43 **Sec. 7.** NRS 278.250 is hereby amended to read as follows:

44 278.250 1. For the purposes of NRS 278.010 to 278.630,  
45 inclusive, *and section 1 of this act*, the governing body may divide

1 the city, county or region into zoning districts of such number, shape  
2 and area as are best suited to carry out the purposes of NRS 278.010  
3 to 278.630, inclusive **H**, *and section 1 of this act*. Within the  
4 zoning district, it may regulate and restrict the erection,  
5 construction, reconstruction, alteration, repair or use of buildings,  
6 structures or land.

7 2. The zoning regulations must be adopted in accordance with  
8 the master plan for land use and be designed:

9 (a) To preserve the quality of air and water resources.

10 (b) To promote the conservation of open space and the  
11 protection of other natural and scenic resources from unreasonable  
12 impairment.

13 (c) To consider existing views and access to solar resources by  
14 studying the height of new buildings which will cast shadows on  
15 surrounding residential and commercial developments.

16 (d) To reduce the consumption of energy by encouraging the use  
17 of products and materials which maximize energy efficiency in the  
18 construction of buildings.

19 (e) To provide for recreational needs.

20 (f) To protect life and property in areas subject to floods,  
21 landslides and other natural disasters.

22 (g) To conform to the adopted population plan, if required by  
23 NRS 278.170.

24 (h) To develop a timely, orderly and efficient arrangement of  
25 transportation and public facilities and services, including public  
26 access and sidewalks for pedestrians, and facilities and services for  
27 bicycles.

28 (i) To ensure that the development on land is commensurate  
29 with the character and the physical limitations of the land.

30 (j) To take into account the immediate and long-range financial  
31 impact of the application of particular land to particular kinds of  
32 development, and the relative suitability of the land for  
33 development.

34 (k) To promote health and the general welfare.

35 (l) To ensure the development of an adequate supply of housing  
36 for the community, including the development of affordable  
37 housing.

38 (m) To ensure the protection of existing neighborhoods and  
39 communities, including the protection of rural preservation  
40 neighborhoods and, in counties whose population is 700,000 or  
41 more, the protection of historic neighborhoods.

42 (n) To promote systems which use solar or wind energy.

43 (o) To foster the coordination and compatibility of land uses  
44 with any military installation in the city, county or region, taking

1 into account the location, purpose and stated mission of the military  
2 installation.

3 3. The zoning regulations must be adopted with reasonable  
4 consideration, among other things, to the character of the area and  
5 its peculiar suitability for particular uses, and with a view to  
6 conserving the value of buildings and encouraging the most  
7 appropriate use of land throughout the city, county or region.

8 4. In exercising the powers granted in this section, the  
9 governing body may use any controls relating to land use or  
10 principles of zoning that the governing body determines to be  
11 appropriate, including, without limitation, density bonuses,  
12 inclusionary zoning and minimum density zoning.

13 5. As used in this section:

14 (a) "Density bonus" means an incentive granted by a governing  
15 body to a developer of real property that authorizes the developer to  
16 build at a greater density than would otherwise be allowed under the  
17 master plan, in exchange for an agreement by the developer to  
18 perform certain functions that the governing body determines to be  
19 socially desirable, including, without limitation, developing an area  
20 to include a certain proportion of affordable housing.

21 (b) "Inclusionary zoning" means a type of zoning pursuant to  
22 which a governing body requires or provides incentives to a  
23 developer who builds residential dwellings to build a certain  
24 percentage of those dwellings as affordable housing.

25 (c) "Minimum density zoning" means a type of zoning pursuant  
26 to which development must be carried out at or above a certain  
27 density to maintain conformance with the master plan.
