Lord, to whom all desires are known and from whom no secrets are hidden, we come before You this glorious day seeking Your will for Your people. As we do this, we give You praise for the blessing of life and the blessing to serve You today through the gifts, talents and wisdom You give us.

Thank You, Father, for these leaders and staff members. We have many prayers for them today, and we ask that You grant them full measure of health and perseverance as they continue to seek You during these often long days of service to Your people. You teach us not to become weary in doing good. In the proper time, we will reap a harvest if we do not give up. Allow these trusted servants to hear and heed these words to Your glory.

In this same way, Father, anoint these humble servants with hearts committed to open discussion that casts aside partisanship and focuses on prosperity for the greater good of Your people. Grant them ears to truly hear the issues before them in a way that opens the door toward conversations of consensus.

Lord, we thank You for these United States and the privilege to be Americans. I ask that our beloved State of Nevada will be united to carry out Your work in Your way.

In the Name of the One who is, who was and is to come.

AMEN.

MOTIONS, RESOLUTIONS AND NOTICES
Senate Joint Resolution No. 6.
Resolution read.
Remarks by Senator Spearman.
Senate Joint Resolution No. 6 expresses support for the creation of a retirement plan that addresses the loss of retirement benefits for military spouses due to frequent relocations. The resolution further urges the Federal Government to implement such a retirement plan that is funded by the Department of Defense Appropriations Act.

Senate Joint Resolution No. 10.
Resolution read.
Remarks by Senators Ohrenschall, Donate, Pickard and Denis.
SENATOR OHRENSCHALL:
Senate Joint Resolution No. 10 urges the United States Congress to protect the public lands including and adjacent to Sunrise Mountain, Frenchman Mountain and Rainbow Gardens in Clark County by designating all or portions of the area as a national conservation area, national recreation area, national monument or applying other federal protections that Congress deems appropriate for these important and scenic lands.

Our constituents are eager to get outdoors, to be able to hike, to be able to camp and picnic and go to special places. Sunrise Mountain, Frenchman Mountain and Rainbow Gardens are extremely special places. The Gypsum Cave is there. My colleague from Senate District 14 just lent me a book published in 1915 by Professor Harrington about his research in the Gypsum Cave. There is evidence of early human and animal life in this area that have filled up museums throughout the country. There is a rock formation called the Great Unconformity that shows billions of years of age of the earth. I believe there is only one other place on the planet that has this for people to see. There is great hiking in the area. Some people enjoy going to Rainbow Gardens for off-highway recreation. There are also endangered plant species in that area. The area has tremendous potential if a little more attention was paid to it from the federal government. If we can get facilities such as trails, parking and bathrooms, people in southern Nevada and the entire area will be able to enjoy this. I urge support of this resolution.

SENATOR DONATE:
I want to commend the Senator from District 21 for bringing this legislation forward. Even though it is a resolution to Congress, it is long-overdue conversation that will finally begin to prioritize the land around Sunrise Mountain, French Mountain and Rainbow Gardens. I am a proud alum of East Career and Technical Academy, which is located at the base of Sunrise Mountain. I spent many years admiring the landscape near my high school. Occasionally, we would chase the soccer balls that flew over the gate into the terrain. We learned about the Great Unconformity in my physics class, but we know there are many other reasons this land is treasured by many of the residents of East Las Vegas. For too many years, this land has been ignored and left behind. Trash has piled up over the course of the pandemic. Residents have been exposed to unsafe hiking conditions and more must be done to ensure the environment is protected. I was excited to learn Senate Joint Resolution No. 10 would come through the Committee on Natural Resources. I urge my colleagues to support this legislation.

SENATOR PICKARD:
What are we protecting with this legislation? The formations you are describing are those that are completely undevelopable. No one could develop on these lands. Is there discussion about the extent of this? How much developable ground are we talking about involving? Do we know what the impact there will be? Have we defined what we are protecting, or is this just a letter to Congress to say we want something done to protect the important formations?

SENATOR OHRENSCHALL:
The resolution speaks to public lands that include and are adjacent to Sunrise Mountain, French Mountain and Rainbow Gardens. These lands are already under federal control, but they have not been designated as a conservation area, a recreational area or a national monument. If you look at the history of the Gypsum Cave or the Great Unconformity, there are areas that are worthy of such designation and protection. Red Rock Canyon, in southern Nevada, is a gem and a treasure on the western end of the Spring Mountain range. If you look back 60 or 70 years, prior to federal protections for Red Rock Canyon, people were unfortunately using the area to dump old cars to use for target practice. There was much garbage in the area, and the trails were not maintained. We now have this treasure there. During the pandemic, when Red Rock Canyon and Mt. Charleston had closed all hiking trails, I saw many families hiking in the Sunrise Mountain, Frenchman Mountain or Rainbow Gardens. These trails had not been maintained but were ones people used to hike for fun. There is tremendous potential in the area. If Congress will act on this resolution, it will be a great benefit to everyone in southern Nevada and adjacent areas. It will allow those in the area to get outside and recreate. This resolution speaks to the federal, public lands that currently need a lot more attention and protection.
SENATOR PICKARD:
Almost all of the undeveloped, available ground in that area is locked up in Bureau of Land Management (BLM) control. Have we done studies to determine how much of that BLM property is developable? Is that included in the proposal? Is this proposal a letter to Congress that does not consider the extent of the protection and is simply to protect the land? Are we foreclosing development and expansion in appropriate areas by encouraging the protection of the entire area, or are there specific areas we are trying to protect.

SENATOR OHRENSCHALL:
The research I have done currently shows that in the Federal Lands bills pending in the Congress, there is no current increase in protection for this area. The resolution is written to give Congress the freedom to look at the federal lands they would deem most appropriate for increased protection. What is developable or not is in the eye of the beholder. We have seen development spread to almost every end of the Valley, and it continues. There are areas that need protection in the way Congress previously stepped up and protected Red Rock Canyon.

SENATOR DENIS:
I stand in support of Senate Joint Resolution No. 10. Having grown up for most of my life on the east side of the Valley in Las Vegas, I have had many opportunities to participate in activities at Sunrise and Frenchman mountains. This includes the Great Unconformity and the Gypsum Cave. It is important to encourage Congress to do things that will protect us in the future. This is an important part of the Valley, and I support this resolution.

SENATOR OHRENSCHALL:
I am hopeful Congress will act upon receipt of this resolution. I would be remiss not to mention those who worked hard on this resolution. This includes our former colleague, State Senator Tom Hickey, who used to represent much of this area. This was a passion he had and a discussion he and I had many years ago before we lost former Senator Hickey. We wanted to unlock the potential we had in Sunrise Mountain and Frenchman Mountain for people to enjoy the area. Helen Mortenson, the widow of our late colleague, former Assemblyman Henry Mortenson, has worked tirelessly with a group called Citizens for Active Management. Dr. Steve Rowland, emeritus professor of geology at the University of Nevada Las Vegas worked tirelessly as well, as did many others. I want to thank the Chair of the Committee on Natural Resources for being passionate about this issue as well. I urge its support.

(NRS 239C.250, 239C.270, 388.243, 394.1687, 463.790) Existing law additionally requires each public or private utility that provides water service, electric service or natural gas service to 500 or more service locations, or operates a pipeline necessary to provide such service, and each provider of new electric resources to conduct a vulnerability assessment and submit the assessment to the Division. (NRS 293C.110, 239C.270, 704B.130) Section 1.5 of this bill adds wastewater as one of the services regarding which such a utility is required to conduct and submit a vulnerability assessment and develop and submit an emergency response plan. Section 2 of this bill requires the Public Utilities Commission of Nevada, the Division of Environmental Protection of the State Department of Conservation and Natural Resources and the Office of Energy in the Office of the Governor to coordinate with the Division of Emergency Management to annually compile a list of each utility and provider of new electric resources required to submit a vulnerability assessment and an emergency response plan.

Amendment No. 14.

SUMMARY—Establishes provisions governing the retention of pro bono legal assistance by the Office of the Attorney General. (BDR 18-409)

AN ACT relating to legal services; establishing certain provisions applicable to pro bono contracts for legal services entered into by the Attorney General or any other officer, agency or employee in the Executive Department of the State Government; requiring the Attorney General to prepare and submit an annual report concerning such contracts; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law generally provides that the Attorney General and his or her deputies are the legal advisers on matters arising in the Executive Department of the State Government and generally prohibits persons in the Executive Department from employing other counsel to represent the State or any agency in the Executive Department. (NRS 228.110) However, existing law also establishes a process to authorize the Attorney General or any other officer, agency or employee in the Executive Department to enter into a contingent fee
contract for legal services pursuant to which an attorney or law firm engaged in the private practice of law may provide legal services to the State of Nevada or an officer, agency or employee in the Executive Department. (NRS 228.111-228.1118) Section 6 of this bill additionally authorizes the Attorney General or any other officer, agency or employee in the Executive Department to enter into a pro bono contract for legal services pursuant to which an attorney or law firm engaged in the private practice of law may provide legal services to the State of Nevada or an officer, agency or employee in the Executive Department on a pro bono basis if the Attorney General determines that the provision of such legal services is necessary.

Section 7 of this bill requires the Attorney General to retain final authority over the course and conduct of the matter that is the subject of a pro bono contract, and section 8 of this bill requires the Attorney General to prescribe a form of addendum to a pro bono contract that sets forth the specific rights and obligations of the parties relating to the matter that is the subject of the contract. Section 9 of this bill requires any attorney or law firm retained pursuant to a pro bono contract to prepare and maintain contemporaneous records reflecting the work performed on the matter and provides that such records, other than those protected as legally privileged, are public records. Section 10 of this bill requires the Attorney General to post on his or her Internet website a copy of any fully executed pro bono contract. [and section] Section 10.5 of this bill prohibits any attorney or law firm retained pursuant to a pro bono contract from entering into certain other contracts with the Attorney General for the provision of legal services for a period of 1 year after the date on which the pro bono contract or any extension or renewal thereof expires or is terminated. Section 11 of this bill requires the Attorney General to prepare and submit an annual report to the Director of the Legislative Counsel Bureau that sets forth certain information about pro bono contracts in effect during the period covered by the report.

Sections 12-14 of this bill make conforming changes to indicate the appropriate placement of sections 2 to 11 of this bill in the Nevada Revised Statutes.

Section 15 of this bill exempts legal services provided pursuant to a pro bono contract from the procedures otherwise applicable to state agencies for the acceptance of gifts or grants of property or services. (NRS 353.335)

Section 1. Chapter 228 of NRS is hereby amended by adding thereto the provisions set forth as sections 2 to 11, inclusive, of this act.

Sec. 2. As used in sections 2 to 11, inclusive, of this act, unless the context otherwise requires, the words and terms defined in sections 3, 4 and 5 of this act have the meanings ascribed to them in those sections.

Sec. 5. “Retained attorney or law firm” means an attorney or law firm that is a party to a pro bono contract.

Sec. 6. The Attorney General or any other officer, agency or employee in the Executive Department of the State Government may enter into a pro bono contract regarding any matter if the Attorney General determines that the provision of pro bono legal services by an attorney or law firm engaged in the private practice of law is necessary.

Sec. 7. The following conditions apply to a pro bono contract during the term of the contract and any renewal or extension of the contract:

1. The Attorney General must retain final authority over the course and conduct of the matter that is the subject of the pro bono contract, including, without limitation:
   (a) The authority to override any decision made by the retained attorney or law firm; and
   (b) The sole authority to agree to any settlement or voluntary dismissal of the matter.

2. Subject to the authority of the Attorney General, a deputy of the Attorney General must have supervisory authority over the conduct of the matter that is the subject of the pro bono contract. The deputy shall attend any settlement conference or mediation conducted in the matter.

Sec. 8. The Attorney General shall prescribe a form of addendum to a pro bono contract that must be used for every such contract. The addendum must set forth the specific rights and obligations of the parties relating to the matter that is the subject of the contract, including, without limitation, the requirements of sections 7, 9 and 10.5 of this act.

performed by a paralegal. The records must specifically describe the work performed, identify the person who performed the work and set forth the time spent in connection with the work, in increments of not more than one-tenth of an hour.

2. Except as otherwise provided in subsection 3, the records described in subsection 1 are public records and must be open for inspection pursuant to NRS 239.010.

3. The provisions of subsection 2 must not be construed to authorize or require the disclosure of any materials that are otherwise protected as legally privileged.

Sec. 10. Not later than 5 business days after a pro bono contract is signed by all the parties to the contract, the Attorney General shall cause a fully executed copy of the contract to be posted on the Internet website of the Attorney General. The document must be posted on the Internet website at all times during the term of the contract and any extension or renewal of the contract.

Sec. 10.5. Senator Dondero Loop moved the adoption of the amendment.
Remarks by Senators Dondero Loop, Pickard and Ohrenschall.

SENATOR DONDERO LOOP:
Amendment No. 14 makes the following changes to Senate Bill No. 38: it clarifies that the bill does not intend to require disclosure of otherwise legally privileged material. It provides that any law firm or attorney offering pro bono legal services pursuant to the bill is deemed ineligible for outside counsel contracts with the Office of the Attorney General for a period of one year from the end date of the pro bono contract.

SENATOR DONDERO PICKARD:
Why are authorizing pro bono legal services for the largest law firm in the State, and why do we need a prohibition from entering into any other contracts if they thought that was appropriate. What is the rationale for precluding the interaction between the pro bono law firm and the Attorney General's Office? What is the legal rationale for that?

SENATOR OHRENSCHALL:
At the hearings, I recall that a representative from the Attorney General's office testified that when they enter into these relationships with pro bono attorneys, there is certain confidential information and concerns about that. They desire that there is no possible appearance of an impropriety by seeking some sort of outside employment that might be in the same vein as something they were helping on in terms of their pro bono work.

Bill read second time.  
The following amendment was proposed by the Committee on Commerce 
and Labor:  
Amendment No. 47.  
SUMMARY—Revises provisions relating to public works. (BDR [S-44]) 
28-44)  
AN ACT relating to public works; revising provisions relating to the scope 
of horizontal construction and vertical construction for certain purposes; 
removing the prospective expiration of provisions relating to construction 
managers at risk; and providing other matters properly relating thereto. 
Legislative Counsel’s Digest:  
Under existing law, public bodies are authorized to construct public works 
under certain circumstances through a method by which a construction 
manager at risk provides preconstruction services on the public work and, in 
some cases, construction services on the public work with a guaranteed 
maximum price, a fixed price or a fixed price plus reimbursement for certain 
costs. (NRS 338.1685-338.16995) Existing law eliminates the authority for 
public bodies to enter into contracts with construction managers at risk 
effective June 30, 2021. [This] Sections 1.5-4 of this bill [remove] remove 
the prospective expiration of this authority, thereby making the authorization 
to enter into contracts with construction managers at risk permanent.  
Existing law identifies certain work on public works as “horizontal 
construction” and “vertical construction” for certain purposes. (NRS 338.010, 
338.01165, 338.16985) Section 1 of this bill revises the type of work that is 
included in the scope of those types of construction to specifically include the 
alteration, repair, renovation, demolition and remodeling, and any incidental 
work, necessary to complete a public work.

Senate Bill No. 47.

Remarks by Senators Kieckhefer and Neal.

SENATOR KIECKHEFER:
This bill extends some of the provisions we passed during the Special Session over the summer to allow the State Treasurer to recommend, under certain circumstances, the issuance of up to $150 million in interim debentures to help cover cash flow if the State is having a projected General Fund balance insufficient to meeting its operating needs. In this process, the State Treasurer would have to make a recommendation to the Interim Finance Committee which would need affirmative approval before forwarding the recommendation to the Board of Finance for its approval and, ultimately, the issuance of that short-term interim debt.

SENATOR NEAL:
I am in opposition to this bill. I support the amendment of my colleague from Senate District 16 and appreciate the changes he made. They make the bill better, but I want to put some of my objections on the record. I have reflected on this policy. My longevity in this building has given...
me foresight on power and power shifts. I read the *Nevada Constitution* and reflected on the duties and power of the Treasurer. I also reflected on the powers of the Legislature. The power given in this bill is great. It adopts language from Senate Bill 4 of the 31st Special Session. It is not just a tool in the toolbox, and it is not a power you ask to be returned to the Legislature. It is not a power that should be delegated away. It is a power that should remain within the entire Legislative Body who, in its wisdom, should determine when to enact this power. It is a power given under Article 9, Section 3 of the *Nevada Constitution*.

I do not take this vote lightly. Not every emergency is the same, nor will it require the same tools. I will not give away power I believe rests with the entire Legislature and that should rest with the decision-making body of 63 elected representatives. The power to pay a debt and the manner in which it is done is great. It is a Legislative power.

My original objection to the enrolled bill was that it gave one person the power to decide whether we were in an emergency. This has been taken out. However, S.B. 4 of the 31st Session, in its written form, which Senate Bill No. 47 adopted and took in as a whole, has provisions which give me deep pause for that power to be used in the Interim. Section 5, subsections 4 (a) and (b) state: "Any general obligation interim debentures or special obligation interim debentures issued pursuant to the section, and any bond administrative expenses, may be additional secured by pledge revenue for the benefit of the owners of the interim debentures and the obligees under an agreement subscribed in the subsection 3, by pledge of, security interest in and first lien on all or a portion of the following, if applicable: (a) unrestricted revenues, including tax revenues payable to the State General Fund to be used for the general operations for the State; or (b) Money related to the interim debentures held on the in any other fund or account under any instrument or agreement pertaining to the interim debentures, including, without limitations, reserves therefor and income on such money."

That power is so great. This was meant to be limited to an emergency. It was meant to be limited and temporary. It is not a power, even with the Interim Finance Committee reviewing it, that should rest with the State Legislature. It belongs in this Body, with its wisdom. It is for us to determine how to use those debts and the manner in which to do so. I looked at the *Nevada Constitution*, the limits on power, how it was derived and how we got the power as a Legislature. I determined it is not appropriate for us to delegate away power that belongs to us, not a great power like this that we want to keep. I do not see us walking back and asking for it to be returned to us. That is why I object and why I am opposed to Senate Bill No. 47 which rolls in S.B. 4 from the 31st Special Session.

Bill read third time.

**Remarks by Senator Neal.**

Senate Bill No. 74 eliminates the requirement for the Department of Taxation to use the population totals issued by the Bureau of the Census of the United States Department of Commerce for the purposes of distributing certain taxes and making certain determinations based on population in the case of a conflict between the population totals certified by the Governor and the population totals issued by the Census Bureau.

The bill also eliminates obsolete references to the terms "enterprise district," "local government" and "special district" as they are not referenced or used for the administration of the provisions of NRS Chapter 377.

SENATOR DENIS:
Senate Bill No. 128 requires the State Treasurer to contract with one or more qualified independent consultants to conduct a study concerning the effectiveness of publicly funded scholarship and grant programs in Nevada. The study must include a comprehensive review of student outcomes for scholarship and grant recipients as well as a review of the way such programs are administered. Moreover, the study must include an evaluation of the financial viability of these programs and the projected future costs of administration.

A report of the findings of the study must be submitted to the Legislative Committee on Education, which shall review the report and consult with persons and entities charged with administering publicly-funded scholarship and grant programs. The recommendations in the report must be considered by the Committee when requesting the drafting of legislative measures.

Senate Bill No. 128 provides that the costs of carrying out the study must be paid from the Endowment Account created by the State Treasurer under NRS 353B.350.

SENATOR KIECKHEFER:
I support Senate Bill No. 128. It is important to note that walking into the Legislative Session, the Millennium Scholarship, which our single largest scholarship program in the State, is $50 million underwater. We need to take a look at how we fund these scholarships long term to support our students.

SENATOR DENIS:
Senate Bill No. 204 authorizes the Department of Motor Vehicles (DMV) to issue cards, certificates and licenses in electronic form provided a physical version of the document has been issued. Subject to statutory exceptions, a person must carry the physical version of the document in the motor vehicle. The bill authorizes the DMV to establish electronic branch offices to accept forms and other documentation and to conduct certain transactions electronically. The DMV is not permitted to conduct transactions electronically if State or federal law specifically requires a transaction to be in person or documents to be presented in their original form.

If you want to help reduce lines at the DMV, this bill will help allow us to do more things electronically with the DMV.
SENATOR PICKARD:

I hesitated in my concurrence with passing Senate Bill No. 204 out of Committee. I have since had conversations with the DMV. My concerns were about proper authentication of documents and proving the identity of the person. Officials at DMV have told me that process has been thought through fairly well. They believe they are capable of properly authenticating people and making sure that the people they give the license or forms of identification to and their tags for their vehicles that they will be able to identify who the person is. We can feel comfortable they have done so. I hope that we can adopt the same kind of attitude toward other things, but right now, as to this bill, I am convinced we should pass it.

SENATOR RATTI:
Very early in the pandemic, when we were under lockdown orders, I got a call from the Lieutenant Governor saying people need food; we need to help keep restaurants busy and keep people employed. She asked if I could help. I had just accepted a new job at the Health District, 20 days into a pandemic, so I was not sure I could. I referred her to other people who could. I think of that call that happened back in March 2020. I think of the persistence of our Lieutenant Governor and the amount of work she put in to pull together the right team to accomplish something extraordinary.

I wanted to make sure we recognized this work. I know many members of this Body stepped up to help their neighbors. There were food drives, food pantries and townhalls that people did to make sure they helped. This effort, which resulted in many meals being served to many people who needed it, needed to be recognized. Restaurants, who had hope at the time they could stay open, had this little bit of extra work. Volunteers have been glowing about the ability to meet with a community member, friend or neighbor who was living in isolation, to give them a meal and have a few words with them during challenging times for our State. I know what Lieutenant Governor Marshall will say, this took a village and she did not do it all. I believe, however, that if she had not had the spark, drive and persistence she had, this would not have happened. Thank you for everything you did to make this happen.

SENATOR CANNIZZARO:
I want to thank my colleague from Reno for putting together this honor for someone who stepped up and went above and beyond during the last year. Not everyone is lucky enough to have a wonderful Lieutenant Governor as the Presiding Officer of their Legislative Body. We are blessed to have you. Thank you not only for your service to this State but also for your care and dedication to the wellbeing of those who live in the communities around us. It takes someone special to give a little bit extra of themselves, especially in a time of crisis and need. That is
definitely you, and we thank you for all of your hard work. We appreciate your being here to guide us in the Senate.
