MESSAGES FROM THE SECRETARY OF STATE

To the Honorable the Assembly:

I have the honor to transmit herewith this date to your honorable body vetoed Assembly Bill No. 31, vetoed Assembly Bill No. 86, vetoed Assembly Bill No. 101, vetoed Assembly Substitute for Assembly Bill No. 119, vetoed Assembly Bill No. 143, vetoed Assembly Bill No. 164, vetoed Assembly Bill No. 170, vetoed Assembly Bill No. 187, and vetoed Assembly Bill No. 223 of the Thirty-seventh Session of the Legislature of the State of Nevada for your consideration.

Very truly yours,

W. G. GREATHOUSE,
Secretary of State.

By MURIEL LITTLEFIELD, *Deputy.*

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, April 2, 1935.

HON. W. G. GREATHOUSE, *Secretary of State, Carson City, Nevada.*

SIR: Herewith there is deposited in your office for filing within the constitutional time limit, and without my approval, Assembly Bill No. 31, introduced by Mr. Stewart, amending the Act concerning damages for livestock killed by railroads, which is returned without my approval for lack of clarity and on account of its provisions.

In section 2 of this bill, section 6 of the Act, "being section 6350 N. C. L. 1929," is amended in a certain manner. Later in section 6 of this bill, section 5 of the Act, "being 6350 N. C. L. 1929" is expressly repealed.

For the foregoing reasons this Act is deposited without my approval thereon.

Respectfully submitted,

RICHARD KIRMAN, SR.,
Governor.

HON. W. G. GREATHOUSE, *Secretary of State, Carson City, Nevada.*

SIR: Herewith there is deposited in your office for filing within the constitutional time limit, and without my approval, Assembly Bill No. 86, introduced by Mr. Jameson, creating a Contractors License Board and regarding the issuance of licenses to contractors.

The present law requiring licenses of contractors operates to the financial benefit of the State, while this bill, if enacted into law, will result in overhead expenses in administration which will result in all fees being consumed in that manner and depriving the State of this revenue.

This bill contemplates that the administration of the Act will be by a board composed of interested parties; that is, of contractors themselves engaged in bidding on public and private work. The board is given the power to adopt and enforce rules and regulations which might practically debar competition.

With regard to highway contracts the Highway Department, by its present "right to bid" classification, enables all contractors to receive fair and impartial

consideration. Finally, in my opinion, this bill would put the small contractor out of business, and this would work to the embarrassment and financial detriment of our small and more isolated districts.

For the foregoing reasons this Act is deposited without my approval thereon.

Respectfully submitted,

RICHARD KIRMAN, SR.,
Governor.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, April 1, 1935.

HON. W. G. GREATHOUSE, *Secretary of State, Carson City, Nevada.*

SIR: Herewith there is deposited in your office for filing within the constitutional time limit, and without my approval, Assembly Bill No. 101, introduced by Mrs. Wines, making an appropriation of $15,000 for collecting and housing relics of the State of Nevada and creating a board of seven persons for the administration of the Act.

I do not believe it is advisable at this time for the State of Nevada to undertake this expense, particularly in view of the fact that the new building which is to be erected to house the State Library will make the present State Library building available for the storing of the relics in question. It would seem to me advisable that this structure immediately adjoining the State Capitol should be used for this purpose.

For the foregoing reasons this Act is deposited without my approval thereon.

Respectfully submitted,

RICHARD KIRMAN, SR.,
Governor.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, April 2, 1935.

HON. W. G. GREATHOUSE, *Secretary of State, Carson City, Nevada.*

SIR: Herewith there is deposited in your office for filing within the constitutional time limit, and without my approval, Assembly Substitute for Assembly Bill No. 119, introduced by the Committee on Trade and Manufactures, providing for the registration of trade marks.

This bill presents attractive revenue possibilities, but so far as I can see, it has nothing else to recommend, and the sole question is whether we will let that feature blind us to its manifest injuries, and to its glaringly apparent possibilities of fraud.

National concerns operating under registered trade marks have spent millions of dollars in advertising and establishing markets for their products, and they have thus acquired property rights therein which it should be the policy of our laws to protect. This bill violates every principle back of the rule against taking property without due process of law.

Then, too, by making any unregistered trade mark public property which may then be registered as the property of, and used by any person, we open the doors to, and encourage the deception and defrauding of our citizens. If this bill is enacted into law, our State will be flooded with inferior goods manufactured and marketed by unscrupulous persons.

However much the State of Nevada may be in need of additional revenue, we cannot afford to pay therefor the price which this bill will exact of us. The well-being of our own citizens and the good name of Nevada required the disapproval of this bill.

For the foregoing reasons this Act is deposited without my approval thereon.

Respectfully submitted,

RICHARD KIRMAN, SR.,
Governor.

HON. W. G. GREATHOUSE, *Secretary of State, Carson City, Nevada.*

SIR: Herewith there is deposited in your office for filing within the constitutional time limit, and without my approval, Assembly Bill No. 143, introduced by Mr. Goodwin, amending the Act relative to the eligibility of convicts for parole.

The bill would be effective to bar from parole any convict who has previously been more than twice convicted, while the present law imposes such a bar only if he has been more than three times so convicted.

In the opinion of those entirely familiar with our State Prison, and with its management and control, it would not be advisable to make this change. In that opinion I fully concur.

For the foregoing reasons this Act is deposited without my approval thereon.

Respectfully submitted,

RICHARD KIRMAN, SR.,
Governor.

STATE OF NEVADA
EXECUTIVE CHAMBER
CARSON CITY, April 2, 1935.

HON. W. G. GREATHOUSE, *Secretary of State, Carson City, Nevada.*

SIR: Herewith there is deposited in your office for filing within the constitutional time limit, and without my approval, Assembly Bill No. 164, introduced by Mr. Bellinger, February 27, 1935, entitled "An Act directing the State Controller to purchase devices for perforating the skins of bountied animals, to have certain printing done at the State Printing Office, and providing for payment therefor, and making an appropriation therefor."

This Act undoubtedly was introduced to meet the objections raised by the office of the State Controller that he was unable to pay from any funds now on hand the sums required to purchase the devices for perforating skins of animals on which bounties are to be paid because there was no appropriation therefor.

At the general election in 1934, the citizens adopted by a large majority an initiative Act calling for the payment of bounties on certain wild animals and appropriating the sum of $17,000 annually from the State Treasury for such purpose. This initiative Act made no provisions for the expenses to be incurred in connection with putting such Act into effect, and I am advised that the Attorney-General has ruled that no part of the $17,000 appropriated annually can be used for any other purpose than the payment of such bounties. An examination of the existing Act, which is very loosely drawn, discloses that in section 1 provision is made that such devices shall be paid for from the bounty fund for the calendar year 1935, while in section 1½ of the bill under consideration, explicit provision is made for the payment of such devices from the State's General Fund. These two provisions are so directly in conflict as to create a doubt in the mind of any reasonable person as from which fund such payments can legally be made.

For the foregoing reasons this Act is deposited without my express approval thereon.

Respectfully submitted,

RICHARD KIRMAN, SR.,
Governor.

HON. W. G. GREATHOUSE, *Secretary of State, Carson City, Nevada.*

SIR: Herewith is deposited in your office for filing within the constitutional time limit, and without my approval, Assembly Bill No. 170, introduced by Mr. Boak, making it the duty of the State Sealer to inspect meters.

The inspection of meters under present law is in charge of the Public Service Commission, who are also authorized to hear and adjust complaints and are in position to render complete service to the public.

Further, the inspection of meters could not be undertaken by the State Sealer without his being provided with proper equipment, and this bill carries no appropriation for the purchase thereof.

For the foregoing reasons this Act is deposited without my approval thereon.

Respectfully submitted,

RICHARD KIRMAN, SR.,
Governor.

SIR: Herewith there is deposited in your office for filing within the constitutional time limit, and without my approval, Assembly Bill No. 187, introduced by Mr. Jameson, and providing a general aeronautics law to be administered by a State Aeronautics Commission.

I feel that State legislation of this character is unnecessary and inadvisable in view of the complete control exercised by the Federal Government in this field. Further, the bill imposes expense on this activity. Aeronautics should be encouraged rather than burdened in any manner in its present state of development.

For the foregoing reasons this Act is deposited without my approval thereon.

Respectfully submitted,

RICHARD KIRMAN, SR.,
Governor.

STATE OF NEVADA

HON. W. G. GREATHOUSE, *Secretary of State, Carson City, Nevada.*

SIR: Herewith there is deposited in your office for filing within the constitutional time limit, and without my approval, Assembly Bill No. 223, introduced by Mr. Stewart, giving delinquent corporations the right to secure reinstatement by payment of fees for the current year instead of by payment of all delinquent fees and penalties, and providing for the purging of his list of corporations every three years by the Secretary of State.

If this bill is enacted we may expect all corporations or the greater part of them to let their present annual fees remain unpaid for two years and then in the third year maintain their standing by the payment of fees for that year alone, with the consequent loss of about two-thirds of the revenue now received by the State; and with the further result that the complete information now made available to the public by the annual filing of lists of corporate officers will be lacking.

For the foregoing reasons this Act is deposited without my approval thereon.

Respectfully submitted,

RICHARD KIRMAN, SR.,
Governor.

MOTIONS, RESOLUTIONS AND NOTICES

By Mr. Boak:

Assembly Joint Resolution No. 3, memorializing Congress to leave undisturbed the present legal method of acquiring mining claims, mines, and rights connected therewith.

WHEREAS, Honorable Harold L. Ickes, Secretary of the Interior, has publicly recommended that all mining claims, mines, and their appurtenances should be leased from the Government of the United States of America; and

WHEREAS, Such a method necessarily involves the discontinuance of the present method of acquiring mining rights by location and the present methods which have been in vogue for many years, and with which the prospectors of the United States are thoroughly familiar; and

WHEREAS, The law of the mining States and of the United States has become settled, definite and intelligible, after years of litigation which has cleared up practically all questions involved under present methods of acquiring mining rights, while a new method would undoubtedly open the doors to protracted and expensive litigation, to the great disadvantage of the ordinary prospector; and

WHEREAS, The present method makes it possible for the discoverer to forthwith establish his claim to the discovery area, while the slower method of application for lease from the Government would delay mining operations, involve the acquisition of mining property with red tape, and throw open the door to fraud and other similar difficulties; and

WHEREAS, The discovery of new mines is wholly dependent upon the work of the prospector, whose profession is a highly specialized one, entailing a life of drudgery, hardship and privation; and

WHEREAS, The prospector in turn is dependent upon his right to acquire ownership to and sell his discoveries and locations to the operator who, alone, is financially able to develop the new finds into mines; and

WHEREAS, It is patent that without the element of ownership and the hope of sale the prospector is deprived of his only incentive for prospecting, and that without prospecting no new mines will be found, and the result will be an irreparable loss to the mining industry, the throwing out of employment of hundreds of thousands of specialized miners, and greatly curtailing revenues of the individual States and the Federal Government; and

WHEREAS, The sentiment in the mining States, expressed since the public announcement of the honorable Secretary of the Interior, has been unanimously adverse to that suggestion; now, therefore, be it

Resolved by the Assembly and the Senate of the State of Nevada, That Congress be memorialized to leave the present legal method of acquiring mining claims, mines, and rights connected therewith, undisturbed; and be it further

Resolved, That it is the sense of the Assembly and Senate of the State of Nevada that such is for the best interests of the mining industry of the United States and for those engaged in prospecting and mining; and be it further

Resolved, That duly certified copies of these resolutions be transmitted by the Secretary of State to the President of the United States Senate, to the Speaker of the House of Representatives, to each of the United States Senators from Nevada, and to the Nevada Representative in Congress.

Mr. Boak moved that rules be suspended, and this resolution be referred to the Committee on Mines and Mining.

Carried.

Mr. Speaker asked that the mailing room be organized as soon as possible. He also requested each Assemblyman to prepare a list of the committees on which he wishes to serve, numbering them in order of preference, to be given to the Speaker.

MOTIONS AND RESOLUTIONS

By Mr. Thruston:

Assembly Joint Resolution No. 4, memorializing Congress to enact a Federal train-limit law.

To the Congress of the United States:

Your memorialist, the Legislature of the State of Nevada, hereby respectfully represents that

WHEREAS, The Legislature of the State of Nevada did, at the Thirty-seventh Session thereof, enact a law limiting the length of freight trains operated within the State to a length of seventy cars; and

WHEREAS, There have been several bills before Congress with practically identical provisions, except that they are national in scope, being applicable to

interstate commerce throughout the Nation without exception or exemption; and

WHEREAS, The purpose of all such bills was two-fold—first, to promote the safety of employees and the traveling public; second, to increase employment; and

WHEREAS, The consideration of such bills in State Legislatures occasions a great deal of acrimony and recrimination arising from threats of the railroad companies to remove their shops from States enacting such bills, and other threats of litigation, accompanied by costs that would be prohibitive; and

WHEREAS, For these reasons it would be infinitely better to have a Federal law limiting freight trains engaged in interstate commerce to seventy cars, thus obviating the threats of railroad companies that shops will be removed from one State to another and terminating and forever silencing all threats of litigation; and

WHEREAS, It would be far more economical and satisfactory to the railroads to have such an interstate law, through the operation of which they would run their trains from state to state without interference, without switching and breaking them up for the mere purpose of complying with varying laws which might be vastly different and inconsistent with each other within a space of a few miles; and

WHEREAS, By the early passage of a national train-limit law a long step would be taken in the desirable direction of uniform legislation upon a subject on which such uniform legislation is truly essential; now, therefore, be it

Resolved by the Assembly and Senate of the State of Nevada, That the Congress be most earnestly urged and beseeched to enact a law at its earliest convenience, limiting the length of freight trains engaged in interstate commerce to seventy cars, and that such laws be fashioned after the laws of the States of Nevada and Arizona; and be it further

Resolved, That the Secretary of State of the State of Nevada be and he hereby is directed to forward a certified copy of this memorial to His Excellency the President of the United States, and to each member of the delegations representing the States of Nevada and Arizona in Congress.

Mr. Thruston moved the adoption of the resolution.

The correspondence was ordered set out in the Journal of the Assembly, and follows:

THE IMPORTANCE OF THIS MOVEMENT

When the Council of State Governments published a call for the First Assembly, which was held in 1933, President Roosevelt issued the following statement:

"The plan to hold an Interstate Assembly of legislators to secure a better coordination of the revenue systems of the Federal Government and of the forty-eight States is a splendid idea. Many exceedingly important public questions are pressing for solution, and among the more urgent of these is the very one with which your association proposes to deal.

"In the past, the Federal Government has passed revenue legislation with too little consideration for State tax systems and, on the other hand, the States have legislated with little reference to the Federal revenue plan and with almost no consideration for the tax programs of other States. This is not as it should be. I have given considerable thought to this problem, and it is my hope to make at least a small contribution to a better synchronized Federal, State and local taxing system, and I shall eagerly follow the proceedings of your conference, being hopeful that from it many good ideas will develop.

"I do hope that every State Legislature will be represented in the conference and that the Governors of the several States will appreciate, as I do, the importance of this movement and lend their support by sending representatives to the meeting."

FRANKLIN D. ROOSEVELT.

To the Governor, the Senate, and the House of Representatives of Each of the Forty-eight States:

During the two years which have passed since the Second Assembly was held in Washington on February 28 and March 1 and 2, 1935, the Council of State Governments has carried through the recommendations made there for the expansion of machinery for intergovernmental cooperation. New agencies, concentrating on specialized subjects and focusing their attention on the solution of problems in separate fields, have been organized. Tangible reports are now being prepared by these agencies for submission to the Third General Assembly.

Further than this, the Third General Assembly has been developed with particular regard to a need of State legislators—a need for organization which will guarantee them an outlet for serious and practicable study and action

upon whatever new intergovernmental problems they feel call for attention at this time.

Substantial benefits can be derived from the Third General Assembly out of the close contacts between legislative, executive, and administrative officials of the State and Federal governments.

The specific model legislative measures which will be presented to the Assembly delegates include, among others, legislation dealing with problems of social security, crime control, conflicting taxation, and certain administrative functions. The ten agencies reporting to the Assembly will be:

Interstate Commission on Conflicting Taxation.
Tax Revision Council.
Interstate Commission on Crime.
Interstate Commission on Social Security.
Interstate Commission on the Delaware River Basin.
Interstate Commission on Council Development.
Interstate Commission on Conservation.
American Legislators' Association.
National Association of Attorneys-General.
National Association of Secretaries of State.

It is with the sincere conviction that intergovernmental cooperation in these United States has proved its importance to the Nation, that the Council of State Governments issues a formal call to the Third General Assembly.

CALL TO THE THIRD GENERAL ASSEMBLY

The Third General Assembly of official delegates of the forty-eight States of the Union is hereby called for Thursday, Friday, Saturday, and Sunday, January 21 to 24, 1937, in Washington, D. C.

OFFICIAL DELEGATES

Each State is entitled to send as its delegation to the Third General Assembly three official delegates—one representing the Governor, one representing the Senate, and one representing the House of Representatives of the State Legislature.

APPOINTMENT OF OFFICIAL DELEGATES

By Commissions on Interstate Cooperation—In States where Commissions on Interstate Cooperation have been established, these commissions are hereby invited to appoint the official delegations representing these States, in accordance with the plan stated above.

By Governors and Legislatures in Some States—In those States where Commissions on Interstate Cooperation have not as yet been established, official delegates should be chosen in the following manner:

The Governor of each of these States is hereby invited to send to the Assembly an official delegate, or delegation, to represent him;

The Senate of each of these States is hereby invited to send, as its delegation, one or more of its members chosen as the Senate may determine;

Similarly, the House of Representatives of each of these States is hereby invited to send, as its delegation to the Assembly, one or more of its members, chosen in such manner as the House of Representatives may determine.

The Governor of every State is an honorary member of the Assembly.

VOTING

Each State is entitled to send as many delegates as it may desire, but each of the three delegations representing the Governor, the Senate, and the House of Representatives shall be entitled to only one vote, regardless of the number of individuals who compose it.

DATE OF DESIGNATIONS

All delegates should be designated on or before January 15, 1937. And on or before that date, official notification of the names of delegations from each of the States should be mailed to the Chicago office of the Council of State Governments.

EXPENSES OF DELEGATES

In most cases the expenses of legislative delegates to the Assembly will be provided from legislative contingent funds and other funds, and the expenses of delegates representing the executive department will be paid by funds of the executive or administrative departments. In some cases, however, special legislative action may be necessary. But in each State, whether or not financial provision for the delegation has been made before January 15, the delegates should be appointed and their names filed by that date. Each State is strongly urged to take action promptly to insure the inclusion of its delegation in the Assembly. The Assembly will have no official point of contact with any State which fails to designate its representatives.

TIME, PLACE AND CORRESPONDENCE

Registration will begin at 9:30 a. m. on Thursday, January 21, 1937, at the meeting place of the Assembly, the Mayflower Hotel, Washington, D. C. All communications should be addressed to the Council of State Governments, Drexel Avenue and Fifty-eighth Street, Chicago.

REPORTS OF COMMITTEES

Mr. Speaker:

Your Committee on Rules has had the proposed rules of the Thirty-eighth Session under consideration, and begs leave to report with the recommendation that the same be adopted.

BERKELEY L. BUNKER, *Chairman.*

A report of the Committee on Rules was read, and upon motion of Mr. Tandy it was left on the Speaker's desk to allow for one day's notice of a change in rules.

By Mr. Tapscott:

Assembly Joint Resolution No. 7, petitioning the Congress of the United States to enact a Federal law to eliminate competitive bidding on star mail routes and to provide for the retention in the service of star route contractors giving satisfactory service, and authorizing the Postmaster General to grant additional compensation where rates of pay are unreasonably low.

WHEREAS, The present system of competitive bidding tends to bring into the service inexperienced carriers which results in inferior service; and

WHEREAS, The fear of losing the contract every four years causes the contractor to refrain from purchasing proper equipment; and

WHEREAS, The present economic stress has forced contractors to bid below cost of operation rather than apply for Federal relief; and

WHEREAS, Patrons on star mail routes are entitled to the same class of service as is given to patrons on routes where tenure and pay are fixed; therefore be it

Resolved by the Assembly and the Senate of the State of Nevada, That the 75th Congress of the United States be requested to enact such legislation as is necessary to retain in the star mail service experienced, satisfactory contractors and authorize the Postmaster General to grant pay adjustments at his discretion; and be it further

Resolved, That a copy of this resolution be forwarded to the President of the United States Senate, to the Speaker of the House of Representatives, and to each of our Senators and to our Representative in Congress.

MESSAGE FROM THE GOVERNOR

STATE OF NEVADA

EXECUTIVE CHAMBER

CARSON CITY, NEVADA, January 27, 1937.

To the Honorable the Senate and Assembly, Carson City, Nevada.

In my biennial message to your honorable bodies, I stated that it might be

necessary or desirable to supplement such message by special communications from time to time, and that I reserved the right to do this.

It has come to my attention that certain statements contained in such message have been rather seriously questioned.

I have been informed that my figures relative to revenues and expenditures of the Office of the Surveyor General and Ex Officio Land Register are misleading. I submit herewith a statement covering the activities of this office since 1930, which shows exactly how much money has been received from the sale of lands, as well as fees collected by this office (all of which constitutes income items to irreducible trusts), and the largest item of all, interest on land contracts.

You will note from the statement submitted to you that of the total revenues collected by this department, more than one-third went for administration, which is precisely the statement I made to you in the message.

The figures used by me are those available in the State Controller's office and are broken down to the respective accounts by him. There is a small discrepancy between these figures and those submitted to the newspapers by the Office of the Surveyor General. This difference, however, is not large, and for all practical purposes may be disregarded.

At this time I wish to inform you that the period from January 1, 1930, to June 30, 1935, referred to in my biennial message was used because it appeared to me to be eminently necessary to draw a line where the diversion of money from irreducible trusts ceased. As stated in such message, the manner of paying the costs of administration for this department has resulted in the diversion from or depletion of irreducible trusts for many years.

Year	Income from Land Sales and Fees	Collected from Interest	Total	Expenses	Percent of Cost To Income
1930	$6,803.67	$25,012.07	$31,815.74	$8,506.84	26.74
1931*	3,331.89	10,054.29	13,386.18	4,218.59	31.51
1932	2,595.53	19,450.00	22,045.53	8,530.01	38.69
1933	2,928.23	13,616.14	16,544.37	8,443.53	51.03
1934	2,389.81	18,937.87	21,327.68	8,588.54	40.27
1935	2,599.76	18,139.02	20,738.78	8,386.28	40.44
1936	9,429.95	19,453.82	28,883.77	8,207.68	28.42
Totals	$30,078.84	$124,663.21	$154,742.05	$54,881.47	†35.47

*Six-month period. †Weighted average for period shown. Weighted average for the period from January 1, 1930, to June 6, 1935, is 37.08%. (See Governor's message, 1937).

In my message to you I recommended that you investigate the necessity of abolishing the Office of Surveyor General. I did not recommend at that time that the office be abolished, but after considering all available figures relating to land sales, fees and collections of interest upon land contracts, I am now fully convinced that the Constitution of our State should be amended so as to ultimately abolish such office, and laws enacted transferring its activities to other departments.

Yours very truly,

RICHARD KIRMAN, SR.,
Governor.

PRESENTATION OF PETITIONS

To the Honorable, the Senate and the Assembly:

GENTLEMEN: The board for the care of the mentally diseased begs leave to call your attention to matters it feels should have your attention.

We respectfully ask that you make a thorough investigation of existing conditions at the Nevada State Hospital for Mental Diseases. Since going into office the members of this board have given close attention to the conduct of this institution and have come to the realization that there is a crowded condition existing that does not work for the best interest of those unfortunate enough to be confined therein. The quarters are entirely too crowded at the present time.

There is no adequate provision made for the officers, attendants and other help for suitable quarters. Men and women who work twelve hours per day lack a place where quietness and rest may be had. They are quartered in buildings with the inmates where continuous din and noises prevent them from obtaining proper rest and sleep.

Further, there is not sufficient room in the present buildings that could be converted into rooms for the attendants, excepting just a few in number, and they would not then be away from the noises during their rest hours. We feel that this is unfair, unjust, and detrimental to the best interests of all to compel attendants to live under such objectionable surroundings during their rest periods.

Further, whenever a court adjudges a criminal now confined in the State Penitentiary insane, on an order of such court, the institution has to accept such criminally insane person. There is no way of keeping these insane in separate wards that would be suitable to keep them safe and prevent their escape.

With these thoughts constantly before the members of the board, we ask you to give these matters your earnest consideration and make such provisions by legislation as in your wisdom you may deem proper and for the best interests of the State.

The board for the past several months has had plans, drawn without any cost, whatsoever, to the State, to remedy the existing conditions, and these plans the board will be very glad to submit to you for your consideration.

It may be suggested that if you feel that the facts hereinabove expressed merit your action and should, in compliance therewith, enact legislation, the cost thereof should not be included in the budget, but should be provided for by a bond issue. The Permanent School Fund has plenty of available money for which the Board of Finance, of which the three members of this board are also members, can find no suitable investment. The Board of Finance should be very glad to purchase these bonds for the Permanent School Fund, thereby assisting our schools to a considerable extent.

Trusting that you may give the above matters such consideration as you deem to be merited by reason of the stated facts.

Respectfully submitted,

NEVADA STATE HOSPITAL BOARD.

RICHARD KIRMAN,
DAN W. FRANKS,
HENRY C. SCHMIDT.

Mr. Hussman moved that the petition be referred to a joint committee consisting of Ways and Means and State Prison and Hospital for Mental Diseases.

Carried.

GENERAL FILE AND THIRD READING

Assembly Joint Resolution No. 6.

Mr. Agee, Chairman of the special committee appointed by the Speaker for the purpose of considering Assembly Joint Resolution No. 6, submitted the following report made by Assemblyman A. V. Tallman:

Pursuant to a request made by the committee that I conduct an investigation of the affairs of the Surveyor General's office, I herewith present for your consideration the result of said investigation.

Of the 2,000,000 acres of land granted the State of Nevada, at the time of its entering statehood, 1,541,451 acres have been sold and paid for; 328,145 acres have been sold under purchase contract, which are embraced in 1,690 contracts now on file in the Surveyor General's office. At the present time there are 130,404 acres of unsold land, 125,418 acres of which are located in the following counties:

Churchill County	120.00 acres
Clark County	9,952.27 acres
Douglas County	600.00 acres
Elko County	4,527.87 acres
Esmeralda County	160.00 acres
Eureka County	2,275.81 acres
Humboldt County	15,448.88 acres
Lander County	6,808.78 acres
Lincoln County	2,230.80 acres
Lyon County	4,176.69 acres
Mineral County	800.00 acres
Nye County	16,261.29 acres
Ormsby County	320.00 acres
Pershing County	5,413.35 acres
Storey County	520.00 acres
Washoe County	49,606.58 acres
White Pine County	6,927.91 acres
Total	125,418.23 acres

The records of the office disclose the fact that of the original 2,000,000 acres granted there are now 1,869,596 acres on the tax rolls of the various counties in the State. If it were possible to speed up the sale of the remaining 130,404

acres, the taxable wealth of the State would be increased approximately $100,000.

The following table shows a statement of receipts and expenditures of this office for the last five-year period:

Year	Receipts	Expenditures	Expense in percent of receipts
1932	$22,045.53	$8,530.01	38
1933	16,544.37	8,443.33	51
1934	21,327.68	8,584.04	40
1935	20,744.29	8,381.44	40
1936	28,883.77	8,207.68	28
Total	$109,545.64	$42,146.50	—
Average	$21,909.13	8,429.30	38

The average annual expense incurred by this office in conducting its affairs is 38 percent of its total receipts. Attention should be called to the fact that this percentage decreases as the volume of business carried on by the office increases, as is noted for the year 1936.

The following table shows that during the drought years only a small acreage of State land was sold annually by this office, whereas during the past year a material increase was noted, which no doubt was occasioned by the enactment of the Federal Taylor Grazing Act:

SALE OF STATE LAND

1932	2,595 acres
1933	2,928 acres
1934	2,389 acres
1935	2,599 acres
1936	9,430 acres

Under the provisions of the Taylor Grazing Act allocation of grazing lands to the stockgrowers of the State is based on the commensurate deeded land owned by the individual stockgrowers, therefore, it is reasonable to assume that during the coming year the demand for State lands that can be purchased outright at a cost of $1.25 per acre will be greatly stimulated, provided the State of Nevada calls the attention of the stockmen to the fact that there are 130,000 acres of Sate land for sale. In order to further speed up the sale of these lands, I recommend to the present Legislature that a small appropriation be made for the purpose of advertising in the newspapers of this State a list of lands remaining unsold, and that the Surveyor General's office prepare a county map of each county which will show in colors the location of these lands; that the Assessor of each county be furnished a map of his county, said map to be placed in the Assessor's office in such a manner that all interested parties may readily determine the location of State lands that are for sale. The expense involved in preparing these maps would be nominal. A white map of each county can be secured from the State Engineer's office at a very nominal expense.

In conclusion, in my opinion:

First—Since during the past several years no qualified surveyor or engineer has held the position of Surveyor General of this State, the State thus suffering the loss of a technical adviser in its official family, that at the expiration of the term of office of the present Surveyor General the work of this office could be carried on successfully by a clerk for a salary of $1,800 per year; therefore, I recommend that in the appropriation to be made by this Legislature for the maintenance of this office for the coming biennium no appropriation be granted for the period January 1 to June 30 of 1939, except for such clerk's hire.

Second—The present Surveyor General and his office force are conducting the affairs of their office in an efficient manner and should not be subjected to any unjust criticism.

Respectfully submitted,

A. V. TALLMAN, *Assemblyman.*

MOTIONS, RESOLUTIONS AND NOTICES

By Mr. Cline:

Assembly Joint Resolution No. 13, advocating the use of copper, exclusively, upon projects and utilities within the State of Nevada.

WHEREAS, The United States, through various agencies, particularly the United States Bureau of Reclamation, is now carrying on construction work in the State of Nevada, particularly in connection with Boulder Dam power and the Pioche power line; and

WHEREAS, There will be opportunity for extensive use of copper products in such work, particularly in electric transmission lines; and

WHEREAS, It is noted that in the projects in other States aluminum has been substituted for copper by virtue of drastic cut in the price of aluminum, with consequent loss to the copper industry; and

WHEREAS, The use of copper on Government projects in this State is a benefit to such projects, notwithstanding the differential in first cost between copper and aluminum, by virtue of the longer service life of copper, and the stimulation of markets for products of reclamation projects among the copper mining areas of this State, and the relief on the general tax burden afforded by prosperity of the copper industry; and

WHEREAS, The specifications for purchase of wire and cable on Federal projects are prepared or approved by agencies of the United States; now, therefore, be it

Resolved by the Assembly and the Senate of the State of Nevada, That the President of the United States, the Secretary of the Interior, the Commissioner of Reclamation, the Administrator of the Rural Electrification Administration, and such other Federal officers as are in charge of constructive projects in Nevada, are respectfully requested to restrict the specifications for wire and cable on such projects to the use of copper, particularly upon such lines as may be built in connection with the Parker-Gila Project, and any other project utilizing power from Boulder Dam; and

That the Governor is authorized and directed to forward certified copies of this memorial to the President, the Secretary of the Interior, the Administrator of Rural Electrification Administration, the Commissioner of Reclamation, and to such other Federal officials as may be concerned.

WHEREAS, The Legislature of the State of Nevada did, at the Thirty-seventh Session thereof, in the year 1935, enact a law limiting the length of freight trains operated on railroads within the State to a length of seventy cars; and

WHEREAS, There is now introduced in Congress a train-limit bill containing substantially the same provisions as the said law of Nevada, except that such bill is national in scope and is applicable to interstate commerce by railroads throughout the Nation; and

The members of the Commission shall be liable on their respective official bonds for the safety of such petty cash or revolving fund. It is further provided that a sum of fifty thousand dollars ($50,000) in the aggregate may be regularly maintained on deposit in all the collection depositary banks, and not subject to transfer to the State Treasurer. Such fund kept currently on deposit shall be used for the transaction of the ordinary business and functions of the Nevada Industrial Commission in administering the Nevada Industrial Insurance Act. Such fund shall be and be called a trust fund, and shall not be removed or drawn upon except on checks or drafts of the Nevada Industrial Commission authorized by a majority of the Commission and signed by at least one member of the Commission and countersigned by the Auditor of the Commission, and made payable to the State Treasurer of Nevada for the State Insurance Fund.

"The security to be deposited with the State Treasurer by any bank for any premiums, contributions, penalties, or securities, and for any part of the State Insurance Fund deposited for collections or otherwise by the Commission, shall consist of the following:

"Bonds of the United States, bonds the payment of which is guaranteed by the United States, certificates issued under the authority of the United States, bonds of this State or any State in the Union, bonds, notes or warrants of any county within any State, or bonds or warrants of any municipality, school district, irrigation or drainage district, or political subdivision of and in this State. Such security shall at all times be in an amount to be determined by the said Industrial Commission and approved by the Governor, State Treasurer, and State Controller, two of whom shall constitute a majority, but not less than the sums secured, and shall be approved in writing by the Nevada Industrial Commission and the Governor, State Treasurer, and State Controller, two of whom shall constitute a majority, and shall be deposited and kept deposited with the State Treasurer of Nevada. The agreement of security made and deposited with such securities shall inure to the Nevada Industrial Commission, the State Treasurer

of Nevada, and for the use and benefit of the State Insurance Fund, and shall permit withdrawal, substitution, and requirement of additional security upon written approval of the Nevada Industrial Commission and the State Treasurer; *provided,* deposits must at all times be kept fully secured.

"(b) The Nevada Industrial Commission may, pursuant to a resolution of the Commission, approved by the Governor, State Treasurer, and State Controller, two of whom shall constitute a majority, invest any of the surplus or reserve of said fund in bonds and certificates of the United States, bonds of Federal agencies where underwritten or payment guaranteed by the United States, in the bonds of this or other States, in the bonds of any county of the State of Nevada, or other States, in bonds of incorporated cities, irrigation and drainage districts, and school districts of the State of Nevada, or in either general obligation or electric revenue bonds of power districts now or hereafter organized and existing under and by virtue of chapter 72 of the 1935 Statutes of Nevada, or in the bonds of unincorporated cities or towns of the State of Nevada. The Commission shall make due and diligent inquiry as to the financial standing of the State or States, county or counties, city or cities, school district or school districts, and irrigation or drainage district or districts, power districts, or incorporated city or town, whose bonds or securities it proposes to purchase, and shall also require the Attorney-General to give his legal opinion in writing as to the validity of any Act or Acts of any State or county or city or school district, irrigation or drainage district under which such bonds are issued.

"All such bonds or securities shall be placed in the hands of the State Treasurer, who shall be the custodian thereof. He shall collect the principal and interest thereon when due, and pay the same into the State Insurance Fund. He shall notify the Nevada Industrial Commission of the amounts so paid into the State Insurance Fund, giving full details of the transaction. The State Treasurer shall pay all vouchers drawn on the State Insurance Fund for the making of such investments, when signed by a member of the Commission and countersigned by the Commission Auditor, upon delivery of such bonds or securities to him when there is attached to such vouchers a copy of the resolution of the Commission authorizing the investment, approved by the Governor, State Treasurer, and State Controller, two of whom shall constitute a majority, said copy to be certified by the Secretary of the Commission under seal of the Commission. The Commission may, at any time upon its resolution, approved by the Governor, State Treasurer, and State Controller, two of whom shall constitute a majority, sell or otherwise dispose of any of the bonds or securities so purchased.

"(c) The State Treasurer may, upon written authority of the Nevada Industrial Commission, approved by the Governor, State Treasurer, and State Controller, two of whom shall constitute a majority, deposit not to exceed twenty-five percent (25%) of the reserve and surplus of said insurance fund in a bank or banks in

the State of Nevada, upon interest at not less than the prevailing and current rate paid in Nevada upon savings accounts by banks; *provided, however*, that such bank or banks shall deposit with the State Treasurer bonds of the United States or other securities in which funds of the State Insurance Fund are authorized to be invested as provided in subdivision (b) hereof, in an amount, market value, sufficient to protect and guarantee the said depositor against any loss by reason of the failure or suspension of said bank, or loss from any other cause. The amount of the security to be deposited and the fair value of the bonds deposited shall be determined and fixed by the said Commission and Treasurer, and approved by the Governor, State Treasurer, and State Controller, two of whom shall constitute a majority, but in no event shall the value of the bonds deposited be less than the sum deposited in the particular bank. Interest earned by such portion of the State Insurance Fund which may be so deposited in any bank or banks, as herein provided, shall be placed to the credit of the State Insurance Fund.

"(d) Each member of the Commission, before entering upon the duties of his office, shall give a good and sufficient bond running to the State of Nevada, and shall take the oath prescribed by the Constitution, in the penal sum of ten thousand dollars ($10,000), conditioned that he shall fully and faithfully discharge the duties of his office; said bonds shall be given by the State pursuant to that certain Act entitled "An Act to provide against losses to the State and its respective counties through defalcation, misappropriation of funds, or other wrongful acts on the part of officials; to provide for the issuance of surety bonds for public officials, establishing a fund therefor, and other matters relating thereto, and repealing certain Acts in conflict herewith," approved March 20, 1933, or by two or more individuals as surety or sureties; shall be subject to approval by the Governor, and shall then be filed with the Secretary of State. The premium therefor shall be paid out of the State Insurance Fund as other expenses of the Commission are paid.

"(e) The Commission shall have a seal upon which shall be inscribed the words "Nevada Industrial Commission—State of Nevada." Its seal shall be fixed to all orders, proceedings, and copies thereof, and to such other instruments as the Commission may direct. All courts shall take judicial notice of such seal, and any copy of any record or proceeding of the Commission certified under such seal shall be received in all courts as evidence of the original thereof.

"(f) Whenever any bank wherein funds are deposited as hereinbefore provided shall fail to pay on written demand the entire balance due in said deposit, within forty-eight hours after demand is made, the State Treasurer, as the holder of any bonds and securities herein referred to and provided, shall, within thirty days thereafter, convert into cash so much of said bonds and securities, including interest, as may be necessary to pay the amount deposited, together with interest as agreed, including costs, and to disburse the proceeds according to law, returning any surplus to the depositary or its legal representative,

and, if there be a deficiency, reserving right to file claim for same. At any sale under the provisions of this Act the Nevada Industrial Commission may bid for and purchase the bonds offered for sale whenever such bonds or securities be legal investments for Commission funds, or whenever it be deemed necessary so to do by said Commission or the State Treasurer to purchase any such securities in order to protect the best interests of the State Insurance Fund.

"(g) The Commission may arrange for such reinsurance as, in its opinion, will properly protect the State Insurance Fund in case of a catastrophe."

MINORITY REPORT

Mr. Speaker:

Your minority of the Committee on State Institutions has had Senate Joint Resolution No. 3 under consideration, and begs leave to report unfavorably on the same, with the recommendation that it do not pass for the following reasons:

No. 1. The operation of a lottery is forbidden by the Federal Government and it is now against the law to use the mails in any way for transmitting lottery tickets or anything appertaining to lottery.

No. 2. We understand that the purpose of this amendment is to raise revenue for the State of Nevada, and we do not believe that the people of the State of Nevada are so anxious to create new revenue that they are willing to

jeopardize the good name of the State of Nevada and the morals of its people by such an iniquitous scheme.

No. 3. The people who made our Constitution forbade a lottery and we feel that their foresight, then, has proven a great value to the manhood and womanhood of this State; and by reason of the foregoing we believe it to be our duty to the good name of the State of Nevada and the good people therein to oppose this measure.

CARL SHELLY.

GENERAL FILE AND THIRD READING

Senate Joint Resolution No. 3.

Remarks by Mr. Cline.

Mr. Goodwin moved that the minority report be substituted for the majority report.

Remarks by Messrs. Cline, Goodwin, O'Meara, and Smith.

Mr. Boak rose to a point of order, stating that Assembly Joint Resolution No. 1, which was defeated several days ago by this Assembly, is identical with Senate Joint Resolution No. 3, now under consideration, and asked for a ruling from the Chair on whether or not it is proper for the Assembly to consider the latter bill.

The ruling of the Chair follows, verbatim: "The Chair will rule that it is a rule of the House—that there is a provision in Jefferson's Manual under which we are working—that a bill once defeated in the House cannot be brought forward again during the same legislative session, but it is not in the province of the Speaker to decide whether or not these bills are the same. It is up to the House to decide, and for that reason I will leave it to the House. I desire to place it before the House just this way: It isn't a question of the merits of the bill or anything of the kind. The question is whether the two bills are identical or not, or so far different from each other that new substance is contained in the new bill."

Mr. Gray asked that both bills be read.

Mr. Cline suggested that when the bills are read that the Assembly pay particular attention as to which is the Assembly bill, which is the Senate bill, and the number of the resolution itself in order to pass upon whether or not the bills are identical.

Mr. Speaker pointed out that the Assembly would vote on whether or not the substance of the bills is identical.

Chief Clerk read the two resolutions.

MOTIONS, RESOLUTIONS AND NOTICES

Mr. Sweatt gave notice that he would introduce in the near future a bill concerning changing the hygienic laboratory from the University of Nevada to the State Board of Health.

Mr. Cooper gave notice that he would introduce a revenue bill, such revenue to be derived from a direct property tax.

There being no objection, the Speaker pro tem and Chief Clerk signed Senate Joint Resolution No. 3.

MESSAGES FROM THE GOVERNOR

To the Honorable the Assembly, Carson City, Nevada.

GENTLEMEN: Assembly Bill No. 65, introduced February 1, 1937, is herewith returned without my approval.

This bill gives to the former owner of property sold to a county for delinquent taxes, the right to repurchase the same from the county at any time before the sale thereof by the county upon payment by the former owner of the tax delinquencies, penalties, and costs of the tax sale.

In my opinion this bill would greatly encourage delinquencies in tax payments. It is obvious that if this bill should become a law the owner of the property might, with entire safety, let the taxes go delinquent and permit the county to buy in the property at tax sale. The property would in that event be left off the tax roll and escape all taxation so long as it remains county property.

If proceedings should be instituted by the county for the sale of the property, the former owner could then step in at any time prior to the actual sale and repurchase his property by paying nothing more than the original tax penalties and costs. He would escape the payment of taxes for all the intervening years and, in many instances, would be able to remain in complete use of the property during those years.

For the foregoing reasons, I herewith return Assembly Bill No. 65 without my approval.

Yours very truly,

RICHARD KIRMAN,

Governor.

Mr. Thruston moved that Assembly Bill No. 65, together with the Governor's veto message, be made a special order of business for Monday, March 1, at 2 p. m.

Said Legislature shall be composed of membership to be selected as follows:

Each law enacted by the Legislature shall embrace but one subject and matters properly connected therewith, which shall be briefly expressed in the title, and no law shall be revised or amended by reference to its title only; but in each case the Act as revised, or section amended, shall be reenacted and published at length.

SEC. 14. Every bill shall be read by sections on three several days, unless in case of emergency two-thirds of the members of the Legislature shall deem it expedient to dispense with this rule, but the reading of a bill by sections, on its final passage, shall in no case be dispensed with, and the vote on the final passage of every bill or resolution shall be determined by yeas and nays to be entered on the Journal; and a majority of the members elected to the Legislature shall be necessary to pass every bill or resolution, and all bills or resolutions so passed shall be signed by the presiding officer of the Legislature and by the Secretary or Chief Clerk thereof.

Townsend has been convicted of contempt of Congress for having refused to submit to unreasonable and un-American methods of investigation before a Congressional Committee, under conditions that were humiliating and repugnant to the pride and patriotism of an American citizen; and

WHEREAS, We feel that the decision and integrity of every court must be upheld and that the conviction had therein must stand as the law; and

SEC. 2. After the creation of such districts, beginning in nineteen hundred and ....., and every two years thereafter, one member of the Legislature shall be elected from each such district. The basis of apportionment shall be the population, excluding aliens, as shown by next preceding Federal census. In like manner, when necessary to a correction of inequalities in the population of such districts, the State may be redistricted from time to time, but no oftener than once in ten years.

MESSAGES FROM THE GOVERNOR

To the Honorable the Assembly, Carson City, Nevada.

GENTLEMEN: I return herewith, without my approval, Assembly Bill No. 78, introduced by the Clark County Delegation, February 3, 1937, entitled "An Act authorizing and empowering school boards to sell or lease real property owned or heretofore or hereafter dedicated for public school purposes."

It is believed by the Educational Department of the State and by my office, that it would be unwise to enact this measure into law in its present form. If a similar measure is passed by the Legislature containing the provision that the Act is restricted to school districts of the first class and to county high schools, thus leaving the provisions of section 67 of our present school law applicable to smaller school districts, such a measure would receive my approval. Under such a law, the school board of the smaller district would be required to have the authorization of a special election before they could thus sell property.

For the foregoing reasons, I herewith return Assembly Bill No. 78 without my approval.

Yours very truly,

RICHARD KIRMAN,
Governor.

There being no objection, the Speaker pro tem and the Chief Clerk signed Senate Bill No. 15.

JAMES FARNDALE, *Chairman.*

Mr. Speaker:

The Committee on Engrossment hereby certifies that bound copy of Assembly Bill No. 225, hereto attached, is a correct copy of the triplicate thereof in its possession, with the exception that the brackets and asterisks have been omitted. It is recommended that the bill be reprinted.

D. L. O'MEARA, *Chairman.*

Mr. Speaker:

JOHN W. OLDHAM, *Chairman.*

Mr. Speaker:

Your Committee on State Institutions has had Assembly Bill No. 236 under consideration, and begs leave to report on the same without recommendation.

JOHN H. SIMPSON, *Chairman.*

Mr. Speaker:

Your Committee on State Institutions begs leave to submit the following report of our official visit, February 17 and 26, to the Nevada Orphans' Home:

1. *Building*—The condition of the building is deplorable. The plaster is cracked and falling in places. Windows are in need of replacement. The roof leaks. Several parts are in such a condition that they cannot be used. The out-buildings are also in need of repair.

2. *Fire Hazard*—The wiring is faulty and does not comply with the fire ordinance. The kitchen is directly above the furnace, creating a dangerous fire hazard.

3. *Plumbing*—Heating facilities are faulty; several radiators cannot be used. Plumbing is insanitary and in need of repair.

4. *Kitchen*—Refrigeration is inadequate; other equipment also.

5. *Farm Implements*—In need of repair and replacement.

6. *Management*—We find the children healthy and well clothed, but the attitude of the management and the employees make it more like a home of correction rather than a home for unfortunate children. Discipline in the dining room particularly is more severe than necessary.

7. Play-ground equipment is obsolete and inadequate.

Based upon the foregoing facts, we recommend a complete change in management, and also that a new board be set up similar to the nonpartisan board which controls the operation of the Nevada School of Industry. We make this recommendation as we feel that politics is the cause of dissension between some members of the board and the superintendent, as well as between the superintendent and some of the employees.

We also recommend that the new superintendent be given absolute authority over the employment and discharge of the staff, etc.

It is our understanding that the present system of purchasing supplies for this institution is not in accordance with the law, which states that such purchases should be submitted for open bid. We recommend that this law be carried out.

We recommend that such appropriation be made for the restoration of the buildings, plumbing, wiring, repainting and all other necessary repairs, and purchase of such equipment as may be found necessary.

We recommend that the children be segregated according to age.

We recommend increased agricultural activities, both as a source for supplies and as training and experience for the children.

We recommend a night watchman for the protection and safety of the young children.

Respectfully submitted,

JOHN H. SIMPSON, *Chairman*,
JOE ROCHON, JR.,
FRANK J. BACIGALUPI,
W. HOLMES GOODWIN,
CARL SHELLY.

There being no objection, the Speaker and Chief Clerk signed Assembly Bills Nos. 125, 137, and 139.

Mr. Shelly asked to be allowed to explain his vote on Assembly Resolution No. 26, and that his remarks be entered in the Journal.

Permission granted.

Mr. Shelly: I voted "Yea" for this reason and this reason alone: I'm getting tired of listening to these pyrotechnical displays of parliamentary procedure which take up the time needed for legislation. If it is going to help the members of this Assembly to get down to work in granting them their stamp money, let's give them their money. We've taken up most of the morning with this. I can't see how any member can go back home thinking he has saved the taxpayers money when we waste time like we have been doing.

Mr. Thruston: I want to say that I agree with every word that Mr. Shelly stated and I further state that in my opinion the only reason we are behind right now in our work and have a couple of hundred bills here not disposed of is that whenever any person tries to do the least thing that isn't set out in the rules some parliamentarian jumps on him, and all that time spent in argument is wasted.

Unanimous consent given Committee on Labor to introduce a joint resolution.

By Committee on Labor:

Assembly Joint Resolution No. 29, requesting the legislative committee now at Washington, D. C., to urge upon the Director of the United States Reemployment Service the establishment of the reemployment office for work on the Boca Dam, at Reno, Nevada.

WHEREAS, There is now at Washington, D. C., a legislative committee for the purpose of conference with the Resettlement Administration at Washington, D. C.; and

WHEREAS, There is now pending a resolution in this Legislature requesting the Director of Reemployment to establish the Boca Dam reemployment office at Reno, Nevada; now, therefore, be it

Resolved by the Assembly and the Senate of the State of Nevada, That the said legislative committee be urged to present to the Director of the Reemployment Service, at Washington, D. C., the benefits to be derived from, and many reasons why, the reemployment office for said project should be situated at Reno, Nevada; and be it further

Resolved, That said committee be authorized and directed to invite the cooperation of our Senators and Representative at Washington to secure such establishment; and be it further

Resolved, That properly certified copies of this resolution be transmitted to our Senators and Representative in Congress at Washington, D. C.

On motion of Mr. Farndale, duly seconded, all rules were suspended, reading so far had considered first reading, rules further suspended, resolution considered engrossed, declared an emergency measure under the Constitution, and placed on third reading and final passage, and ordered not printed.

PRESENTATION OF PETITIONS

The Honorable the Legislature in Thirty-eighth Session Assembled, Carson City, Nevada.

GENTLEMEN: There is in the Legislative Fund at this time $6,339.12, which amount is insufficient to pay the legislative salaries for the week beginning this day.

It is estimated that the salaries for the balance of the session will amount to $16,000.

There are the usual miscellaneous expense bills estimated at $3,000. This item is composed of the amounts usually allotted to the chief clerks of both houses to finish the business of the Legislature, plus various expense bills that always show up after adjournment.

No appropriation has, as yet, been set up out of which to pay the chaplains of both houses, usually amounting to $600 per session.

Postage allowance for the Assembly is $1,600, and for the Senate $680, providing, of course, that you enact the proper legislation that would warrant me in paying same.

It is not possible to give the accurate figures because of the unknown factor as to the number of days you might be in session past the legislative period which would require, of course, payment to the attachés, but it is reasonable to assume that an appropriation of $16,000 will cover the amount.

There is, of course, the additional expense of printing, amounting roughly to $7,100. Although it is not payable out of the Legislative Fund it is, nevertheless, an expense incurred by the Legislature.

Respectfully submitted,

HENRY C. SCHMIDT,
State Controller.

PRESENTATION OF PETITIONS

To the Honorable Assembly in Thirty-eighth Session Assembled, Carson City, Nevada.

GENTLEMEN: This acknowledges receipt of Assembly Resolution No. 26.

I am gratified to know that your honorable body has recognized article 4, section 33, of the Constitution of the State of Nevada, being Nevada Compiled Laws 1929, section 84.

Please be advised that this is precisely what I have considered my authority for the position I have taken. All that remains to be done now is for each member of your honorable body to file his, or her, claim in the same manner as all claims against the State are now required to be filed, supported by properly receipted vouchers, and being duly notarized. By furnishing me with the required data, each member will be entitled to draw his, or her, proper amount, not exceeding $60.

As stated in your resolution, there is no charge against the individual members for stationery furnished.

By referring to the above citation, you will note that this calls for actual expenses members of the Legislature may incur for postage, express charges, newspapers, and stationery, but makes no mention whatever of telegrams and long distance telephone calls.

Every just and proper claim filed with me by any member of the Legislature in the manner indicated above will be paid in accordance with said constitutional provision and in the amount that may be properly due to him, or her, after said claim, or claims, shall have been duly audited, and not otherwise.

Respectfully submitted,

HENRY C. SCHMIDT,

Mr. Thruston gave notice that on the next legislative day he would introduce a resolution relative to the above communication from the State Controller.

To the Honorable the Assembly:

NED A. TURNER,
Assistant Secretary of the Senate.

GENERAL FILE AND THIRD READING

Assembly Bill No. 268.

Mr. Tapscott moved the adoption of the amendment as read.

Carried.

Remarks by Mr. Tapscott.

Roll call on Assembly Bill No. 268:

YEAS—Bacigalupi, Baring, Boak, Bugbee, Bunker, Cline, Davidson, Dolan, Farndale, Goodwin, Gray, Gregory, Haviland, Hussman, Lattin, Lynch, Martin, Oldham, O'Meara, Phillips, Reynolds, Rochon, Russell, Shelly, Smith, Sweatt, Tallman, Tandy, Tapscott, Thruston, Townshend, and Wheeler—32.

NAYS—None.

Absent—Agee, Bunce, Cooper, Moore, Simpson, Washburn, and Whalen—7.

Not voting—Mr. Speaker.

Assembly Bill No. 268 having received a constitutional majority, Mr. Speaker declared it passed, as amended.

Mr. Cline requested that his remarks concerning Assembly Bill No. 204 be entered in the Journal.

Mr. Cline's remarks follow:

"On March 8, 1937, in the Thirty-eighth Session of the Nevada Legislature, Mr. Moore and Mr. Bunker took the floor and spoke against Assembly Bill No. 204 which had to do with municipal ownership in Las Vegas. In view of the fact that the Clark County delegation was hopelessly split, Mr. Farndale and Mr. Cline being in favor of Bill No. 204, the Assembly as usual refused to take sides in the matter which was according to common custom, and consequently Bill No. 204 was defeated.

"Mr. Bunker and Mr. Moore objected to certain clauses in the bill on March 8, and on March 9, Mr. Cline having changed his vote on the previous legislative day in order to be on the prevailing side which entitled him to ask for reconsideration on the next legislative day, moved for reconsideration for the purpose of amending the bill so that it would meet with the approval of Mr. Moore and Mr. Bunker. Mr. Moore stated on the floor that the bill was objectionable in its entirety and that he would not consent to reconsideration. Upon the Speaker calling for a vote as to whether or not the House should reconsider its former action on the bill, Mr. Moore and Mr. Bunker vigorously voted no upon the motion to reconsider.

"This is simply placed in the record in order that the people of Clark County may know exactly where Mr. Moore and Mr. Bunker stand insofar as home rule and municipal power is concerned in Las Vegas."

Remarks by Mr. Thruston:

"I simply wish to state that the remarks of Mr. Cline tend to defraud

the issue relative to municipal power in Las Vegas. I spoke against Assembly Bill No. 204 as well as Mr. Moore and Mr. Bunker. The introducers of the bill attempted to cloud the issue when the bill was under discussion. I, for one, stand for municipal power. Mr. Moore and Mr. Bunker announced that they also stand for municipal power, and all three of us were against No. 204, not because it gave them the right to engage in the power business, but because No. 204 allowed them to do so without the supervision of the Public Service Commission or any other agency in the United States. For these reasons we opposed Assembly Bill No. 204.

"This is absolutely true and not subject to contradiction for the reason that the Supreme Court of this State, since we have been in session here, handed down an opinion definitely holding that the city of Las Vegas, through its commissioners, is entitled to enter into the business of selling municipal power to the public at large at Las Vegas. But now they come along and introduce this bill and attempt to cram it down our throats, by trying to lead us to believe that if it isn't passed the city of Las Vegas will be prevented from engaging in the municipal power business. That is the reason we opposed Assembly Bill No. 204."

Mr. Tallman moved that the Assembly recess until 2 p. m.

Carried.

Unanimous consent given Committee on Ways and Means to introduce a joint resolution.

By Committee on Ways and Means:

Assembly Joint Resolution No. 30, proposing an amendment to article IX of the Constitution of the State of Nevada.

WHEREAS, The operation of motor cars and vehicles upon the public highways causes constant wear and deterioration of existing highways and makes necessary the construction of new highways as the number of such motor cars and vehicles increases year after year; and

WHEREAS, The construction, maintenance, and repair of the public highways for the purpose of preserving the present highways and of filling the expanding needs of the users of public roads makes necessary the expenditure of sums of money so large that the revenue from State sources are insufficient therefor, and such State funds must be augmented by Federal funds under the Federal Aid Road Act approved July 11, 1916, which Act was accepted and its provisions assented to by the Act of the Legislature of the State of Nevada entitled "An Act to provide a general highway law for the State of Nevada," approved March 23, 1917; and

WHEREAS, It is unfair and unjust to tax motor vehicle transportation unless the proceeds of such taxation are applied to the construction, improvement, or maintenance of highways; and

WHEREAS, Under an amendment to said Federal Aid Road Act approved June 18, 1934, Federal Aid is denied to any State that diverts the proceeds from the imposition of registration fees, licenses, gasoline taxes and other

special taxes on motor vehicle owners and operators of all kinds to other uses than for the construction, improvement, and maintenance of highways and administrative expenses in connection therewith; now, therefore, be it

Resolved by the Assembly and Senate of the State of Nevada, That a section be added to article IX of the Constitution of the State of Nevada, to be known as section 5, which shall read as follows:

SEC. 5. The proceeds from the imposition of any license or registration fee and other charge with respect to the operation of any motor vehicle upon any public highway in this State and the proceeds from the imposition of any excise tax on gasoline or other motor vehicle fuel shall, except costs of administration, be used exclusively for the construction, maintenance, and repair of the public highways of this State.

WHEREAS, The Federal Emergency Administration of Public Works has effectively and efficiently discharged the mandate of the Congress, and by such program many of the unemployed have been returned to gainful occupation, and industry generally has been greatly rehabilitated; and

WHEREAS, The State of Nevada, its cities, towns, counties, public bodies, and political subdivisions have received financial aid from the said Federal Emergency Administration of Public Works for the construction of worthy and sorely needed public improvements, including the construction of highways, State institutional buildings, schools, city and county buildings, sewers, water and sewage treatment works, and other public improvements; and

WHEREAS, There remains in this State a great need for the continuation of the program for public improvements of the type and character for which the Federal Emergency Administration of Public Works has heretofore granted financial aid; and

WHEREAS, The continuation of such program of public works is necessary in order that further unemployment may be reduced and absorbed by private industry; and

WHEREAS, Without financial aid of the United States of America as provided and administered through the Federal Emergency Administration of Public Works, the continuation of such program of public improvements cannot be adequately undertaken; therefore, be it

Resolved by the Assembly of the State of Nevada, the Senate concurring, That the Congress of the United States be memorialized to enact the necessary and appropriate laws to continue the functions of the Federal Emergency Administration of Public Works and to make the necessary appropriations which will adequately provide for a continued program of public improvements and assist in providing employment for workers in the State of Nevada on such useful projects.

MESSAGE FROM THE GOVERNOR

To the Honorable the Assembly, Carson City, Nevada.

GENTLEMEN: I return herewith, without my approval, Assembly Bill No. 80, entitled "An Act to amend sections 1 and 2 of an Act entitled 'An Act providing for the creation of a State Barbers' Health and Sanitation Board, defining the powers and duties of said board, defining certain terms, prescribing the terms upon which licenses or certificates of registration, health and sanitation may be issued to practitioners of barbering, creating county boards and declaring their powers and duties, prescribing penalties for the violation hereof, repealing all Acts and parts of Acts inconsistent herewith, and other matters relating thereto,' approved March 26, 1929, as amended by Statutes 1931, pages 26 and 349."

Please note that by this title, the purpose and intent of Assembly Bill No. 80 is to amend only sections 1 and 2 of the Act.

By section 1 of Assembly Bill No. 80, section 1 of the existing Act is amended in certain minor respects.

By section 2 of Assembly Bill No. 80, section 2 of the existing Act is likewise amended in certain respects, thus modifying the statutory definition of the words "the practice of barbering."

Thereafter follows a section 19 of Assembly Bill No. 80, which is evidently intended to accomplish an amendment of section 19 of the existing Act, which, if desired, should be accomplished by a section 3 of Assembly Bill No. 80 reading: "SEC. 3. Section 19 of the above-entitled Act, being section 778 N. C. L. 1929, is hereby amended to read as follows: Section 19." (Here inserting the full section as amended).

However, it is my view that an amendment of section 19 of the existing Act cannot be constitutionally accomplished by Assembly Bill No. 80, as such a purpose is entirely outside the title of Assembly Bill No. 80, and this would be true even if there had been inserted in Assembly Bill No. 80 a properly worded section such as suggested in the preceding paragraph.

The foregoing are, however, mere defects in drafting that could be corrected, and if my disapproval was based on them alone, I would have suggested the withdrawal of the bill from the Executive Office for the purpose of correcting the defects.

My serious objections to the bill are as follows: On March 5, 1937, I approved Assembly Bill No. 159 which had for its purpose the amendment of the cosmeticians law to make it definite and unequivocal that the license issued beauty parlor operators authorized them to trim the hair of women and children.

If section 19 of the barber's law is amended to read as it is set forth in Assembly Bill No. 80, then Assembly Bill No. 159 is repealed by the later enactment, and beauty parlor operators may not trim the hair of women or children unless they possess a barber's license. I am loath to believe that you

intended any such result. If that was the intent of the Legislature in passing Assembly Bill No. 80, then I feel that I must withhold my approval.

Ladies, as a rule, prefer to patronize the hairdressing shops maintained for them, and not the men's barber shops. I believe they should have that opportunity. More is involved than a mere contest between the barbers and the cosmeticians for the patronage involved.

For the foregoing reasons, Assembly Bill No. 80 is hereby returned without my approval.

Very truly yours,

RICHARD KIRMAN,
Governor.

Mr. Farndale moved that Assembly Bill No. 80 be made a special order of business for 2 p. m. on the next legislative day.

Carried.

There being no objection, the Speaker and Chief Clerk signed Senate Joint Resolutions Nos. 12 and 13, and Assembly Bills Nos. 30, 185, 31, 164, and 156.

MESSAGE FROM THE GOVERNOR

To the Honorable the Assembly, Carson City, Nevada.

GENTLEMEN: Assembly Bill No. 106, introduced by Mr. Cooper February 10, 1937, entitled "An Act requiring the display of colored lights on all motor trucks operating upon the highways of the State of Nevada, providing penalties for the violation hereof, and other matters properly relating hereto," is herewith returned to you without executive approval.

The entire subject matter of this bill is, insofar as it affects trucks engaged in interstate traffic, covered in minute detail by Regulations of the Interstate Commerce Commission, dated December 23, 1936. Those regulations are controlling as to such motor trucks. Those regulations differ in many substantial respects from the ones contained in Assembly Bill No. 106.

It is my opinion that our State regulations should not be in conflict with those of the Interstate Commerce Commission, but should be in entire accord with them, otherwise there will be not only confusion, but perhaps we may increase, rather than lessen, any present traffic menace.

And since the Interstate Commerce Commission Regulations do compel suitable clearance lights on interstate trucks, and since the interstate trucks comprise the major part of truck traffic over our main highways, I believe it better to withhold approval of this bill, even if it should result, as it possibly may, in suitable legislation being postponed until the next session.

For the foregoing reasons, Assembly Bill No. 106 is returned without my approval.

Yours very truly,

RICHARD KIRMAN,
Governor.

Assembly Bill No. 106 read, together with Governor's veto message.

Roll call on question: "Shall the bill pass notwithstanding the Governor's veto?"

YEAS—Bugbee, Bunce, Cline, Cooper, Haviland, Lattin, Lynch, Martin, Phillips, Reynolds, Russell, Simpson, Smith, Sweatt, Washburn, and Whalen—16.

NAYS—Bacigalupi, Baring, Bunker, Dolan, Gray, Gregory, Hussman, Moore, Oldham, O'Meara, Shelly, Tallman, Tapscott, Thruston, and Townshend—15.

Absent—Agee, Farndale, Goodwin, Rochon, and Wheeler—5.

Not voting—Boak, Davidson, Tandy, and Mr. Speaker—4.

The question having failed to receive a two-thirds majority, Mr. Speaker declared the Governor's veto sustained.

To the Honorable the Assembly, Carson City, Nevada.

GENTLEMEN: Assembly Bill No. 119, introduced by Mr. Moore February 11, 1937, entitled "An Act to amend an Act entitled 'An Act to create a State Board of Health, defining their duties, prescribing the manner of the appointments of its officers, fixing their compensation, making an appropriation for the support of said board, establishing county boards of health, requiring certain statements to be filed, defining certain misdemeanors and providing penalties therefor, and other matters relating thereto,' approved March 27, 1911, together with all the Acts amendatory thereof or supplementary thereto," is returned to you herewith, without executive approval.

This bill amends existing statutes relative to the recording of birth and death certificates so as to require recording of the same with the County Recorder in addition to recording the same in the health office, as at present.

I am advised that the present practice of recording such certificates in the health office is not only in harmony with the general practice in other States, but has proven entirely adequate, and that the duplication of the records would be difficult and confusing.

For the foregoing reasons, I herewith return Assembly Bill No. 119 without my approval.

Yours very truly,

RICHARD KIRMAN,
Governor.

Assembly Bill No. 119 read, together with Governor's veto message.

Roll call on question: "Shall the bill pass notwithstanding the Governor's veto?"

YEAS—Cooper and Phillips—2.

NAYS—Bacigalupi, Baring, Boak, Bugbee, Bunce, Cline, Davidson, Dolan, Goodwin, Gray, Gregory, Haviland, Lattin, Lynch, Martin, Moore, Oldham, O'Meara, Reynolds, Rochon, Russell, Shelly, Simpson, Sweatt, Tallman, Tandy, Tapscott, Thruston, Townshend, Washburn, Whalen, Wheeler, and Mr. Speaker—33.

Absent—Agee, Bunker, Farndale, and Hussman—4.

Not voting—Smith.

The question having failed to receive a two-thirds majority, Mr. Speaker declared the Governor's veto sustained.

To the Honorable the Assembly, Carson City, Nevada.

GENTLEMEN: Assembly Bill No. 127, introduced by the Committee on Judiciary, February 11, 1937, entitled "An Act creating and providing an additional cause for "divorce," is herewith returned to you without executive approval.

This Act makes "incompatibility" grounds for divorce. It must constantly be borne in mind that our divorce laws are general; that they are applicable to, and available for and against, not only those recent residents whose marital lives have been spent elsewhere, but also those who have resided here all their lives. The men, women, and children of Nevada are directly affected by, and are directly and deeply concerned in, such an Act as this one.

True, the Act does repose quite a bit of discretion in the trial judge. But it is equally true that this discretion would be exercised in different degrees, in different ways, and by different judges. In practice we would find litigants deliberately filing their suits in those districts where the presiding judges are assumed, correctly or incorrectly, to have liberal rather than strict views on divorce matters.

We would witness the filing of countless affidavits for the disqualification of the judges. We would see a struggle to get the case before some judge whose ideas of "injustice," or "substantial injury" are assumed to match those of the litigant.

It is a fact that many people take up residence in Nevada with the intent to file suits for divorce, and that the decrees granted by our courts to such litigants are the subject of constant review in other States. We may expect scant endorsement in those States of Nevada divorce decrees granted on the grounds of mere incompatibility. I do not believe that we should impose this situation on our courts.

For the foregoing reasons, Assembly Bill No. 127 is returned without my approval.

Yours very truly,

RICHARD KIRMAN,
Governor.

Assembly Bill No. 127 read, together with Governor's veto message.

Mr. Thruston moved that Assembly Bill No. 127 be made a special order of business for the next legislative day at 2 p. m.

MESSAGE FROM THE GOVERNOR

To the Honorable the Assembly, Carson City, Nevada.

GENTLEMEN: Assembly Bill No. 168 entitled "An Act relating to the sale in the open market of goods, wares, and merchandise manufactured, produced, or mined by convicts or prisoners," introduced February 19, 1937, by Mr. Farndale, is herewith returned to you without executive approval.

Under the recent decision of the Nevada Supreme Court relative to the so-called Uniform Narcotic Drugs Act, the penal provisions of this bill are unenforcible, as the title does not disclose that the Act contains any penal provisions. This is a defect that might be cured by proper amendment of the title, and if that were the only objection to the Act, I would suggest that it be withdrawn from the executive office, by proper resolution, for correction.

However, there is a more serious objection in that the Act is clearly in violation of the Fourteenth Amendment to the Federal Constitution.

By Federal law (49 U. S. C. A. 60), convict made goods transported into a State and remaining there for sale or use shall, upon arrival and delivery, be subject to the operation and effect of the laws of the State to the same extent as though there produced. By the decision of the Supreme Court of the United States in Whitfield v. Ohio, 297 U. S. 431, 80 Law. Ed. 779, the law of the State of receipt which regulates or prohibits the sale of such goods must be such as does not discriminate against such goods by reason of their having been produced out of the State.

The exemption from this Act of goods manufactured by convicts in the Nevada State Penitentiary brings it within the condemnation of that decision.

For the foregoing reasons, Assembly Bill No. 168 is herewith returned without my approval.

Yours very truly,

RICHARD KIRMAN,
Governor.

Mr. Whalen moved that the Governor's veto message on Assembly Bill No. 168 be made a special order of business for 3 p. m. today.

MESSAGE FROM THE GOVERNOR

To the Honorable the Assembly, Carson City, Nevada.

GENTLEMEN: Assembly Bill No. 150, introduced by Mr. Townshend February 18, 1937, and entitled "An Act to amend section 8 of an Act entitled 'An Act to create a Board of County Commissioners in the several counties of this State and to define their duties and powers,' approved March 8, 1865, as amended," is herewith returned to you without executive approval.

As I read this bill, it adds nothing to the existing authority of our Boards of County Commissioners to take care of and preserve county property, but it does enable them to make expenditures relative thereto in total disregard of the budget law.

Our budget law has proven to be very advisable legislation, and I am of the opinion that its requirements should not be set aside, even for such purposes as covered by this Act.

For the foregoing reasons, Assembly Bill No. 150 is returned to you without my approval.

Yours very truly,

RICHARD KIRMAN,
Governor.

MOTIONS, RESOLUTIONS AND NOTICES

Unanimous consent given Mr. Oldham to introduce a joint resolution.

By Mr. Oldham:

Assembly Joint Resolution No. 36, memorializing the Bureau of Public Roads of the United States Department of Agriculture to designate that portion of the State highways, Nevada Route 30 and Utah Route 70 which is situated to the north of the Great Salt Lake, between Oasis, Nevada, on Route U S 40 and a point on Route U S 30 at or near Cedar Creek, Utah, as a portion of the Federal Aid System.

WHEREAS, At the western terminus near Oasis, Nevada, the proposed route would serve Nevada, California, Arizona, and Mexico by making practically direct connection with three main highways, Routes U S 40, U S 50, and U S 93, and at the eastern terminus at or near Cedar Creek, Utah, the proposed route would serve Idaho, Wyoming, Montana, and Canada through the four main highways, Routes U S 30S, U S 30N, U S 91, and U S 10; and

WHEREAS, The distance between Oasis, Nevada, on Route U S 40 and the connection at or near Cedar Creek, Utah, on Route U S 30S, via the north of the Great Salt Lake, is less than half the distance that the westbound traffic is required to travel at present which is via Salt Lake City, Utah, or the route south of the Great Salt Lake; and

WHEREAS, Owing to the large number of tourists from California, Arizona, and Nevada desiring to travel north into the great Canadian Rockies and into the great Yellowstone National Park, and the southern traffic enroute to Boulder Dam, California, Arizona, and Mexico, the designation and construction of this section of highway would prove to be a very important connecting link between the main highways of the west by providing a direct route to and from these famous vacation spots; and

WHEREAS, Owing to the low altitude of the few summits and with level ground prevailing, and with suitable and desirable road material available at all points, this route would be very inexpensive to construct and maintain; and

WHEREAS, At present the towns and ranches situated along this proposed route are practically isolated during the winter season; and

WHEREAS, The construction of such highway would provide the north and south traffic with an all-winter road and also provide the residents of this section with highway facilities which they do not now enjoy; and

WHEREAS, The State Highway Department of the State of Nevada and the State Highway Department of the State of Utah have recently completed the preliminary surveys of their respective proportions of this proposed route, and such data and plans are available for the consideration of the Bureau of Public Roads; now, therefore, be it

Resolved by the Senate and Assembly of the State of Nevada, That the Bureau of Public Roads be and is hereby memorialized to designate that section of the State highways known as Nevada Route 30 and Utah Route 70 as a part and section of the Federal Aid System, and that certified copies of this resolution be transmitted by the Secretary of State to the Bureau of Public Roads, San Francisco, California, to the Montello Highway Commission, Montello, Nevada, and to our United States Senators and United States Congressman now in Washington, D. C.

CLAUDE SMITH,
BERKELEY L. BUNKER.

To the Honorable Speaker of the Assembly.

Your standing committee on the State Prison and Hospital for Mental Diseases begs leave to submit the following report:

On February 12, 1937, your committee visited and inspected the State Hospital for Mental Diseases. Our object in submitting this report is to call to the attention of the Board of Commissioners for the Care of the Indigent Insane and the Superintendent of the institution, those existing conditions, which, in our opinion, need correction or call for further investigation and study.

We find the institution exceptionally clean and well managed by staff; that the patients are clean as to person and apparel, and appear to be well nourished; that most of the patients whom we came in contact with are fond of Dr. Ferrell, and have the utmost respect for him. For these conditions the Superintendent and staff are to be highly commended.

We find the institution filled almost to capacity, and the attendants housed in very undesirable quarters; that the segregation of patients as to type needs attention; that a precedent has been established at some earlier date and is still being followed. There is a tendency on the part of some boards of County Commissioners, with the help of the county physicians, to have undesirable patients at county hospitals committed to the State institution. This is a violation of the Nevada law. There are two such patients from White Pine County in the institution, to our knowledge. This should have the immediate attention of the Board of Commissioners. Minors now housed in the institution should be committed to a suitable institution in or out of the State, as set by our State law. There is one case in particular that needs

immediate attention—a seven-year-old girl, who, by the Superintendent's own statement, is as bright as a dollar and has no business in a mental hospital. This fact should have the immediate attention of the Board of Commissioners.

We find that a conservative economy program has retarded the efficiency of the institution. There is an inadequate staff of consulting physicians. There are not enough provisions for exercises and games. There are no provisions for recreation and social entertainment. Sufficient money should be allowed in the appropriation for some sort of social entertainment and recreation.

It is our understanding that a Senate committee is going to report on conditions pertaining to surgery and medicine, and make recommendations on same.

RECOMMENDATION

That attendants be put on eight hours per day; that a sufficient number of additional attendants be employed to make up three 8-hour shifts; that the number of attendants be so as to comply with the accepted standard of number of patients per attendant in similar institutions. Also that additional quarters, adequate to take care of all the attendants, be constructed apart from the main institution. Same can be done at this time at a saving to the State.

We recommend that attendants be given a raise of salary.

A federal grant can be secured to help finance construction. If new quarters were constructed apart from the main institution for all attendants, it would leave adequate space in the main building for patients' wards. We find that if the third story of building No. 1 were renovated and remodeled it would only house 14 attendants. It is out of date as a building structure, is not fireproof and is unbearably hot in the summer time, and it would be a waste of State money to patch it up for attendant's quarters.

We also recommend that an auxiliary heating plant be installed for hot water and heating to the proposed attendants' quarters and for the two doctors' residences. The present boilers are not the right type for conservative heating operation. We believe that one low-pressure boiler now in use at the hospital could be used for auxiliary heating plant. One new high-pressure boiler of the type now in use at the hospital, with improved piping, would improve the efficiency of the system 60 percent, and pay for its installation in a saving on fuel oil over a period of time.

We recommend that all the present piping be renewed. It has been in use for some 15 years. Parts of piping is buried underground and has deteriorated to such an extent that patching is useless. They are leaking steam and liable to blow out at any time. This is a very unsafe condition. None of the pipes are lagged or covered, and at least 25 percent of the heat radiates off into the ground in air—an unnecessary waste of fuel oil. The present hot water pipe to the institution is too small and should be replaced by at least a three-inch main.

We further recommend, if our recommendations on heating and piping are carried out, that a certified heating engineer be called to submit plans for same; that angle iron frames be installed, with welded sections, on all windows having heavy safety screens. Same is now secured to wood, and screws are working loose, making it easy for patients, with little effort, to get them out; that padlocks, as are now in use at the State Prison, be used where patients are housed. That the equipment for giving hydro-therapeutic baths be put in working order. We understand that treatments of this kind are very necessary for treating certain types of insanity.

We recommend the removal from politics of both the management of the institution and the care of the inmates.

Respectfully submitted,

J. W. WHALEN,
CARL SHELLY,
GEO. TOWNSHEND,
RALPH LATTIN,
L. K. GREGORY.

Mr. Speaker:

Your Committee on Contingent Expenses and Accounts begs leave to report that they have examined the accounts of the several public departments; also of the several offices of this House and find the same to be correct.
