Assembly Concurrent Resolution No. 1—Memorializing the late Senator Patrick Anthony McCarran.

WHEREAS, On the 28th day of September 1954, a tremendous loss was brought upon the people of our State and Nation and upon the people of the entire free world; for on that appointed day the beloved and esteemed Patrick Anthony McCarran was taken from our midst by the hand of the infinitely wise and just Creator; and

WHEREAS, Our State this day bows its head in a spirit of irretrievable loss to this truly great man, who has distinguished his length of days by an unprecedented service to the State of Nevada and her people, and who, more than any other man, has used his influence to uplift and develop this great State; and

WHEREAS, The career of "Pat" McCarran belongs to history, and the Legislature of the State of Nevada would not, in this memorial, presume to chronicle all of its incidents; nevertheless, we are moved to note that "Pat" McCarran was formerly a member of the Legislature which now does this honor to his

memory. It should also be brought to mind, in this memorial, that in his long and distinguished career, "Pat" McCarran was recognized as one of the State's ablest lawyers and its finest statesman. The diligent application of these abilities culminated in his reaching the station of Chief Justice of the Supreme Court of the State of Nevada and United States Senator from the State of Nevada. In both of these positions he served with the greatest of distinction; however, it was in his seat in the United States Senate that "Pat" McCarran became a man of majestic authority and world-wide influence. It was this "Pat" McCarran whom Senator Styles Bridges of New Hampshire called "The greatest American I have ever known"; and

WHEREAS, Recollection of the innumerable achievements of "Pat" McCarran still leaves untold the sublime nature of his spirit of which it may certainly be said:

"His life was gentle, and the elements
So mix'd in him that Nature might stand up
And say to all the world, 'This was a man!'" ;

now, therefore, be it

Resolved by the Assembly of the State of Nevada, The Senate concurring, That we express, this day, our profound sorrow at the untimely passing of "Pat" McCarran and our gratitude for the dedication of his life and labors to our State and Nation—the significance of which will endure so long as the record of a consecrated spirit has the power to move the lives of men; and be it further

Resolved, That the written form of this Resolution be given such permanency as is possible for us to give by spreading it upon a memorial page of the Journals of the Assembly and the Senate of this day in memory of and as a solemn tribute to Patrick Anthony McCarran; and be it further

Resolved, That a duly certified copy be prepared by the Secretary of State of the State of Nevada and be transmitted forthwith to the bereaved family of the deceased.

WHEREAS, During Mr. Boak's long and selfless service of ten terms in this legislative body, his noble spirit has come to be a lodestar and inspiration for his fellow lawmakers; and

WHEREAS, The people of the entire State of Nevada are indebted to Cada C. Boak who, as the author of legislation which we now know as the "One Sound State" Act, created a sound, but nuisance-free economy, which we recognize as the progenitor of our present great prosperity; and

WHEREAS, The life of Cada C. Boak was most certainly a selfless one, dedicated to public service—a life which impels us to proffer our greatest respect—a life which shall not be soon forgotten by those whom he left behind; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That this body does hereby express its sorrow at the passing of Cada C. Boak and at the same time honors the memory of a truly great lawgiver; and be it further

WHEREAS, Assemblyman-elect Tumbleson departed from us before he was seated in the Assembly of the State of Nevada; and

WHEREAS, Elmer G. Tumbleson was known to be a man of honor and integrity, and a man who, in all certainty, would have served with excellence in this legislative body; and

WHEREAS, The Assembly is the poorer for his passing and recognizes that it has suffered a great loss in being deprived of his counsel and services; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That the memory of Elmer G. Tumbleson be memorialized this day in the Journal of the Assembly; and be it further

Resolved, That we express our sincere sorrow at his passing and our deep sympathy to his family and loved ones; and be it further

MESSAGE OF THE GOVERNOR TO THE FORTY-SEVENTH LEGISLATURE OF NEVADA

STATE OF NEVADA
EXECUTIVE CHAMBERS

CARSON CITY, January 19, 1955.

To the Honorable, the Senate and the Assembly:

It is a privilege and honor to meet with you, the members of the forty-seventh session of the Nevada State Legislature. I do so with a full realization of the problems that must come before you and the responsibility we have in working together to meet those problems.

I congratulate you on being selected to represent the people of Nevada, and I offer the cooperation of the administration of the State. I, and my staff, as well as the departments of state government are here to work with you, for the task that faces all of us involves great responsibility.

Nevada is the fastest growing state in the nation. Since 1950 our population has increased 36.3 percent, according to an estimate of the United States Bureau of the Census. We have grown in population from 160,083 in 1950 to a population of 218,000, as of July 1 of last year. We still are growing rapidly.

Nevada thus has emerged from the status of a widely scattered community to the status of full state responsibility with rapidly growing city-areas of population.

We must meet this growth with increased public services in nearly every department and must provide funds for the school financial situation, a problem that is the direct result of the State's rapid growth.

FINANCES AND SCHOOLS

Assessed valuations, which provide the ad valorem taxes, as well as other state revenues have increased during the last two years, and, frankly, were it not for the increased needs and demands for education, Nevada could meet its normal financial requirements without additional revenue.

During the present biennium, state aid to the elementary and high schools is \$9,523,001. If the present formula for state aid to schools is continued throughout the coming biennium the State, due to increased enrollments, would be required to provide \$13,311,041. We have found the present formula inadequate to provide basic needs.

A year and a half ago, realizing the seriousness of the school situation, I named a state-wide committee of responsible men and women to study this condition. The Special Session of the Legislature a year ago provided \$30,000 for a comprehensive survey of the schools.

That survey has been completed and the findings are in the George Peabody College Report on Public Education in Nevada.

From this Peabody report the state-wide committee I named made recommendations that, along with the Peabody report, have been submitted to you. I urge that you seriously study, and follow, the recommendations made by the committee.

I fully realize that all phases of the Peabody report cannot be adopted at one session of the Legislature. It will take a period of years to place all of the recommendations in operation. I do believe, however, that the committee's recommendations should be adopted and made effective July 1, 1956.

I do not feel that transition from the current school formula to the school committee plan can be accomplished more speedily due to the bare mechanics involved.

If this latter recommendation is followed by you, it will be necessary for the State to provide \$16,771,452 for the biennium beginning July 1, 1955.

For too long Nevada has not met the responsibility of a planned program for the schools. Every two years the problem has been met only with stop-gap measures.

Every other state is facing the same problem, yet ours is more acute due to our unprecedented growth.

UNIVERSITY OF NEVADA

The State's only institution of higher education is growing in proportion with all Nevada. Here, again, where we have the responsibility of providing better education for our young men and women, we face increasing costs.

The development of the University of Nevada and Nevada Southern is of the utmost importance. We are living in an age when higher education must be made available to all to meet the demands for training in this business and scientific age.

I am recommending an increase of 25 percent over the appropriation made for the University two years ago, exclusive of capital investments.

GAMBLING

I am determined that Nevada's licensed gambling industry shall not be invaded by hoodlums nor organized crime.

Two years ago I asked that the Tax Commission, of which I am Chairman, be given more power to provide stronger and more stringent regulations of the gambling industry. The 1953 Legislature did not see fit to grant such requests. Events in the last two years have proven that even more authority than requested at that time is absolutely necessary.

I now earnestly request that the present laws be amended to provide:

A gambling division under the Nevada Tax Commission to be headed by a three-member board, the Chairman of which shall be the Executive Secretary of the Commission. Each of the three board members to be full-time members of the Tax Commission and each to receive a salary of \$10,000 a year.

These three, in heading the gambling division, would be in charge of the division staff and of investigation of all license applications, as well as other gambling matters.

They would consider all gambling license applications and would refer their decision to the over-all Commission with definite recommendations. The three board members would serve as voting members of the Nevada Tax Commission with full voting powers on gambling matters only. The original members of the Commission would remain as members of the Commission to carry on Tax Commission matters and with the Gambling Division Board would serve as a Board of Review on gambling matters.

I also urge, as I did two years ago, that the Commission be given complete power to deny or revoke any gambling license in the public interest.

I also have asked that solid and respected businessmen interested in the economy and stability of the State and in no way connected with the gambling industry, as a state service and without state funds, form an economic or crime commission. This commission to employ a qualified person whose duties would be to appraise and evaluate crime in Nevada and report its findings to the state authorities and to work with the State, counties and cities toward a better state-wide and national understanding of the gambling industry in Nevada.

Nevada is the only state that has legalized gambling aside from on-track pari-mutuel betting, and therefore the regulation of gaming is of the greatest importance to the State.

There is no question that gambling contributes directly and indirectly to the state economy. However, I feel that it is paramount to further strengthen the laws that regulate this industry and thereby provide additional protection to the State as well as to the industry itself.

To meet financial requirements of a largely expanded gambling division staff, I recommend that the 5 percent of the state gambling license fees now allowed for costs of administration of the Gambling Act be increased to 6 percent or the equivalent thereof.

I make these recommendations to keep gambling in Nevada clean and on a sound level of operation, thus protecting the public and the industry.

SURVEYOR GENERAL

Nevada voters, last November, acted to remove the office of Surveyor General from the list of constitutional offices. That action was in line with my recommendations to, and favorable action by, the legislative sessions of 1951 and 1953. In order to carry out what is now a clear mandate from the people, I urge that this Legislature take the necessary steps to finally abolish the office of Surveyor General.

CONSTITUTIONAL CHANGES

Two years ago the Legislature acted favorably upon my recommendation that the Superintendent of Public Instruction be made an appointive office, instead of elective, through amendment of the Constitution. I urge you to pass the necessary resolution, at this session, to insure that this matter go before the voters of the State for final ratification at the 1957 general election.

In the interest of more efficient and economical government, once again, I am urging that you act favorably to amend the Constitution to provide for: (1) annual sessions of the Legislature; (2) establishment of home rule in the counties; (3) make the offices of Regents of the University of Nevada appointive instead of elective; and (4) make the office of Attorney General appointive instead of elective.

SAFETY

The terrible and tragic toll on Nevada's highways was 145 in 1954, but we cannot lose sight of the equally, but less spectacular accident toll in industry and business.

Steps must be taken to eliminate, insofar as possible, all accidents, in all fields of industry.

Presently, Nevada's safety regulations for business and industry are a hodge-podge, administered by several agencies and departments.

I recommend that you give careful study to the problem of codifying industrial safety laws so that better protection for workers may be achieved with a resulting decrease in accidents.

HIGHWAY PATROL

To reduce deaths on the highways I recommend laws to: (1) provide for compulsory mechanical inspection of all vehicles; (2) legalize the use of an approved alcohol test for suspected drunken drivers; (3) permit the Highway Patrol to establish speed limits when conditions warrant; (4) provide for enforcement to insure use of chains or other approved devices when road conditions warrant; (5) make it a misdemeanor to enter any improved highway without making a complete stop, regardless of whether the intersection is signed; (6) make it unlawful for any person to be in, or about a motor vehicle while under the influence of intoxicants or drugs.

In order to implement and enforce necessary safety regulations I urgently recommend that the staff of the Highway Patrol be increased by a minimum of ten men.

HIGHWAYS

Highway construction in Nevada last year reached an all-time high. However, with increased federal funds construction will be greatly increased, starting this year.

In order for Nevada to take full advantage of the increased federal funds, provided on a matching basis, it will be necessary to increase road use taxes.

Indications are that, at the request of President Eisenhower, large sums soon will be made available for improvement of the interstate highway system connecting the principal cities of these United States.

It is imperative that segments of this system joining Nevada with California be completed as rapidly as possible. This is necessary to provide needed facilities for evacuation of our neighbors from heavily populated coastal areas in event of disasters.

This Legislature should memorialize the Congress urging such construction be given the highest possible priority so that work may be started as soon as funds become available.

These are matters of urgent and vital concern and should have approval.

CAPITAL IMPROVEMENTS

You will be presented with requests for capital improvements by state departments, state institutions and the University of Nevada.

First consideration, in my opinion, of capital improvements should be given for construction of a classroom building for the Southern Branch of the University of Nevada, for a geriatrics building at the Nevada State Hospital and for a new highway building for Carson City.

A new highway building would release the space now occupied by the Highway Department in the state building completed in Carson City in 1951, and this needed space could also house state agencies now, out of necessity, renting space in Reno.

The largely augmented highway program starting this year will require additional space for that department which is not now available.

Any capital improvements should be made through authorized bond issues.

DISASTER RELIEF AND CIVIL DEFENSE

The recent and continued droughts and the earthquakes of last year show the necessity of an Act authorizing withdrawals from the State's General Fund of sums up to \$50,000 to assist in such disasters.

Other than a fund of \$30,000 for use in matching federal drought funds, Nevada has no way of matching other federal disaster funds.

Nevada's Civil Defense Agency proved its worth during the last year when it was called upon to investigate and join in the administration of relief in the drought and earthquake emergencies. This is the agency which the federal government requires investigate and often administer such problems.

AGRICULTURE

Another of our State's basic industries, and a producer of wealth, is agriculture, in all its phases. This industry, despite droughts, floods, and emergencies caused by nature, has grown and prospered.

Its development, too, has posed problems and made increased expenditures necessary to keep pace with Nevada's growth.

Experiments in cloud seeding now are under way. They should be continued and I recommend the Legislature investigate this method of increasing precipitation. Additional land development is predicated upon increasing our surface-water supply and development of underground water.

MINING AND OIL INDUSTRIES

Production of minerals and oil form one of Nevada's basic industries, providing new wealth, income and jobs. It is incumbent upon us to encourage the development of this important segment of Nevada's economy.

Lead and zinc mining operations in Nevada are in a depressed condition, due to the national policy toward foreign importations.

Gold and silver mining continues at a low level.

I suggest you forcefully call attention of the Congress, in Washington, to the desirability of allowing a free market for gold. Such step would materially increase employment, add new wealth to our State and Nation and generally aid our entire economy.

With the discovery of oil, in commercial quantities, since you last met, Nevada has joined the oil producing states.

I recommend you take steps to permit Nevada to become a full member of the Interstate Oil and Gas Compact Commission so that we may join, on a voluntary basis, with our sister states in preventing waste of this natural resource.

I further recommend that the Legislature take steps to provide a just and equitable form of taxing the oil producing industry, and at the same time encourage exploration for oil.

I also recommend that the necessary mineral, geological and topographical surveys conducted cooperatively by the Bureau of Mines with the U. S. Geological Survey be continued and expanded. A complete mapping is necessary to encourage development of Nevada's resources.

STATE ENGINEER

The office of the State Engineer continues to face an increasing workload. The phenomenal growth of the Las Vegas area where about 500 wells are being drilled each month, makes it mandatory that a full-time Deputy State Engineer be assigned to that area and I so recommend.

Last Saturday, January 15, the compact between the seven Columbia River Basin states was signed, and I am asking your approval of this forward step when such a bill is presented to you.

Cooperative work, necessary for the orderly development of resources under the jurisdiction of this department, have been carried on during the current biennium with the U. S. Geological Survey; Soil Conservation Service; Weather Bureau; Bureau of Land Management; and the University of Nevada Experiment Station. Such work should be continued at an accelerated pace.

COLORADO RIVER COMMISSION

Specific authority must be given the Colorado River Commission to obtain or contract for power from any source. The present Act is restrictive to hydroelectric power.

A study also should be made as to the feasibility of amending the law to give the Commission authority to build, construct, acquire, operate and maintain facilities, if necessary or expedient, to the operation as a utility. Under the present law the Commission must act as a utility in its administration of power contracts, but is not a utility under the Act.

Nevada has intervened in the United States Supreme Court case of the State of Arizona against the State of California, concerning waters of the Colorado River. The intervention was necessary to obtain for Nevada its just share of the waters of the Colorado River. Two years ago funds were set aside for legal and engineering work in connection with that suit. Fifty thousand dollars each was set aside from Colorado River Commission funds for legal and engineering work.

Only part of those funds have been expended, but additional money must be set aside to carry on the intervention suit during the next two years.

AID TO DEPENDENT CHILDREN

Nevada is the only one of the 48 states that does not provide aid for dependent children. The object of such an Act is to provide assistance for children whose dependency is caused by conditions that deprive them of a normal home life.

Adoption of the Act would, I believe, be a step in the right direction in building up the youth of our State.

There are approximately 1,400 needy children in Nevada who would be eligible for assistance under such a program, in which the federal government would bear a portion of the cost.

I have consistently favored such an Act.

If such an Act is adopted it would be administered by the Nevada State Department of Welfare which, along with all state agencies, has been bearing an increasingly heavy workload due to the rapid growth of the State.

HEALTH DEPARTMENT

Public health services in Nevada are a direct service to the people and these services have been carried on during the last two years in proportion to available funds.

There is a growing need for greater services in several departments, principally in the sanitation, crippled children and mental health divisions.

The federal government has reduced matching funds with the result more state funds will be needed to carry on the present level of operations.

NEVADA STATE HOSPITAL

Great improvement in facilities and treatment has been made at the Nevada State Hospital. The staff has been augmented, resulting in better care.

The new building housing the kitchen, bakery, commissary, and dining rooms has brought further improvement. Critically needed, however, is a geriatrics building where aged persons would be more adequately cared for and their present quarters would then be used for the ever increasing number of other patients.

PLANNING BOARD

Scope of the activities of the Planning Board should be expanded to permit investigation of plans for development of all natural resources. I urge a section of the Planning Board be charged with responsibility for attracting new industry to Nevada and of assisting in the establishment of such industry. Full cooperation with all political subdivisions in planning and development then will be assured.

I further recommend authorizing this agency to assemble and distribute information concerning Nevada's scenic, recreational, agricultural, livestock, mineral and industrial opportunities.

Authority should be granted to formulate and activate such other programs as the board deems necessary in promoting our State's industrial and economic welfare.

I strongly urge your favorable action on such expanded program, realizing full well it will mean an increased appropriation to cover salaries of additional personnel and operation.

EMPLOYMENT SECURITY DEPARTMENT

The Employment Security Department does not contemplate any legislation which would extend the scope of the unemployment compensation laws. Under present conditions, it is my belief that it will not be necessary to increase employer tax rates. However, should benefits be increased, or the scope of the law extended, such an increase might become necessary.

The department, I am informed, does intend to expand its rate schedule to effect a more equitable assignment of employer rates by adding additional rates between the 2.7 maximum and the .1 percent minimum.

NEVADA INDUSTRIAL COMMISSION

Operation of the Nevada Industrial Commission has been expanded and greatly improved as a result of the completed actuarial study and legislation enacted two years ago.

At this session relatively minor changes in the law will be asked by the commission. However, authorization should be made for the naming by the Governor of a committee from labor and management to review the existing industrial laws in a comprehensive manner so that changes agreed upon may be presented to the next session of the Legislature.

Presently, I feel, the commission rapidly is approaching a position comparing favorably with the operations of major insurance companies.

STATE PRISON

Principal construction at the State Prison during the last two years was the erection of five new residences, at a minimum cost.

Population at the prison leveled off during 1953 and held steady this last year. Needed, when funds are available, is a new maximum security block and a women's block.

The building of additional residences for guards will release space in the prison proper which, through remodeling, can provide needed dining space and administrative offices.

Required by state sanitary laws is a pasteurizer at the Prison Farm.

I urge you to visit the prison, prison farm and other state institutions. While we have not reached a desired goal at the institutions, a visit clearly will show the advancement that has been made in the last two years under capable administration.

NATIONAL GUARD

Nevada may well be proud of its National Guard organization, both ground and air forces, with a total of 861 officers and men. During the two years ending June 30, 1954, the federal government sent into Nevada, for expenditure by the Guard units, a total of \$4,721,439.

I urge your continued generous support of all phases of the activities of the Nevada National Guard to the end that our State will be prepared to play its part in any national or state emergency.

PURCHASING DEPARTMENT

Since its inception July 1, 1951, the centralized Purchasing Department has negotiated transactions totaling \$2,500,000 at a saving of \$400,000 to the taxpayers, over and above administrative costs.

These savings have more than proven the worth and need of this department.

FISH AND GAME

The phenomenal increase in hunting and fishing in Nevada means the State's Fish and Game Commission now is truly Big Business, with expenditures of \$716,812 during the last fiscal year. During 1953 those purchasing hunting and fishing licenses numbered 93,538 compared with 23,664 ten years ago.

You should give careful consideration to Nevada's fish and game problems since they pertain to one of the State's largest businesses and represent a resource which must be carefully guarded.

ATTORNEY GENERAL

Recommendations made by the Attorney General in his biennial report are referred to you for your careful consideration.

GENERAL RECOMMENDATIONS

Modernization of the machinery used for manufacturing vehicle license plates at the State Prison.

Allowing auto license plates to be issued by the motor vehicle division, in the more populous counties, thus relieving them of this burden.

Consider amending the Carrier Act to place collection of fees, issuance of plates and other matters on a fiscal year basis.

Grant authority allowing U. S. Defense Bond deductions on state pay checks.
Grant consent of the State to acquisition by the United States of lands to be used by the Department of Defense and the Atomic Energy Commission.

Provide adequate support for the State Park Commission so that our historic places, relics and natural beauties may be preserved.

Study the need for a state agency to promote development within and attract tourist travel to our State.

CONCLUSION

I have endeavored to outline for you, as briefly as possible, the more immediate needs of our State.

I fully realize that a number of my recommendations are of a controversial nature, yet I present them to you for your study and deliberation.

As the legislative branch of our government, yours is the power, right and responsibility to consider and to pass laws that will guide our State.

I extend to you my cooperation for I am sure that by working together we will achieve a sound program of legislation.

MESSAGES FROM THE GOVERNOR

STATE OF NEVADA
EXECUTIVE CHAMBER

CARSON CITY, January 24, 1955.

To the Honorable the Assembly:

Of the many problems facing your honorable body in this Forty-seventh Session of the Nevada State Legislature the most pressing and serious are those of financing.

In this budget I have sought to realistically evaluate the needs of our State for the next two years.

I have, with the aid of the Budget Director, estimated the revenues which will be available during the coming biennium.

I do emphasize, and a careful study of this budget will show, that were it not for the necessity of providing adequate financing for the elementary and high schools and the University of Nevada our State could meet its financial requirements without additional revenue above the normal increases in our present revenue producing tax structure.

The two tables in the budget show the need for additional finances. The first is based on the retention of the ad valorem tax by the State, and the second is based on the School Survey Committee plan, which envisions the relinquishing of all the ad valorem tax except for a token levy for bond interest and redemption and general operation of the government, starting July 1, 1956.

It is your responsibility to weigh carefully the two plans, and realize the school committee and the Peabody College reports are based on the second proposal.

A phenomenally rapid growth in our State and a decrease in federal grants has placed a heavier burden on the State, and the growth has not only resulted in the acute condition we face in financing education, but also has required the need of increasing other state services in proportion to the 36 per cent increase in population.

If the State relinquishes practically all of the ad valorem tax then \$10,032,285 will have to be raised to meet the budget requirements. If the ad valorem tax, as at present, is retained an additional \$6,682,285 will be needed.

I realize that the above figures are predicated on the budget as recommended, and also that bills introduced calling for other expenditures will increase those amounts. You have the full authority and power to weigh the budget requests and to curtail or augment the same in your own wisdom after careful consideration of the requests.

The fact remains, however, that whatever is done additional money must be provided.

You have several courses you may follow. One is to weigh the existing tax structure with the possibility of increasing existing taxes. Another is a new source of tax revenue, or a combination of the two.

I recommend that you carefully review the gross transaction tax of Indiana and the business activities tax of Michigan, as to applicability to Nevada to produce new revenue.

I personally feel every avenue for additional new revenue should be explored before considering a direct sales tax.

When, in your wisdom, you decide which type of revenue measure is best to meet Nevada's needs, I will sign it.

The budget was prepared as to existing governmental functions and statutory requirements and does not include capital improvements.

Those capital improvements which are approved by you, with other not now existing costs for legislation, which will be passed, will be an addition to the budget figures as submitted.

Following the plan first adopted two years ago this budget is prepared on a line basis, giving you a graphic understanding how the state's money has been spent and how each dollar has been budgeted for the coming biennium.

For the first time all salaries, except those unclassified, are set through the Personnel Department, a desired objective which has been accomplished.

Accompanying the budget, and prepared for your convenience, is a draft of a proposed general appropriations bill covering those items only which are in the budget.

The budget is presented to you in conformity with the provisions of Chapter 299, Statutes of Nevada of 1949, and it presents, in my sincere opinion, a true and specific analysis of state finances.

I offer you the sincere cooperation of my office in meeting the problems which confront the State.

Sincerely yours,

CHARLES H. RUSSELL.

Governor.

Section 3. The right of suffrage shall be enjoyed by all persons, otherwise entitled to the same, who may be in the military or naval service of the United States; provided, the votes so cast shall be made to apply to the county and township of which said voters were bona fide residents at the time of their [enlistment] *entry into such service*; and provided further, that the payment of a poll tax [or a registration of such voters] shall not be required as a condition to the right of voting. Provision shall be made by law, regulating the manner of voting, holding elections, and making returns of such elections, wherein other provisions are not contained in this Constitution.

By Messrs. Dotson and Harmon:

Assembly Concurrent Resolution No. 2—Authorizing and directing the Superintendent of the State Department of Buildings and Grounds to cause suitable electric signaling systems and devices to be installed in spaces occupied by the Nevada Legislature to be used to summon members and attachés; providing for the adoption of rules governing the operation of such systems; and other matters connected therewith.

WHEREAS, The lack of a system of signals to summon members of the Legislature and attachés to the legislative chambers has resulted in considerable confusion and delay in the conduct of the business of the Legislature; and

WHEREAS, If a system of signals was provided whereby members and attachés could be quickly summoned or informed of matters of interest, the work of the Legislature would be speeded and its efficiency increased; now, therefore, be it

Resolved by the Assembly of the State of Nevada, the Senate concurring, That the Superintendent of the State Department of Buildings and Grounds be authorized and instructed to forthwith cause suitable electric signaling systems and devices to be installed in all spaces occupied by the Nevada Legislature to enable its members and attachés to be summoned to the respective legislative chambers, which systems shall be so devised as to permit ready differentiation between signals relating to the Senate and those relating to the Assembly; and be it further

Resolved, That the Senate and the Assembly shall each adopt rules governing the operation of their respective signal systems.

Mr. Dotson moved that the resolution be referred to the Committee on Legislative Functions.

Motion carried.

"It is a wonderful experience to visit a town like Las Vegas, where gambling is a legitimate business and living is easy," said a man named Eisenhower yesterday.

It was Ed Eisenhower, Tacoma, Washington, attorney and older brother of the President, who made this comment during an interview yesterday.

"Nevada is fortunate it has exercised its privilege under States' Rights and built this unbelievable economy. It is comforting to think there is some place in the United States where a man can relieve his natural and legitimate desire to 'put a nickel in and take a dime out.'"

Eisenhower commented on reports from Washington that certain high officials were toying with the idea of introducing antigambling legislation. He said, "If anyone were to try to destroy this (gambling in Nevada), he would be doing a disservice. There has to be gambling. It's human nature, and I think it is as legitimate a business here as any other activity anywhere.

"What happens," he asked, "when you outlaw gambling? You invite honest people to go behind closed doors to do their gambling surreptitiously. You invite marked cards and crooked dice. The hazards of the business make casino operators go for big returns in the only way possible, the quickest way.

"I've weathered some so-called reform governments in my time. Most of the politicians who approach politics on a moral plane are doing so for their own personal reasons," he said. "They are making a grandstand play.

"It's like stepping in a mudhole," Eisenhower said. "The more you step in it, the more you spread it around."

CYRIL O. BASTIAN, *Chairman.*

MOTIONS, RESOLUTIONS, AND NOTICES

By the Committee of the Whole:

Assembly Resolution No. 22—Memorializing the late Baptista Tognoni.

WHEREAS, On the 3d day of February, 1955, the Honorable Baptista Tognoni, a distinguished and honored member of this Assembly, fell into that final slumber from which no mortal ever awakes. For many months he had been in failing health, but in view of his youth and natural physical vigor, few believed that he was stricken with a fatal ailment until a comparatively short time before the end came. In life, Baptista Tognoni was absolutely true to his friends. To his associates he was uniformly kind and courteous. In private life he was an example worthy of imitation. His pure character and a generous manly nature made him admired and loved. He has gone from us forever, but his life's achievements will stand. Judging from what he had accomplished in the past, it is hard to place a limit upon what his achievements might have been had he lived the allotted years of man. But, in the full bloom of early middle age, he was taken from us. To his surviving relatives—those who were so near and dear to him in life—we extend the full measure of our sympathy. Without intruding upon their grief, we tender them our deep sympathy in this affliction, and commend them to the consolation to be found in his honorable life and exalted character. We shall cherish his memory, feeling always that, through his untimely passing, the State has lost one of its most gifted, useful and promising men; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That we express this day our profound sorrow at the untimely passing of Baptista Tognoni; and be it further

Resolved, That the written form of this resolution be given such permanency as is possible for us to give by spreading it upon the pages of the Journal of the Assembly in memory of and as a solemn tribute to Baptista Tognoni; and that a duly certified copy be prepared by the Secretary of State of the State of Nevada and by him transmitted to the bereaved family of the deceased; and be it further

Resolved, That when this body adjourns today, it does so in respect to the memory of Baptista Tognoni.

WHEREAS, There has been an alarming increase in juvenile delinquency in our country and in our State; and

WHEREAS, A substantial, contributing cause of this juvenile delinquency is the ever-increasing number of idle hours granted to the youth of our present-day society; and

WHEREAS, The members of this body have learned with deep sorrow of the death of W. E. (Elmer) Baldy, Thursday, February 17, 1955; and

WHEREAS, Elmer Baldy was born in Jacks Valley, Douglas County, Nevada, December 11, 1888, and educated in the Carson City public schools, and admitted to the Nevada State Bar in 1913, thereafter serving with distinction in the Assembly of the State of Nevada in 1915, 1953 and the Special Session of 1954; and

WHEREAS, When Elmer Baldy passed away, a full and useful life was ended and our warm expressions of grief and tributes of respect affix the final seal of commendation to a long and honorable career. His industry kept pace with his capacity, and his integrity was never questioned. The greatness of Elmer Baldy was a greatness attainable in kind, if not in degree, by any man, for it was the greatness of goodness, of integrity, and of zeal to do right. After years of honor, he went to rest, leaving behind him a record which should be an example and an inspiration to men of his profession and a guide to good citizenship; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That the condolences of the members of the Assembly of the Forty-seventh Session of the Legislature of the State of Nevada, are extended to the family and surviving relatives of the late Elmer Baldy; and be it further

WHEREAS, A committee of the Assembly has been conducting such an investigation in cooperation with a Senate committee and the investigation to date has caused considerable publicity and comment amongst the citizenry of this State; and

WHEREAS, The methods and procedures followed in accounting by the Nevada Industrial Commission have given rise to the main dispute between that agency and its accountants and it appears that the only logical and practical manner of resolving the controversy is to examine and interrogate some disinterested and unbiased certified accountants to evaluate and appraise the entire accounting structure of the Nevada Industrial Commission; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That the special committee now engaged in the investigation of the management and administration of the Nevada Industrial Commission be, and hereby is, directed to call a certified public accountant or certified public accountants to make an independent, disinterested and unbiased examination of the accounting methods and procedures which have been adopted and followed by the Nevada Industrial Commission and that the accountant or accountants then give their opinion as expert witnesses concerning such accounting procedures; and be it further

Resolved, That pursuant to Assembly Resolution No. 17 the special committee shall, if necessary, exercise its prerogative and power to summon such

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Speaker instructed the Chief Clerk to read the following communications:

UNIVERSITY OF NEVADA
OFFICE OF THE PRESIDENT

RENO, February 18, 1955.

HON. C. O. BASTIAN, *Speaker of the State Assembly, Carson City, Nevada.*

DEAR MR. BASTIAN: At their last meeting, the Board of Regents voted unanimously to invite the members of the Legislature to visit the University of Nevada campus to consider at first hand the problems we are facing in the immediate future.

In extending this invitation of the Board of Regents to the members of the Assembly, I should like to suggest:

(1) Taking a tour of the campus with those of our staff who can explain the buildings and grounds improvements needed.

(2) Having a general meeting with the Regents, Deans and Directors, who can explain in the detail necessary our needs in the areas of instruction, research, and service to the State.

Should the members of the Assembly be able to visit us on the afternoon of Friday, February 25, I would like to suggest in addition to the above:

(3) Eating the evening meal together in the students' dining hall.

(4) Attending as a group the basketball game between the University of Nevada and Sacramento State College, as the guests of the University.

Those of us at the University understand the very heavy schedule of work facing the members of the Legislature. However, we hope they will be able to accept this invitation.

Respectfully yours,

MINARD W. STOUT, *President.*

SACRAMENTO, CALIFORNIA, February 3, 1955.

Residents of rural and mountainous areas of California were on warning today to be prepared to accept evacuated citizens from metropolitan sections in the event of an H-bomb attack.

Dr. Stafford Warren, chief of radiological services for State Civil Defense and Dean of the UCLA Medical School, reported to Governor Goodwin J. Knight and his department heads this week that five bombs dropped on critical areas could wipe out 70 to 80 percent of the state's 12,500,000 population.

Such destruction could be accomplished with two bombs each dropped on Los Angeles and San Francisco and one at San Diego, Warren said.

Warren said the growing hope against nuclear warfare was that there would be sufficient time for evacuation. The city of San Diego recently was evacuated in 1½ hours in a test, he said, which means that most of the coastal metropolitan areas could be evacuated with three hours warning.

"It is possible you might have to evacuate here (Sacramento, 100 miles inland) Warren said, "and choose a secondary place for the population. The small towns must be ready to accept these people on short order and provide for housing, feeding, and health needs."

Warren said an H-bomb explosion would result in complete destruction for a radius of one mile and would produce a crater 90 to 100 feet deep. Severe to complete damage could be expected for another mile and hazardous, if not lethal, radioactive fallout in the form of dust could be effective within a 100-mile radius.

An area 30 to 40 miles wide would be affected by radiation and dangerous for four to five days, he said. Prevailing winds probably would sweep the radioactive dust inland from either of the coastal metropolitan areas.

—*Nevada State Journal*, February 4, 1955.

Mr. Adams requested that the following be recorded in the Journal:

Over the years there has been an undercurrent of resentment and resistance on the part of the less populous counties against the counties of Clark and Washoe. For example, frequently the rumblings are heard that the smaller counties can handle their own problems, they are in good shape and if Clark and Washoe have aggravated school problems they should do something about it themselves.

But a fair appraisal of the problems will demonstrate that our problems are state-wide problems. Suppose Clark and Washoe should say all right we'll handle our own problems on a local isolated basis. But first let's keep our tax income on a local isolated basis too. We have the major population centers and our income and overflow contributions to the State General Fund are much larger, but we'll just keep it primarily to handle our own problems. Then the other counties can't complain. Our overflow contributions won't help them and our overflow problems won't concern them.

Obviously, Clark and Washoe Counties do not for a moment want to isolate themselves. They want to consider all of our problems on a state-wide basis. But in all fairness consider the facts and the figures.

In regard to the statement that Clark and Washoe contributed to the General Fund over one-half million dollars in excess of the apportionments to the other 15 counties: This was after they had each paid their *own* state apportionments.

Combined contribution of Clark and Washoe.....	\$5,253,610
Combined apportionments to Clark and Washoe.....	2,758,591
Contributed to State or "loss" of Clark and Washoe.....	2,495,019
Combined apportionments from State to 15 counties.....	1,942,981
Excess contributed by Clark and Washoe.....	\$552,038

We do not claim that Washoe and Clark are supporting all the schools of the State, since the figures show that all but six counties are contributing more than their own apportionments. However, our combined contribution is \$552,038 more than all 17 apportionments. The combined loss of the other counties is \$419,717. This is considerably less than Clark and Washoes' combined loss of \$2,495,019. Obviously the 15 counties contribution over their own apportionments would not begin to meet either Clark or Washoes' apportionment.

These figures were compiled by Dr. Ramona First, statistician at the University of Nevada, at the request of the Legislative Chairman of the Nevada Congress of Parents and Teachers.

Mr. Byrne asked that his following remarks be recorded in the Journal:

Mr. Speaker and members of the Assembly, I wish to read an article that appeared in the Las Vegas Sun, Friday, February 25. I am not going to read all of the article, as it does not merit complete reading. The article is headed "Charge Double-Dealing by County Lawmakers," by Ed Reid. "Led by Gary Adams, who charged that Clark County's Ted Dotson was attempting to 'legislate the guts out' of the Tax Commission, * * * The amendment which aroused Adams and other legislators was probably an overplay on the part of the Clark County clique which is driving to K. O. the Tax Commission and place control of the gambling industry in the hands of a tight legislative cabal. * * * Several of those present squirmed uncomfortably as Dotson attempted to drive his legalistics home, and got a trifle red-faced as he gave the distinct impression that he was talking down his level nose to them * * * The pudgy, beefy-faced Dotson * * * the steam-roller tactics of a Clark County group consisting of George Harmon, Bill Byrne and Dotson. * * * The latter three appear to be showing up more frequently in the Senate where support for AB 236 must be forthcoming in the near future."

Every bit of this is not only despicable but is untrue. I have not been in the Senate with respect to this bill or any other bill, and I am sure, the gentleman who wrote this article knows this as well as I do.

Knowing the very excellent character and the high integrity of Mr. Adams, I am sure that he dislikes this sort of ferocious propaganda as well as I do. I am mighty tired of certain members or member of the press writing disparagingly about the members of this Legislature and the Legislature and its hard work, and I wish it made a matter of record that if there is any further indulgence in this sort of vicious, lying propaganda on the part of Mr. Reid, or any other member of the press, I intend to move that the certain person be barred from the press section of the Assembly, and I feel very confident that I shall have the full support of every member of this body in doing so.

Mr. Godbey introduced his daughter and son-in-law, Mr. and Mrs. Paul Koontz, of Reno, Nevada.

Mr. McElroy moved that the Assembly adjourn until Monday, February 28, 1955, at 9 a. m.

Motion carried.

I have sent Mrs. McCarran the copy of ACR 1, and I wonder if it would be possible to obtain a few more copies—say, about six—for the other members of the family. I know they would appreciate it. Best to you.

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Speaker pro tempore instructed the Chief Clerk to read the following report of the Special Assembly Committee appointed to investigate the Nevada Industrial Commission:

March 1, 1955.

Mr. Speaker:

Your Special Committee appointed to investigate the management and administration of the Nevada Industrial Commission, begs leave to report as follows:

Pursuant to Assembly Resolution No. 17, of the Forty-seventh Session of the Legislature, the Special Committee comprised of members of the Assembly: Keith Mount, Gary W. Adams, Norman Hanson, Edwin J. Dotson and William B. Byrne, met with the Special Committee of the Senate, comprised of: Rene W. Lemaire, Walter Whitacre, B. Mahlon Brown, Charles Gallagher and William J. Frank, on the 31st day of January, 1955, and continued periodically to hold hearings until Monday, February 21, 1955, at which time it was decided by the joint committee to conclude the hearings.

During the course of the hearings, the following witnesses were called to testify, under oath, before the entire joint committee in public hearings: John Cory, Chairman, Nevada Industrial Commission; Commissioner Joe Farnsworth; Commissioner Cecil Horan; J. E. Springmeyer, Legislative Counsel; A. E. Jacobson, Legislative Auditor; Sam Kafoury, Auditor; W. Howard Grey and Louis D. Gordon.

It appeared to your committee, in conducting this investigation, that the report should be submitted in breakdown form with reference to five distinct phases of the investigation:

I. The Commission members and Commission function.

II. The independent audit of the Nevada Industrial Commission.

III. The administration and operation of the Commission under the present three-man commission.

IV. Premium rates and attendant problems.

V. Appointment of John Cory, Chairman, by the Governor.

I. COMMISSION MEMBERS AND COMMISSION FUNCTION

Under the 1953 Nevada Industrial Insurance Act, Section 39.1, the Legislature created the Nevada Industrial Commission comprised of three commissioners, one representing Labor, one representing Management, and the third, the Chairman, with specific qualifications, to be appointed by the Governor. Under this Act, Joe Farnsworth was appointed for Labor, Cecil Horan for Management, and John Cory, as Chairman. All appointments became effective on the 30th of June, 1953.

The minutes of a meeting of the Nevada Industrial Commission, June 30, 1953, reflect that John Cory, as Chairman, requested a resolution to be drawn and submitted for approval, "in order to clarify the responsibilities and administrative authorities of the Nevada Industrial Commission, as a whole, and the same for individual commission members, * * *," and submitted a resolution which effectively reposed in the Chairman, Mr. Cory, the effective control of the commission. All of the testimony adduced clearly indicates that the commission has been, for all intents and purposes, under the complete management and control of the Chairman, acting as "executive officer" of the commission. It further appears that because of the resolution, commissioners Farnsworth and Horan relegated themselves to the comparatively unimportant position of "hearing claims and occasionally signing reports framed by the Chairman, and these reports were merely a repetition of transactions already accomplished," (Transcript, February 8, 1955, page 10, Horan testimony). It is the opinion of the committee that the position assumed by Farnsworth and Horan came as a result of acquiescence rather than from dictation by Mr. Cory. When the two commissioners were referred to the duties imposed under the Act, and also Section 39.5, which states "a decision on any question arising under the Act concurred in by two of the commissioners shall be the decision of the commission," Horan and Farnsworth readily admitted that they had not taken action to reverse the resolution above mentioned, even though they felt the resolution was not binding (Transcript February 8, 1955, pages 25, 26), and they continued to act in the capacity of hearing examiners except for a consideration of certain premium reductions and investment of reserve funds.

It must be concluded that from the 1st of July, 1953, to the present date, the Nevada Industrial Commission has been operated without an effective three-man commission, deliberating and determining the policies of the commission for the purpose of executing the Act as required by the terms and provisions thereof. This conclusion is reached in consideration of the unharmonious contact of the commissioners and the conduct of the Chairman, who appeared to feel the responsibilities imposed by the resolution, and conducted the commission accordingly, without the cooperation of the other two commissioners. It appears that the duties of commissioners Farnsworth and Horan were not performed in accordance with the law.

II. INDEPENDENT AUDIT OF THE NEVADA INDUSTRIAL COMMISSION

The audit conducted by the accounting firm of Kafoury and Armstrong, was detailed and reflected the operation of the Nevada Industrial Commission, from June 30, 1953, to June 30, 1954. Certain recommendations were made by the auditors; these recommendations were enlarged upon by the testimony of Sam Kafoury. The testimony of the Chairman, John Cory, would indicate that many of the recommendations have already been put into effect, and that the others were being considered at the present time. The audit is set forth in detail in the report of the Legislative Auditor, 1953-1954, Bulletin No. 22, pages 94 through 111, and included in this report by reference. The reserves maintained by the commission, in some instances seem excessive. It would be appropriate to maintain a study of the commission for the purpose of determining whether such reserves are required, inasmuch as the Chairman indicated that recent reports prepared by the newly hired auditor of the commission would reflect a difference of some \$750,000, more or less, in the estimated pending claims as

of June 30, 1954 (see audit, Exhibit B), which would show net operating profit, before administrative expense, of approximately \$500,000. Such marked variation in the figures of the commission would seem to demand more detailed study than your committee has been able to give this matter, and would indicate that such variation dictates a complete analysis of the method of determining the estimated pending claims by persons trained by profession and experience in such matters. A perusal of the audit is recommended to all members.

III. ADMINISTRATION AND OPERATION OF THE COMMISSION UNDER THE PRESENT THREE-MAN COMMISSION

John Cory, appointee of the Governor to the position of Chairman, has maintained a diligent and persistent attitude of search for methods and procedures which will better serve the purposes and functions of the Nevada Industrial Commission, and although an ill-advised resolution was supported by the Chairman and one commissioner which would appear to give the Chairman undue authority, the Chairman has manifested ability and initiative which is uncommon to men of his background and experience. The commission has instituted procedures which were intended to facilitate the handling of the increased load of claims and other duties of the commission, and has made studies for the purpose of recommending new procedures and possible changes in the law. It would appear to the committee that this foresight and energetic approach comes as a result of the activities of the Chairman more than by reason of the other two commissioners' activities.

Witnesses called from the Nevada Industrial Commission indicated by their testimony that the commission was functioning in a harmonious and efficient manner, and that the claim load was not unduly backlogged so as to be considered serious.

The testimony of the Chairman would indicate that the recommendations of the actuary as contained in the Actuarial Survey, concerning statistics, have been followed, and such procedure will reflect information which will enable the actuaries to recommend premiums, rebates, and other bases for the commission. The commission is lacking in qualified personnel or facilities which would enable rate study to be made in any given case, and it would appear that this facility should be available to the commission at all times, and that no action of the commission should be taken concerning rates, rebates, or other pertinent matters without a predetermination by an actuary who is fully informed.

This report cannot contain recommendations or findings concerning the actuarial status of the commission at the present time, and the members of the Senate and Assembly are referred to Part 3, of the Actuarial Survey of the Nevada Industrial Commission, January 26, 1953, and other such studies made by actuarial surveys. All indications are that a constant survey would be helpful to the functions of the commission.

IV. PREMIUM RATES AND ATTENDANT PROBLEMS

The commission is under constant pressure from contributors for reconsideration and reduction of premium rates based upon supposed good accident experience and histories, proposed by such contributors. It is the belief of this committee that adjustments have been made during the period from June 30, 1953, to the present without sufficient study from an actuarial standpoint. This action would indicate that the actuarial study should reconsider all rates, rebates and rate-changes which have been effective during the period. The benefits were unanimously deemed to be insufficient by the witnesses who testified before the committee, and the conclusion must be reached that the minimum living costs cannot be met by the unrealistic benefits paid under the Act either on a partial-total disability basis or other similar disabilities. There is legislation pending which would increase these benefits, and the commission is not in position, at the present time, to determine whether or not such benefits can be increased under the present premium rates. This determination should be available at all times.

V. APPOINTMENT OF JOHN CORY, CHAIRMAN, BY THE GOVERNOR

Extensive examination of the appointment of John Cory, by Governor Charles Russell, can resolve itself in no other manner than to conclude that the appointment of John Cory did not comply with the terms of provisions of Section 39.1 of the Nevada Industrial Act of 1953. In the questioning of John Cory, concerning his qualifications, it readily appears that he had no experience as an insurance actuary, and in fact, had no actuarial experience at all, as such experience is usually defined. The testimony of John Cory repeatedly assured the committee that he had made no misrepresentations of his background and experience to the Governor. In the opinion of the Attorney General, addressed to the Governor, dated June 11, 1953, the following quotation is contained:

The qualifications of the proposed appointee are outlined in your letter as follows:

A course in Economics, Business and Bank Management, as well as mathematics at Westminster Junior College and the University of Utah, although the final year of such course was not completed. In addition, a course was had in officer's training, during World War II, resulting in a passing grade and qualifications as Captain. A long employment in the Equitable Life Assurance Society, resulted in courses in Agency Management and various study courses related to the selling of assurance and the management of insurance agencies, approximately ten years was spent with the Equitable Life Assurance Society and also with other fire and casualty insurance companies resulting in actual experience of rate making and actuarial work. In addition to the foregoing, the proposed appointee has served as administrator of the Nevada Employment Security Department for the past two and a half years, wherein, in addition to the administration of such department, much actuarial experience in the setting and adjusting of claims and tax rates was necessarily had. (See page 2, Transcript, February 16, 1955.)

The statements contained in the opinion, purporting to be a quotation of the letter from the Governor to the Attorney General, requesting the opinion, are representations which are not supported by the facts as testified by Mr. Cory, before the committee (Transcript, February 8, 1955, pages 13, 14):

Mr. Dotson: Mr. Cory, just so we'll have this in the record I wonder if you would state to the committee what your educational background is, and what your experience has been with reference to insurance, any other experience in connection therewith.

Mr. Cory: Yes, Mr. Dotson, I had a junior college education, I did extension work at the University of Utah, I have been in the insurance business as a salesman, a sales manager—I had the experience with the Employment Security Department immediately prior to taking this job.

Mr. Dotson: Have you ever in your experience been employed or sought employment as an insurance actuary?

Mr. Cory: I have never sought employment as an insurance actuary, Mr. Dotson. (End quote.)

The opinion of the Attorney General was based on the information supplied by the Governor, and must necessarily be considered a basic premise for the opinion. It is the opinion of the committee that while the appointment of Mr. Cory to the Chairmanship of the Nevada Industrial Commission was in direct violation of the law, the abilities of Mr. Cory, while they concede they would be greatly enhanced by actuarial knowledge and experience, have been demonstrated, and would appear to have been sufficient, had he been aided by constant actuarial advice.

The committee merely presents the facts and recommends the thorough study of these facts, to the members.

The abilities of Mr. Cory are thoroughly demonstrated by his presentation to the committee, both by oral testimony and documentary evidence. Service, as performed by Mr. Cory since his appointment, will continue to be valuable

to the commission. He has demonstrated to the committee that he is an able administrator, and has gathered about him qualified men and women employees to carry out the provisions of the Act.

RECOMMENDATIONS OF THE COMMITTEE

The summary investigation conducted by the joint committee is insufficient for the committee to make substantial recommendations concerning the Nevada Industrial Commission; however, certain recommendations may be made, based upon the evidence adduced. The committee, therefore, recommends as follows:

1. That the provisions of Section 39.1 of the 1953 Nevada Industrial Commission Act be amended to provide that the Chairman shall have a minimum of five years' administrative experience in insurance, or other similar types of business, and that the requirements of the present Act that the Chairman be an actuary or have five years' experience as an insurance actuary be deleted, together with the provision concerning the Master's Degree in business administration;

2. That Section 39.1 provide, in addition to the amendment suggested above, that the commission retain the services of an actuarial firm or individual actuary, and that the commission shall make no determination unless recommended by the retained actuarial firm or actuary;

3. That Section 43 of the 1953 Nevada Industrial Commission Act (Chapter 227, 1953 Statutes) be amended to eliminate that provision providing that all employments and compensation in the Nevada Industrial Commission shall first be approved by the Governor.

4. That the services of Commissioner Farnsworth and Commissioner Horan be terminated as commissioners, keeping in mind the retirement status of the individuals involved;

5. That a committee, interim or otherwise, be appointed by the Legislature to make a detailed study of the Nevada Industrial Commission, with the purpose in mind of revision of the Act, modification of the present system as compared to private insurance carriers, establishing systems of rebate or premium preference, and for all other purposes deemed advisable.

Respectfully submitted,

Assembly Bill No. 277.

Mr. Byrne moved that the Assembly concur in the Senate amendment to Assembly Bill No. 277.

Remarks by Mr. Byrne.

Motion carried.

Bill ordered enrolled.

Mr. Barr asked that his following remarks be recorded in the Journal:

The people of White Pine County sent me over here to represent them and, also, the State of Nevada, for what I could do for the State and for the people of White Pine. I have objected to Assembly Bill No. 169 for the simple reason that I have no use for parking meters and I believe several members in the Assembly feel the same way as I do. I came over here representing the majority of the people in White Pine County, especially those who run the City of Ely, and the County of White Pine. The White Pine County Delegation came over here as a unit of Democrats, and I thought we had a happy family, and I am sorry that we have been in discord with one another. This is the first time that the White Pine County Delegation has come here as a unit, as in the past there has always been a Republican. My intention was to endeavor to kill this Assembly Bill No. 169, and I believe had I talked against this bill I would have had considerable help to kill the bill. I voted for the bill to keep harmony in the White Pine group.

Mr. Dotson introduced his wife, Mrs. Dotson.

Mr. Crawford introduced Avery Winnemucca, who had been his attaché for several legislative sessions, and at present is Chairman of the Tribal Council at Pyramid Lake.

"In lieu of the license fees set forth above, the Public Service Commission may, at its discretion, where it is shown that adequate records are being maintained, permit any person engaged in the operation of a vehicle, combinations of vehicles, or fleets of vehicles or combinations for the carriage of persons or property, who operates in interstate commerce, both within and without the State, to pay a mileage fee upon all power unit mileage traveled within the State of Nevada in the statutory licensing period at the following per mile rates for total miles traveled in that period:

For the first 75,000 power unit miles of travel, 2.5 cents per mile.

For the next 175,000 power unit miles of travel, 2.0 cents per mile.

For the next 750,000 power unit miles of travel, 1.5 cents per mile.

For the next 1,000,000 power unit miles of travel, 1.25 cents per mile.

For all power unit miles in excess of 2,000,000, 1.0 cents per mile.

But in order to qualify under this plan each such person shall annually file a sworn application with the Public Service Commission declaring the total mileage operated by such vehicle or combinations of vehicles or fleets of vehicles or combinations in all states and in this State during the preceding statutory licensing period and describing and identifying each such vehicle or combinations of vehicles to be operated in this State during the ensuing license year, and in addition shall make an advance deposit not less than an amount obtained by applying the proportion of in-state power unit miles to total power unit miles as reported in the statement to the fees which would otherwise be required for licensing all such power units or fleets of power units together with one each of the trailing vehicles ordinarily towed by such power units. This amount shall be entered to the credit of each person so qualifying under this plan and shall be applied against amounts which may become due under the schedule of rates set forth above; provided, however, that the advance deposit shall be considered the minimum amount due under this plan and shall not be subject to refund nor credited to the deposit required for any subsequent license period.

Mileage proportions for vehicles, combinations of vehicles, or fleets of vehicles or combinations not licensed in this State during the preceding year will be determined by the Commission upon the sworn application of the applicant on forms to be supplied which will show the operations of the vehicles or combinations of vehicles during the preceding year in such detail as the Commission may require and the estimated operation in all states and in this State in the current year; or if no operations were conducted during the preceding year, a full statement shall be made of the proposed method of operation.

In addition to the fees per mile set forth above, there shall be assessed an annual fee of \$5 for each power unit qualified to operate

in Nevada under this plan, for which fee there shall be issued proper vehicle identification and such fee shall be considered as a nonrefundable administrative charge which shall not be credited to the account of the licensee. Each power unit licensed under this section being operated in a combination with trailing vehicles shall bear a license plate or some other emblem identifying such combination, and when bearing such a plate or emblem such combination shall be deemed to be properly licensed and it shall be unnecessary for any license plate or emblem to be affixed to the trailing vehicle therein.

The Public Service Commission is authorized to adopt and promulgate such rules and regulations and to take such safeguards to insure payment as in its judgment are necessary to the proper enforcement of the provisions of this section, and in the event of a dispute or controversy over any of the provisions of this section, the Commission's decision with respect thereto shall be final."

MOTIONS, RESOLUTIONS, AND NOTICES

By Mr. Crawford:

Assembly Resolution No. 34—Requesting the Nevada Highway Department and the Board of County Commissioners of Washoe County to take appropriate action to bring about the paving of a portion of State Highway Route No. 81 from Gerlach to the Nevada-California boundary.

WHEREAS, The territory in northwestern Nevada has long been isolated and without adequate highway access, and this fact has frequently been called to the attention of the members of the Assembly of the Nevada Legislature; and

WHEREAS, An access road connecting Nevada with the California-Oregon Highway System would facilitate travel into Nevada and would concomitantly benefit the tourist and business industry of this State because it would encourage travelers through northern California to deviate through scenic parts of Nevada if convenient passage were available; and

WHEREAS, There has already been completed a highway through this area almost to Gerlach, Nevada, but this highway is, in effect, a dead end since it does not lead to connecting routes to further traffic either into or out of Nevada; and

WHEREAS, Additional highway improvement and paving of State Highway No. 81 for a distance of approximately 56 miles was authorized by the Forty-sixth Session of the Nevada Legislature by virtue of Chapter 372, Statutes of Nevada 1953, at page 713, which would enable connection with the California-Oregon Highway System and thus give another artery for tourist traffic in Nevada at a very small expenditure of time or funds; and

WHEREAS, The aforementioned bill authorized the County Commissioners, the Nevada Highway Department and the U. S. Bureau of Public Roads to take necessary action to permit the use of force account methods of using federal highway funds by the use of county forces and county equipment to fulfill the requisite of matching federal funds; and

WHEREAS, The so-called force account method is merely a method of allowing county crews and county equipment to work on the roadbed, make necessary cuts and fills and other miscellaneous work in order to supply Nevada's share in obtaining federal secondary highway matching moneys; and

WHEREAS, This method should be utilized and the necessary steps should be taken to get the work underway pursuant to the 1953 Legislative Act; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That the Nevada Highway Department and the Board of County Commissioners of Washoe County be respectfully requested and admonished to begin taking such necessary and appropriate action as may be deemed necessary to effectuate the purposes of Chapter 372, Statutes of Nevada 1953, and to this end, it is respectfully suggested and requested that the Nevada Highway Department cause a survey to be made of at least part of Highway No. 81 so that the county maintenance engineers and county equipment may proceed with making the necessary cuts and fills and preparation of the roadbed for eventual paving whenever they are available for such work; and be it further

Resolved, That the Secretary of State of the State of Nevada be, and he hereby is, directed to send certified copies of this resolution to the Nevada Highway Department and the Board of County Commissioners of Washoe County, Nevada.

WHEREAS, Although the holy and learned St. Patrick has now inhabited the heavenly realm for very nearly 1,600 years, and the dust of time has settled down on his life and noble acts, he is still remembered and respected as a saintly example for the lives of men; and

WHEREAS, Although often mentioned in connection with myth and legend, we find considerable historical revelation of the true character of St. Patrick; and

WHEREAS, Examination of the life of the saint discloses his piety, zeal, self-sacrifice and courage in face of every danger and every trial; and

WHEREAS, St. Patrick is the patron saint of Ireland and a symbol of the Irish people; and

WHEREAS, The Irish people who early came to this soil, pioneers before whom the forests fell, builders by whose magic touch have sprung into existence flourishing towns and cities, where once no sounds were heard save those of nature, orators who roused the colonists into activity and showed them the way to achieve their independence, schoolmasters who imparted to the American youth their first lesson in intellectuality and patriotism, these people have shown the same fortitude and selflessness of purpose for which their patron is so well noted; and

WHEREAS, The Assembly of the State of Nevada wishes to join with all Americans of Irish descent in this resolution commemorating and expressing our respect and devotion to the memory of the beloved St. Patrick; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That we pay tribute on this day to St. Patrick, whose exemplary life and whose renown are most certainly worthy of such small perpetuation as we can, by this resolution, give.

Mr. Irwin moved the adoption of the resolution.

MOTIONS, RESOLUTIONS, AND NOTICES

By the Special Committee Appointed to Investigate the Nevada Industrial Commission:

Assembly Resolution No. 38—Authorizing the members of the special committee appointed pursuant to Assembly Resolution No. 17 of

the Forty-seventh Session of the Nevada Legislature to continue their investigation of the Nevada Industrial Commission; providing for meetings, quorum, filling of vacancies and powers relating to the conduct of the investigation; requiring reports and recommendations; authorizing the expenditure of not to exceed \$5,000 for necessary expenses; and other matters properly relating thereto.

WHEREAS, On January 25, 1955, the Assembly of the Forty-seventh Session of the Legislature of the State of Nevada adopted Assembly Resolution No. 17 directing the Speaker of the Assembly to appoint a special five-man committee to conduct an investigation into the management and administration of the Nevada Industrial Commission; and

WHEREAS, This special committee from the Assembly worked diligently and faithfully with a similar Senate committee in conducting such an investigation, held numerous night sessions, interrogated many witnesses and rendered a concise and admirable report at the conclusion of the investigation; and

WHEREAS, The affairs of the Nevada Industrial Commission are of grave and important concern to the people of this State and affect the welfare and business activities of both employers and employees; and

WHEREAS, The outstanding work done by the Assembly and Senate committees should continue in order to aid future legislation, and it is a proper legislative function to appoint interim committees to continue examinations and investigations which, during the pressure of a legislative session, cannot completely exhaust the myriad problems and sources of inquiry necessary to gain a thorough appraisal of such a large agency; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That an interim committee be, and hereby is, created to continue to conduct an investigation of the management, administration and all other incidental matters connected with the affairs of the Nevada Industrial Commission. The interim committee is to be composed of the same five members named by the Speaker of the Assembly to conduct the special investigation under the terms of Assembly Resolution No. 17, and it is to function in the manner prescribed by such resolution: and be it further

Resolved, That in conducting such an investigation in aid of prospective legislation the interim committee is hereby authorized and empowered to compel the attendance of witnesses and the production of books and papers by means of summons or other proper legal process; to administer oaths or affirmations and take testimony; to employ or summon accountants to give expert testimony concerning the audit and fiscal affairs of the Commission; to institute, and carry to the extent of punishment, contempt proceedings in order to compel the attendance of witnesses and the production of such documentary evidence as may be called for in the course of such proceedings: and to do all things necessary and proper for a thorough investigation of the Nevada Industrial Commission; and be it further

Resolved, That the chairman of the interim committee shall be elected by a majority vote of the entire committee; that three members of the committee shall constitute a quorum, and such quorum may exercise all the power and authority conferred on the committee; that the committee shall meet at such times and at such places as shall be specified by a call of the chairman or a majority of the committee; that the Speaker of the Assembly is directed to appoint two alternate members, one from each political party, to the interim committee and a vacancy in the regular membership created by death or resignation shall be filled by the proper alternate member of the same party and, if there be no remaining alternate member, then such vacancy shall be filled by vote of the remaining members of the committee; that the members of the interim committee shall receive no salary or compensation but for each day's attendance at a meeting of the committee, or if engaged in official business of the committee, the members of the interim committee shall be entitled to receive the per diem expense allowance and travel expenses as provided by law; and be it further

Resolved, That the interim committee shall gather information concerning the management and administration of the Nevada Industrial Commission;

examine the effects of previously enacted statutes and seek expert interpretation thereof; prepare a report on the results of the investigation, with recommendations, which report shall be made available to the members of the Legislature at least 30 days prior to the opening of the Forty-eighth Session of the Nevada Legislature or at the time any Special Session may be called if such a report is then completed; and shall prepare a legislative program which it deems to be for the best welfare of the State to be presented at the next ensuing legislative session; and be it further

Resolved, That funds, not to exceed \$5,000, shall be made available to defray the necessary and proper expenses of the interim committee payable out of the Legislative Fund appropriated for the Forty-seventh Session of the Legislature of the State of Nevada, to be paid out on claims as other claims against the State are paid.

WHEREAS, It has become increasingly apparent to the members of the Assembly of the State of Nevada that a true and complete picture of tax sources in the State of Nevada is not available to it; and

WHEREAS, Such information is vitally important to the Legislature in order that fair and equitable taxes might be assessed against persons and industries in the State of Nevada; and

WHEREAS, The time available to the Legislature during the 60-day biennial session is insufficient to make adequate studies of such problems; and

WHEREAS, It is apparent that a long-range program needs to be designed in order to accomplish this complete and thorough study of revenue-raising systems in other states of the United States, and possible tax revenue in our State of Nevada; now, therefore, be it

Resolved by the Assembly of the State of Nevada, That for the purpose of

"As the time for adjournment *sine die* has arrived it is only proper that some appropriate remarks be made concerning those who have so ably assisted me in my work during the Forty-seventh Session. It is appropriate that I extend thanks and gratitude to the Chief Clerk, his staff, and the other attachés, and legislative employees. This has been a wonderful experience and education. It has not always been easy working in an unbiased position for the best legislation for all concerned, but I feel that we have accomplished much needed legislation, and without the cooperation and support of each in their own particular way, this Forty-seventh Session would not have been so outstanding in its accomplishments. Again, my sincere thanks for the honor and privilege bestowed upon me."

Mr. McElroy moved that the Forty-seventh Session of the Assembly of the Legislature of the State of Nevada adjourn *sine die*.

Motion carried unanimously.

Mr. Speaker declared the Assembly adjourned *sine die*.
