Legislative Counsel’s Digest:
Under existing law, various days, weeks and months of observance are recognized in this State. (NRS 236.018-236.073) Section 1 of this bill designates the month of October of each year as “Cybersecurity Awareness Month” in this State and requires the Governor to issue annually a proclamation encouraging the observance of Cybersecurity Awareness Month. Existing law requires certain persons or entities to develop an emergency response plan for a school, a city or county, a resort hotel and a utility. (NRS 239C.250, 239C.270, 388.243, 394.1685, 463.790) Sections 3, 4, 5 and 8 of this bill standardize the requirements for such an emergency response plan for a city or county or resort hotel so that each such person or entity: (1) is required to annually review the plan and provide a copy of each updated plan to the Division of Emergency Management of the Department of Public Safety by a certain date; or (2) is authorized to submit a written certification in lieu of a revised plan if the plan has not changed. Sections 4 and 5 of this bill similarly require the board of trustees of a school district, the governing body of a charter school or the development committee of a private school to annually review and update an emergency response plan for the applicable school or schools and submit the plan to the Division by a certain date.
Section 8 [also] additionally requires an emergency response plan developed by a resort hotel to include the name and telephone number of the person responsible for ensuring that the resort hotel is in compliance with the requirements in existing law relating to emergency response plans. In addition, section 8 requires the Nevada Gaming Control Board to provide a list of resort hotels to the Division upon request if the Board maintains such a list. Section 7 of this bill requires the Chief of the Division to provide notice to [the heads of certain state agencies] certain public officers or bodies regarding whether a person or [governmental] entity the [agency] officer or body oversees has complied with the requirement that the person or [governmental] entity annually submit a revised plan or, if applicable, a written certification. Section 7 also requires the Division to: (1) develop a written guide to assist a person or governmental entity that is required to file an emergency response plan; and (2) provide the guide to certain persons or governmental entities that are required to file an emergency response plan.

Under existing law, the Governor is authorized to order the Nevada National Guard into active service of the State for invasions, disasters, riots and other substantial threats to life or property. (NRS 412.122) Section 6 of this bill provides specific authority to the Governor to call members of the Nevada National Guard into such active service [in the event of] upon a request for assistance from a political subdivision or governmental utility that has experienced a significant cybersecurity incident.

The Nevada Office of Cyber Defense Coordination is created under existing law in the Department of Public Safety. (NRS 480.920) The Office is required to perform a variety of duties relating to the security of information systems of agencies of the Executive Branch of State Government and to prepare and maintain a statewide strategic plan regarding the security of information systems in Nevada. (NRS 480.924-480.930)

Section 9 of this bill requires each city or county to adopt and maintain a cybersecurity incident response plan and file the plan with the Office and the Division of Emergency Management. Section 9 requires each city or county to review this plan at least once each year and, on or before December 31 of each year, file with the Office and the Division: (1) any revised plan resulting from the review; or (2) a written certification that the most recent plan filed is the current plan for the city or county. Section 9 also makes such plans confidential.

Section 2 of this bill makes a conforming change.

Section 11 of this bill requires the Office to provide training on cybersecurity awareness to employees of agencies of the Executive Branch and requires those employees to complete such training once every calendar quarter. Section 11 also requires the Office to: (1) post and maintain on its website a list of countries that the Office determines to have a high risk of threats to the cybersecurity of visitors; and (2) provide briefings to employees of the Executive Branch who are scheduled to travel to such a country on state business relating to the safeguarding of their electronic devices and other equipment. Section 12 of this bill requires each agency of the State Government that has adopted a cybersecurity policy to: (1) test periodically the adherence of its employees to that policy; and (2) submit the results of the testing to the Office for consideration in the update of the statewide strategic plan. Finally, in addition to the annual report that the Office is required to submit in existing law regarding its activities, section 13 of this bill requires the Office to submit a quarterly report to the Governor assessing the preparedness of Nevada to counteract, prevent and respond to potential cybersecurity threats.
