Explanation

(Use Additional Sheets of Attachments, if required)

BDR 40-907 requires the State Department of Conservation and Natural Resources to issue an annual report concerning greenhouse gas emissions in this State.

Section 2 of this bill requires the report must include sources and amounts of greenhouse gas emissions pertaining to Transportation and that the State Department of Conservation and Natural Resources consult with the Department of Motor Vehicles in preparing the required report.

There is not enough information contained within this Bill to determine if there will be a fiscal impact to the Department. The Department is unaware of the potential efforts or requirements that will be essential in the consulting efforts needed to prepare the report required by the Department of Conservation and Natural Resources.

A fiscal impact is undeterminable at this time.
