Local Government Responses
A.B. 391 / BDR 28 - 1031

<p>City/County: Carson City Approved by: Sheri Russell-Benabou, Chief Financial officer Comment: Unable to determine the effect of this bill, as we currently award bids to the lowest responsive and responsible bidder. We anticipate the cost of projects will increase if we are required to give priority to local contractors. Additionally, there is a potential for loosing Federal Funding as well as State Funding for projects, as we are required for federal money through the Uniform Guidance to award bids to the lowest responsive and responsible bidder. Most of Carson City's large projects are leveraged with some kind of federal funding. When State rules conflict with federal rules it creates a situation where we receive a finding, either we receive a single audit finding, or we receive a NRS violation (we can't follow conflicting rules). These types of findings reported in our annual comprehensive financial report, make it difficult to secure additional funding from the government and/or State.</p>

City/County: City of Las Vegas Approved by: Jackie Bruno, Management Analyst I Comment: As written the bill language will result in a significant rise in inquiries by third-party organizations and require, at minimum, one additional staff to support the public information requests. The bill language intends for local worker participation of over 50% on projects, the city of Las Vegas currently exceeds this target frequently by hiring 98%+ on projects annually.

City/County: City of Sparks Approved by: Jeff Cronk, Chief Financial Officer Comment: This potentially could result in paying up to 5% more for any given capital project that is put out to bid; however, without knowing whether future potential bidders have the preferential designation, it's impossible to determine or estimate the fiscal impact of this bill.

School District: Washoe County School District Approved by: Mark Mathers, Chief Financial Officer Comment: Subsection 4 of Section 1 of this bill would require additional staff time to conduct investigations into the location of workers in certain situations. In addition, the extension of the 5% preference for local bidders to additional types of projects in Section 1 of the bill could result in the award of a higher bid. However, because it is not known if or when these circumstances will arise, we cannot quantify these potential costs at this time.
