### MESSAGES FROM THE GOVERNOR

CARSON CITY, March 25, 1909.

*To the Honorable the Secretary of State:*

I deposit with you herewith, without my approval, Assembly Bill No. 160, entitled "An Act to repeal an Act entitled 'An Act to assist the United States Reclamation Serv-

ice in the construction and maintaining of irrigation works provided for by the Congressional Reclamation Act, approved June 17, 1902, by granting right of way over state lands, regulating the disposition of state lands included in government irrigation projects, and authorizing county commissioners to accept and use stock subscription books of water users associations formed under the provisions of said Congressional Reclamation Act, approved March 5, 1905.<sup>2</sup>

It is sought by this bill to repeal the law now on our statute books, requiring insertion in all patents issued for state lands, a clause reserving to the Federal Government a right of way for irrigation ditches, canals, etc. In reclaiming arid lands of this State the Federal Government should be accorded every facility possible to carry on the work which is of such vast importance to this Commonwealth, rather than be retarded by being compelled to condemn rights of way over lands granted by the State. I cannot see where any benefit is to accrue to the State by the passage of this repealing Act.

Respectfully submitted,

D. S. DICKERSON,  
*Lieutenant and Acting Governor.*

The Governor's veto on Assembly Bill No. 160 was sustained by the following vote:

YEAS—None.

NAYS—Messrs. Arnold, Ayres, Booth, Bradshaw, Bulmer, Byington, Campbell, Coxe, Coppernoll, Cocks, Denton, Donahoue, Drysdale, Enslow, Evans, Fallon, Fay, Fitzgerald, Fulmer, Hacker, Jones of Clark, Jones of Washoe, Kemm, Kendall, Malloy, Mau, Mayers, Meder, Merritt, Miller, McBride, McIntosh, O'Connor, Piercy, Plummer, Price, Robins, Salter, Shilling, Schmidt, Schoer, Staunton, Stickney, Sullivan, White, Williams, Wilson, and Mr. Speaker—48.

Absent—Mr. Byrne.

Assembly Bill No. 139 was then taken up and the Governor's message read by the Clerk.

#### MESSAGES FROM THE GOVERNOR

CARSON CITY, March 26, 1909.

*To the Honorable the Secretary of State:*

I deposit with you herewith, without my approval, Assembly bill No. 139, entitled "An Act to provide a fireproof structure for the preservation and exhibition of the library museum and collections of the Nevada Historical Society and for the accommodation, until otherwise provided, of the University Library."

However valuable the collection of curios and articles of historical interest in possession of the Nevada Historical Society may be, the State is not in condition at this time to make an appropriation of \$55,000 for a building to house them. With unusually large appropriations for the State Prison, Hospital for Mental Diseases, State University, and other state institutions which were made absolutely necessary by conditions prevailing in those institutions, and a large reduction in the state tax rate, it is imperative that the revenue of the State be husbanded with extreme care to avoid a deficit in the State Treasury.

The work of the Historical Society would, no doubt, be greatly facilitated by having a spacious, fireproof building in which to store its records, curios, and other valuable articles, yet the present quarters can be made to do until such time as the State can make the needed appropriation without depleting the treasury.

Respectfully submitted,

D. S. DICKERSON,  
*Lieutenant and Acting Governor.*

The Governor's veto on Assembly Bill No. 139 was sustained by the following vote:

## MESSAGES FROM THE GOVERNOR

CARSON CITY, March 25, 1909.

*To the Honorable the Secretary of State:*

I herewith deposit with you, without approval, Assembly Bill No. 143, entitled "An Act to provide for the relief of the City of Reno."

As far as I am able to learn the City of Reno had no authority from the State of Nevada, through any of its officers, to contract any indebtedness in the name of the State for the improvement of Ninth Street, or any other street in the City of Reno. The State Board of Examiners has repeatedly refused to allow claims of this character against the State, and I can see no reason why such claims should be allowed in the form of relief bills passed by the Legislature. In all improvements made by county or municipal governments where the State is expected to pay a proportion of the expenses of such improvements, the state board having control of the finances of the State should first be consulted, and if the sanction of said board is obtained the State's proportion of the expenses of such improvements might reasonably be considered a just claim against the State, but where the State has had no voice in the matter, I do not believe it should be expected or required to pay any part of the expenses.

Respectfully submitted,

D. S. DICKERSON,  
*Lieutenant and Acting Governor.*

#### REMARKS CONCERNING NOMINATION FOR UNITED STATES SENATOR

In placing Hon. George S. Nixon in nomination for United States Senator from Nevada, Mr. Ayres of Washoe County, on January 24, 1911, spoke as follows:

*Mr. Speaker:*

I will crave your indulgence at this time for a few moments only. I am deeply sensible of the fact that a long speech at this time would be inappropriate. While we are here now as provided by the Federal Constitution in a certain sense to elect a United States Senator, in a larger and broader sense he has already been elected by that supreme power to which we owe allegiance and from which the Constitution itself derives its force, and to that supreme power you and I today must bow. We are here simply to carry out the will of the people as expressed by their ballots last November, and that will shall triumph. In other legislative assemblies the will of the people may be cast aside, but not here—for we of Nevada have each and all of us given our word that the people's choice shall be our choice, and in Nevada, thank God, a man's word is his bond, and that bond is as binding as the decrees of Heaven, as inimitable as the laws of nature, as certain of performance as are the labors of the Angel of Death. Those who so wish may draw back the curtain of the future, may penetrate the veil that obscures this day's proceedings with the assurance of certainty that looking aloft to the highest heavens, they will see gleaming at the zenith the bright star of Nevada's honor undimmed, unsullied, and untarnished. In electing Senator Nixon to this high and exalted position we are honoring him as few of Nevada's sons ever can be honored. Yet is Nevada doubly honoring herself by selecting so illustrious a son to represent her at the councils of this Nation. Great as is the honor which Nevada bestows upon her honored son, greater still is the honor which his illustrious name reflects upon his mother State.

It is with feelings of pride, of elation and of pleasure that I now place in nomination before this Assembly for the exalted position of United States Senator from the State of Nevada, the Honorable George S. Nixon.

Mr. Campbell of Washoe County, in seconding the nomination of Hon. George S. Nixon, spoke as follows:

*Mr. Speaker:*

I take pleasure in seconding the nomination made by my colleague from Washoe County. I take pleasure because, while I am pledged to vote for Senator Nixon for the high office which he now holds because the people of the State by a majority vote have chosen him for that high office, yet notwithstanding that he is my individual choice for the office and my duty here in supporting him therefore also becomes my pleasure, it is fitting and proper that Senator Nixon be elected to the Senate of the United States, for the Senator is in the larger sense of the term a citizen of this State. It has long in the past been customary for men to get their wealth here, to secure high positions and then when they have that high position, to forget the State; to get away; to take all and give nothing in return and to cast off the parent State which has fed them. But in Senator Nixon we have a different type of man, a striking exception to the rule which has been too long felt in the past. Here is a candidate whose interests, whose investments, whose home is in Nevada, and of whom when it is said in the United States Senate "The Senator from Nevada," the words mean something; they mean that he has not only been elected from this State, but that his home is in this State. For this reason then, because his interests are here, because he is one of us, because he is democratic in his tendencies in the largest sense of the word; because he is known and respected, because he is always willing to meet honest citizens everywhere with a friendly hand clasp and cordial smile, and because he has the ability to see men and events in their right perspective, because he is a competent business man of unflinching courage and indomitable resolution, having risen from a farmer boy to the highest rank of the individual in the Nation; to the highest legislative, to the most august legislative body of the world, I second his nomination. More than this, I second it because he is a loyal Nevada citizen; a citizen of Nevada that no part or section has the right to claim as her own, his home having been in various parts of the State and his interests so widely diversified and general. It gives me pleasure to second the nomination of George S. Nixon for a second term in the United States Senate—George S. Nixon, a householder as it happens in the City of Reno, but in the largest sense of the term a citizen of Nevada.

Mr. Denton of Lincoln County, in seconding the nomination of Hon. George S. Nixon, spoke as follows:

*Mr. Speaker and Gentlemen of the Assembly:*

We arise for the purpose of seconding the nomination of our distinguished citizen, who has been chosen by the people of the sovereign State of Nevada to represent them in the highest office in her gift. While he belongs to the Republican Party and was their chosen candidate, I wish to say to you, having been born in a Democratic house, rocked in a Democratic cradle and fed on Democratic milk, I second the nomination with all my heart and with all my soul in the name of the county which I have the honor, in part, to represent upon this floor; a county which bears the immortal name of the first Republican President of the Republic, the name of "Lincoln." I also wish to second the nomination in the name of the Democratic Party of the State of Nevada and the grand old Democratic Party of the United States, a party that was born in the morning of liberty and first to proclaim to the civilized nations of the globe that the people must rule. We hope that our sister States will follow our precept and emulate our great example. Commencing at the Golden Gate on the placid Pacific and extending across the continent to the Atlantic Ocean, where the wild waves lash the shores, that the sons and daughters of liberty, the anointed children of education, demand that the men who shall have the honor of representing them in the grandest body of men on earth, shall be the choice of the people and not obtained through trickery, chicanery and fraud. The question can no longer be considered simply a foam on the ocean wave. Beneath the foam is the rolling deep, representing ninety million of freemen. On the 8th day of last November, the people of the sovereign State of Nevada, through a free and untrammelled ballot, a majority expressed their preference for George S. Nixon for United States Senator. We stand here ready to bow to the will of the majority; the fundamental principle of Republics from which there is no appeal, except to force the immediate parent of despotism. On this occasion we should appeal to the Supreme Ruler of the Universe to allow the gates of Heaven to stand ajar while a Washington, an Adams, a Jackson and a Lincoln can witness the Battle-Born State of the Union, through her public servants in the Twenty-fifth Session of the Nevada Legislature, assembled at Carson City, the Capital of the State, carrying out the supreme will of the people, representing a principle which will stand the test of time and square itself with eternal justice. The voice of the people is the voice of God.

Now, a few words in regard to one of Nevada's favored sons who has this day been nominated for United States Senator: We have known him long and well. He possesses all the manly attributes which bind man to man and friend to friend. He belongs to that grand body of men and women known as the Pioneers of the West, in my judgment, as grand a body of pioneers as ever breathed the free air of Heaven or tread upon the carpeted footstool of Jehovah. Commencing at the bottom of the ladder, through industry, perseverance and laudable ambition, he has reached the top with superior western intelligence and courage. He has always been to the front in the upbuilding of our great State, and it is with pleasure that I second the nomination of that full-fledged Nevadan, that prince of good fellows, who hails from Winnemucca, Humboldt County—George S. Nixon, for United States Senator from the State of Nevada.

Mr. Schmidt of Nye County, in seconding the nomination of Hon. George S. Nixon, spoke as follows:

*Mr. Speaker:*

It affords me great pleasure, on behalf of Nye County, to second the nomination of George S. Nixon for the exalted office of United States Senator to succeed himself. Although Nye County is nominally Democratic, we, as Democrats, believing in the voice of the people expressed on election day, cheerfully and cordially offer our support for the unanimous choice.

Mr. Merritt of Churchill County, in seconding the nomination of Hon. George S. Nixon, expressed himself in the following words:

*Mr. Speaker:*

On behalf of the County of Churchill, I want to second the nomination of George S. Nixon. I have not had the privilege of living here as many years as most of you, but I want to say to you that in the three years I have lived here I have become a confident believer in the great State of Nevada. I believe there are few men in the State today who appreciate the possibilities that are before us. We have had a name that has not been enviable in the United States, but I believe that the majority of the people of the State of Nevada have got to that position where they are determined by God's grace and wisdom that He shall give them, that they shall make the State such a name as shall make anyone proud of us and believe in the great State of Nevada. I want to say in regard to George S. Nixon, although I don't know him personally, I know something of

his history and I am proud to know a man that starts at the bottom of the ladder and goes to the top—particularly any man who gets his wealth in any Commonwealth and leaves it there, has his investments there, not only for his own benefit, but for the benefit of the people who live there, and, if I am rightly informed, he is the only man who has made his great wealth in the State of Nevada and has made his investments there. In behalf of our county, where our sugar factory which we are so proud of and that we are erecting, when it was a question as to whether we would be able to build it at all on account of lack of money, when George S. Nixon was appealed to he readily and gladly gave \$10,000 for the building of that factory, and, if I am rightly informed, he told the men who came to see him to ask him for it, that he would help them further if they needed it. I am glad that the people of the State of Nevada have honored him and I am glad to stand here in behalf of the people of our county and second the nomination for the exalted office of United States Senator of George S. Nixon.

Mr. Evans of Ormsby seconded the nomination of Hon. George S. Nixon in the following words:

*Mr. Speaker:*

On behalf of Ormsby County I wish to second the nomination of Senator Nixon. Six years ago I had the privilege of being a delegate to the State Convention at Winnemucca when Senator George S. Nixon made his first fight for the position to which we are about to elect him. I have watched his career since then, for that was the first time that I had the pleasure of meeting and knowing him. Since then his actions, while they may have been criticised by some of our Democratic brethren and possibly by some Republicans, have all been those of a man that is human. All of the praise that he has received and the recommendations he has had upon this floor here today I agree with in every particular. I wish I could make the same eloquent appeal that has been made here today by different members, but all I can say on this occasion is that the people of Ormsby County wish to second the nomination of Senator Nixon, and as their servant, I also agree with them and second the nomination of Senator Nixon.

Upon motion of Mr. Evans, duly seconded, House adjourned to 11 a. m. Wednesday.

Approved:

A. C. FROHLICH,

*Speaker of the Assembly.*

Attest: DAN E. MORTON,

*Chief Clerk of the Assembly.*

### MESSAGES FROM THE GOVERNOR

CARSON CITY, March 26, 1909

*To the Honorable the Secretary of State:*

I herewith deposit with you, without approval, Assembly Bill No. 221, "An Act amending an Act requiring certain nonresident joint-stock companies, associations and corporations doing a building and loan business, to furnish securities before doing business in this State, and prescribing a penalty for failure to do so, approved March 14, 1907."

The proposed amendment to section one is entirely inconsistent with the title of the Act of 1907 and applies to all corporations, whether organized under the laws of this State or elsewhere. Section one of the laws of 1907 applies only to nonresident joint-stock companies, associations or corporations and is consistent with the title of the Act. In my opinion, should the proposed change be made, it would result in rendering the entire Act inoperative, as section one is descriptive of the associations, companies or corporations to which the provisions of the law shall apply.

An additional objection is found in the proviso sought to be added to section one, which exempts any such company, association or corporation engaged in the business of loaning money from the requirement of the deposit of security to protect the residents of the State of Nevada. It might seriously be contended and maintained that a building and loan company was engaged in the business of loaning money and, if so, the proviso sought to be added would exempt such companies from the operation of the law and thus defeat the very purpose for which it was enacted.

Respectfully submitted,

D. S. DICKERSON,  
*Lieutenant and Acting Governor.*

The Sergeant-at-Arms announced a message from the Senate.

The question was then put: Shall the bill pass, notwithstanding the objections of the Governor?

The Governor's veto of Assembly Bill No. 221 was sustained by the following vote:

YEAS—None.

NAYS—Messrs. Arnold, Booth, Bradshaw, Bulmer, Byington, Campbell, Coxe, Copperrnoll, Cocks, Denton, Donahoue, Drysdale, Enslow, Evans, Fallon, Fay, Fitzgerald, Fulmer, Hacker, Jones of Clark, Kemm, Kendall, Malloy, Mau, Mayers, Meder, Merritt, Miller, McBride, McIntosh, O'Connor, Piercy, Plummer, Price, Robins, Salter, Shilling, Schmidt, Schoer, Staunton, Stickney, Sullivan, White, Williams, Wilson, and Mr. Speaker—46.  
Absent—Messrs. Ayres, Byrne, and Jones of Washoe—3.

Assembly Bill No. 60 was next taken up, and the Governor's message was read by the Clerk.

# MESSAGES FROM THE GOVERNOR

CARSON CITY, March 26, 1901.

*To the Honorable the Secretary of State:*

I herewith deposit with you, without approval, Assembly Bill No. 60, entitled "An Act in relation to the keeping and preservation of the State Museum of mineralogical, geological and other specimens."

Inasmuch as the Nevada Historical Society has not at this time a fireproof building in which to store the mineralogical, geological and other specimens now in the State Museum, which specimens are of a value approaching close to a quarter of a million dollars, I cannot see the wisdom of turning over this valuable collection to the Historical Society. The collection is now stored in a fireproof building and is as safe as it would be if in the possession of the Historical Society.

These specimens are not mere curios, neither have they historical value, and it does not appear to me that the Historical Society would be the proper custodian of the collection.

Respectfully submitted,

D. S. DICKERSON,

*Lieutenant and Acting Governor.*

The question was then put: Shall the bill pass, notwithstanding the objections of the Governor?

The Governor's veto of Assembly Bill No. 60 was sustained by the following vote:

YEAS—Mr. Salter.

NAYS—Messrs. Arnold, Ayres, Booth, Bradshaw, Bulmer, Byington, Campbell, Coxe, Copperrnoll, Cocks, Denton, Donahoue, Drysdale, Enslow, Evans, Fallon, Fay, Fitzgerald, Fulmer, Hacker, Jones of Clark, Kemm, Kendall, Malloy, Mau, Mayers, Meder, Merritt, Miller, McBride, McIntosh, O'Connor, Piercy, Plummer, Price, Robins, Shilling, Schmidt, Schoer, Staunton, Stickney, Sullivan, White, Williams, Wilson, and Mr. Speaker—46.

Absent—Messrs. Byrne and Jones of Washoe—2.

Assembly Bill No. 65 was next taken up, and the Governor's veto message was read by the Clerk.

# MESSAGES FROM THE GOVERNOR

CARSON CITY, March 26, 1909.

*To the Honorable the Secretary of State:*

I herewith deposit with you, without my approval, Assembly Bill No. 65, entitled "An Act for the aid and benefit of the State Agricultural Society."

My approval of this measure is withheld for the reason that under the present law the State Agricultural Society in return for appropriations hitherto made for its benefit was required to pay to the State such sums of money as were derived by it for gate receipts at state fairs. There has been no such payment made to the State of any money thus secured during the past two years. The failure of this society to observe the provisions of the law in the past should induce caution in making appropriations under similar conditions in the future. The proposed measure appropriates for the benefit of the society during the years 1909 and 1910 the sum of \$13,000, and in addition thereto the sum of \$3,000 for general improvements to be made by the directors of the State Board of Agriculture.

I am unable to see where the State is to receive any benefit from the appropriation of this sum of money that is at all commensurate with the expenditure, and no money

should be appropriated out of the State Treasury for which the State or its people shall not receive an adequate return. This principle obtains in the conduct of private business affairs and is observed by individuals in the conduct of the enterprises in which they may engage. It is in my judgment equally applicable to the business of the public and of importance to the State that it be so applied.

Respectfully submitted,

D. S. DICKERSON,  
*Lieutenant and Acting Governor.*

WHEREAS, The present Nevada state law forces immediate sale of property for unpaid taxes, making the property unredeemable after six months; and

WHEREAS, This is a very severe and unnecessary law, which other sessions of the Nevada Legislature have failed to change; therefore

We memorialize your honorable body to change the laws or Constitution so as to give more time and notice for redemption, similar to the laws of California and other States, in regard to tax collections.

We also ask that your honorable body change the present laws regarding mortgage taxes, so that a home owner shall pay taxes only on the value of his interest in his home—the present law making double taxation. And your petitioners will ever pray.

MESSAGES FROM THE GOVERNOR

CARSON CITY, March 29, 1909.

*To the Honorable the Secretary of State.*

I herewith deposit with you, without my approval, Assembly Bill No. 31, entitled "An Act to provide for the building and equipment of a biological building at the University of Nevada at Reno, Nevada."

By this bill it is sought to be appropriated the sum of thirty thousand dollars (\$30,000) to pay for the construction and equipment of a biological building at the State University. For reasons of economy and administration I do not consider that this amount of money should be withdrawn from the State Treasury now for the purpose mentioned in this Act. The Board of Regents in their biennial report for the years 1905 and 1906, published in 1907, speaking of the desirability of having such a building as contemplated by this bill, stated that they realized the State could be too generous, for it had other interests to look after as well as the interests of the University. They suggested that an amount of money sufficient to pay for the building could probably be raised by private subscription.

I do not believe the University should be compelled to seek private beneficence to aid in carrying on its work. The State has done much for its improvement and enlargement when compared with the aid given other institutions. At the session of the Legislature recently closed there was appropriated on behalf of the University the following sums for the purposes named: Green House, \$5,000; furnishing Biological Buildings, \$4,000; purchase of books for University Library, \$10,000; completion of Heating Plant, \$31,000; addition to Manzanita Hall, \$25,000; Hygienic Laboratory, \$8,000; Historical Society and Library Building, \$55,000; support of the University, \$125,000, making a grand total of \$293,000. I have already deposited with the Secretary of State, without approval, the bill appropriating \$55,000 for the Historical Society and Library Building, and by reason of my veto of the bill under consideration the appropriation of \$4,000, in the General Appropriation Act, for furnishing the Biological Building, cannot be used. The grand total will thus be reduced by \$89,000, leaving \$204,000 available during the next two years.

The University of Nevada is entitled to, and should receive, liberal support from the State so that it may become a power for good and a credit to the Commonwealth. A biological building may be useful and beneficial to the University, but it seems to me that it is better to proceed slowly and carefully upon a policy of enlargement, both from the standpoint of economy as well as of efficiency. It is better to accomplish these things gradually and with a view to the general improvement and amplification of all departments of the institution, than to undertake too much at one time and perhaps risk lowering the general efficiency of all departments which might result from a too hasty increase of the work of the administrative force. With the improvements already authorized the University has received a liberal share of the funds of the treasury and perhaps even more than the finances of the State really justify.

With the vast amount of business before it, the recent Legislature probably did not at all times take into consideration questions of economy and a fair distribution of the State's money. For various reasons much of the important legislation was necessarily delayed and passed during the closing days of the session. The consequence was that it was almost impossible for the people's representatives to adequately consider every aspect of the situation confronting the State with reference to the many appropriations which were urged upon them.

Respectfully submitted,

D. S. DICKERSON,  
*Lieutenant and Acting Governor.*

The question was then put: Shall the bill pass, notwithstanding the Governor's objection?

The Governor's veto on Assembly Bill No. 31 was sustained by the following vote:

YEAS—None.

NAYS—Messrs. Arnold, Ayres, Booth, Bradshaw, Bulmer, Byington, Coxe, Coppernoll, Cocks, Denton, Donahoue, Drysdale, Enslow, Evans, Fallon, Fay, Fitzgerald, Fulmer, Hacker, Jones of Clark, Kemm, Kendall, Mau, Mayers, Meder, Merritt, Miller, McBride, McIntosh, Piercy, Plummer, Price, Robins, Salter, Shilling, Schmidt, Schoer, Staunton, Stickney, Sullivan, Wilson, and Mr. Speaker—42.

### MESSAGES FROM THE GOVERNOR

EXECUTIVE CHAMBER,  
CARSON CITY, NEVADA, February 20, 1911.

*To the Honorable the Assembly:*

I return herewith, without approval, Assembly Bill No. 28, entitled "An Act requiring railways to give public notice of live stock killed or injured by their locomotives or cars, providing a penalty for failing or neglecting to do so, and making such companies liable for damages for live stock killed by their engines or cars."

The objection to this bill is the wording of the third section which appears to be clearly unconstitutional. The identical section has been passed upon by the Supreme Courts of Utah, Montana, Idaho, Alabama, and Illinois, and has been held in each instance to be unconstitutional and void on the ground that it deprives a person of his property without due process of law, and thus is in conflict with the fourteenth amendment to the Constitution of the United States.

I herewith transmit copy of an opinion by the Attorney-General upon the said proposed Act, and in conformity with the reasons upon which I have based my disapproval.

Respectfully submitted,

TASKER L. ODDIE, Governor.

The question was then put: Shall the bill pass, notwithstanding the objections of the Governor?

MESSAGES FROM THE GOVERNOR

EXECUTIVE CHAMBER,  
CARSON CITY, NEVADA, March 9, 1911.

*To the Honorable the Assembly:*

I return herewith, without my approval, Assembly Bill No. 35 entitled "An Act to amend an Act entitled 'An Act to provide for the creation of a State Board of Pharmacy; to regulate the practice of pharmacy; to prohibit the use of deteriorated and adulterated drugs; and to regulate the sale of poisons,' approved March 28, 1901, and the addition thereto of one section, to be known as Section 23."

My objection to this bill is based entirely upon the opposition of the State Board of Pharmacy, which State Board has presented certain specific declarations as to the evil and dangerous effects which would result from its passage, and, which, under the very terms and purposes for which said board was created, I am bound to assume in this case must be true, and an all-sufficient reason why the bill should not become a law.

I herewith append the statement of said State Board of Pharmacy above referred to.

#### MESSAGES FROM THE GOVERNOR

EXECUTIVE CHAMBER,  
CARSON CITY, NEVADA, March 10, 1911.

*To the Honorable the Senate and the Assembly:*

Assembly Bill No. 17—An Act concerning and fixing standard weights and measures, and to regulate the sale of commodities or articles of merchandise according to such standards, etc.—was approved by me on March 9th.

The Act, in my opinion, is defective in one important particular, but which may be remedied by suitable amendatory action by your honorable bodies, and to which I herewith call your attention, trusting that a bill covering the same will be passed this session.

It is a serious question under the terms of this Act, if strictly enforced, whether stocks of merchandise now in the hands of dealers in the State, and not conforming to the provisions of this bill with respect to weights, markings and containers, could be sold, without liability of the vendor to prosecution and the confiscation of such stocks. Sufficient time should be permitted under the Act to enable dealers to dispose of such goods on hand, and, also, to enable foreign manufacturers to conform merchandise intended for our markets to the requirements of this Act.

I therefore respectfully urge the passage of a bill amending Section 33 of said Act, so that it will read as follows:

SEC. 33. This Act shall take effect June 1, 1911; *provided, however*, that no penalty of fine, imprisonment or confiscation shall be enforced for any violations of its provisions as to domestic products prepared or foreign products imported, prior to June 1, 1912; *and provided further*, that no provision of this Act shall be held to apply to commodities imported from other States in original closed or sealed containers and retailed in such original containers.

### REPORTS OF COMMITTEES

The Conference Committee of the Senate and Assembly concurred in the striking out of the Senate amendment on Substitute for Assembly Bill No. 74.

*Mr. Speaker:*

Your Committee on State Prison and Asylum has made an examination of the two institutions before mentioned, and begs to submit the following report, with recommendations:

We find that the State Prison needs immediate and decided improvements which, while inexpensive to the State, will improve conditions in that institution to a marked degree.

1. The guards' living quarters should be changed so that the guards may be handier in event of attempted jail-break. The old quarters could be used as a women's department of the prison. Also, guards should be placed in the Warden's quarters.

2. The kitchen and bakery are too small at present, but if improved according to sanitary lines will be all right.

3. The roof over the entire institution leaks every time there is a storm. At one place in the dining-room there is a leak sufficient to allow a regular torrent to run through it, and in the Warden's bedroom nearly all the paper on the ceiling has come off on account of the rain leaking through. We recommend that the roof be fixed, either temporarily or permanently, preferably permanently, as the prison will not be abandoned. The leakage into the guards' sleeping quarters is such that it makes that portion unsanitary and injurious to the health of the occupants.

4. The wash-room, in which the clothes of all the people in the institution are washed, lacks even the bare necessities, and what equipment it does contain is of the very crudest and oldest type. The saving of wear and tear would warrant the purchase of handier and more up-to-date equipment.

5. The piping between the kitchen and dining-room is in a very bad condition, and should be improved at once.

6. We recommend that the sum of \$5,000 be allowed to make necessary improvements.

### ASYLUM

1. We find the most imperative want of the Asylum to be in connection with its lavatories and baths in the men's department. For the three stories we find that the floors are wood, there is more or less leakage going from the third to the second, second to the first, and first into the basement, which is deplorable and infectious. We recommend that that portion of the building be entirely taken out, cement floors be installed on each floor and that they be made absolutely sanitary.

2. We find that the mansard roof on the top allows rain water to go through and percolate through the bricks of the structure, which will in a short time destroy the building unless remedied.

3. We find that there are two heating plants burning crude oil; they have no connection whatever; for instance, should the one which supplies heat for the old structure be out of order, the plant for the new part cannot be made to supply heat until the other could be fixed, and vice versa. We recommend that the steam boiler now situated in a small building about 200 feet from the main building, which now supplies water for bathing purposes, etc., be placed in the basement of the main building and used as an

auxiliary in event of break-down of the other two. We also recommend that the floor of the basement around the engines be concreted and made more accessible.

J. F. DONAHUE,  
J. C. PIERCY,  
MARK G. BRADSHAW.

#### MESSAGES FROM THE GOVERNOR

EXECUTIVE CHAMBER,  
 CARSON CITY, NEVADA, March 16, 1911.

*To the Honorable the Senate and the Assembly:*

I return herewith to the honorable Senate, without my approval, Senate Bill No. 28 entitled "An Act to provide a water law for the State of Nevada, etc." On the 14th instant, while the said bill was pending in the Assembly, I submitted a special message to your honorable bodies in which there was no equivocation with respect to the action I would take if this bill came to me in the form it

passed the Senate, to wit: with the Engineer's Department of the State Government removed from the Executive control and placed in the practical control of the Lieutenant-Governor and the Secretary of State. The message was submitted at that time in order that there might be no doubt or uncertainty upon the part of any member of your honorable bodies as to whether a vote in the Assembly, for or against an amendment restoring the Engineering Department of the State Government to the control of the Executive, was a vote to save the measure or to kill it.

The reasons which actuated me in taking this stand upon a measure which I had, in public address and in a special message to your honorable bodies on February 23d, urged as of the greatest importance to the State, in my own view, are cogent, reasonable and sufficient. These reasons have a deeper significance than appears upon the surface, or that the people, whose representatives you are, and whose servant I am, are as yet fully aware. The inaccuracies in certain of the public press as to what has transpired here the past sixty days will not stand as the history of this session, except in so far as corroborated by the truth. When that truth is known, I have no fear of the verdict concerning my action in disapproving a measure, in the excellence of whose provisions I believe as firmly today as when in my special message I urged its passage, but which, as amended by the Senate and concurred in by a union of the Democrats of the Assembly with three members of the Assembly who had been elected as Republicans, brought about a situation in which greater issues were at stake than a two-years' postponement of the provisions of said proposed Act.

The people of this State on November 8th last elected me Governor in preference to Denver S. Dickerson, by a decisive majority. The responsibility is upon me to guide this State as its Executive the next four years, and let no one assume that I do not intend to be its Governor during that time, in the full sense of the term, and without any parceling of the power received from my predecessor back to those in opposition.

The appointment of the State Engineer is the most important in the gift of the Governor of this State, and in connection with the work planned for myself as Governor during the next four years, and which is forecast in Assembly Bills No. 52 and No. 105, the cordial cooperation of the State Engineer with me is an essential factor of any success hoped to be attained. Under this proposed Act the personnel of the Engineer's Department of the State Government would have consisted of a State Engineer, and two Water Commissioners, necessarily clothed with great power, and with a large amount of advertising patronage at the disposal of the State Engineer.

In my address at Reno, on February 19th, I was as fully aware of the nature of the fight that was being waged, as since disclosed more openly, either to defeat my administration entirely in every purpose for the public good I sought to accomplish, or else to compel me, as the price of securing any measures of importance to the State, practically to abdicate certain important portions of the Executive power.

In my special message of February 23d I stated, with such clearness of explanation as at my command, that Senate Bill No. 28, introduced by Senator Mills, providing a water law for the State of Nevada; Assembly Bill No. 52, introduced by Mr. Wilson, creating a Commission of Industry, Agriculture and Irrigation; Assembly Bill No. 105, introduced by Mr. Denton, governing said commission in the conduct and control of lands granted the State under the Carey Act, now aggregating two million acres; and Assembly Bill No. 150, introduced by Mr. Merritt, creating a State Tax Commission, severally comprise a group of inter-related progressive measures of enormous importance to the welfare and upbuilding of the State of Nevada.

Opposition to these bills was at first expressed in the ugly word "graft," and later upon a general line of attack, specifically, that I was trying to build up a political machine. I will dispose of the latter accusation first.

Assembly Bill No. 150, the Tax Commission Bill, provided for but one appointed official, to be known as the State Fiscal Agent, in lieu of the State License and Bullion Tax Agent, whose office the bill repealed, and conferred its duties upon the said commission.

Assembly Bill No. 105 provides for no new appointive office and no appointments whatsoever by the Governor.

Assembly Bill No. 52 provided for the repeal of the Act creating the State Industrial and Publicity Commissioner, and, in lieu thereof, provided for the appointment of a Commissioner of Industry, Agriculture and Irrigation. The original bill, as it passed the Assembly, provided for the appointment of an Associate Commissioner. At a meeting with the members of the Senate Judiciary Committee in my office on February 27th, I submitted to said committee the draft of a proposed substitute, cutting out the Associate Commissioner—substantially the bill which passed the Senate and was concurred in by the Assembly, with the exception of the ninth section added.

Senate Bill No. 28, the bill herewith returned, was prepared by Mr. Boyle, a Democrat, formerly the State Engineer, and no provision in the Act with respect to any office created, was suggested by me or came to my knowledge prior to its introduction and my reading of the printed bill. As originally drawn and introduced, the appointing power was left with the Governor, as under all previous Acts the State Engineer has been appointed by the Governor.

From the foregoing statement of fact it must appear that any evidence in support of the contention that I advocated these measures to build up a political machine, is lacking. Moreover, it is a matter of personal information to most of the members of the Senate that I stood ready and willing, in order to insure the passage of Senate Bill No. 28, to divide the patronage equally between the Republicans and Democrats, and that the names of the two Democrats I proposed to appoint were known to the Democratic Senators, and met with their professed approval. Nor was this expression by me of a willingness to divide the patronage under this bill a late day concession, but was made on the day said bill was amended in the Senate depriving me of the appointing power under it, and was not withdrawn until the action of the Democratic members of the Assembly and their allies made such a concession impossible.

On my assuming the office of Governor I found on the statutes of the State an Act providing for a State Industrial and Publicity Commissioner, which became a law four years since, and a measure in relation to the Carey Act, passed by the last session of the Legislature. Under the terms of the latter, the State expressly surrendered all opportunity for profit under the provisions of the Carey Act. As a substitute for these two measures, I submitted Assembly Bill No. 52 and Assembly Bill No. 105—since enacted into law by your honorable bodies—correlated in their operation, and under the terms of the latter there will eventually be secured by the State, from the sales of Carey Act lands, more than one million dollars, available for state reclamation and upbuilding, as against nothing under the said previous Act.

The opportunity to perceive and take advantage of this great tender of the National Government, of which other States have taken such full advantage, was open to the preceding Executive and preceding Legislatures. The Act of March 23, 1909, is sufficient testimony that such opportunity was either undiscovered or was ignored. For that law not only authorized a waiver of the State's right to sell the lands, but provided no safeguards to conserve such lands to legitimate reclamation enterprises. Instead, it left these lands open for exploitation, without state supervision or control, to all who might apply; the legitimate applicant and promoter side by side with the land wild-catter and the fraudulent operator.

The policy crystallized in Assembly Bills No. 52 and No. 105 is a substitute for the policy of the last preceding administration. Ex-Governor Dickerson has taken issue aggressively against the substitute policy, in the following language quoted from the editorial columns of his paper of February 23d: "It (the new policy) opens the door of graft and invites the bureau to enter; it supplies the bureau with jimmy and blackjack and points the way to the strongbox of every industrial corporation doing business in the State. To say that advantage will not be taken of the opportunities thus afforded, sooner or later, is to place an unwarranted confidence in the honesty of men. \* \* \* Instead of the good name of the State being protected by the bureau it is more likely to be blackened. \* \* \* There is scant foundation for belief that the Bureau of Industry, Agriculture and Irrigation will be any improvement over the Publicity Commission; the main difference, as we see it, between the two Acts is the bureau will furnish one more easy berth for one more lazy man."

With respect to the Tax Commission Act, involved in the general program of the opposition, and which has resulted so disastrously to the bill herewith returned,

possibly the tabling of the measure by a partisan vote in the Senate, without permitting a hearing or a discussion of the bill upon its merits, will have the effect of bringing the measure the next two years before the larger forum of the people themselves. Moreover, since the finances of the State so urgently demand the strong treatment provided in this measure, to equalize the burden of taxation and increase the public revenue, the stringency I foresee in the state and county treasuries before another session of the Legislature will serve to accentuate the mistake, in my judgment, made by the defeat of this bill.

And now, in conclusion, permit me to declare that nothing that I have herein stated is intended to carry with it any personal sting or reflection upon the honor or integrity of any member of your honorable bodies. While we may differ, widely and strongly, upon public issues and questions, in all our personal relations I have received only the most kindly and cordial courtesy from you each and all, and in return I beg you to believe that tonight, when you adjourn, you will each carry with you my warmest and most sincere wishes for your welfare, success and happiness.
