Senate Bill No. 120, as amended, makes various revisions to the nine-member Advisory Committee on Problem Gambling, including that two members must be Qualified Mental Health Professionals as defined in *Nevada Revised Statute* (NRS) chapter 458A, and at least one of those members must be a practicing problem gambling counselor, certified pursuant to NRS Chapter 641C.

Senate Bill No. 120, as amended, also revises the duties of the Advisory Committee to include providing advice and information to the Governor, the Legislature, the Department of Health and Human Services (Department) and other state agencies regarding issues and trends in the area of problem gambling; to review and make recommendations for granting money or contracting for services for the treatment and prevention of problem gambling; review reports by the Department regarding the evaluation of the problem gambling program; and assist in the research and development of plans to fund and provide services for the program.

NAYS—None.

Senate Bill No. 120 having received a constitutional majority, Mr. President declared it passed, as amended.

Bill ordered transmitted to the Assembly.

Senate Bill No. 315.

Bill read third time.

Remarks by Senators Farley and Settlemeyer.

SENATOR FARLEY:

Senate Bill No. 315, as amended, requires that a county whose population is 100,000 or more shall maintain a waste diversion rate of at least 25 percent effective 2025. To achieve the 25 percent rate, counties whose population is 100,000 or more shall maintain waste diversion rates of 23 percent by 2023, 24 percent by 2024, 25 percent by 2025 and 25 percent for all years thereafter. Senate Bill No. 315 requires that the State Environmental Commission shall adopt regulations to require each county whose population is 100,000 or more to report its waste diversion rate for each calendar year. Finally, Senate Bill No. 315 requires the State Environmental Commission to adopt, by regulation, a recycling goal of at least 35 percent.

SENATOR SETTELMEYER:

Senate Bill No. 315 has been through many revisions and came out of the Committee on Natural Resources without recommendation and then went to the Committee on Finance. One of the things that was discussed was that in the north, we have had problems with the definition of food waste. The bill now applies only to Clark County, but there was much discussion trying to resolve that definition because in the north food waste is part of the franchise agreement which means individuals who are trying to divert food waste from going to a land fill are not being able to do so. I find that problematic. I hope this can be corrected on the other side but am skeptical due to the numerous iterations this bill has gone through. I have voted yes on several bills which are now very different on the other side, and I am receiving emails about that, so I will be voting no on this bill.

Senate Bill No. 487.

Bill read third time.

Remarks by Senator Ratti.

Senate Bill No. 487 transfers the responsibility for licensing and regulation of medical marijuana establishments to the Department of Taxation. The bill creates a streamlined and parallel taxation system for recreational and medical marijuana by eliminating the 2/2/2 percent tax and adding a 15 percent wholesale tax on medical. It accounts for \$10,000,000 to be distributed to local governments to address local costs; imposes a 10 percent excise tax on retail recreational marijuana; specifies that counties, cities and towns are authorized to impose a license tax on both recreational and medical marijuana establishments in an amount not to exceed 3 percent of the gross revenue of the establishment; and limits what can be regulated at the local level. Finally, it requires all medical and recreational marijuana establishments to report certain statistical information to the Department of Taxation related to the amounts, types and prices of marijuana and marijuana products purchased or sold and allows for the issuance of new licenses in certain situations.

Motion carried.

Bill read third time.

Remarks by Senators Ford, Hammond, Hardy, Segerblom, Settelmeyer and Spearman.

SENATOR FORD:

I am disappointed to see the last vote on Senate Bill No. 487. Last November, voters made a strong statement in favor of the legalization of recreational marijuana, in part because they were promised the new marijuana industry would create a financial windfall for public education. As

Legislators, it is now incumbent upon us to implement the will of the voters and ensure the success of the recreational marijuana industry. That includes implementing a tax and regulatory structure that allows this new industry to flourish and keep the promise of providing a new source of funding for public schools.

Governor Sandoval recognized this opportunity even though he was opposed to Proposition 2. As part of his budget, he sent us a proposal to implement a 10 percent excise tax, with those proceeds directed toward the Distributive School Account for public schools. What we have before us today is the opportunity to create a new funding stream that will put tens of millions of dollars directly into our public schools. The Governor's proposal is the centerpiece of Senate Bill No. 487. I am proud of the hard work done on this bill. The partnership and collaboration between the Senator from District No. 13, the marijuana industry and the Governor's Office has crafted a bill that creates a streamlined tax structure for our entire marijuana industry. We have balanced the needs of our medical and recreational marijuana sectors. We have accommodated the needs of local governments by allowing for local business license fees with reasonable limits. We have set aside more than \$60,000,000 in new funds for public education. We are setting an effective tax rate that will ensure the legal market will grow will limiting the potential for black market growth. This is good public policy, Democrats know it; Republicans know it; and most importantly, your constituents; Nevadans, know it. There is no good reason to oppose this bill.

Our budget is built around the marijuana taxes proposed in Senate Bill No. 487. If we do not pass this bill, we create a hole in our budget. Not only will we be failing to follow through on the promises made to Nevada's public school students and their families, but we will be forced to look at budget reductions in other important areas. I will highlight some of the educational items dependent on your vote in this chamber which inform the ultimate shape of our budget: Senate Bill No. 178 to move forward the weighted funding formula for our students; Assembly Bill No. 77 regarding comprehensive teacher licensing revisions; Senate Bill No. 19, the Governor's initiative to expand dual credit courses; Senate Bill No. 212, to expand and improve our State's Safe to Tell School Suicide Response System; Senate Bill No. 200 which requires computer and technology instruction; Senate Bill No. 303 which audits K-12 student assessments; Senate Bill No. 391 which creates the Nevada Promise Scholarships and the appropriation for the current SSOG grant, shepherded through by the Senator from District No. 16; and Senate Bill No. 249 which relates to financial literacy.

We in this Chamber share many priorities we would like to see funded, many of which we cannot consider without passing this bill, whether it is to fund school libraries or establish a leadership development program for public school students. These and other educational programs that could enrich the learning experience will likely suffer if we are forced to make cuts from this budget.

But these cuts go beyond educational programs, the Rural Airport Bill supported by the Senator from District No. 19; dental services for veterans promoted by the Senator from District No. 12; the new university engineering building embraced by the Senators from Districts No. 15 and 16; our mental health programs in the north and south that are acknowledged by all to be critically important; and our ability to increase the caseload for the Autism Treatment Assistance Program, a cause championed by the Senator from District No. 16, will all be jeopardized by a no vote on this bill. These are just some of the projects and programs that could be at risk if we are forced to reopen and rework the budget. I have to believe no one wants that, but I could be wrong.

We as Senators, and our constituents will find out with this next vote on Senate Bill No. 487. Passing this bill today will ensure we have the revenue we need to balance the budget, increase public school funding and maintain other essential priorities that will help better the lives of hardworking Nevadans and their families. I urge your support.

SENATOR HAMMOND:

It is disingenuous to discuss all the things we could have. The bill that was mentioned was mine, and there was never any intention for it to get out of the Committee on Finance. We all know what is being said and what some of the actions are that are being taken today. It is disingenuous to lecture everyone on what the vote means; we know what it means.

SENATOR HARDY:

It is not always good public policy where the ends justify the means.

SENATOR SEGERBLOM:

In the last two years, we voted on a \$1.3 billion tax credit for Tesla and then came back for Faraday and last fall for \$750,000,000 for a football stadium. We have an industry that has invested hundreds of millions of dollars and is asking to pay a tax. They are not fighting it; they are asking to pay the tax for education like the voters approved last November. The fact you would vote against this is the ultimate of hypocrisy given the previous votes that have been made to give away billions of dollars and the fact this State is desperate for revenue. I urge you to reconsider voting against this bill.

SENATOR SETTELMAYER:

I understand the concept of raising taxes on the substance considering it will bring a cost to the State. I disagree with the concept of where the money is going. The concept of pot for tots is one I cannot vote for.

SENATOR SPEARMAN:

We talk about what we do and what we could do if we had the funds. It is incumbent upon us to understand that the voters have spoken. We came up here three times and gave tax breaks to others. Here is an industry that wants to help us improve public education and the quality of life for all students and Nevada. I am voting yes because I understand what the citizens said.

per licensed teacher in grade 3 in Fiscal Year 2017-2018 and Fiscal Year 2018-2019.

2. Certain school districts do not have a sufficient number of classrooms available to permit an average class size of 20 pupils per licensed teacher in grade 3.

3. It is unreasonable to assign 2 licensed teachers to classrooms of 40 pupils to attain a district-wide pupil-teacher ratio of 20 pupils per licensed teacher in grade 3.

4. School districts may, instead, attain the desired pupil-teacher ratio in classes where core curriculum is taught by using alternative methods of reducing the ratio, such as employing licensed teachers to provide remedial instruction.

5. School districts may wish to use money for class-size reduction to carry out programs that have been found to be effective in improving academic achievement.

6. The Legislature has specifically designed the laws relating to class-size reduction to allow the local school districts the necessary discretion to effectuate the reduction in the manner appropriate in their respective districts.

7. School districts are encouraged, to the extent possible, to further reduce the pupil-teacher ratio in each classroom in the district for grades 1, 2 and 3 for which additional funding is provided.

8. The Legislature intends to continue the reduced pupil-teacher ratio for grades 1, 2 and 3 throughout the State.

Sec. 12. 1. The Department of Education shall transfer from the State Distributive School Account the sum of \$147,445,963 for distribution by the Superintendent of Public Instruction to the county school districts for Fiscal Year 2017-2018 which must, except as otherwise provided in section 14 of this act, be used to employ licensed teachers to comply with the required ratio of pupils to teachers in grades 1, 2 and 3, as set forth in subsection 1 of section 11 of this act. Expenditures for the class-size reduction program must be accounted for in a separate category of expenditure in the State Distributive School Account.

2. Except as otherwise provided in section 14 of this act, the money transferred by subsection 1 must be used to pay the salaries and benefits of not less than 1,944 licensed teachers employed by school districts to meet the required pupil-teacher ratios in the 2017-2018 school year.

3. Any remaining balance of the money transferred by subsection 1 must not be committed for expenditure after June 30, 2018, and must be transferred and added to the money appropriated to the State Distributive School Account pursuant to section 3 of this act for Fiscal Year 2018-2019, and may be expended as the money in section 13 of this act is expended.

Sec. 13. 1. The Department of Education shall transfer from the State Distributive School Account the sum of \$152,142,582 for distribution by the Superintendent of Public Instruction to the county school districts for Fiscal

Expenditures for the class-size reduction program must be accounted for in a separate category of expenditure in the State Distributive School Account.

2. Except as otherwise provided in section 14 of this act, the money transferred by subsection 1 must be used to pay the salaries and benefits of not less than 1,968 licensed teachers employed by school districts to meet the required pupil-teacher ratios in the 2018-2019 school year.

Sec. 14. 1. The board of trustees of each school district:

(a) Shall file a plan with the Superintendent of Public Instruction describing how the money transferred pursuant to sections 12 and 13 of this act will be used to comply with the required ratio of pupils to teachers in grades 1, 2 and 3; and

(b) May, after receiving approval of the plan from the Superintendent of Public Instruction, use the money transferred pursuant to sections 12 and 13 of this act to carry out:

(1) An alternative program for reducing the ratio of pupils per teacher, including, without limitation, any legislatively approved program of flexibility; or

(2) Programs of remedial education that have been found to be effective in improving pupil achievement in grades 1, 2 and 3, so long as the combined ratio of pupils per teacher in the aggregate of kindergarten and grades 1, 2 and 3 of the school district does not exceed the combined ratio of pupils per teacher in the aggregate of kindergarten and grades 1, 2 and 3 of the school district in the 2004-2005 school year.

↪ The plan approved by the Superintendent of Public Instruction must describe the method to be used by the school district to evaluate the effectiveness of the alternative program or remedial education programs in improving pupil achievement.

2. In no event must the provisions of this section be construed to authorize the board of trustees of a school district in a county whose population is 100,000 or more to develop an alternative plan for the reduction of pupil-teacher ratios pursuant to subsection 2 of NRS 388.720.

(d) Must fund the student-to-teacher ratios associated with the type of class-size reduction program implemented, with authorization to distribute residual class-size reduction program funds to underperforming schools with approved class-size reduction variances.

2. The money transferred for class-size reduction pursuant to sections 12 and 13 of this act must not be distributed to a school district unless that school district has:

(a) Filed with the Department of Education a plan required by NRS 388.720 for achieving the required ratio set forth in NRS 388.700; and

(b) Demonstrated that, from resources of the school district other than allocations received from the State Distributive School Account for class-size reduction, a sufficient number of classroom teachers have been employed to maintain the average pupil-teacher ratio that existed for each grade for grades 1, 2 and 3, in that school district for the 3 school years immediately preceding the start of the class-size reduction program in the 1990-1991 school year.

The money committees approved federal funding of \$673,000 over the 2017-19 biennium to support the addition of three new DPS Officer positions for federal Motor Carrier Safety Assistance Program activities.

The money committees approved the addition of 31 non-sworn positions in FY 2018 and one additional non-sworn position in FY 2019 to provide court-related services and pre-sentence investigations, and adjust P&P specialist staffing ratios, resulting in additional funding of \$3.9 million over the 2017-19 biennium, including an increase in county reimbursements of \$2.7 million. As recommended by the Governor, the money committees approved federal funds of \$152,000 over the 2017-19 biennium to add an Interoperability Coordinator position to provide a single point of contact of interoperability emergency communications to the State of Nevada.

The money committees approved reserve funding of \$4.3 million over the 2017-19 biennium for the third phase of the Nevada Criminal Justice Information System Modernization Project. The money committees also approved reserve funding of \$114,000 in FY 2018 to support eight additional months of the Disposition Backfill Project.

The money committees approved decommissioning the Elko Communications Center, eliminating four and transferring five Public Safety Dispatch positions to the Carson City Communications Center and reducing cost allocation reimbursements by \$663,000 over the

2017-19 biennium, as recommended by the Governor. The money committees also approved transferring the Warrants Unit to the Nevada Highway Patrol budget and reducing cost allocation transfers of \$1.2 million over the 2017-19 biennium.

For the Department of Conservation and Natural Resources, the money committees authorized total funding of \$194.0 million over the 2017-19 biennium. The money committees approved language in the Authorizations Act to allow funds in the Account to Restore the Sagebrush Ecosystem remaining at the end of FY 2017 to be balanced forward to FY 2018 and to specify that remaining funds do not revert to the General Fund. Further, the money committees approved establishing revenue and expenditure authority for the Account to Restore the Sagebrush Ecosystem budget totaling \$2.0 million over the 2017-19 biennium.

The money committees approved the Governor's recommendation for budgetary changes to the Off-Highway Vehicle Program, which include consolidating funding for the Off-Highway Vehicle grants into one category, establishing a 90-day reserve, and funding for board and commission pay, contingent upon the passage of Assembly Bill 29 or other enabling legislation.

For the Division of Environmental Protection, the money committees approved the Governor's recommendation to establish a new Storm Water Branch under the Bureau of Water Pollution Control and the addition of two new positions and one reclassified position funded with fees totaling \$526,000 over the 2017-19 biennium. In addition, the money committees approved the Governor's recommendation of \$527,000 for the division's Storm Water Program.

The money committees authorized funding to modify the department's information systems to implement license simplification measures contained in Senate Bill No. 511. The money committees also authorized Sportsmen Revenue totaling \$69,000 to replace the department's current email and outreach marketing system and \$40,000 for equipment, travel and training to establish a Wildlife/Human Attack Response Team within the department. Additionally, the money committees authorized \$50,000 in each year of the 2017-19 biennium to create a comprehensive, centralized, web-accessible database to allow better access to the department's science-based data. Finally, the money committees approved two new Biologist positions: one for the Game Management budget to address increasing urban wildlife conflicts and provide support for other department surveys, and one to be stationed at the Bureau of Land Management's Ely Seed Warehouse.

For the Department of Transportation, the money committees authorized funding of \$678.2 million in FY 2018 and \$669.5 million in FY 2019, including \$419.8 million in FY 2018 and \$416.2 million in FY 2019 to support highway and other capital construction. The money committees approved 19 new positions for the department, including 10 positions to establish a new maintenance crew in Southern Nevada and a new maintenance crew in Northwestern Nevada. The money committees also approved the Governor's recommendation for the sale of highway revenue bonds of \$180.0 million in FY 2018 to complete construction of Project NEON in Las Vegas to improve traffic flow in the spaghetti bowl area.

The money committees authorized a total of \$476.1 million in FY 2018 and \$476.9 million in FY 2019 for the Public Employees' Benefits Program. With the exception of modifying enhanced Health Savings Account/Health Reimbursement Arrangement contributions to be tied to the completion of preventive services, the plan design for the 2017-19 biennium did not change significantly from FY 2017, the current plan year. The money committees approved the Governor's recommendation, as amended, for a plan benefits design that shifts a number of enhanced benefits to the base plan design funded with State contributions and participant premiums and a revision in the percentage of group insurance costs that are funded by the State.

Although the Governor did not recommend modifying non-state, non-Medicare retiree premiums, the money committees approved aligning the monthly premium paid by a non-state, non-Medicare retiree with a similarly participating (same plan and tier) State non-Medicare retiree effective July 1, 2017, which would lower monthly premiums for non-state, non-Medicare retirees and require local governments to contribute additional funding in support of their retirees, with increased local government support phased in over a four-year period, contingent upon the passage and approval of enabling legislation. Finally, as approved by the money committees, the State's contribution for active employee group insurance will be \$743.00 per month for FY 2018 and \$740.92 per month for FY 2019. The State's base subsidy

for non-Medicare retiree health insurance will be \$445.03 in FY 2016 and \$451.23 in FY 2017. For Medicare retirees, the base subsidy will be \$12 per month per year of service credit.

The money committees approved a budget amendment to eliminate 37 State Army Military Security Officer positions and authorize federal funds of \$1.2 million for contract security each year of the 2017-19 biennium and \$370,000 per year for additional contract costs that may be needed for increased security threats or for physical security improvements at bases throughout the State.

The money committees authorized funding of \$55.0 million over the 2017-19 biennium for the Department of Veterans Services, which is 0.8 percent less than the amount authorized in the 2015-17 biennium. Additionally, the money committees approved transferring \$2.0 million from the Southern Nevada Veterans Home to the new Northern Nevada Veterans Home in Sparks, which has an anticipated completion date of December 2018.

The money committees authorized revenues of \$54.3 million over the 2017-19 biennium and did not approve the Governor's recommendation to transition the Exchange to a privately developed health insurance exchange but instead directed the agency to continue using Healthcare.gov as its technology platform. Accordingly, the money committees approved funding of \$6.2 million in FY 2018 and \$9.3 million in FY 2019 to remain on Healthcare.gov and directed the agency to approach the 2019 Legislature or the Interim Finance Committee as necessary, with a plan to transition to a private exchange if it is determined to be in the best interest of the State.

SENATOR HARRIS:

I sit on the board of a non-profit, low-income manufactured housing entity, and I have abstained from votes on those accounts during Committee meetings because it was unknown how those votes would impact the entity. My vote today is on the budget in general, but I will be abstaining from those accounts in particular as I have during the entire Session.

SENATOR ROBERSON:

On January 24, 2017, I put out a statement that read: "The ESA program is crucial to ensuring Nevada families have every opportunity to provide their children with the education that best fits their needs. This program was passed into law in 2015 and found to be constitutional by the courts. Now, Governor Sandoval has included \$60,000,000 in his Executive Budget for ESAs. If Democrats in the Legislature do not want to come to the table in good faith and have this discussion, that is their prerogative, but let me make this absolutely clear, I will not vote for a final budget that does not include funding for ESAs. No ESA funding, no budget." Nothing has changed on June 1, 2017; therefore, I will be voting no today.

SENATOR SPEARMAN:

I am glad my colleague from District No. 20 mentioned it is important to correctly fund schools for children. Throughout this Legislative Session there has not been a Health & Human Services Committee meeting where my heart has not been broken because we are not doing the right thing for the members of our communities who are differently abled. We considered a bill yesterday that had to be scaled back because the funding requested would have expanded the program to include those who are blind or visually impaired. We are not those people. We are not. Should we be voting on a budget that includes funding for private schools? I cannot support money going to private schools while we have members of our differently abled community who have no school. We do not have a school here for the deaf, hard of hearing, speech impaired, blind or visually impaired. Who are we when we do not consider that first? School choice? The parents of these children have no choice except to send their children out of State, and that is wrong. We should be discussing how we are going to build a school for the deaf, hard of hearing, speech impaired, blind and differently abled. I am appalled we have not considered that before now. These parents deserve that. We can find money to expand vouchers for private schools, but we cannot find money to build a school for those who are differently abled?

For the last two months I have been working with Gary Folsom to identify ways to get money to fund a new commission for the blind, deaf, hard of hearing and speech impaired. How can we fund a new commission to advocate on behalf of these students? We have whittled it down to a cost of \$25,000, less than 4 percent of what we are talking about giving to private schools. We

have not been able to find \$25,000 for our deaf, hard of hearing and speech impaired community, and yet we continue to talk about choice? But what do these parents do? We often hear it said that our schools are failing our children. We are failing the children who are differently abled. How do we exist as a State, when we have 8,410 students who are speech and language impaired, 524 who are hearing impaired, 1,992 who are hearing impaired? This is not right. If we have money to expand educational opportunities and we as a Body cannot look first at the differently abled communities, as my colleague Debbie Smith would say, shame on us! We cannot talk about private schools which exist in abundance when there are no schools for these students. Who are we? Who are we? We quibble about how to expand Medicaid payments. We have hospitals that treat the indigent and the poor and provide uncompensated care, yet we have money to expand private school education? We have a problem in this State addressing mental health issues and we quibble about how we are going to pay that and we scale back or move funds around? Who are we?

Governor Sandoval, in his 2015 State of the State address challenged us to lead. I rise, asking my colleagues to think about those parents who have no choice. Think about our differently abled communities. Think about expanding funding for Medicaid. Who are we? Do we answer the call to lead? I say we lead by prioritizing our funds for our differently abled community and those who are the least among us. We cannot have any other discussion until we discuss this first. It is unfair to them until we do.

SENATOR HAMMOND:

Some of my colleagues may not have carefully read the bill. We are not asking to fund more private or other schools; we are asking to fund students. This type of program has been instituted in Arizona for several years. Those students who have difficulties in school are getting the help they need, and parents are able to make choices. We have not been able to find the money suggested. Another bill suggests giving \$15,000,000 in tax credits to the movie industry; this would be a start in helping out in other areas. In January, I committed to the families who signed up for a program where they wanted a solution for their students, whether it be in a private or other school program. The ESA program allows parents to customize an education around their child's needs. That has not changed and will not change. I made a commitment, and today I will honor that commitment.

SENATOR ATKINSON:

I rise to echo the comments of my colleague from Senate District No. 1. We have differences in philosophy in this Body but we should not have a difference in educating our children. The children and communities I represent are not included in the ESA program. For the Minority Leader to say there will be no budget, without it does the Body no good. The voters made a decision in November and put us in charge based on the policies and ideas we presented. There should be relevance to that. The ESA does not sit well with me and some of my colleagues; some of us consider it a coupon for wealthy families. We do not like the challenge that we will be kept here without a budget because we will not fund coupons for wealthy families. I have been here for 57 extra days before, and I am willing to sit it out. If the Governor and the Minority Party wish to keep us here at an additional cost of \$55,000 a day to hand out coupons to wealthy families, you will have to answer to them. I know what we need to do, and our colleagues know what we need to do. But to threaten us? We must do the people's business and fund our budget as proposed. If not, I have been here for an extended time before.

Remarks by Senator Woodhouse.

Senate Bill No. 546 provides for the implementation of the 2017 Capital Improvement Program as approved by the money committees. The bill includes funding in the amount of \$354.1 million for the Capital Improvement Program. The bill includes the following major funding sources to support the program: \$201.4 million in general obligation bonds; \$48.3 million in agency and donor funds to support Nevada System of Higher Education, Department of Tourism and Cultural Affairs, Department of Wildlife and Department of Administration projects; \$48.0 million in General Fund appropriations; \$36.5 million in federal funds for Office of the Military projects; \$12.1 million in excess funding reallocated from projects approved in prior Capital Improvement Programs; \$4.3 million in State Highway Funds for Department of Motor Vehicles and Department of Public Safety projects; and \$3.5 million in slot tax funding from the Special Higher Education Capital Construction Fund.

Senate Bill No. 546 provides \$229.1 million to support 11 construction projects in the 2017 Capital Improvement Program. Notable construction projects include: 11.3 million to fund the Northern Nevada Correctional Center Americans with Disabilities Act (ADA) code compliance retrofit; 42.0 million to construct a new 57,825 square foot Department of Motor Vehicles south Reno facility; \$37.1 million to construct a new 78,000 square foot National Guard Readiness Center in North Las Vegas; \$84.7 to construct a new 86,242 square foot Engineering Building at the University of Nevada, Reno; and \$36.0 million to advance the construction of the new Northern Nevada Veterans Home in Sparks.

Senate Bill No. 546 provides \$97.4 million for various maintenance projects for existing State facilities; \$10.3 million for advance planning and design projects; and \$17.3 million for statewide projects, including roofing repairs, advance planning, paving, building official, fire and life safety and accessibility projects. The maintenance projects include approximately \$44.7 million for the Department of Corrections for replacement of HVAC systems, doors and locks, water systems, plumbing fixtures, air handling units and shower and restroom renovations; \$15.9 million to address deferred maintenance projects including central plant renovations, electrical, plumbing and cooling systems and a domestic and fire water system for the Department of Administration; and \$15 million to address deferred maintenance projects for institutions of the Nevada System of Higher Education.

The planning projects include: \$541,783 for the advance planning of a Southern Nevada Fleet Service Maintenance facility at the Grant Sawyer building; \$1.5 million for the advance planning of a new Housing unit at Southern Desert Correctional Center; \$4.4 million for the advance planning of a new Health and Sciences Building at the College of Southern Nevada; and \$3.5 million for the advance planning of a new Academic Building at the Nevada State College.

The bill includes a 15.45-cent property tax levy for debt service in each year of the 2017-19 biennium for general obligation bonds issued to finance the Capital Improvement Program. The bill includes an additional 1.55 levy that must be used exclusively for the repayment of bonded indebtedness issued as a result of the approval by the voters of Question 1 on the November 2002 ballot. The approval of Question 1 by the voters authorized the issuance of bonds not to exceed \$200 million to protect, preserve and obtain the benefits of the property and natural resources of the State. The total property tax levy of 17 cents remains unchanged from the levies approved for the 2015-17 biennium. The levies above the historic 15-cent levy (2 cents) are not subject to the \$3.64 local government property tax cap.

GENERAL FILE AND THIRD READING

Senate Bill No. 528.

Bill read third time.

Remarks by Senators Goicoechea and Denis.

SENATOR GOICOECHEA:

Senate Bill No. 528 appropriates \$100,000 from the State General Fund in each year of the 2017-19 biennium to the State's Fund for Aviation. The bill requires these funds to be used to match money that is available from the Federal Aviation Administration for the enlargement, improvement or maintenance of rural airports, landing areas or air navigation facilities in Nevada. Typically, \$4 of these matched dollars return \$96 in federal funds.

SENATOR DENIS:

I stand in support of Senate Bill No. 528. I have visited some of the rural airports and have seen what they have. The fact that we can help improve these airports with a small investment is great. I also thought that supporting the things in Senate Bill No. 546 such as building an engineering building for UNR, the Northern Nevada Veteran's Home, the Nevada State College education building and the CSN health science building was the right thing to do. We need to get down to business and vote for the things Nevada needs and stop playing political games. We need to support these types of bills that help our State as we move forward.

Assembly Bill No. 7 revises various provisions related to education. Among other provisions, the bill makes changes to conform with federal law and updates relevant statutory references. It revises provisions relating to annual reports of accountability, school plans for improving student achievement, assessments used to determine student achievement and end-of-course examinations.

The bill also makes various changes regarding high school diplomas, including a new requirement for the State Board of Education to prescribe the criteria for a student to receive a college and career ready high school diploma with certain endorsement options. To the extent money is available, Nevada's Department of Education will conduct a public awareness campaign regarding diploma options.

Assembly Bill No. 7 further revises provisions concerning the college and career readiness assessment taken by students in grade 11 and for what purposes the assessment may be used. The bill prohibits the counting of certain students in grade 12 as full-time students for apportionment purposes unless particular conditions are met. Assembly Bill No. 303 requires, with certain exceptions, that all correctional facilities in this State that house prisoners must be under the administrative and direct operational control of the State or a local government and core correctional services must be performed by employees of the State or local government.

The Department of Corrections, until June 30, 2022 is allowed to enter into one or more contracts with private entities to perform core correctional services to promote the safety of prisoners, employees of prisons and the public by reducing overcrowding in prisons. Any such entity must comply with the requirements for housing, custody, medical and mental health treatment and programming set forth in law and regulation and approved by the Board of State Prison Commissioners. The Department is required to conduct an onsite inspection of private facilities where prisoners are housed twice a year to ensure compliance. Conditions for the transfer of a prisoner to a facility that is located outside of Nevada are set. Lastly, the Director is required to submit an annual report to the Director of the Legislative Counsel Bureau for transmittal to the Legislative Commission.

Assembly Bill No. 327 changes the way records are sealed to simplify things. Now, if a person has a problem with a municipal court, district or justice court record, they have to go to each court to resolve it. This bill combines the actions so a person can go to a district court judge who has the power to seal all records. It also reduces the amount of time for sealing. Where a felony is now 15 years, it will be lowered to 10 years, for example, or the records can be sealed after serving a sentence and completing probation.

We heard testimony that there has not been an increase in their pay for over ten years and they need one.

SUMMARY—Revises provisions relating to emergencies in schools.
(BDR 34-196)

AN ACT relating to education; requiring school districts in certain counties to appoint an emergency manager; requiring boards of trustees of school districts and governing bodies of charter schools to consult with certain persons and entities before constructing, expanding or remodeling buildings for schools or related facilities or acquiring sites for those purposes; requiring the Department of Education to conduct an annual conference regarding safety in public schools; requiring the State Public Charter School Authority to annually discuss safety in charter schools at a meeting, workshop or conference; requiring the Department, to the extent that money is available, to make block grants to provide certain mental health workers in public schools; revising provisions governing the development and contents of a plan to respond to a crisis or an emergency in a school; revising provisions governing emergency drills in schools; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides for crisis and emergency response in public schools. (NRS 388.229-388.261) Section 4 of this bill requires each school district in a county whose population is 100,000 or more (currently Clark and Washoe Counties) to designate an employee to serve as an emergency manager, whose duties are defined in that section. Section 5 of this bill requires the board of trustees of each school district and the governing body of each charter school to consult with the emergency manager, the chief of school police or his or her designee, or the Division of Emergency Management of the Department of Public Safety, as applicable, before: (1) designing, constructing or purchasing new school buildings or related facilities; (2) enlarging, remodeling or renovating existing school buildings or related facilities; or (3) acquiring sites for building schools or related facilities.

Section 6 of this bill requires the Department of Education to coordinate with the Division of Emergency Management, any emergency manager, any

chief of police of a school district that has police officers and any school resource officer to conduct an annual conference regarding safety in public schools. Section 6 additionally requires the board of trustees of each school district ~~[and the governing body of each charter school]~~ to designate certain persons to attend this conference, ~~[]~~ and authorizes certain other persons to attend the conference. Section 6 also requires the State Public Charter School Authority to annually discuss safety in charter schools at a designated meeting of the Authority or at a workshop or conference coordinated by the Authority. Finally, section 6 requires the governing body of each charter school to designate persons to attend such a meeting, workshop or conference.

Section 7 of this bill requires the Department of Education, to the extent that money is available for the purpose, to: (1) develop and carry into effect a program of block grants; and (2) make and administer block grants to school districts and charter schools to employ or contract with social workers and other mental health workers in schools with identified needs.

Existing law requires the Department of Education to develop a model plan for the management of a crisis or emergency in a public school, including a charter school, and a private school. Among other requirements, the model plan must include a procedure for carrying out a lockdown at a school. (NRS 388.253) Section 2 of this bill defines “lockdown” for these purposes. Existing law also requires the board of trustees of a school district and the governing body of a charter school to establish a development committee to develop a plan to be used by each public school of the school district or the charter school, as applicable, in responding to a crisis or an emergency and requires the development committee to consult with certain persons and entities when developing the plan. (NRS 388.241, 388.243) Section 9 of this bill requires each development committee, when developing the plan, to also consult with an emergency manager, a school resource officer or the chief of school police of the school district, if such a person exists in the school district.

Existing law requires each school district, each charter school and each private school to provide drills for pupils at least once each month during the school year to instruct those pupils in the procedures to be followed in the event of a fire or other emergency. (NRS 392.450, 394.170) Sections 13 and 14 of this bill require at least one-half of these drills to include instruction in appropriate procedures to be followed in the event of a lockdown, as defined in section 2 of this bill. Sections 13 and 14 also revise provisions governing the emergency drills conducted at a school located in a city or town to require the drills to be approved by the chief of the fire department of the city or town or voluntary fire department, as applicable. Finally, section 13 requires: (1) any public school located in a county whose population is less than 100,000 (currently all counties other than Clark and Washoe Counties) to conduct the drills under the supervision of the person designated for that purpose by the board of trustees of the school district or

the governing body of the charter school, as applicable; and (2) a public school located in a county whose population is 100,000 or more (currently Clark and Washoe Counties) to conduct such drills under the supervision of the emergency manager.

WHEREAS, The Legislature recognizes that it is of utmost importance that the public schools in this State are built and maintained in a manner which provides the greatest protection for pupils and staff against harm; and

WHEREAS, Each school must be built and maintained to meet or exceed recommended safety standards and be designed to anticipate and protect against modern threats; and

WHEREAS, Academic achievement of pupils is adversely affected when the pupils do not feel safe from harm; and

WHEREAS, Acts of violence which occur at schools have devastating effects on pupils which may include depression, fear and inappropriate behavior; and

WHEREAS, Efforts must be taken to mitigate acts of violence at schools; and

WHEREAS, Social workers and other licensed mental health workers who are employed by schools help ensure the safety of pupils, prevent violent and other inappropriate actions by pupils and address the overall well-being of pupils by assessing the needs of pupils and providing pupils with necessary mental health services, counseling and other assistance; and

WHEREAS, The Legislature hereby finds and declares that it is optimal to have a ratio of at least 1 social worker or licensed health worker per 250 pupils; and

WHEREAS, Each school district must ensure that administrators, teachers and other staff are properly trained regarding the appropriate response to a crisis and crisis management, prevention of violence and emergency response planning so that all schools are prepared to respond appropriately to a crisis or emergency and to quickly mitigate any effects of such a crisis or emergency; now, therefore,

Amendment No. 1057.

SUMMARY—Revises provisions relating to preferences in bidding for certain contracts for businesses based in this State. (BDR 27-1060)

AN ACT relating to procurement; establishing provisions relating to preferences in bidding for certain contracts with Nevada-based businesses for state purchasing; revising provisions relating to the disclosure of the weight assigned to certain factors used to evaluate proposals for certain state purchasing contracts; providing a penalty; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law grants a preference of 5 percent for a bid or proposal for a state purchasing contract which is submitted by a local business owned and operated by a veteran with a service-connected disability. (NRS 333.3361-333.3369) Sections 2-8 of this bill create a preference of 5 percent for a bid or proposal for a state purchasing contract which is submitted by a Nevada-based business. To qualify for this preference, section 3 requires such a business to certify that: (1) its principal place of business is in this State; or (2) a majority of the goods provided for in a state purchasing contract are produced in this State. Section 5 establishes that (1) a bid ~~for proposal~~ which qualifies for the preference will be deemed to be 5 percent lower than the bid ~~for proposal~~ actually submitted; ~~(1)~~ and (2) a proposal which qualifies for the preference will be deemed to have a score which is 5 percent higher than the score actually awarded. Section 5 also prohibits granting the preference for the award of any contract which uses federal money, unless such a preference is authorized by federal law ~~or~~ or any contract which has been procured on a multistate basis. Section 6 imposes certain penalties and restrictions upon a business that makes a material misrepresentation or commits a fraudulent act in applying for a preference or fails to comply with the requirements for a preference. Sections 9 and 10 of this bill make conforming changes.

Existing law requires each proposal submitted for certain state purchasing contracts to be evaluated based on certain factors to determine whether the proposal is in the best interest of the State. Each factor is assigned a relative weight which must not be disclosed before the proposals are submitted. (NRS 333.335) Section 9.5 of this bill removes the requirement that the weight of each factor must not be disclosed before the proposals are submitted.

(a) At least 50 percent of the workers employed on the public work, including, without limitation, any employees of the contractor, applicant or design-build team and of any subcontractor engaged on the public work, will hold a valid driver's license or identification card issued by the Department of Motor Vehicles of the State of Nevada;

(b) All vehicles used primarily for the public work will be:

(1) Registered and partially apportioned to Nevada pursuant to the International Registration Plan, as adopted by the Department of Motor Vehicles pursuant to NRS 706.826; or

(c) If applying to receive a preference in bidding pursuant to subsection 3 of NRS 338.1727 or subsection 2 of NRS 408.3886, at least 50 percent of the design professionals working on the public work, including, without limitation, employees of the design-build team and of any subcontractor or consultant engaged in the design of the public work, will have a valid driver's license or identification card issued by the Department of Motor Vehicles of the State of Nevada; and

(d) The contractor, applicant or design-build team and any subcontractor engaged on the public work will maintain and make available for inspection within this State his or her records concerning payroll relating to the public work.

2. Any contract for a public work that is awarded to a contractor, applicant or design-build team who submits the affidavit described in subsection 1 as a result of the contractor, applicant or design-build team receiving a preference in bidding described in subsection 1 must:

(a) Include a provision in the contract that substantially incorporates the requirements of paragraphs (a) to (d), inclusive, of subsection 1; and

(b) Provide that a failure to comply with any requirement of paragraphs (a) to (d), inclusive, of subsection 1 entitles the public body to a penalty only as provided in subsections 5 and 6.

3. A person who submitted a bid on the public work or an entity who believes that a contractor, applicant or design-build team has obtained a preference in bidding as described in subsection 1 but has failed to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1 may file, before the substantial completion of the public work, a written objection with the public body for which the contractor, applicant or design-build team is performing the public work. A written objection authorized pursuant to this subsection must set forth proof or substantiating evidence to support the belief of the person or entity that the contractor, applicant or design-build team has failed to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1.

If the public body determines that the objection is not accompanied by the required

proof or substantiating evidence, the public body shall dismiss the objection. If the public body determines that the objection is accompanied by the required proof or substantiating evidence or if the public body determines on its own initiative that proof or substantiating evidence of a failure to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1 exists, the public body shall determine whether the contractor, applicant or design-build team has failed to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1 and the public body or its authorized representative may proceed to award the contract accordingly or, if the contract has already been awarded, seek the remedy authorized in subsection 5.

5. ~~{A}~~ *In addition to any other remedy or penalty provided by law, a public body may recover, by civil action against the party responsible for a failure to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1, a penalty as described in subsection 6 for a failure to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1. If a public body recovers a penalty pursuant to this subsection, the public body shall report to the State Contractors' Board the date of the failure to comply, the name of each entity which failed to comply and the cost of the contract to which the entity that failed to comply was a party. The Board shall maintain this information for not less than 6 years. Upon request, the Board shall provide this information to any public body or its authorized representative.*

6. (a) If a party to the contract causes the contractor, applicant or design-build team to fail to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1, the party is liable to the public body for a penalty in the amount of 1 percent of the cost of the largest contract to which he or she is a party;

(b) The right to recover the amount determined pursuant to paragraph (a) by the public body pursuant to subsection 5 may be enforced by the public body directly against the party that caused the failure to comply with a requirement of paragraphs (a) to (d), inclusive, of subsection 1; and

(c) No other party to the contract is liable to the public body for a penalty.

7. A public body that awards a contract for a public work to a contractor, applicant or design-build team who submits the affidavit described in subsection 1 and who receives a preference in bidding described in subsection 1 shall, on or before July 31 of each year, submit a written report to the Director of the Legislative Counsel Bureau for transmittal to the Legislative Commission. The following amendment was proposed by the Committee on Education:

Amendment No. 847.

SUMMARY—Revises provisions relating to the funding formula for K-12 public education. (BDR 34-792)

~~AN ACT relating to education; ~~revising the Nevada Plan to include a funding multiplier of 2.0 for pupils with disabilities and a funding multiplier that increases incrementally over a 4 year period for pupils who are English learners and pupils who are at risk; requiring the State Board of Education to adopt regulations requiring school districts and charter schools to report the number of pupils enrolled who are identified as English learners and the number of pupils who are at risk; requiring the Department of Education to prescribe annual measurable objectives and performance targets to track the performance of the school districts and charter schools in providing~~~~

~~education and services to such pupils; requiring the submission of an annual report by each school district and charter school which includes their results with respect to the annual objectives and performance targets prescribed for the preceding school year and a plan for meeting those objectives and targets for the ensuing school year;] replacing the term “limited English proficient” with the term “English learner” for consistency with federal law; creating the Account for the New Nevada Education Funding Plan; providing for the distribution of money from the Account for the support of certain pupils who perform below a designated level of proficiency and are English learners or eligible for a free or reduced-price lunch; prescribing the purposes for which such money may be used; requiring the collection and reporting of certain information relating to the use of such money; requiring the Department of Education to contract with an independent consultant to research issues relating to certain categories of pupils; making appropriations; and providing other matters properly relating thereto.~~

Legislative Counsel’s Digest:

Under the Federal Every Student Succeeds Act, which reauthorized the Elementary and Secondary Education Act of 1965, the term “limited English proficient” was replaced with “English learner.” (20 U.S.C. § 7801(20)) Section 1 of this bill makes conforming changes to existing law to replace the term “limited English proficient” with “English learner.” (NRS 385.007)

Existing law declares that “the proper objective of state financial aid to public education is to ensure each Nevada child a reasonably equal educational opportunity.” (NRS 387.121) To accomplish this objective, the Legislature establishes, during each legislative session and for each school year of the biennium, an estimated statewide average basic support guarantee per pupil. (NRS 387.122) This is the per pupil amount that is “guaranteed” on a statewide basis through a combination of state money and certain local revenues. The basic support guarantee for each school district is computed by multiplying the basic support guarantee per pupil that is established by law for the school district for each school year by pupil enrollment. (NRS 387.121-387.1223)

Commencing with Fiscal Year 2016-2017, the Legislature stated its intent to provide school districts and charter schools with additional resources expressed as a multiplier of the basic support guarantee, to meet the unique needs of certain categories of pupils, including pupils with disabilities, pupils who are English learners, pupils who are at risk and gifted and talented pupils. These additional resources are expressed as a multiplier of the basic support guarantee per pupil. (NRS 387.121, 388.429)

~~[Section 2 of this bill requires the State Board of Education to adopt regulations requiring each school district and charter school to separately report the number of pupils enrolled in the school district or charter school who are identified as English learners and pupils who are at risk. Section 2 also requires the Department of Education to prescribe annual measurable objectives and performance targets to track the performance of the school~~

~~districts and charter schools in providing education and services to pupils who are English learners and to pupils who are at risk. Finally, section 2 requires each school district and charter school to submit an annual report to the Department which includes their results with respect to the annual measurable objectives and performance targets prescribed for the preceding school year and a plan for meeting the objectives and targets prescribed for the ensuing school year.~~

~~Section 4 of this bill provides for a multiplier of 2.0 in the basic support guarantee for each pupil with a disability and a multiplier in the basic support guarantee for each pupil identified as an English learner or identified as at risk as follows: (1) for the 2017-2018 school year, a multiplier of at least 1.05; (2) for the 2018-2019 school year, a multiplier of at least 1.15; (3) for the 2019-2020 school year, a multiplier of at least 1.3; and (4) for the 2020-2021 school year and each school year thereafter, a multiplier of at least 1.5. Only one multiplier is applied if a pupil is identified in both categories of English learner and at risk.~~

~~Section 5 of this bill requires each school district and charter school to submit to the Department a plan to improve the academic performance and proficiency of pupils who are English learners and pupils who are at risk for the 2018-2019 school year. Section 5 also requires the Department to submit to the Legislature before January 1, 2018, the annual measurable objectives and performance targets required by section 2 to track the performance of the school districts and charter schools in providing education and services to pupils who are English learners and to pupils who are at risk.~~ Sections 7-11 of this bill provide school districts and charter schools with additional resources on a per pupil basis. Specifically, section 7 of this bill creates the Account for the New Nevada Education Funding Plan and requires the money in the Account to be used for public schools and public education in the manner set forth in sections 7-11. Section 8 of this bill distributes the money in the Account to public schools for the support of pupils enrolled in each public school who: (1) are English learners or eligible for a free or reduced-price lunch; (2) scored at or below the 25th percentile on certain assessments of proficiency; (3) are not enrolled at a Zoom school or Victory school; and (4) do not have an individualized education program. If an insufficient amount of money exists in the Account to provide \$1,200 for each such pupil in each public school in this State, section 8 requires money to be distributed first to the lowest performing public schools.

Section 9 of this bill prescribes the services for which money received from the Account may be used. To the extent that a use of money from the Account by a public school creates the capacity to serve pupils in addition to those for whom the money was provided, section 9 authorizes a public school to serve additional pupils who scored at or below the 25th percentile on certain assessments of proficiency. Section 9 requires a public school to consult with the staff of the school district in which the public school is located to coordinate the use of money from the Account to maximize the

efficient use of such money. Section 9 also requires a public school to consult with parents and guardians of pupils enrolled in the public school and develop a plan for the use of money from the Account.

Section 10 of this bill prescribes the assessments of proficiency used to determine whether a pupil qualifies for the distribution of money from the Account. Section 11 of this bill requires the Department of Education to prescribe annual measurable objectives and performance targets for public schools that receive money from the Account and requires each such school to submit a report to the school district in which the public school is located measuring the effectiveness of the public school in providing services using money from the Account. Section 11 also requires the submission of such information to the Department for evaluation by an independent evaluator.

Section 14 of this bill requires the Department to contract with an independent consultant to perform research relating to certain categories of pupils and the appropriate funding adjustments for such pupils.

Section 13 of this bill provides an appropriation to the Account for the New Nevada Education Funding Plan for the upcoming biennium and an appropriation to the Department for the costs of the independent consultant selected by the Department pursuant to section 14.

Amendment No. 973.

SUMMARY—Authorizes certain local governments to increase diesel taxes under certain circumstances. (BDR 32-1002)

AN ACT relating to taxation; authorizing boards of county commissioners in certain smaller counties to impose an additional tax on diesel fuel ~~and~~ if the registered voters of the county approve the imposition of the tax; authorizing persons who use diesel fuel in motor vehicles operated or intended to operate interstate to request and obtain reimbursement for the tax paid on diesel fuel consumed outside this State under certain circumstances; enacting provisions governing the distribution of the portion of the proceeds of the tax on diesel fuel reserved by the Department of Motor Vehicles to pay reimbursement for the tax; revising provisions governing the projects for which certain smaller counties may use the proceeds of an additional tax on diesel fuel; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes counties to impose certain taxes on motor vehicle fuels and special fuels used in motor vehicles. (Chapter 373 of NRS) Under existing law, a board of county commissioners of a county whose population is 100,000 or more (currently Clark and Washoe Counties) is authorized, under certain circumstances, to impose county taxes on motor vehicle fuel and various special fuels used in motor vehicles. (NRS 373.030, 373.066, 373.0663) However, a board of county commissioners of a county whose population is less than 100,000 (currently all counties other than Clark and Washoe Counties) is authorized to impose county fuel taxes only on motor vehicle fuel. (NRS 373.030, 373.065) Section 1.7 of this bill authorizes the board of county commissioners of a county whose population is less than 100,000 to impose a tax on special fuel that consists of diesel fuel sold in the county in an amount not to exceed 5 cents per gallon. Under section 1.7, an ordinance imposing or increasing such a tax must be adopted by a two-thirds majority of the board ~~and~~ and be approved by the voters at a general or special election. A tax imposed pursuant to section 1.7 would be administered, allocated, disbursed and used in the same manner as certain existing fuel taxes. (Chapter 373 of NRS) Section 1.5 of this bill includes highway truck parking, as defined in section 1 of this bill, as a project for which a county whose population is less than 100,000 is authorized to use the proceeds of the tax on diesel fuel authorized by section 1 and issue revenue bonds secured by those proceeds. (NRS 373.028, 373.131)

The Department of Motor Vehicles is a party to the International Fuel Tax Agreement, a multistate agreement which facilitates the calculation and collection of certain fuel taxes from interstate trucking companies and others who use special fuel (primarily diesel fuel) in vehicles operated or intended

to operate interstate. (NRS 366.175) Existing law: (1) authorizes certain special fuel users to file with the Department a request for reimbursement of amounts owed to the special fuel user as a result of the Department's entering into the International Fuel Tax Agreement and the imposition of a tax on special fuels consumed outside this State; and (2) requires the Department to adopt regulations establishing a system to provide for the reimbursement of a person who files such a request. (NRS 373.083) Section 3 of this bill authorizes a person who pays a tax imposed pursuant to section 1.7 in a county in which the total number of gallons of diesel fuel sold in the county in the immediately preceding fiscal year is 10,000,000 gallons or more to file such a request and obtain from the Department a reimbursement of the tax on diesel fuel which is consumed outside this State.

Under existing regulations, for the purpose of paying reimbursements to special fuel users who file requests for reimbursement with the Department, the Department establishes a trust account for a county for which reimbursements are paid and deposits 20 percent of the amount of taxes collected for the county in that trust account. Money in the trust account of a county must be used to pay requests for reimbursement of the tax imposed in the county which are approved by the Department, and any money remaining in the trust account after the payment of such reimbursements, including all accrued interest, must be distributed to the county for which the trust account was created. (NAC 373.160) Section 3 requires the Department to establish a trust account for a county which imposes the tax on diesel fuel authorized by section 1.7 and in which the total number of gallons of diesel fuel sold in the county in the immediately preceding fiscal year is 10,000,000 gallons or more. Section 3 also provides that under certain circumstances, a portion of the money in the trust account for such a county may be distributed to the Department of Transportation for use to construct, maintain or repair, or any combination thereof, highway truck parking in the county.

Any proposal to increase the rate of the tax must be approved by a two-thirds majority of the board but such an increase must not cause the amount of the tax to exceed 5 cents per gallon. The board shall not:*

→ may file with the Department a request for reimbursement of any amounts owed to the person as a result of the Department entering into an agreement pursuant to NRS 366.175 and the imposition, pursuant to subsection 2 of NRS 373.030 or NRS 373.066, 373.0663 or 373.0667, of any tax on special fuels which are consumed outside this State.

2. The Department shall adopt regulations establishing a system to provide for the reimbursement and the auditing of the records of a person who files a request for reimbursement pursuant to subsection 1. The system established by the Department:

(a) Must authorize a person who uses special fuel in motor vehicles operated or intended to operate interstate to file a request for reimbursement as provided in subsection 1;

3. The Department shall charge and collect a fee in an amount not to exceed \$100 for each request for reimbursement filed by a person pursuant to subsection 1. All money from the fees collected by the Department pursuant to this subsection must be deposited in the Local Fuel Tax ~~Indexing~~ Fund created by NRS 373.087.

4. The Department and a commission which has been created in a county whose population is 700,000 or more and in which a tax is imposed pursuant to NRS 373.0663 or 373.0667 may enter into an intergovernmental agreement or contract pursuant to which:

5. *For each county in which a tax is imposed pursuant to subsection 2 of NRS 373.030 and in which the total number of gallons of diesel fuel sold in the county during the immediately preceding fiscal year, as determined by the Department, is 10,000,000 gallons or more, the Department shall establish and administer an interest-bearing trust account and deposit into the trust account 20 percent of the total amount of taxes collected for the county pursuant to subsection 2 of NRS 373.030 each month. Except as otherwise provided in this subsection, the Department shall use money deposited by the Department into such a trust account for a county, excluding the amount of any accrued interest, only to pay requests for*

reimbursement of the tax imposed in the county pursuant to subsection 2 of NRS 373.030 which are submitted to the Department pursuant to subsection 1. If the Department approves requests for reimbursement of the tax imposed in a county pursuant to subsection 2 of NRS 373.030:

(a) In an amount which is not more than 50 percent of the amount deposited by the Department in the trust account during the fiscal year, excluding the amount of any accrued interest, the Department must, at the end of the fiscal year and after the payment of all requests for reimbursement approved by the Department, distribute the balance remaining in the account, including the amount of any accrued interest, as follows:

(b) In an amount which exceeds 50 percent, but does not exceed 100 percent, of the amount deposited in the trust account during the fiscal year, excluding any accrued interest, the balance remaining in the trust account after the payment of all requests for reimbursement approved by the Department, including the amount of any accrued interest, must be transmitted to the county in accordance with NRS 373.080.

(c) In an amount which exceeds the amount of money deposited into the trust account of the county during the fiscal year, excluding any accrued interest, the Department must pay the approved requests for reimbursement on a pro rata basis and distribute any accrued interest to the county in accordance with NRS 373.080. For the purposes of this paragraph, "pro rata basis" means that the amount of each request for reimbursement approved by the Department will be proportionally reduced by multiplying the amount of reimbursement approved by the ratio of the total amount of money deposited into the trust account during the fiscal year, exclusive of interest, divided by the total amount of requests for reimbursement approved by the Department.

6. As used in this section, "special fuel" has the meaning ascribed to it in NRS 366.060.

Sec. 3.5. NRS 373.087 is hereby amended to read as follows:

5. Any balance remaining in the Fund at the end of any fiscal year:

(a) Does not revert to the State General Fund; and

(b) Must be carried forward to the next fiscal year.

Sec. 4. This act becomes effective on July 1, 2017.

Senator Goicoechea moved the adoption of the amendment.

Remarks by Senator Goicoechea.

The amendment requires that before the Board of County Commissioners can impose a \$.05 diesel tax, imposition of the tax must approved by the registered voters of that county.

Amendment adopted.

Bill read third time.

Remarks by Senator Goicoechea.

Senate Bill No. 439 allows for a Board of County Commissioners to impose a tax of up to 5 cents per gallon on diesel fuel. This must be approved by the voters and the tax can be set at any amount up to the 5 cents per gallon. If it is initially set lower than 5 cents, it cannot be raised without going back to the voters. There are many protections built into this bill now. It requires a 2/3 vote of the Board of County Commissioners after the ballot question to impose the tax. It will help some of the rural counties with their flood damage if they can get it approved by their voters.
