SUMMARY—Revises provisions relating to education. (BDR 34-1099)

By the Committee on Finance:

AN ACT relating to education; revising provisions relating to the Education Gift Fund; revising the sources of revenue for the State Education Fund; revising the method for determining the amount of and distributing money to support the operation of the public schools in this State; revising the method for providing additional money to support pupils with disabilities; transferring responsibility for apportioning money relating to the National School Lunch Program from the Superintendent of Public Instruction to the Director of the State Department of Agriculture; eliminating requirements for the Department of Education to prepare and submit certain reports; eliminating certain accounts; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law declares that “the proper objective of state financial aid to public education is to ensure each Nevada child a reasonably equal educational opportunity” and, beginning with the 2021-2023 biennium, replaces the Nevada Plan with the Pupil-Centered Funding Plan as the formula for distribution of state financial aid to the public schools in this State to
accomplish that objective. (NRS 387.121) Existing law creates the State Education Fund for the purpose of supporting the operation of the public schools in this State and identifies the sources of revenue for the Fund. (NRS 387.1212) Sections 2 and 31-34 of this bill include the proceeds of certain additional sources of revenue in the State Education Fund. Section 2 additionally: (1) excludes the interest and income earned on the direct legislative appropriation to the State Education Fund from being credited to the Fund; and (2) eliminates the authorization for the Superintendent of Public Instruction to create one or more accounts in the Fund as necessary to segregate money required to be administered separately by federal law. [Sections 2 and] Section 14 of this bill makes conforming changes relating to the elimination of the authority of the Superintendent of Public Instruction to create such accounts.

Existing law establishes the Education Stabilization Account and authorizes the Interim Finance Committee to direct the State Controller to transfer money from the Education Stabilization Account to the State Education Fund if the Committee finds that the collection of revenue in any fiscal year will result in the State Education Fund receiving 97 percent or less of the money authorized for expenditure from the State Education Fund. (NRS 387.1213) Section 3 of this bill: (1) additionally allows the Department of Education to submit a request to the Interim Finance Committee to approve a transfer from the Education Stabilization Account to the State Education Fund if the actual enrollment growth exceeds the projected enrollment growth by an amount that makes such a transfer necessary; and (2) requires the transfer, up to the maximum amount established by existing law, of any remaining balance in the State Education Fund to the Education Stabilization Account at the end of each biennium, rather than at the end of each fiscal year.

Existing law requires the Legislature to appropriate money from the State Education Fund, less the money in the Education Stabilization Account, to fund, in an amount determined sufficient by the Legislature: (1) the operation of the State Board of Education, the Superintendent of Public Instruction and the Department of Education; (2) the food service, transportation and similar services of the school districts; (3) the operation of each school district for all pupils generally through adjusted base per pupil funding for each pupil enrolled in the school district; (4) the operation of each charter school and university school for profoundly gifted pupils for all pupils generally through a statewide base per pupil funding amount for each pupil enrolled in such a school, with an adjustment for certain schools; and (5) the additional educational needs of English learners, at-risk pupils, pupils with disabilities and gifted and talented pupils through additional weighted funding for each such pupil. (NRS 387.1214) Section 4 eliminates the requirement to fund the operation of the State Board of Education, the Superintendent of Public Instruction and the Department of Education from the State Education Fund. Section 4 also eliminates the requirement to provide funding for the additional
educational needs of pupils with disabilities through additional weighted funding for each such pupil from the State Education Fund. Sections 4, 6, 8, 13, 22, 23 and 36 of this bill instead require the establishment of a statewide multiplier for the support of pupils with disabilities in a manner generally consistent with the Nevada Plan and funded using the Account for Special Education Services in the State General Fund. Sections 7, 10 and 11 of this bill make conforming changes to reflect the elimination of the requirement to fund the operation of the State Board of Education, the Superintendent of Public Instruction and the Department of Education from the State Education Fund.

Existing law establishes certain factors which are applied to the statewide base per pupil funding amount to create the adjusted base per pupil funding for each school district and certain charter schools and university schools for profoundly gifted pupils. (NRS 387.1215-387.1218) Section 39 of this bill repeals the adjustment for each necessarily small school in a school district. Section 5 of this bill revises the adjustment for small school districts to instead be an adjustment for the increased cost per pupil to a school district to operate public schools in which relatively fewer pupils are enrolled. Sections 13 and 15 of this bill make conforming changes to reflect the changes to the adjustment factors.

Existing law requires any amount by which the actual ending fund balance of a county school district fund exceeds 16.6 percent of the total actual expenditures for the fund to be transferred to the Education Stabilization Account. (NRS 387.1213) If a county school district fund exceeded 16.6 percent of the total budgeted expenditures for the fund for the fiscal year which ended on June 30, 2020, existing law allows a school district to maintain not more than such an excess in succeeding fiscal years until the school district has an ending fund balance of 16.6 percent or less. (Section 77 of Senate Bill No. 543, chapter 624, Statutes of Nevada 2019, at page 4252) Section 35 of this bill revises this authority to apply to an excess of the total actual expenditures for a county school district fund rather than the total budgeted expenditures.

Existing law authorizes the State Board of Education to accept gifts of money and requires such gifts to be deposited in the Education Gift Fund. (NRS 385.083) Section 1 of this bill requires the interest and income earned on the money in the Education Gift Fund to be credited to the Fund and requires the balance in the Fund at the end of a fiscal year to be carried forward to the next fiscal year.

Existing law requires the Superintendent of Public Instruction to apportion certain money designated for the National School Lunch Program to those school districts that participate in the Program. (NRS 387.124) Section 9 of this bill transfers that duty to the Director of the State Department of Agriculture. Sections 10, 12, 17, 24 and 26 of this bill make conforming changes relating to this transfer.
Existing law establishes certain reporting requirements for the Department of Education and for each school district and public school relating to educational expenditures. (NRS 387.12468) Section 16 of this bill: (1) eliminates such requirements for the Department of Education; and (2) requires such a report by a public school to be posted on an appropriate Internet website.

Existing law requires the Department of Education, in consultation with the Budget Division of the Office of Finance and the Fiscal Analysis Division of the Legislative Counsel Bureau, to establish a recommended minimum expenditure on textbooks, instructional supplies, instructional software and instructional hardware for public schools. (NRS 387.206) Section 18 of this bill revises provisions relating to the timing of such recommendations. Section 19 of this bill requires a certain report published by the Department relating to such expenditures to be published on the Internet website maintained by the Department.

Existing law establishes certain requirements relating to the submission of budgets and expenditures by school districts. (NRS 387.303) Section 20 of this bill transfers responsibility to prescribe the format for a compilation of reports of such information from the Director of the Department of Administration to the Director of the Office of Finance. Section 20 additionally eliminates the authority of the Superintendent of Public Instruction to make certain adjustments when preparing the biennial budget request for the State Education Fund.

Existing law establishes certain accounts relating to education, including the Educational Trust Account, the Bullying Prevention Account, the Account for Instruction in Financial Literacy, the Account for Computer Education and Technology, the Grant Fund for Incentives for Licensed Educational Personnel and the Great Teaching and Leading Fund. (NRS 120A.610, 388.1325, 388.895, 391.369, 391A.400, 391A.500) Sections 31 and 39 of this bill eliminate these accounts. Sections 21, 25 and 27-30 of this bill make conforming changes relating to the elimination of such accounts. Section 38 of this bill provides for the reversion or transfer of money in such accounts that has not been committed for expenditure before July 1, 2021.

Section 3 of Senate Bill No. 439 is hereby amended as follows:

Sec. 3. NRS 387.1213 is hereby amended to read as follows:

387.1213 1. The Education Stabilization Account is hereby created in the State Education Fund. Except as otherwise provided in subsections 3 and 4, each year after the close of the previous fiscal year and before the issuance of the State Controller’s annual report, each county school district shall transfer from the county school district fund to the Education Stabilization Account any amount by which the actual ending fund balance of the county school district fund exceeds 16.6 percent of the total actual expenditures for the fund. The interest and income earned on the money in the Account, after deducting any applicable charges, must be credited to the Account.
2. Money transferred pursuant to subsection 1 to the Education Stabilization Account is a continuing appropriation solely for the purpose of authorizing the expenditure of the transferred money for the purposes set forth in this section.

3. The balance in the Education Stabilization Account must not exceed 15 percent of the total of all appropriations and authorizations from the State Education Fund, excluding the Education Stabilization Account, for the immediately preceding fiscal year. Any money transferred to the Education Stabilization Account which exceeds this amount must instead be transferred to the State Education Fund.

4. If the Interim Finance Committee finds that:
   (a) Upon submission of a request from the Department, the actual enrollment growth for a fiscal year exceeds the projected enrollment growth by an amount that the Interim Finance Committee determines would make a transfer of money to the State Education Fund necessary to fund the excess enrollment; or
   (b) The collection of revenue in any fiscal year will result in the State Education Fund receiving 97 percent or less of the money authorized for expenditure from the State Education Fund, the Committee shall by resolution establish an amount of money to transfer from the Education Stabilization Account to the State Education Fund and direct the State Controller to transfer that amount to the State Education Fund. The State Controller shall thereupon make the transfer.

5. The balance remaining in the State Education Fund, excluding the balance remaining in the Education Stabilization Account, that has not been committed for expenditure on or before June 30 of an odd-numbered fiscal year must be transferred to the Education Stabilization Account to the extent that such a transfer would not cause the balance in the Education Stabilization Account to exceed the limit established in subsection 3.

Senator Brooks moved the adoption of the amendment.
Remarks by Senator Brooks.
Amendment No. 524 to Senate Bill No. 439 revises section 3 of the bill to require the transfer of any remaining balance in the State Education Fund to the Education Stabilization Account at the end of each biennium, rather than at the end of each fiscal year.
Amendment No. 524 to Senate Bill No. 439 further revises section 3 of the bill to authorize the Department of Education to submit a request to the Interim Finance Committee for a transfer from the Education Stabilization Account to the State Education Fund if the Committee determines actual enrollment growth for a fiscal year exceeds the projected enrollment growth and a transfer is necessary to fund the excess enrollment.

Amendment adopted.
Bill ordered reprinted, engrossed and to third reading.
