an injunction against a person operating a medical facility or a facility for the dependent without a license and the amount of a civil penalty that may be imposed against such a person. (NRS 449.210, 449.220) Existing law also prescribes a different procedure by which the Division may impose a civil penalty or seek an injunction against a person operating a facility for refractive surgery without a license and the amount of a civil penalty that may be imposed against such a person. (NRS 449.24897) Sections 16 and 19 of this bill standardize the procedure by which the Division may seek an injunction and the imposition of a civil penalty against a person operating a medical facility, including a facility for refractive surgery, a facility for the dependent or a facility that is required by the regulations of the Board to be licensed without a license and the amount of the civil penalty that may be imposed against such a person. Section 16 also eliminates certain uses for money collected from persons found to have operated a medical facility, facility for the dependent or a facility that is required by the regulations of the Board to be licensed without a license.

   (b) The residents of the facility reside in their own living units which:

(a) Facilities that only provide a housing and living environment; 

(b) Facilities that provide or arrange for the provision of supportive services for residents of the facility to assist the residents with reintegration into the community, in addition to providing a housing and living environment; and

(c) Facilities that provide or arrange for the provision of alcohol and drug abuse programs, in addition to providing a housing and living environment and providing or arranging for the provision of other supportive services.

The regulations must provide that if a facility was originally constructed as a single-family dwelling, the facility must not be authorized for more than eight beds.

11. As used in this section, “living unit” means an individual private accommodation designated for a resident within the facility.
