AN ACT relating to health care; requiring written approval to close certain hospitals or convert such a hospital into a different type of health facility; requiring certain facilities that provide emergency medical services to provide certain notice to patients; establishing and increasing certain civil penalties; requiring an off-campus location of a hospital that provides emergency medical services or an independent center for emergency medical care to include certain information on a claim for reimbursement or payment; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

1 Existing law requires a person to obtain the written approval of the: (1) Director  
2 of the Department of Health and Human Services before making certain capital  
3 expenditures for construction of a new health facility under certain circumstances;  
4 or (2) the Chief Medical Officer before operating or undertaking any expenditure  
5 for the operation of a new medical helicopter within 150 miles from the base of an  
6 existing medical helicopter. (NRS 439A.100, 439A.104) **Section 2** of this bill  
7 similarly requires a person to obtain the written approval of the Director before  
8 closing a hospital in a county whose population is 100,000 or more (currently Clark  
9 and Washoe Counties) or converting such a hospital into a different type of health  
10 facility. **Sections 2 and 7-9** of this bill provide that such approval is a condition to:  
11 (1) the issuance or renewal of a license for certain health facilities converted from a  
12 hospital; and (2) certain amendments to such a license. **Sections 5 and 10** of this

13 bill authorize the Department and the Division of Public and Behavioral Health of  
14 the Department to impose certain civil penalties and take certain other disciplinary  
15 action against a person who closes a hospital in a county whose population is  
16 100,000 or more or converts a hospital in such a county to a different type of health  
17 facility without written approval in violation of **section 2**.

18 Existing law requires: (1) a hospital to notify the Department of any merger,  
19 acquisition or similar transaction involving the hospital; and (2) a physician group  
20 practice or a person who owns all or substantially all of a physician group practice  
21 to notify the Department of certain similar transactions under certain circumstances.  
22 (NRS 439A.126) **Section 4** of this bill authorizes the Department to impose an  
23 administrative penalty against a hospital that fails to provide timely notice of the  
24 information required by existing law. **Section 4** also requires the Department to  
25 notify the Board of Medical Examiners or the State Board of Osteopathic Medicine,  
26 as appropriate, if a physician group practice or a person who owns all or  
27 substantially all of a physician group practice fails to provide such timely notice.  
28 Upon receiving notice of such failure from the Department, **sections 10.7 and 11.5**  
29 of this bill require those boards to proceed as if a complaint had been filed. If, after  
30 conducting an investigation and a hearing, the Board of Medical Examiners or the  
31 State Board of Osteopathic Medicine determines that a physician group practice or  
32 a person who owns all or substantially all of a physician group practice has failed to  
33 provide timely notice to the Department of a transaction for which notice is  
34 required, **sections 10.7 and 11.5** authorize the respective board to impose an  
35 administrative penalty.

36 Existing law requires each off-campus location of a hospital to obtain and use  
37 on all claims for reimbursement or payment a national provider identifier that is  
38 distinct from the national provider identifier used by the main campus and any  
39 other off-campus location of the hospital. (NRS 449.1818) **Section 10.3** of this bill  
40 clarifies that the off-campus location: (1) is required to include the national  
41 provider identifier on each claim for reimbursement or payment; and (2) may  
42 additionally include on such a claim the national provider identifier for the main  
43 campus of the hospital. **Section 10.3** also requires an independent center for  
44 emergency medical care to include its national provider identifier on all claims for  
45 reimbursement or payment.

46 Among other sanctions, existing law authorizes the Division of Public and  
47 Behavioral Health to impose against a hospital that fails to obtain a national  
48 provider identifier for an off-campus location that is distinct from the national  
49 provider identifier used by the main campus and any other off-campus location of  
50 the hospital an administrative penalty of not more than \$5,000 for each day of such  
51 failure, together with interest. (NRS 449.163) **Section 10.2** of this bill doubles the  
52 amount of the administrative penalty that the Division is authorized to impose for  
53 such failure.

54 Existing law provides every patient of a medical facility, including a hospital,  
55 with the right to receive certain information about the condition and care of the  
56 patient and the cost of such care. (NRS 449A.106) If an off-campus location of a  
57 hospital provides emergency medical services, **section 10.5** of this bill requires the  
58 off-campus location to: (1) post conspicuous notice that the off-campus location is  
59 an emergency medical facility and will charge patients for an emergency room  
60 visit; and (2) provide each patient with certain notice concerning the rights of the  
61 patient upon registration. **Section 10.5** also requires such an off-campus location to  
62 provide each patient with a more detailed notice concerning billing and payment  
63 after the patient is found not to have an emergency medical condition or after the  
64 emergency medical condition of the patient has been stabilized, as applicable.
