AN ACT relating to Internet privacy; prohibiting an operator of an Internet website or online service which collects certain information from consumers in this State from making any sale of certain information about a consumer if so directed by the consumer; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:
Existing law requires an operator of an Internet website or online service which collects certain items of personally identifiable information about consumers in this State to make available a notice containing certain information relating to the privacy of covered information collected by the operator. (NRS 603A.340) Section 6 of this bill revises the definition of the term “operator” to exclude certain financial institutions and entities that are subject to certain federal laws concerning privacy and certain persons who manufacture, service or repair motor vehicles. Section 2 of this bill requires an operator to establish a designated request address through which a consumer may submit a verified request directing the operator not to make any sale of covered information collected about the consumer. Section 1.6 of this bill defines the term “sale” to mean the exchange of covered information for monetary consideration by the operator to a person for the person to license or sell the covered information to additional persons. Section 2 prohibits an operator who has received such a request from making any sale of any covered information collected about the consumer. Section 7 of this bill authorizes the Attorney General to seek an injunction or a civil penalty against an operator who violates section 2.
