Explanation

(Use Additional Sheets of Attachments, if required)

This legislation would require the Joint Interim Standing Committee on Health and Human Services to study issues related to the funding of agencies which provide child welfare services in Nevada and the effects of reductions to rates of reimbursement under Medicaid and the Children's Health Insurance Program on agencies which provide child welfare services and other persons and entities that provide services to children in the child welfare system in Nevada. While this legislation would have a fiscal impact on the Legislative Counsel Bureau, the amount cannot be determined as the cost of the conducting these studies cannot be estimated.
