SUMMARY—Revises provisions governing diets that are ordered or prescribed for patients. (BDR 40-445)

AN ACT relating to health care; requiring certain medical facilities to adhere to a diet that is ordered or prescribed for a patient; authorizing a hospital to grant clinical privileges to a dietitian; authorizing a dietitian to order a special diet or nutritional supplement for a patient in certain circumstances; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law defines the term "medical facility" to include a surgical center for ambulatory patients, an obstetric center, an independent center for emergency medical care, an agency to provide nursing in the home, a facility for intermediate care, a facility for skilled nursing, a facility for hospice care, a hospital, a psychiatric hospital, a facility for the treatment of irreversible renal disease, a rural clinic, a nursing pool, a facility for modified medical detoxification, a facility for refractive surgery, a mobile unit, a community triage center and a program of hospice care. (NRS 449.0151, 449.029) Section 1 of this bill requires a medical facility to take any actions necessary to adhere to a diet that is ordered or prescribed for a patient. Section 1 also authorizes a hospital to grant clinical privileges to a licensed dietitian for the purposes of ordering diets, ordering laboratory tests to monitor the effectiveness of diets and making modifications to diets based on laboratory tests. Sections 2-9 and 11 of this bill make conforming changes.

Existing law authorizes a licensed dietitian to develop and manage operations to provide food, care and treatment programs prescribed by a physician, physician assistant, dentist, advanced practice registered nurse or podiatric physician. (NRS 640E.260) Section 10 of this bill additionally authorizes a licensed dietitian to order a diet or nutritional supplement for a patient.

Senator Ratti moved the adoption of the amendment.

Remarks by Senators Ratti and Kieckhefer.

SENATOR RATTI:

Amendment No. 2 revises Senate Bill No. 95 to authorize hospitals to grant clinical privileges to a licensed dietician for the purposes of ordering diets, ordering laboratory tests to monitor the effectiveness of diets and making modifications to diets based on laboratory tests.

SENATOR KIECKHEFER:

Do hospitals not have the ability to grant clinical privileges to dieticians now?

SENATOR RATTI:

It is my understanding they do not. The original bill was a scope of practice bill that allowed them to do certain things without having hospital privileges to do those things. This could not be executed so and amendment had to written. My understanding is they do not now have the ability to do those things or the ability to get those privileges.

Amendment adopted.

Bill ordered reprinted, engrossed and to third reading.
