The Governor delivered his message as follows:

MESSAGE OF THE GOVERNOR TO THE FIFTY-SECOND LEGISLATURE OF NEVADA

CARSON CITY, January 22, 1963.

Mr. President, Mr. Speaker, Distinguished Members of the Legislature and Guests:

Perhaps the chief executive could ask for no more suitable occasion than this to reach all the people of Nevada with a single message. For it is certainly true that you, as the chosen lawmakers of the state, carry the full trust of our citizens and can be depended upon to faithfully honor their mandates.

Today marks the fourth time I have come before this august body, at the direction of the Constitution, to deliver a message on the condition of the state. Never have persons been privileged to hold office in an era more exciting, more promising than the one in which we live.

In the four years since my initial message, we have witnessed astonishing changes in Nevada, changes which have affected every individual who lives within our borders. While the rest of the nation seemed to awaken all at once to the fact that here was no provincial Western outpost, but a modern, progressive state with ever-expanding frontiers, we who sought and nurtured these goals and those before us know too well they were not won without hard work and careful planning.

And thus it will be in the future—this year, next year and the years ahead. The demands of an exploding population will tax the abilities of our most resourceful planners. New and more complex problems will spring up in the areas of housing, education, employment and natural resources, and when these problems have been met and solved, there will be others in their place.

These great challenges will, of necessity, place severe demands upon our elected representatives. The voters, whether they be long-time residents or new arrivals, will expect their government to keep pace with growth. They will expect harmony and unity of purpose where legislation vital to the welfare of the public is concerned, and they will expect and demand bold and resourceful thought and action.

This, then, is the dawn of a new era, a greater Nevada. The glories of our past, the achievements of our mining barons and cattle kings, were a fitting preamble to the accomplishments of recent years. Now we are ready to once again forge ahead in the same spirit of adventure and accomplishment that characterized our past.

The spirit of the new Nevada is that of a newspaperman who, when reporting that this state had passed Wyoming in population, optimistically began his story with: "Look out, California, here we come."

In this same spirit, how can we best go about it.

My suggestions for legislation are as follows:

HIGHWAY SAFETY AND MOTOR VEHICLES

You are aware that the state is laboring to strengthen its highway traffic safety program. To that end the Department of Motor Vehicles has initiated a long-range program to combat the high incidence of tragic injuries and deaths on our highways. We know that many of these accidents could have been prevented.

Four points of this program, I feel, need immediate legislative approval. They are:

1. Tighter control over traffic on our state highways.
2. Increased driver education in our high schools.
3. Mandatory chemical tests to determine when a suspected motorist has been operating his auto under influence of alcohol.
4. Compulsory periodic inspections of vehicles to find the unsafe vehicles now operating on our highways.

Favorable action on these four programs will make Nevada a much safer state for motorists.

Last fall Nevada voters wisely approved an amendment to the Constitution to establish a uniform, statewide tax district for motor vehicles. This would eliminate inequities caused by the 150 different rate districts now in effect. The proposed amendment should become a state law.

On January 1st of 1962, the Department of Motor Vehicles adopted the well known point system of driver improvement. Initiated by an executive order, the program has proven an effective method of policing errant drivers. It merits your legislative approval.

BUREAU OF CRIMINAL IDENTIFICATION

A matter of concern to each of us is the state's high crime rate. In 1959 you passed Resolution No. 28 to do something about it. The resolution directed the Legislative Counsel to look into the feasibility of establishing a *Nevada Bureau of Criminal Identification and Investigation.* The study was conducted by the present assistant director of the California Department of Justice.

It was learned that Nevada law enforcement agencies face swiftly increasing need for such a state bureau. It would permit each law man to benefit from the records of criminal activities submitted to the bureau from each city in the state. And it would give each city access to highly skilled investigators and a complete criminal investigation laboratory.

Such a division should be created and placed within and under the direction and supervision of the Superintendent of the Highway Patrol.

SECURITIES AND LAND SALES

Growth in the West and Nevada has prompted the start of many new businesses and encouraged the sale of lands throughout the state. Most of these ventures are legitimate and an asset to the economy.

We have witnessed, however, an increasing number of transactions in stocks, securities and lands that will not bear close scrutiny. Such activities are threatening to discredit the entire market for sale of legitimate securities and lands in Nevada. Our present laws are inadequate to halt such transactions.

Therefore, there is need for legislation to provide more adequate controls over the sales of lands and securities.

EDUCATION

No one subject has commanded more interest and attention in the last few years than has education. Everyone is fully aware that in fast-growing areas such as ours, the population pressures are felt first in our schools. We are equally aware of the fact that our growth will in all probability continue to accelerate rather than stabilize or diminish. The problem will, therefore, become more severe. The school population increased from 69,839 in 1961 to 80,129 in 1962, an increase of 14.5 percent. Of this increase, 8,007 occurred in Clark County, giving it an increase of 25 percent and over half of the state's enrollment.

The state presently aids education on the basis of a formula which provides $96 per student in average daily attendance and $4,800 for each certified personnel. Some schools, notably in Clark County, have experienced financial difficulty, partially because they were unable to obtain the full allotment of certified personnel and therefore did not receive this portion of state aid. A recent change in the regulations of the State Board of Education has corrected this situation to the point where all school districts now receive up to 95 percent of the total allotment. The state, as you know, does not construct or aid in the financing of school buildings.

This matter, as are all others, is relative. We therefore must review briefly where we stand before mature consideration can be given to legislation and appropriations.

Nevada ranks 13th in the nation in average teachers' salaries. We are 5th in the Western States. We rank 15th in the nation on pupil-teacher ratio. We are 8th in the nation for median number of school years completed by persons 25 years or older. We reputedly have the highest literacy rate in the nation. We are 4th in the nation on the basis of money spent per pupil.

The percentage of revenue of the local school districts which is received from the state is particularly high in Nevada. The state provides 54.6 percent of the revenue of the school boards; 54 percent of our total general fund appropriations; for overall education 67 percent of our total general fund appropriations. The national average of state contribution to school districts is 40.2 percent compared to Nevada's 54.6 percent. Correspondingly, the percentage

of revenue the schools receive from local governments is much lower in Nevada, 37.6 percent. In percentage amounts received from local governments, Nevada is 38th in the nation.

In summation then, we find that we are correspondingly high in every area but one, the school aid received from local governments. Whatever the reason, there appears to be a serious imbalance. The question then appears to be this: Should the state appropriate an even greater percentage of its revenues to education? If so, can this possibly be done without changing our tax structure in order to provide larger appropriations? If not, what can be done to help the local governments provide a more equitable share of this staggering cost?

We are all aware of the difficult situation faced by cities and counties in meeting their respective needs, including education. The situation at the state level is equally severe. Additional revenues can be derived from new taxes. If new taxes are imposed at the state level there are two certain results—State Government becomes larger, more complex and probably more authoritative, and our tax climate is altered. Should we change a state tax climate which is now the most favorable in the nation, we immediately lose one of our most appealing inducements to favorable growth.

We know that the educational needs vary from county to county. In some, notably Clark and Washoe, the problem is severe; in others, it is slight.

A uniform, state level approach then is frequently not applicable, often impractical and sometimes dangerous. The Legislature, on the other hand, has historically been reluctant to grant to local governments the right to solve their own problems. Since the problems vary so radically from community to community, it appears to me that one way to resolve them is to place the authority to do so in the hands of those who know them best; the people and the elected officials of the respective cities and counties. The people in Clark and Washoe counties, for example, may be perfectly willing to provide additional revenues for education or other matters through local taxes, where those in other communities would not see the need to do so.

The prepared budget shows an increase of $12.8 million over the last biennium. This dollar increase is merely an extension of the present formula. An increase in the formula has been suggested. To meet the suggested increase in the formula, the state would need to appropriate approximately $3 million more in the first year and successively greater amounts thereafter.

The alternatives as I see them are: (1) Leave the formula as it is. (2) Increase the formula and impose additional state taxes to provide the needed revenues. (3) By appropriate legislation, permit the local governments to raise revenues to meet the needs as they appear in the respective counties.

A general tightening of the tax structure, particularly the ad valorem taxes, would produce more revenue and be helpful.

I had no way of judging what you might do in this matter, therefore the budget is based on the present formula, and some possible alternatives to it have been suggested for your consideration.

CALIFORNIA–NEVADA INTERSTATE COMPACT COMMISSION

The California-Nevada Interstate Compact Commission has been attempting to negotiate for equitable allocation of the waters between the states of California and Nevada of the Walker River, Carson River, Truckee River and Lake Tahoe.

This is the first time in the history of Compacts in the United States that states have attempted to negotiate upon more than one stream system. Precedent would dictate that actually the Commission is doing the work of four separate Compact Commissions.

It must be realized that the lifeblood of the economy and future development of the areas in Nevada receiving water from these basins is dependent upon the water supply that may be used in Nevada.

Great care has been taken to protect the interests of the State of Nevada, for once a Compact is agreed upon we must live with and be bound by it forever.

It is definitely to the benefit of the State of Nevada that the negotiations continue and that a Compact be finalized at the earliest date possible.

It appears that agreement on a Compact will be reached shortly. In order

to enable the Commission to expedite the process, I have requested sufficient funds for acceleration in the 1963–64 fiscal year. On the assumption that a Compact will be reached within this period, a substantially lesser amount has been requested for the following fiscal year.

GOVERNOR'S OFFICE

I have had a natural reluctance to mention the serious problems that confront the office of the Governor. Much of this reluctance has stemmed from the desire to avoid political controversy. I, nevertheless, have had full knowledge that the Constitution of this state imposes upon the office of Governor the ultimate responsibility for the administration of the Executive Branch. I have been equally aware of the fact that the present staff provided the Governor's office and the general complexity of State Government make it impossible to fulfill the constitutional obligation. This situation did not start with my tenure. In 1948, Gorvine reported that the Governor "has neither the staff . . . nor other facilities necessary to fulfill his responsibilitiy of controlling the state administrative machinery . . . the Executive Department has not kept pace with the increasing growth of governmental problems." Gorvine went on to recommend a management staff directly under the Governor. I have not recommended such a staff in the proposed budget for the Governor's office, but I have recommended some increases in personnel and salary. There have been times in the past when the prevailing attitude was political rather than objective and the principal purpose of members of the Party other than that of the Governor was to dismember the office to such a point that it could not function. I remember vividly a time in the past when the money committee debated for a protracted time on the question of whether the Governor's office should have a new typewriter. I must say that this activity has not been confined to either Party, having been engaged in with gusto by both, depending somewhat on which Party held the office of Governor.

Whether or not later proposals for reorganization of State Government should be adopted by you, it is imperative that there be provided a topflight, chief administrator who will devote his entire time and effort to correlating and coordinating the programs and personnel of the various departments. Economies many times exceeding his salary will be quickly and easily effected.

Approximately one-half of the people in our state reside in Southern Nevada, 400 miles away from the seat of government. All major agencies and functions of State Government have branch offices in Las Vegas. There is now no major representative of State Government there, as has been the case for many years. The people of Southern Nevada are entitled to have an executive assistant permanently placed there in the Governor's office available at all times to them.

I respectfully request that the Governor's office be provided with the staff and salaries as requested.

STATE PARKS

The work of the Nevada State Park System is gaining national attention. Nevada has unspoiled natural landscapes and sites which look much as they did when history was being made. We have a great opportunity to further capitalize on and make more widely available the benefits of the nation's booming tourist business. A master plan was submitted to the 1961 Legislature which could lead to the orderly development of a first-class system of areas which will materially help attract and hold visitors. We intend to further implement that plan during the next two years.

It is in the best interest of our state's economy that the visitors and Nevada residents are able to find pleasant, clean, convenient and informative places in which they can come to know and understand Nevada. The investments we make in land and development today will pay double dividends to our citizens. They will reap the additional expenditures such areas generate and they will themselves profit from the inspiration of well managed scenic, scientific and historic areas.

LAKE TAHOE

During the past three years intensive efforts have gone into a careful evaluation of recreation resources at Lake Tahoe. Work done by our state park organization in conjunction with California, with federal agencies and

with independent research organizations has shown that only a small percent of the lake shoreline is publicly owned. This is insufficient to assure the enjoyment of this unique natural resource by generations to come.

Nevada has tried since 1959 to effect a permanent arrangement on sufficient lake frontage to afford a natural experience to visitors to the Nevada side of the lake. Polite inquiries have gotten nowhere! Vigorous, positive action is needed.

I intend to work with anyone and everyone who will help secure adequate guarantees that Nevadans and visitors alike will have an opportunity to know and enjoy the natural beauty of this majestic lake. During the session, I will transmit to you proposals which I hope will meet the problem of open space acquisition squarely and be within the administrative and financial ability of the state.

FOOD HANDLERS

For a number of years there has been much discussion about and interest in food handlers' legislation. In nearly every session in recent years bills have been introduced on the subject. Some states have enacted such legislation, found it to be excessively costly and generally unworkable, and have repealed it. Nevertheless, it is a matter that should be of continual concern to us all.

In considering the matter, it appears at the outset that requirements in certain of our smaller and more isolated communities could not practically be enforced. You may want to consider then the possibility of enacting whatever legislation is necessary to enable cities and counties to handle the problem according to the needs, means and practical enforcement possibilities within the political subdivisions.

Legislation will again be introduced on the matter and I respectfully commend your attention to it.

OPEN MEETING LAW

It is the fundamental right of a citizen in a free, democratic society to know what his government is doing. Yet to require that all government deliberations be held in a goldfish bowl is conducive neither to good government nor responsible administration.

In 1960 the Legislature passed and I signed what is commonly known as the "Open Meeting" Law. The intent of the legislators was that actions and deliberations of the public agencies should be taken openly. However, I do not believe that their intent was to forbid public officials from conferring privately with advisors. If they do not have this right, they cannot function.

The wording of the present "Open Meeting" Law is ambiguous. As a result, the press never is certain when it has a legal right to attend a meeting and public officials can never confer privately without fear of criminal action against them.

I therefore propose that the present law be modified, clarifying legislative intent to the effect that all formal meetings of public bodies at which business is transacted should be open to the public, but that informal discussions and conferences of any public official with his advisors or other officials not be subject to the law.

ANONYMOUS CAMPAIGN LITERATURE

The freedom to vote is cherished by each of us, and any attempt to interfere with this right would be met by fierce resistance. Yet, in Nevada we have seen many instances where unscrupulous persons—using slander, innuendo and fraud—have injected their vile presence into campaigns and interfered with free choice based on issues and the abilities of the candidates.

In 1944, the Congress of the United States made it a crime for unidentified persons or organizations to publish or distribute statements concerning candidates in federal elections. Today, almost two-thirds of the states have passed similar legislation.

I strongly urge legislation requiring identification of the author or sponsor of election campaign material and providing stiff penalties for violations.

UTILITY TAX

No segment of our state's economy has felt more fully the pressures of our rapid growth than the regulated public utilities. Naturally, the increased

demands on the public utilities have created a heavier workload on the regulating agency—the Public Service Commission. To effectively regulate the public utilities that come under the jurisdiction of the Commission, a thoroughly competent and adequate staff is required. I feel such a staff should be supported by a special tax levy on all privately owned public utilities, with the exception of the motor carriers. The latter already pay a special fee to defray salaries and expenses of field inspectors employed by the motor vehicle carrier section.

The estimated cost to maintain existing staff plus an additional auditor requested for the next two years will be approximately $92,000 per year. In 1961, Nevada public utilities, excepting motor carriers, grossed approximately $62,000,000. A one and one-half mill tax would produce about $93,000 per year. It is recommended that the tax collections in excess of requirements be earmarked and accrued from year to year with a set maximum.

ADMINISTRATIVE PROCEDURES ACT

Four years ago, in my 1959 message to the Legislature, I requested an act to govern and regulate the procedures of various state agencies. Today, the need for an Administrative Procedures Act is even more vital to insure that state agencies act under uniform rules and regulations and to insure that the public will be given full and fair treatment.

Demand for such an act is not new. The Nevada Bar Association has called repeatedly for its passage. The 1953 Legislature asked the Legislative Counsel Bureau to study the advisability of a Uniform Administrative Procedures Act. This study was published in 1958. In the 1955 session of the Legislature, a model Administrative Procedures Act was introduced in the Senate but was not acted upon.

Nevada now has over 100 boards, departments and agencies, each acting semi-autonomously according to its own rules and regulations, or none, as the case may be. There is a vital need for uniform procedures, both in the making of rules and in the adjudication of cases.

The model Administrative Procedures Act, now passed substantially by over two-thirds of the states, deals with major principles and not with minor matters of detail. It requires that the rules of each agency or board be adopted according to a certain uniform procedure and that they be filed with the Secretary of State so that every citizen will have access to them. There are also procedures and rules of evidence which must be followed whenever an agency makes an adjudication as in setting rates or granting of licenses in some disputed matter before it. Finally, the model Act provides for judicial review of all decisions by administrative bodies. I strongly urge favorable consideration of such legislation.

ANTI–POLL TAX AMENDMENT

This year, as the nation continues its steady march against official intolerance, it is fitting that the American doctrine of democratic elections in which all adult citizens are guaranteed the right to vote without qualification be restated.

I therefore ask the Legislature to ratify the proposed Twenty-Fourth Amendment to the United States Constitution which would forbid the requirement of a poll tax in federal elections.

Also, I recommend that appropriate legislation be enacted repealing present Nevada Poll Tax statutes and that a proper resolution be introduced proposing to amend the Nevada Constitution to delete the requirement of a poll tax levy.

PUBLIC MEDICAL CARE

I recommend to your attention national legislation commonly known as the Kerr-Mills Public Law 86–778, in which the Federal Government joins with the states in providing medical care to those of our senior citizens who find it difficult or impossible to finance it for themselves. Several groups, including the State Welfare Department, the State Medical Association, the State Association of Hospital Administrators and others, are jointly preparing a proposal that will be brought to your attention. Certainly the need is present. Approximately 30 states have already formulated such action and others will be considering such legislation, which provides help where help is really needed.

CIVIL RIGHTS

At the last session you enacted human relations legislation. Since that time, the Commission created by the statute has conducted certain investigations and held hearings throughout the state. Pursuant to the statute, the Commission will make findings relative to the situation and will suggest certain amendments to the statute in order to strengthen it and make it more effective. The Commission has found, among other things, that there has been substantial if not dramatic progress in the area of public accommodations. It likewise reports that the obvious lack of employment of certain minorities is occasioned partially by the fact that there are few members of the Negro and Indian races that have developed the necessary skills, background and qualifications to seek and hold certain types of employment. Some of those who are qualified have not applied. This, coupled with a long-standing business custom and practice inherently discriminatory, results in the present situation. I respectfully urge your most serious consideration of the amendments to be proposed.

LABOR

As diversified industry moves into our state and our present economies grow, we must be careful to keep our working force virile, active and economically sound. There cannot be continued and growing prosperity in this state or any other unless a proper balance is maintained between labor and management. The rights of both must be carefully protected. In order to provide our expanding economy with a dependable, trained, stable, competitive labor market, we must give continuing attention to minimum wages, unemployment compensation, disability benefits and the rights of collective bargaining. These and other matters will be presented for your consideration by the Nevada State AFL–CIO. I respectfully solicit your earnest attention to them.

MASTER WATER AGENCY

Of great importance to Clark County is the matter of providing for an adequate water supply. This can only mean pumping from nearby Lake Mead. Time is of the essence, as the ground-water basin is being greatly overdeveloped. Legislation will be introduced by the Clark County delegation to create a master water agency which would have broad powers and be the entity that would contract with the Federal Government in the event a federal project is undertaken. It would, in turn, enter into subcontracts to wholesale water to the water retailing agencies. Water management plans would be formulated by the proposed agency in cooperation with the State Engineer.

In order to best assure a water supply for the necessary development of Clark County it is essential that such an agency be created.

ADOPTION LAWS

The complexities of our present adoption laws and proposed reforms have been studied at length by both the Attorney General's office and the Legislative Counsel Bureau.

A number of recommendations have been made in these studies and will be presented to you in this session.

It is clear that action is needed in this field and I am confident you will enact the necessary legislation.

CENTENNIAL COMMISSION

The 1961 Legislature directed the formation of the Nevada Centennial Commission, provided it with a legislative appropriation of $45,000 and charged it with the assignment to plan and conduct a suitable observance of the 100th anniversary of the admission of the Territory of Nevada to the Union as the 36th sovereign state. To augment the broad terms of this assignment, I directed the Commission to plan a Centennial observance which would be statewide in nature, with as many features as practical which would be of permanent value and designed to attract as many out-of-state visitors as possible throughout 1964.

In preparing its program the Commission has met with citizens in each section of the state for advice, has studied the Centennial observances of 14 other states and cities and has retained the services of an executive secretary with

experience in such observances. Centennial county committees have been formed, as well as specific committees on memorial postage stamps, commemorative coins, historical markers and other statewide projects. To implement this program, and provide backup and promotional support, I am recommending an appropriation of $326,622 to support the work of the Commission. Cooperation and interest throughout the state is extremely encouraging, and I believe we have the capabilities of making the Centennial Year of 1964 one of Nevada's finest years.

BUDGET

The budget I am presenting to you is a balanced budget; that is, operating expenses do not exceed anticipated operating revenues. The general fund budget is balanced with the tax resources available. *No new general fund tax or increase in an existing tax is proposed for the support of State Government.*

Those who advocate expenditures above the amounts I am recommending must be ready to face the probability of and responsibility for new taxes.

The operating budget for all funds recommends the expenditure of $98,742,697 in 1963–64 and $107,432,394 in 1964–65. An additional amount of $7,479,727 is recommended for capital improvements and $365,698 in nonrecurring expenditures.

The general fund operating appropriation for the biennium is recommended at $96,033,003 (an amount of $45,879,164 for 1963–64 and $50,153,839 for 1964–65).

The General Appropriation Act and the Authorized Expenditures Act have been drafted on a biennial basis. When a state is increasing population-wise as rapidly as Nevada (19 percent in the last two years), some flexibility must be provided.

If the Budget Director's projection of revenue is correct, there will be approximately $4,000,000 in the general fund cash balance at the end of the biennium.

The budget provides funds for the state to discharge its responsibilities, retains a healthy cash balance and does not require additional general fund taxes.

Although many of the budgets reflect only slight increases, the budget is designed to provide positive progress in the next two years in services to the citizens of Nevada.

The major increases are at the institutions. For too long the institutions, notably the Prison and the State Hospital, have had survival appropriations.

An increase in population is unquestionably generally beneficial to the state. However, an increasing population also means greater problems for state institutions, which are already overcrowded and understaffed. At the State Hospital the budget emphasis has been placed on staff increases, with the goal being rehabilitation of inmates and a desire to reverse the trend of increasing inmates.

A second dormitory is recommended for the minimum security facility at the Prison, and personnel have been recommended to more adequately staff the existing maximum security prison as well as the new women's prison and the new minimum security prison.

New dormitories are recommended for the Youth Training Centers at Elko and Caliente.

In the field of tuberculosis control we are recommending a substantial increase, hoping that Nevada can eventually achieve the same record other states have achieved—the virtual elimination of tuberculosis.

The amount recommended for the University of Nevada operating budget is $12,492,421 or 13 percent of the general fund operating budget. Amounts have been recommended for continuing the accelerated capital improvements at the University.

A major consideration in any budget is salaries. An adequate salary schedule is essential to insure the level of services that Nevadans expect from their State Government. I have therefore proposed an appropriation of $300,000 per year to enable the state to continue to pay salaries comparable to those paid by industry.

As an additional inducement for the attraction and retention of capable state workers, I am recommending the adoption of a state employee group

medical insurance program and a 50 percent state contribution up to $5 per month. This is a common business practice and is done by other levels of government in Nevada.

REORGANIZATION OF STATE GOVERNMENT

In the first session of the Nevada Legislature in 1864, the Legislature considered a budget for seven state officers and *one* state agency. At that time and for many years thereafter the entire State Government was housed in the Capitol Building and consisted of fewer persons than we now find in many single agencies. Over the years, succeeding Legislatures have created new agencies as the need arose. Now, 98 years later, this Legislature will appropriate for more than 100 state agencies and, without doubt, add a few more.

Many states have grown, as has ours, without plan or direction, resulting in such myriad agencies, boards and commissions that the mind of man can hardly conceive it and the citizen taxpayer retires in bewilderment and confusion in trying to deal with it. Agencies are frequently not aware of the programs and activities of other agencies, and as a result we often find costly duplication of programs, manpower, equipment and effort.

The Nevada Constitution states: "The supreme executive power of this state, shall be vested in the chief magistrate who shall be Governor of the State of Nevada."

When this responsibility accrued to me in 1959, I spent many months simply trying to find out what state agencies existed, where they were and what their respective functions were. I have been living in the maze ever since with the certain knowledge that the words in the Constitution were beyond the power of any man, certainly myself, to fulfill. This undirected and costly growth is not peculiar to Nevada. Nearly all other states have experienced it. Many of them have had the good sense to examine their siutation and the courage to legislate reorganization.

Last Friday, the Little Hoover Commission of the state of New Jersey, made its report. We find the same language here as we find in reports that have been made in many other states, including our own. Among other things, the commission, studying economy in state government, found evidence of widespread duplication of service, laxity in personnel supervision, low worker productivity and a big shortcoming in the workmen's compensation law.

Then it turned elsewhere and recommended dozens of changes. Among them: a sweeping overhaul of civil service regulations; consolidation of a number of small agencies, revision of several cabinet departments, and the use of more automation.

Most of us, I am sure, recognize that big government is onerous at best; at its worst it is chaotic. If chaos is not the precise description for Nevada's State Government today, it soon will be unless action is taken now.

Our two new states, Alaska and Hawaii, made exhaustive studies before adopting their respective constitutions. It became quickly apparent to the framers of these constitutions that constitutional protection was essential in order to avoid the situation they found in other states, including Nevada. It is interesting to note, therefore, the provision in Hawaii's Constitution which provides that: "Each principal department shall be under the supervision of the Governor and, unless otherwise provided in this constitution or by law, shall be headed by a single executive." The constitution then goes on to limit the state agencies to a total number of 20. The Alaska Constitution also states: "All executive administrative offices, departments and agencies of the state government and their respective functions, powers and duties shall be allocated by law among and within not more than *twenty* principal departments . . ."

The Nevada Legislature has recognized over the last few years that a streamlining and reorganization of State Government would someday have to be accomplished.

Special studies have been authorized concerning the matter. Thus, in 1925 a State Survey Commission reported to the Governor and Legislature that ". . . the organization of the state government of Nevada . . . has become an unwilling and inefficient government machine . . . , a bewildering array of boards, commissions and appointive officers."

In 1948, Gorvine, in his "Administrative Reorganization for Effective Government Management in Nevada," stated forcefully the need for a coordination of executive functions. There were other more pressing problems at the time, however; the Legislature became bogged down over disagreements on particulars and the matter was forgotten. I am confident that the public has, as is often the case, been way ahead of us and is becoming increasingly more restive about the situation.

To put it in the vernacular, there isn't a person in this room who would operate his business the way we operate the state. If he did, he would quickly go broke. If we were here today for the purpose of organizing a government for our state in the first instance, we would most certainly not create the monstrosity we have today.

It is essential, then, in the interests of economy and efficiency, that we commence to uncomplicate State Government by reorganization and streamlining. In the process we must avoid at all costs defeating the purpose by disagreements over minor matters. We know from experience that every man is going to have his own solution. We must, therefore, approach the matter in a genuine spirit of give-and-take. To compromise a specific in order to obtain a broad objective must be the order of the day, or we can never hope to get the job done. Neither can we afford to merely get our toes wet—we must take the plunge now and hope to accomplish something of substance and lasting benefit. Mistakes made can easily be corrected. If we do not have the courage to run the risks, we will make no mistakes—but neither will we make any progress.

What I am about to propose is a plan for partial reorganization based upon past studies of our own State Government, studies of other states, a special study just released by the Budget Department and conferences with various business and political leaders of our state. The proposed plan will not change the essential characteristics or purposes of any of the agencies involved, but it does provide logical groupings for administrative purposes. I am confident that the savings ultimately effected by the plan will substantially outweigh the relatively minor amount involved in order to make it operative. An increase in efficiency, elimination of duplication of personnel and equipment, coordination of programs, and general ease in dealing with government should result.

I propose the following groupings of existing, and some new state agencies:

DEPARTMENT OF ADMINISTRATION

This department would combine the functions now performed by the Budget Office, the Personnel Department, State Planning Division (now the Planning Board), Purchasing Department and Buildings and Grounds.

DEPARTMENT OF HEALTH, EDUCATION AND WELFARE

This department would contain the divisions of Health, Education, Welfare, Alcoholism Agency, Mental Health, Youth Services and Children's Home.

The new Mental Health Division would embrace the existing mental care and mental health services of the existing Health Department, the Nevada State Hospital, Community Mental Health Services and Alcoholism Agency.

The new Division of Youth Services would administer the Interstate Compact on Juvenile Services, the Nevada Youth Training Center and the Girls Training Center, and would coordinate the efforts of all existing agencies dealing with juvenile delinquency. Gradually, this Division, as the need arises, would assume responsibilities in broader areas of juvenile interest.

DEPARTMENT OF COMMERCE

This department would contain the divisions of Insurance, Bank Examiner, Real Estate, Savings and Loan, and Securities. It is suggested that the securities control function, which will in all probability be created by legislation, be a division in this department.

DEPARTMENT OF PUBLIC WORKS

This department would contain the divisions of Conservation and Natural Resources and Highways.

The present Park Commission and Soil Conservation Service would be placed in the Conservation and Natural Resources Division.

The specifics involved in the suggested reorganization will appear in legislation which has been prepared and will be presented to you.

In closing on this subject, may I say that it will take courage to enact this legislation. Habit and custom is a fearsome thing. Pressures will be upon you to exempt this or that person or department. Special interests who may fear the loss of special privilege will oppose. Those who are merely afraid of change will oppose. It would be much easier to simply not do it and forget the whole thing. But, if you are willing to make the run, you have a very good chance of winning the race and in so doing, do a service to the people of this state unequaled in modern legislative history.

CONCLUSION

Finally, may I add my welcome to the others you have received since arriving here. I and all other executive departments are available to you at any time and anxious to be of assistance. My earnest wishes for a happy and productive session.

Vetoed Assembly Bill No. 385 of the 51st Session.

THE STATE OF NEVADA
EXECUTIVE CHAMBER

CARSON CITY, April 7, 1961.

THE HONORABLE JOHN KOONTZ, *Secretary of State, Carson City, Nevada.*

DEAR MR. SECRETARY: There is herewith deposited in your office for filing, within the constitutional time limit and without my approval, Assembly Bill No. 385, introduced by the Committee on Taxation on March 7, 1961, and entitled, "An Act to amend NRS section 361.090, relating to the veterans' tax exemption, by limiting such exemption to veterans who are residents and were residents for more than 3 years before December 31, 1963, or who were residents at the time they entered the Armed Forces; and by providing other matters properly relating thereto."

Although I agree with Assembly Bill No. 385 in principle, unfortunately it excludes the veterans of the Spanish-American War from any state veterans' benefits. Although this group is small in number, it includes some of our most honored, respected and deserving citizens. They are the veterans of the only 100 percent volunteer army the modern world has produced. The average age

is over 80 years. Many of them are in need and depend to a large degree upon small benefits such as that granted them by our state. Our state cannot in good conscience give benefits to other veterans without extending at least the same benefits to this small group.

It should be noted that the present legislation, as proposed, will not result in any savings to the State of Nevada in the next two calendar years. The effective date of this act is December 31, 1963. The Legislature, in the year 1963, can pass this identical act without excluding the Spanish-American War veterans and the savings in dollars to the state and its political subdivisions will be exactly the same. It is not necessary, therefore, in order to save the state money that this bill be signed at this time.

I find it necessary, therefore, to veto this bill with the suggestion that the next session of the Legislature pass similar legislation applying equally to all veterans.

Respectfully submitted,

GRANT SAWYER, *Governor.*

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

Remarks by Messrs. Bastian, Giomi and Christensen.

The roll was called, and the Assembly sustained the veto of the Governor by the following vote:

YEAS—None.

NAYS—Ames, Bailey, Bastian, Bishop, Bunker, Christensen, Delaney, Dungan, Gibson, Giomi, Glaser, Godbey, Gray, Hafen, Harris, Herr, Howard, Jacobsen, Johnson, Jones, Knisley, McNamee, Manning, Parraguirre, Petrini, Posin, Pozzi, Swackhamer, Swanson, Swobe, Valentine, Viani, Von Tobel, Wood, Young and Mr. Speaker—36.

Resolved by the Assembly and Senate of the State of Nevada, jointly, That section 3 of Article 9 of the Constitution of the State of Nevada be amended to read as follows:

Sec. 3. The state may contract public debts; but such debts shall never, in the aggregate, exclusive of interest, exceed the sum of [one] *two* percent of the assessed valuation of the state, as shown by the reports of the county assessors to the State Controller, except for the purpose of defraying extraordinary expenses, as hereinafter mentioned. *The assessed valuation of the state shall include the value placed upon motor vehicles for the purpose of any tax upon motor vehicles provided by the Legislature in lieu of an ad valorem property tax pursuant to section 1 of Article 10 of the Constitution of the State of Nevada.* Every such debt shall be authorized by law for some purpose or purposes, to be distinctly specified therein; and every such law shall provide for levying an annual tax sufficient to pay the interest semiannually, and the principal within twenty years from the passage of such law, and shall specially appropriate the proceeds of said taxes to the payment of said principal and interest; and such appropriation shall not be repealed nor the taxes postponed or diminished until the principal and interest of said debts shall have been wholly paid. 10:30–12 noon—Film Senate Chamber in session.
1:30–3:00 p. m.—Film House Chamber in session.

3:00-3:45 p. m.—Film Ways and Means Committee in session. Film Judiciary Committee in session. (Senator Gallagher narrates.)

4:00-5:30 p. m.—Individual tape narrations by Governor, Lieutenant Governor, Speaker of the House (assuming time factor not critical; otherwise, another date will be set).

Toward accomplishing the filming schedule in one day, it is felt this can best be done by first filming all sequences (silent) after which commentary can be made via tape—for flexibility and editing—and joined to film.

You may further expect to receive on Tuesday, the 12th, an outline of the story format which will aid in developing respective narrations.

K.E. KEFAUVER, *Director.*

There being no objections, the Speaker and Chief Clerk signed Senate Bill No. 52.

Therefore, will any one who wishes to claim mileage please notify Winnie Slade in the Counsel Bureau office after the trip is made, and mileage will be added to the claim for the next week.

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Christensen read the following:

You are all aware, I am sure, of the spread of Asian influenza across our country. National, state and local health authorities feel that Nevada, as well as other Western States, run a good risk of having Asian flu in epidemic proportions.

In order that the Legislature of the State of Nevada may proceed, we hope, uninterrupted with their business, the Lahontan Basin Medical Society, in conjunction with the Nevada State Medical Association, the Nevada State Pharmaceutical Association, and the Nevada State Department of Health, wishes to offer this vaccine against influenza to the legislators and others concerned with our State Government.

This vaccine should make it very unlikely that our state's government business will be slowed by an outbreak of Asian flu. The Lahontan Basin Medical Society recommends that two doses of vaccine be taken, one this morning, and one in two weeks. This vaccine should prevent flu in 80 percent of those taking it, and result in a lighter case in those who do contract the disease. Approximately 1 in 10 may have a mild reaction, consisting of slight fever, aches—the usual mild symptoms of flu. The doctors feel that this small risk is well worth taking.

The only specific contra-indication is a known allergy or sensitivity to eggs.

This innoculation in your doctor's office would ordinarily cost $3. This morning, and again in two weeks, the Lahontan Basin Medical Society, in conjunction with the above-named organizations, offers this to you as a public service. For those who feel so inclined, you may make a donation to the Carson-Tahoe Hospital building fund. A member of the hospital's women's auxiliary will accept donations.

Mr. Von Tobel requested that the following remarks be entered in the Journal:

It is with pleasure that I note that Assembly Bill No. 167 was passed which would give the University of Nevada at Reno a fine new building. I am also very happy to note that the Clark County Delegation voted for this bill 100 percent. We people in southern Nevada full well realize that seat of higher learning in the State of Nevada is on our dear campus at Reno. We also realize that after three-fourths of a century the University has assumed the height to which it is rightfully entitled. I think it is wonderful we Clark County people have gone 100 percent for this bill. We only hope that when our problems reach the point where we need some solution that you people in the northern part of the state will certainly make every effort to help on our behalf.

MOTIONS, RESOLUTIONS, AND NOTICES

In accordance with Mr. Pozzi's request, proceedings during recess were as follows:

Mr. Pozzi introduced Messrs. James E. Powers, National Commander of the American Legion; Thomas W. Miller, National Executive Committeeman of Nevada; J. E. Martie, Alternate National Executive Committeeman of Nevada; I. A. Lougaris, Department Commander; Victor F. Whittlesea, Department Adjutant and National Vice Commander; Howard Squires, Department Sergeant-at-Arms; Jim Watkins, Commander's Aide; and Mrs. I. A. Lougaris.

Mr. Powers delivered the following message:

GOVERNOR SAWYER, LIEUTENANT GOVERNOR LAXALT, SPEAKER TYSON, DISTINGUISHED MEMBERS OF THE NEVADA STATE LEGISLATURE, FELLOW LEGIONNAIRES, LADIES AND GENTLEMEN:

I'm so very happy to be back in Nevada, for it was here within this great state that just a few short months ago I was accorded the high honor of election to the office of National Commander of The American Legion.

The American Legion owes a debt of gratitude to this state for the marvelous hospitality and the warm reception which your people gave to the delegates to our 44th National Convention in Las Vegas last October—a most

successful National Convention for The Legion which also saw the election of one of Nevada's sons, Victor F. Whittlesea, as a National Vice Commander of The American Legion.

So we of The American Legion are doubly appreciative on this occasion, first for your hosting of our Convention, and second, but certainly no less important, for the honor and privilege of appearing before this distinguished group today.

On behalf of Commander I. A. Lougaris of Nevada; Nevada's Legion Adjutant and our National Vice Commander Vic Whittlesea; National Executive Committeeman Tom Miller, and the more than 3,600 American Legionnaires of Nevada, our sincere thanks for the many considerations you have given to the veterans of this great state, and to all of the people of Nevada.

Since a more timely opportunity may not present itself, as far as I personally am concerned, I also take advantage of this occasion to offer congratulations and best wishes to the sovereign State of Nevada in your planning and program for the 100th anniversary of your admission to the Union, which I understand you are preparing to observe in October of 1964.

I know that many of you elected officials of the State of Nevada are veterans of wartime service to your country, and I'm proud of the fact that many of you are American Legionnaires, so I know there is no need for overemphasis before this body of the fact we of The Legion shall always come before you in a spirit of cooperation and mutual helpfulness on behalf of those measures which we believe to be for the good of the state and the nation.

I feel that we of The American Legion have more in common, than in conflict, with those at every level of government—city, county, state and national—as we seek equitable and satisfactory solutions to the many problems which confront us as responsible citizens of a great and free republic.

While the legislative program of The American Legion is aimed primarily at matters of national import, there are always some matters for consideration at the state level, and we are most appreciative of the time and effort you have devoted to Legion legislative proposals through the years.

You may be assured that The American Legion will not come before any legislative group anywhere, seeking anything that we do not believe to be in the best interests of America, or those who have served America, and by virtue of service to their country now find themselves in need of such assistance as only their state or their nation can give.

Many of you members of this august body serve your state at considerable sacrifice for, through many years of personal experience in dealing with state legislatures, I know that a substantial number of you are not compensated for your time and effort as you would be if you had stayed at home and attended to your own business, professional, or work-day affairs. Yet you come willingly for you know that if the affairs of state are not administered in a competent manner, the affairs of the individual will lose all meaning.

In this respect you are comparable to The American Legionnaire who seeks to serve his God and his country with no monetary compensation, and no reward except for that inner warmth and self-satisfaction that comes from a job well done on behalf of the principles and ideals in which he believes.

This the hallmark of a democratic form of government, and this type of service will, I am sure, prove to be the salvation of the republic, for through the forum of legislative debate and the fair and orderly process of governmental affairs, the voice of each and every citizen, regardless of his status in life, can and will be heard if he will but speak up.

Many of you know from personal experience that The American Legion is a firm believer in this system of ours. Because we believe we have never hesitated to make our voice heard, be it from the floor of the city council, the chambers of the state legislature, or in the halls of the Congress of the United States.

We regard such participation in the affairs of the state and the nation both as a privilege and a responsibility, for we know the fate of those who have failed to exercise the privilege and to accept the responsibility. They have forfeited the right of self-government, they have been ground under the heel of tyranny, and they have become slaves rather than masters of their destiny.

Can it happen here? It can if we abandon the responsibilities of citizenship!

That creeping paralysis of the mind and the spirit of man, a terrible by-product of the international communist conspiracy, has, during the years since the close of World War II, spread its influence over the lives of nearly a billion people and extended its tentacles dangerously close to American shores with the establishment of a red beachhead in Castro's Cuba.

I was in the Caribbean area early last fall, shortly after my election as National Commander of The American Legion. I was in the process of receiving a briefing by the military commanders of the Antilles Defense Command at the very moment that President Kennedy announced to the nation the extent of the communist offensive military buildup in Cuba and the gravity of the threat which that buildup posed to the Americas.

The strong and necessary measures which he instituted immediately to counter that threat were met with unanimous approval by the people of that part of the world.

In the name of The American Legion, I wired the President at the White House, pledging to him the wholehearted support of the Legion in this and any other action which the administration deemed necessary to rid this hemisphere of the cancer of communism.

We of the Legion still believe that this was but an initial step along the road we must travel to bring the Castro regime to its knees, and to restore to the freedom-loving people of Cuba the right to once again select a government of their own choosing.

Two months later, during December of 1962, I was privileged to visit in the Far East, touching such points as Hong Kong, Taipei and Saigon. There in the jungles of Viet Nam, half a world removed from Cuba, I found that the impact of the firm stand by the United States in the Cuban situation had been felt.

I found that the prestige of the United States had, by virtue of that single firm and positive action, risen to heights that we have not reached since the close of World War II. Frankly, I was surprised that they had even heard of the Cuban action in that remote quarter of the globe. The very fact that they had, and were so favorably impressed by it, is new evidence of the validity of a position long held by The American Legion. It is simply this: The United States does not have to compete in a popularity contest to win the esteem of her friends and the respect of her foes. We will accomplish these ends much more readily by providing the firm type of leadership that the world has come to expect of us.

The American Legion, dedicated to four basic programs of service—Americanism, rehabilitation, child welfare and national security—must make its voice heard in the legislative halls if we are to make our programs effective.

We will go before the 88th Congress to reaffirm our support of the House Un-American Activities Committee, for we know that the enemies of the committee again are engaged in a massive campaign to prevent the committee from obtaining the necessary funds to carry out its vital work of investigating and exposing subversive elements and influences in our society.

The Legion believes that this committee has performed an outstanding service to the nation in revealing the threat from within. We believe that those who oppose the work of the committee, on the basis that it violates the constitutional rights of some individuals, are confusing liberty with license—or else they have more sinister motives. We have seen all too many instances where those who would destroy the Constitution and its guarantees are the first to hide behind the protective features of the very document they would decimate and render useless.

We know that as we seek to strengthen the country at the national level, that your efforts here in your own state are aimed at that same objective, for the nation can be no stronger than the combined strength of the several states, and the state can be no stronger than the combined strength of its many communities and of its individual citizens.

We of The American Legion wish you every success for a most fruitful and productive session of your state legislature, and we feel that we have common cause with you in our mutual efforts to serve the community, the state and the nation.

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Speaker read the following communication:

February 26, 1963.

HON. L. E. TYSON, *Speaker, Assembly of the Nevada Legislature, Assembly Chambers, Carson City, Nevada.*

DEAR MR. TYSON: Assembly Standing Rule No. 33 reads in part as follows:

"After the first 40 days of the sessions held in odd-numbered years, bills and joint resolutions may be introduced in the Assembly only after consent is given by a two-thirds vote of the members present. * * * However, bills and joint resolutions may be introduced by standing committees without consent. Select committees composed of county delegations shall not be considered as standing committees. * * *."

By my count, Friday, March 1, is the 40th day of the 52nd Session of the Nevada Legislature. The purpose of this letter is to seek from you an expression of the Assembly with respect to the procedure to be employed concerning the preparation and introduction of bills on and after the 40th day. As you and most of the members of the Assembly know, it has been the practice in past sessions not to invoke the provisions of that portion of Assembly Standing Rule 33 quoted above upon my guarantee that the bill had in fact been requested by an individual Assemblyman prior to the 40th day, but had not been prepared by my office and delivered to him because of the press of bill drafting business until on or after the 40th day. Needless to say, many Assemblymen will probably find themselves in the position of having requested bills which we have not been able to consider because of an unusual circumstance existing in the bill drafter's office on the date of the writing of this letter. Therefore, may I suggest that we employ the same practice which we have employed in the past, and that I continue to prepare and deliver bills to individual legislators who have requested the same prior to the 40th day.

All other bills prepared and delivered for introduction thereafter will bear in bold red letters, stamped on the face of all copies prepared for introduction, the words "REQUESTED AFTER THE 40TH DAY."

I trust that you will bring this communication, if you desire, to the attention of the Assembly for any action deemed appropriate by you and them.

Yours sincerely,

RUSSELL W. MCDONALD,
Legislative Bill Drafter.

GUESTS EXTENDED PRIVILEGE OF ASSEMBLY FLOOR

On request of Mr. Palludan, the privilege of the floor of the Assembly Chamber for this day was extended to the civic government class of Churchill County High School and its instructors, Mesdames Ann Berlin, Jacobsen, Messrs. Tom Hallum and Don Travis.

On request of Mr. Bishop, the privilege of the floor of the Assembly Chamber for this day was extended to Mr. Don Saylor.

On request of Mr. McNamee, the privilege of the floor of the Assembly Chamber for this day was extended to Mr. William Taylor.

On request of Mr. Wood, the privilege of the floor of the Assembly Chamber for this day was extended to Messrs. Clark Santini and Dave Cooper.

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Pozzi gave notice that on the next legislative day he would move to reconsider the vote whereby Assembly Bill No. 214 was this day passed.

Mr. Glaser read the following communication:

UNIVERSITY OF NEVADA

RENO, NEVADA, February 27, 1963.

ASSEMBLYMAN NORMAN D. GLASER, *Assembly Chambers, Carson City, Nevada.*

DEAR ASSEMBLYMAN GLASER: Assemblyman Ray Knisley has asked the University of Nevada to establish a scholarship fund to be known as the *1963 Nevada Legislative Scholarship Fund* and has made the first contribution. The enclosed clipping describes the events leading up to this proposal. Ray has asked that we notify all members of the Legislature of the existence of this fund in order that each of you may, if you wish, make similar contributions.

We understand that Ray is anticipating something of the nature of a "share-the-wealth" program, based on the increased per diem for legislators. He suggested that each legislator's contribution be made available to a student from the legislator's home county attending the University of Nevada, either at Reno or at Las Vegas. The student is to be designated either by the legislator or by the Scholarship Committee of the campus concerned.

It goes without saying that we are always delighted to receive money for scholarship purposes to help worthy and needy students of the state. I assure you that whatever gift you may wish to make will be well spent and that any instructions you give concerning the award will be carefully followed.

Every good personal wish.

Cordially yours,
CHARLES J. ARMSTRONG, *President*.

Mr. Wood requested that the following remarks be entered in the Journal:

With regard to the letter Mr. Glaser read, I certainly think this is a nice gesture on the part of Mr. Knisley and all those who can and do contribute to the scholarships. I might like to point out to you I want my stand to be taken in the right vein. Over the past 10 years it has been my good fortune in my small business to employ anywhere from 6 to 12 University of Nevada students in the business, and we select them for those positions primarily on the basis that they would not otherwise be able to attend. At the last count I made there were something near 50 students who had graduated from the University from my own little organization and some that are now enjoying the life of business or professional men in the state. I'd like Mr. Knisley to know that we had two from Pershing County who attended the University of Nevada as a result of this employment.

Also, I have a son at my house who is drawing on a scholarship from me to attend the University of Nevada and another who will be going in next year, and this is all the scholarships I can afford at the present time.

Assembly Joint Resolution No. 6—Proposing to amend section 1 of Article 10 of the Constitution of the State of Nevada, relating to taxation, by allowing the imposition of an estate tax not to exceed in amount the credit allowed for such a tax against the amount of the federal estate tax.

Resolved by the Assembly and Senate of the State of Nevada, jointly, That section 1 of Article 10 of the Constitution of the State of Nevada be amended to read as follows:

Section 1. The legislature shall provide by law for a uniform and equal rate of assessment and taxation, and shall prescribe such regulations as shall secure a just valuation for taxation of all property, real, personal and possessory, except mines and mining claims, when not patented, the proceeds alone of which shall be assessed and taxed, and when patented, each patented mine shall be assessed at not less than five hundred dollars ($500), except when one hundred dollars ($100) in labor has been actually performed on such patented mine during the year, in addition to the tax upon the net proceeds; shares of stock (except shares of stock in banking corporations), bonds, mortgages, notes, bank deposits, book accounts and credits, and securities and choses in action of like character are deemed to represent interest in property already assessed and taxed, either in Nevada or elsewhere, and shall be exempt. Personal property which is moving in interstate commerce through or over the territory of the State of Nevada, or which was consigned to a warehouse, public or private, within the State of Nevada from outside the State of Nevada for storage in transit to a final destination outside the State of Nevada, whether specified when transportation begins or afterward, shall be deemed to have acquired no situs in Nevada for purposes of taxation and shall be exempt from taxation. Such property shall not be deprived of such exemption because while in the warehouse the property is assembled, bound, joined, processed, disassembled, divided, cut, broken in bulk, relabeled or repackaged. The legislature may exempt motor vehicles from the provisions of the tax required by this section, and in lieu thereof, if such exemption is granted, shall provide for a uniform and equal rate of assessment and taxation of motor vehicles, which rate shall not exceed five cents on one dollar of assessed valuation. No inheritance [or estate] tax shall ever be levied, and there shall also be excepted such property as may be exempted by law for municipal, educational, literary, scientific or other charitable purposes. *The legislature may by law levy an estate tax at any time such a tax has been imposed by the Federal Government, if the federal law allows a credit against the amount of the federal estate tax for the amount of the estate tax levied by the State of Nevada. The amount of the estate tax levied by the legislature of the State of Nevada shall never exceed the amount which is allotted by federal law as a credit against the federal estate tax.*

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Christensen moved that Assembly Bill No. 119 be re-referred to the Committee on Ways and Means.

Remarks by Mr. Christensen.

Motion carried.

Mr. Valentine moved that Assembly Bill No. 134 be taken from the General File and placed on the General File for the next legislative day.

Remarks by Mr. Valentine.

Motion carried.

Mr. Von Tobel moved that his remarks made February 28, 1963, during the meeting of the Committee of the Whole be entered in the Journal.

Motion carried.

In accordance with Mr. Von Tobel's motion, his remarks were as follows:

Before we discuss the reorganization bills, I would like to make this statement because the action I propose to do will have considerable impact with what is left of the bills, if anything. I will try to remain as impersonal as possible. I believe we could look at the reorganization bills much more objectively if our top executive had passed away in his sleep last night; heaven forbid, but I think that then we could be more objective because, as far as I am concerned, this is what we have to look at. Our State Government is in good hands at the present time and in the hands of an exceedingly capable person, but I think we should look a little beyond that time. When I first heard of these reorganization bills I wondered, why the hurry? Next year we will be 100 years old. Now we want to do this thing in less than 100 weeks, 100 days, or even, almost, less than 100 hours. Not one of us is really informed on these reorganization bills. I believe that our State Government is ageless, at least I hope it is, so why should we rush and hurry into this thing?

But be that as it may, as far as I know there has been no testimony or proof that the reorganization will save money or be more efficient. As far as I know, the departments haven't even been correlated in accordance with such reorganization. But we have no proof on the reorganization that it is going to be efficient and to save money. But let's assume that the reorganization will save money. I submit to you that in the reorganization we put the government far away from the people, where it is beyond the control of the people. If this is efficient, give me inefficiency every time. The reorganization bills assume that we are going to have a direct chain of command: departments on top of departments on top of departments. This is not necessarily good managerial practice. If you check into it, in some of the largest companies in the world—Sears Roebuck, for example—you will find they have only three levels of command. And here we want to stack one on top of the other. That's not necessarily right in every instance.

The big problem, as I see it, is the four officials at the head of the suggested four departments. I'm going to suggest that these officials be elected by the

people. Now immediately people will say, this won't work, this can't happen. Well, let's assume we have a top executive who is of one party and four elected officials who are of another party. I submit to you there are still thousands of things upon which these people can get together for the betterment of the government of our state. It could give you a noncontroversial, nonpolitical group. Of course, in reality this doesn't have to happen. Or suppose that the four elected department heads, who are of one party, get in a feud with the Governor, who is of a different party. Suppose we have miles of scandal-ridden newspapers and hundreds of skeletons in the closets. Is this bad? How else are the weaknesses of government to be declared except by government pointing them out? And as the saying goes, they won't point the finger of self-accusation at themselves. What is more likely to happen is that over the years these officials are elected that at least one or more man will be of the same party as the top executive. So, there is always something to work on. So what if the top executive and at least one, two or three of these officials are of the same party? Heaven knows it will take at least four years to straighten out just one department. That's the way it is in our business. You spend a year straightening out one department and while your back is turned another department has gone to pot.

We have this too in our State Government, a good example of the two top executives being of different parties, and this has gone on for years. As far as I know, they get along swell. There is nothing wrong in this. In fact, I see a lot of good in it. We also have a lot of harmony between elected officials. For example, the former State Treasurer, Dan Franks. He stayed here for years: Governors came and Governors went, but Franks went on forever. We see this too with other department heads: the Secretary of State, the Treasurer, the State Printer. So we have precedent for these officials being elected. We can be sure that if these elected officials are good, capable, and are turning out the work, the top executive will aid them in their re-election. Under the present setup with the top officials in these four departments being appointed, most of us will live to see the day when these men and these departments will be made political payoffs for political tactics.

For example, you heard the speakers from the P. T. A. How would you like to have the top man in the school department appointed to the job because he delivered a lot of votes to the incoming Governor? That is exactly what would happen. It is getting the government away from the people. I think we would find that the Governor and the four top executives would work as a team. Some of the critics have said that this would end up as five governors. I submit to you, that's not a bad idea. Especially, if one of them happened to be Huey Long. At least, only one-fifth of our government would be corrupted. Now, under the proposed reorganization we visualize one super-department with a governor-dictator at the top and channels going clear down to the individual.

We have a situation something like this right now. Even though I hesitate to mention specifics, I will cite one example. We have a deplorable situation in southern Nevada, with the people who want to get driver's licenses losing at least half a day's work and sometimes a day's work. The minimum waiting period is three hours, the maximum waiting period will be up to six hours, and after waiting three to six hours some people still don't get a driver's license. The head of the department told me that after waiting three hours or more people say, "The heck with this, I'm not ever going to get a Nevada driver's license." And off they go. Now this has been going on knowingly for months in Las Vegas. Now here we have a very simple chain of command situation. There are only two people who are responsible: the Governor and the head of the department. And I understand the Governor appointed him and could hire and fire him in five minutes notice. Now here we go into further confusion of the situation by putting the whole chain of command between the Governor and the head of this department. What a nice, wonderful way to camouflage all the authority and the responsibility, and the poor old taxpayers were buffeted around from pillar to post and worse. We have talked about communications in the chain of command. Let me tell you that in any organization communications are two ways. There should be communications from the top down and there should be communications from the person in the lowest

echelon to the top. Under this reorganization plan, where is the communication from the poor guy that's paying the bill? Where are the people? They're off some place over there, talking to themselves.

Ladies and gentlemen, I propose to amend Assembly Bill No. 148 as follows:

No. 1. The head of this department is to be elected by the public.

No. 2. There should be some qualifications with respect to the eligibility of this person elected; for example, a college degree, certain years of experience.

No. 3. Perhaps some salary adjustments based upon the work load and the importance of the department.

In the proposed reorganization plan the taxpaying public is ignored. The taxpaying voter becomes the forgotten man. We take his tax money in this reorganization plan. Then we seem to "thumb our nose" at him as to how to spend it at all levels of government except at the top executive position in all but a few instances.

Ladies and gentlemen, this is not a matter of streamlining or a vague suggestion of efficiency. This is destroying our American heritage of "government by the people." The reorganization sets up a chain of bureaus. And these bureaus, for the most part, will be beyond the control of the people.

This is a government of voting taxpayers. At all costs and all means I urge all Nevadans to keep our state in the control of the people. Let us keep the voting taxpayers in the driver's seat. I urge all Nevadans to flood the only representatives they seem to have in Carson City, the members of the Legislature, with phone calls, letters and telegrams, insisting that the top officials of the four new departments be elected by the people.

There being no objections, the Speaker and Chief Clerk signed Assembly Bills Nos. 65, 133; and Senate Bill No. 44.

MESSAGES FROM THE GOVERNOR

THE STATE OF NEVADA
EXECUTIVE CHAMBER

CARSON CITY, March 8, 1963.

MESSAGE TO THE NEVADA STATE ASSEMBLY
LAKE TAHOE INTERSTATE PARK COMPACT

To Members of the Nevada State Assembly:

Attached hereto is an act ratifying the Lake Tahoe Interstate Park Compact and including therein certain amendments relating to state parks and monuments, and provisions setting forth the form, content and procedural aspects of the Compact.

To reduce this matter to its simplest terms, the legislation proposed provides an opportunity, and possibly the last and only one, to preserve for

public use a small portion of what has been termed "the most beautiful lake in the nation."

The proposed park will be composed of three separate areas around the Lake: the Emerald Bay-Cascade Lake property, and Sugarpine Point, in California, and an area located north of Glenbrook and south and east of Incline Village in Nevada. California contemplates donating to the Interstate Park System some 4,700 acres including a shore frontage of about 9½ miles of a value in excess of $5 million. No Nevada money would be used in acquisition of these areas.

On the Nevada side acquisition of about 9½ miles of shoreline and some 30,000 acres of timbered, sloping land is contemplated.

In my view, if we are to save one of nature's more majestic and spectacular gifts, it must be done at this session of the Legislature. We have already seen the California side of the Lake, except for a few small parcels, become a forest of motels, hot dog stands and private establishments unavailable to the public. Thousands of subdivision lots have recently been recorded and platted on the Nevada side. The bulldozers are at work and this area of outstanding natural beauty is quickly being despoiled. It is of absolute necessity that we act now and not at a time when land acquisition costs have again multiplied and we have lost uncounted millions in revenue from tourist travel.

Fortunately, a substantial portion of the Nevada side of the Lake has been held in private ownership and has been left untouched. To those persons who have thus far refused to permit their property to be destroyed we owe a debt of gratitude.

At present less than seven miles of lake front is available for public enjoyment. If we are to make available for public use lands for our rapidly expanding population and to accommodate our most important industry, tourism, we must act now to preserve what remains in a natural state at Lake Tahoe. By official survey almost 100,000 parties were turned away last year from existing facilities at Lake Tahoe resulting in serious economic loss to the state.

This Compact provides for acquisition and administration of both California and Nevada park areas by a commission with equal representation from both states. The theory of bi-state control of such areas is not new. Similar arrangements have been made by the states of Kentucky and Virginia; New Jersey and New York; Oregon and Washington; Delaware, New Jersey, New York and Pennsylvania.[1] Should such a compact be approved the likelihood of federal financial participation is good.[2]

The cost of acquisition of the Nevada areas cannot conceivably be borne by Nevada alone. The position, then, that Nevada should go it alone, is, in my view, tantamount to outright opposition to creation of the park. On the other hand, a reasonable appropriation from Nevada, plus a substantially larger amount from California, will place us in an excellent position to receive federal funds and private and foundation grants. I have requested $500,000 in the budget for this purpose. I am advised that California will appropriate between $2 and $3 million should the Compact be ratified. The total cost of acquisition should be between $12 and $25 million, depending on the areas selected and the appraisals.

The argument has been raised that the preservation of some of these lands for the public use would remove such property from the tax rolls of the respective counties and would therefore mean a loss of revenue. On the contrary, I am convinced that the preservation of these lands will prove to be such a remarkable scenic and recreational attraction that the business generated from visitors from around the world will result in revenues far exceeding those that could ever be realized from the real property tax.

I have heard the objection that California will be exercising unwarranted power over Nevada land and may wish to preempt Nevada's citizens rights in their own state. This suspicion should be quieted by pointing out that the

proposed governing body of the interstate commission is composed of six persons, three of whom are appointed from Nevada. This seems to obviate any possibility of California's "taking over" the park. The rights of the two states in the park areas will be equal notwithstanding a greater proportionate contribution to the Interstate Park System by California.

Another objection is that California will be taking over ownership of Nevada land. This simply cannot happen. If for any reason the Compact should be rescinded and the interstate commission dissolved, the Compact provides that all property acquired by the commission "shall immediately revert to the state in which it is located."

Another fear that I have heard expressed is the possibility that the power of eminent domain might be abused. The drafting committee has taken great care to avoid this possibility. No land may be condemned under this Compact without express approval and action of the Legislature. All condemned land must be in the area described by the Compact, land which is particularly suited for park purposes.

The Nevada State Park Commission does not presently have the power to accept or acquire property without specific legislative approval. The power to accept or purchase is given to the bi-state commission in the proposed Compact, but the power to condemn is not. Approval of the Compact is meaningless unless the power of acquisition by condemnation as well as by other means is provided. It will be necessary therefore by separate statutory approval enacted concurrently with the ratification of the Interstate Compact to grant to the Nevada State Park Commission the power to acquire by condemnation a portion of the lands described in the Compact providing the funds are available. It should be noted again that the State of Nevada can only be committed financially to the extent of the funds appropriated, which I have suggested to be in an amount of $500,000.

I am attaching letters from the Honorable Stewart Udall, Secretary of the Interior; Lawrence N. Stevens, Bureau of Outdoor Recreation; Edward P. Cliff, Forest Service; and Conrad L. Wirth, Director, National Park Service. These letters are self-explanatory and indicate, among other things, that (1) there is no federal program contemplated to meet the need in this area, (2) the bi-state compact and acquisition of lands is heartily endorsed on the federal level and (3) there is a possibility of federal financial participation.

In my view this may very well be our last chance. I earnestly urge favorable action on the Compact and attendant legislation.

GRANT SAWYER.

DR. LESLIE H. GOULD, *Chairman, Nevada State Park Commission, 505 South Arlington Avenue, Reno, Nevada.*

January 15, 1963.

DEAR DR. GOULD: I recall with pleasure our tour of Lake Tahoe in the Fall of 1961 with Governor Sawyer and Senator Bible. This is, of course, one of the finest scenic areas in the Sierras and I regard this as one of the prime public conservation opportunities which confronts the States of California and Nevada.

Let me also state my strong support for the interstate compact approach which you are now discussing with the California State Park people. It is my strong opinion that many of our problems will not be solved unless the regional approach is used—and I think you are aware of the fact that this was a major recommendation of the Outdoor Recreation Resources Review Commission last year.

It will also interest you to know that the new Land Conservation Fund Bill which President Kennedy will shortly submit to the new Congress (and which has the highest priority in Administration planning for the coming session) embraces the idea of regional projects involving two or more states. If this legislation is enacted during 1963, more than half of the funds will be allocated to state projects and nothing would give me greater satisfaction than to see

the Lake Tahoe project come to fruition, perhaps with federal assistance from this new program, under the type of leadership described in your letter of January 11.

If I can be of any further assistance in this matter please advise me.

Sincerely,

STEWART L. UDALL,
Secretary of the Interior.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF OUTDOOR RECREATION
WASHINGTON 25, D. C., February 8, 1963.

LESLIE H. GOULD, M.D., *Chairman, State Park Commission, 505 South Arlington Avenue, Reno, Nevada.*

DEAR DR. GOULD: In your letter of January 11 you tell of the interest of the governors and park commissions of California and Nevada in the preservation for public recreation of approximately 36,000 acres of undeveloped land along the eastern shore of Lake Tahoe and request our comments.

We have reviewed the land ownership and use plan for the proposed Lake Tahoe State Park and the proposal for development under a California-Nevada Interstate Park System Compact. It seems particularly significant that these neighboring states are planning to use this approach. It ties in very closely with our philosophy that recreation areas should be developed where the people are and that there should be suitable coordination between states. This is unquestionably the case at Lake Tahoe.

There is very little additional land available for recreation on the western shore of the lake. California has the most rapidly increasing population of any state in the nation. According to the *California Public Outdoor Recreation Plan*, a total population of 28.5 million is forecast for 1980; by that time the need for outdoor recreation areas and facilities, in terms of activity days, will be nearly four times as great as it is today. Lake Tahoe is within overnight and vacation-use distance of the San Francisco Bay counties and Sacramento. The eastern shore location of the proposed park is within day-use distance of Carson City and Reno. California, because of its size and population, has the tax base to make a larger contribution toward the purchase and upkeep of the park. Nevada, on the other hand, has property available on the eastern shore of the lake but not the population to support a large development. A compact between the two states is a logical and workable method of achieving the desired results.

A compact was used successfully by the Commonwealths of Kentucky and Virginia to acquire, develop, and administer the Breaks Interstate Park. A copy of Public Law 543, approved July 27, 1957, which granted the consent of Congress to the Breaks Interstate Park Compact, is enclosed for your information. You may want to write to Mr. Ben H. Bolen, Chairman, Breaks Interstate Park Commission, 1106 Travelers Building, Richmond 19, Virginia, and request an evaluation of the success of this method based on the experience of these two states.

A successful compact between New York and New Jersey involving the administration of 12 areas totaling 51,566 acres is another example. You may want to write to Mr. A. K. Morgan, Chief Engineer and General Manager, Palisades Interstate Park Commission, Administration Building, Bear Mountain, New York, for more detailed information on the operation and success of this compact. A copy of the Joint Resolution, approved August 19, 1937 (50 Stat. 719), granting the consent of Congress to the compact for the creation of the Palisades Interstate Park Commission, is also enclosed.

We should like also to point out the experience of the Delaware River Basin Commission gained through the operation of a compact (Public Law 87-328, approved September 27, 1961 (75 Stat. 688)) between the United States and the States of Delaware, New York, New Jersey and Pennsylvania, in which authority and funds have been delegated by the participating parties to the commission for the development of all resources in the basin including recreation. While this is not a park compact, it does have some features which might

be of interest to you, especially the fact that financing of the development is based on the various states' ability to pay. For detailed information on this compact, we suggest that you write to Mr. James F. Wright, Delaware River Basin Commission, 25 Scotch Road, Suburban Square, Trenton, New Jersey.

Federal aid would likely be available to help in the acquisition and development of Lake Tahoe State Park if the proposed Land and Water Conservation Fund is established. Legislation is being considered which would authorize federal grants for planning, acquisition and development of state recreation areas on a matching basis. We are hopeful that this proposed legislation will soon be introduced in the Congress.

As you requested, I am sending a copy of this letter to Governor Sawyer. I am also taking the liberty of sending copies of our correspondence to Governor Brown and to Mr. Charles DeTurk.

I sincerely hope that I shall be able to accept your kind invitation to visit you and inspect this area.

Sincerely yours,

LAWRENCE N. STEVENS,
Acting Director.

UNITED STATES DEPARTMENT OF AGRICULTURE
FOREST SERVICE

WASHINGTON 25, D. C., February 6, 1963.

HONORABLE LESLIE H. GOULD, M.D., *Chairman, State Park Commission, State of Nevada, 505 South Arlington Avenue, Reno, Nevada.*

DEAR MR. GOULD: Your letter of January 11, 1963 concerning the plans of the State Park Commissions of Nevada and California for an interstate compact to acquire lands in the Lake Tahoe region is much appreciated. We had the pleasure earlier of discussing this same matter with Mr. William Hart of Governor Sawyer's office. He very courteously dropped by to explain the concern of your commission with the problem of assuring a larger public stake on Lake Tahoe. Mr. Hart also has furnished us a copy of the draft of the proposed compact and a map showing the area involved.

We are of the opinion that any federal acquisition of land in this area should be accomplished under National Forest programs, as the Forest Service has both authority to acquire lands there and administrative organizations and programs in operation. We anticipate in the future acquisition of limited tracts of wild lands under such authorities—largely in areas back from the lakeshore. A federal program of the size and cost discussed in your letter, however, would need to be instigated through a special financing program that no doubt would require legislation by the Congress for a major program of recreation-land procurement. We do not now have plans for such a large-scale land purchase program in this area. In any event, we believe that the problem of assuring more adequate public-use areas on Lake Tahoe is so large as to challenge the best efforts of Nevada and California and the Federal Government.

Consequently, if an interstate compact proves feasible and a way of making progress on this problem, the Forest Service has no objection to it. Any program the Forest Service may have in this area would, we believe, complement programs such as you outline rather than be competitive with them. We note that the proposed compact would apply to a large area of "back country" away from the Lake, including considerable areas of National Forest lands. In fact, the area described seems unnecessarily extensive since the key areas are those reasonably close to the lakeshore. We would object, of course, to proposals for transfer of National Forest lands to other jurisdiction, except through mutually agreed on exchanges, or for limitations on their consolidation, use and management. On the other hand, we expect to correlate Forest Service management with any state-owned areas to achieve maximum public benefits.

Thank you very much for writing.

Sincerely yours,

EDWARD P. CLIFF, *Chief.*

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

WASHINGTON 25, D. C., February 7, 1963.

LESLIE H. GOULD, M.D., *Chairman, Nevada State Park Commission, 505 South Arlington Avenue, Reno, Nevada.*

DEAR DR. GOULD: Thank you for your fine letter of January 11 inquiring about the interest of the National Park Service in the Lake Tahoe area in California and Nevada and telling about the proposed interstate compact to acquire and preserve the remaining undeveloped lands which are suitable for park purposes.

This Service has no plans to establish a national park on Lake Tahoe. According to our information, the use of the Lake Tahoe region is primarily by the people of Nevada and California and, in our opinion, these two states are the logical ones to initiate and guide the development of park and related public recreation facilities in the Lake Tahoe area.

As you know, in July 1960, I stopped by Lake Tahoe to acquaint myself with the changing conditions and to take a personal look at the property owned by Captain George C. Whittell on the east shore of the lake. It was my opinion then that everything possible should be done to establish a large portion of those remaining undeveloped lands as a state park.

In these circumstances, the proposal by which the States of California and Nevada would enter into a compact to administer state park lands in the Tahoe Basin by an interstate authority would seem to be a desirable solution for meeting the park and recreation area needs of the citizens of both states in this region. Similar compacts have been entered into by states in other parts of the country. A Breaks Interstate Park Commission has been established for Kentucky and Virginia, a Palisades Interstate Park Commission for New Jersey and New York, and a Columbia River Gorge Commission for Oregon and Washington. A Delaware River Basin compact was entered into by the States of Delaware, New Jersey, New York and Pennsylvania, and is incorporated in the Joint Resolution of Congress approved on September 27, 1961 (75 Stat. 688).

I am sending Mr. Edward C. Crafts, Director of the Bureau of Outdoor Recreation, a copy of your letter and my reply, since that Bureau has been assigned the responsibility of providing assistance to the state park authorities. Mr. Crafts may wish to write you further on this subject.

In accordance with your request, a copy of my reply is being sent to Governor Grant Sawyer of Nevada.

Please be assured that we stand ready to help you in any way that we can.

Sincerely yours,

CONRAD L. WIRTH, *Director.*

"Sec. 2. NRS 485.105 is hereby amended to read as follows:

485.105 'Proof of financial responsibility' means proof of ability to respond in damages for liability, on account of accidents occurring subsequent to the effective date of such proof, arising out of the ownership, maintenance or use of a motor vehicle, in the amount of [$5,000] *$10,000* because of bodily injury to or death of one person in any one accident, and, subject to such limit for one person, in the amount of [$10,000] *$20,000* because of bodily injury to or death of two or more persons in any one accident, and in the amount of [$1,000] *$5,000* because of injury to or destruction of property of others in any one accident.

Sec. 3. NRS 485.304 is hereby amended to read as follows:

485.304 Judgments herein referred to shall, for the purpose of this chapter only, be deemed satisfied:

1. When [$5,000] *$10,000* has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of one person as the result of any one accident; or

2. When, subject to such limit of [$5,000] *$10,000* because of bodily injury to or death of one person, the sum of [$10,000] *$20,000* has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of two or more persons as the result of any one accident; or

3. When [$1,000] *$5,000* has been credited upon any judgment or judgments rendered in excess of that amount because of injury to or destruction of property of others as a result of any one accident, but payments made in settlement of any claims because of bodily injury, death or property damage arising from a motor vehicle accident shall be credited in reduction of the amounts provided for in this section.

Sec. 4. NRS 485.3091 is hereby amended to read as follows:

485.3091 1. A 'motor vehicle liability policy' as the term is used in this chapter shall mean an owner's or an operator's policy of liability insurance, certified as provided in NRS 485.308 or 485.309 as proof of financial responsibility, and issued, except as otherwise

provided in NRS 485.309, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named therein as insured.

2. Such owner's policy of liability insurance shall:

(a) Designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby to be granted; and

(b) Insure the person named therein and any other person, as insured, using any such motor vehicle or motor vehicles with the express or implied permission of such named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance or use of such motor vehicle or motor vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such motor vehicle, as follows: [$5,000] *$10,000* because of bodily injury to or death of one person in any one accident and, subject to such limit for one person, [$10,000] *$20,000* because of bodily injury to or death of two or more persons in any one accident, and [$1,000] *$5,000* because of injury to or destruction of property of others in any one accident.

3. Such operator's policy of liability insurance shall insure the person named as insured therein against loss from the liability imposed upon him by law for damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance.

4. Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period and the limits of liability, and shall contain an agreement or be endorsed that insurance is provided thereunder in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this chapter.

5. Such motor vehicle liability policy need not insure any liability under any workmen's compensation law nor any liability on account of bodily injury to or death of an employee of the insured while engaged in the employment, other than domestic, of the insured, or while engaged in the operation, maintenance or repair of any such motor vehicle, nor any liability for damage to property owned by, rented to, in charge of or transported by the insured.

6. Every motor vehicle liability policy shall be subject to the following provisions which need not be contained therein:

(a) The liability of the insurance carrier with respect to the insurance required by this chapter shall become absolute whenever injury or damage covered by such motor vehicle liability policy occurs; the policy may not be canceled or annulled as to such liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on his behalf and no violation of the policy shall defeat or void the policy.

(b) The satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of such injury or damage.

(c) The insurance carrier shall have the right to settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof shall be deductible from the limits of liability specified in paragraph (b) of subsection 2 of this section.

(d) The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of this chapter shall constitute the entire contract between the parties.

7. Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy, and such excess or additional coverage shall not be subject to the provisions of this chapter. With respect to a policy which grants such excess or additional coverage the term 'motor vehicle liability policy' shall apply only to that part of the coverage which is required by this section.

8. Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this chapter.

9. Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

10. The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carriers, which policies together meet such requirements.

11. Any binder issued pending the issuance of a motor vehicle liability policy shall be deemed to fulfill the requirements for such a policy.

Sec. 5. NRS 485.3095 is hereby amended to read as follows:

485.3095 1. Proof of financial responsibility may be evidenced by the certificate of the state treasurer that the person named therein has deposited with him [$11,000] *$25,000* in cash or securities such as may legally be purchased by savings banks or for trust funds of a market value of [$11,000.] *$25,000.* The state treasurer shall not accept any such deposit and issue a certificate therefor and the division shall not accept such certificate unless accompanied by evidence that there are no unsatisfied judgments of any character against the depositor in the county where the depositor resides.

2. Such deposit shall be held by the state treasurer to satisfy, in accordance with the provisions of this chapter, any execution on a judgment issued against such person making the deposit, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use thereof, resulting from the ownership, maintenance, use or operation of a motor vehicle after such deposit was made. Money or securities so deposited shall not be subject to attachment or execution unless such attachment or execution shall arise out of a suit for damages as aforesaid.

Sec. 6. This act shall become effective on January 1, 1964."

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Knisley requested that the following remarks be entered in the Journal:

Senate Bill No. 229 has recently been introduced in the Senate. I wish we could turn the clock back 50 years and pass it. I tried to accomplish the same thing 40 years ago when Tahoe was primitive and failed, but did succeed, in 1950, in causing the Pope-Baldwin Recreation Area to be formed. This area includes over one-half of all the good safe swimming beach of Tahoe, and about 5,000 acres of virgin timber on the most useable land in the Tahoe basin adjoining one of our most attractive wilderness areas. Today this land would readily sell for $25,000,000, and it was acquired at no cost to the taxpayers. It is restricted to recreational use, and every citizen has an equal right of use and enforcement of its restrictions. At present, I am being successful in adding equally desirable land to this area at about one-half market value.

Early last year, Senator Fred Settelmeyer and I were appointed to a committee of Nevadans to negotiate for a park at Lake Tahoe. We were then, and still are, in favor of a Nevada state park at Lake Tahoe, but one owned and operated by Nevada. We determined that the real intent behind the park move

was not being disclosed, and resigned from the committee. Needless to say, Settelmeyer and Knisley are surprised and flattered by the large amount of radio, television and press time being given to the aforementioned Senate bill and our presumed attitude. I deny that we are so important that the Governor, the Park Commission, three paid lobbyists who were recently Nevada state employees, the Democratic State Chairman, and the Senator from Washoe County should be concerned about our opinions; the reason, of course, is that the proponents are afraid the people of Nevada will learn the real purpose for the Compact created by this act.

It seems odd that California, which is supposed to be a partner in this affair, is so frank and aboveboard in its disclosures and our people so devious and secretive. The map which the Senator from Washoe County described as a "flood of misinformation" is part of the file which was given our committee by the Nevada State Park Commission during our early discussion; its title shows its origin and purpose, and most of you have copies. California clearly describes the shaded area as the proposed park and believes we so understand it.

The Sierra Club is equally forthright in its statement of the intent back of this Compact. In its official publication for November 1962 is listed the threats to Lake Tahoe as:

California Highway 89 and the Emerald Bay bridge;
U. S. Highway 50, a freeway with a tunnel under Echo Summit;
Nevada Highway 28;
An option by subdividers to purchase Whittell properties; action to stop this must come quickly;
Waste disposal is becoming serious; there may have to be an upper limit to permitted population.
Possible solution—the Interstate Compact to establish a bi-state park.

Does it appear from the foregoing that the comparatively small Bliss Park in California and the Whittell area in Nevada are all that are contemplated? If so, why should the Compact area include the entire Tahoe basin and the eastern slope of the Sierras in Nevada? The message from the Governor which was recently given us states that the Compact is useless unless we give it the power of condemnation within the Compact area. Why should we do this when the Nevada State Park Commission Chairman testified before the Assembly Committee on Ways and Means that the Whittell properties were listed for sale?

The Compact document clearly shows, and we should understand, that the real purpose is to create an enormous bi-state park, including all of the shaded areas shown on the California Division of Beaches and Parks maps previously furnished to you. As stated before, it would be wonderful to live in make-believe land and turn back the clock, but we cannot.

We cannot afford to permit the loss of revenues entailed, the Stateline area is now our third largest producer of gambling and sales revenue; with the completion of the Del Webb venture, it can easily be second; Douglas and Ormsby Counties cannot afford to lose jurisdiction over, and tax revenues from, their best lands; we cannot in good faith with our people surrender this land to another jurisdiction.

Press reports indicate the people of the Tahoe basin take a dim view of this tinkering with their lives and property. The Lake Tahoe Area Council, which keeps a jealous watch over the lake and anything affecting its beauty and future have opposed the Compact and, like Settelmeyer and Knisley, have endorsed a Nevada park.

It should be remembered that Section 3 of Article IX of our State Constitution is very liberal in its provisions for spending and for indebtedness created by an interstate compact, and that our $5 limitation on the property tax can easily be evaded to support this section. We should also take notice in any consideration of Senate Bill No. 229 that a compact between states cannot be entered into without the consent of Congress, and that when such consent is given, the compact becomes a law of the Union and is subject to federal law and federal courts.

When the park departments entered this scene, conferences were being held with the full expectation of successfully obtaining a major park on the Nevada side of Lake Tahoe; if the departments will quit stirring up muddy waters, these negotiations can proceed with excellent chances for a successful conclusion.

Various public officials have inferred that I am opposing the Compact for personal gain; I have no property of any nature that can possibly be affected in any manner by the completion of this Compact; anyone stating that I am guilty of using my elective office for personal gain is a liar.

There being no objections, the Speaker and Chief Clerk signed Assembly Bills Nos. 156, 256, 283, 287; Senate Bills Nos. 16, 58, 63, 99, 155, 156, 178; and Assembly Concurrent Resolution No. 13.

Mr. Speaker requested that the following remarks be entered in the Journal:

One of the purposes of calling the body together today is to clean up the work in committees. We are now in the 62nd day. I don't like working Saturdays any better than anybody else. If all the committees work today, I think we can do away with Saturday work. This is about the stage of the game where if the committees will get all of the bills out of their desks, I think we can wind this thing up in pretty short order.

I don't like to say this, but I don't think I have much choice. Yesterday notice was served that there would be a session today, and that I thought it was important; and I think it is important. The chairman of one of our leading committees did not see fit to comply with the wishes of the rest of the Legislature and did not show up. So, at this time, I am relieving the Chairman of the Social Welfare Committee of her assignment as Chairman. I am asking Mr. Ames to take on the chairmanship of the Social Welfare Committee. I instruct Mr. Springmeyer to take the Social Welfare bills out of Miss Dungan's desk, and deliver them to Mr. Ames. I would ask Mr. Ames to call a meeting of this Committee immediately and clean up those bills that are in there.

Assembly Bill No. 338.

Bill read third time.

Remarks by Misses Dungan, Herr, Messrs. Ames and Christensen.

Miss Dungan requested that the following remarks be entered in the Journal:

Let me first say that A.B. 338 is not a measure that gives any minority any advantage. Rather, it is intended to keep any American from being less than an American. Civil rights has become a term of controversy and I don't believe that the guarantee of the rights of any American should be controversial. Most of you in this chamber can look back in your own ancestry, recent or not, and

find your parent or your parents were victims of religious or racial discrimination to some extent. Unfortunately, in the history of man, bigotry and prejudice have been prevalent because of ignorance, and yet we take pride in calling ourselves an intelligent nation. We know there are no prejudices among children. You have to be taught to hate. My parents never told me that any other human being was inferior, so it is difficult for me to stand here and see any reason why there is opposition to this legislation. I hope there are enough members of this Legislature who have been taught as I have, that there is dignity in the human being and only our weaknesses make the difference between us, not the color of our hair, or our eyes, or our skin, or the church which we attend, or in which country our forefathers were born. Mature, intelligent Americans are not prejudiced, and I hope that I am talking to a group of mature, intelligent Americans.

Mr. Wood requested that the following communication be entered in the Journal:

OFFICE OF WASHOE COUNTY MANAGER
1200 East Second Street
RENO, NEVADA, March 26, 1963.

HONORABLE ASSEMBLYMAN JAMES WOOD, *Nevada State Legislature, Carson City, Nevada.*

DEAR MR. WOOD: Pursuant to our telephone conversation wherein you requested certain information concerning transfer of the State Building in the City of Reno to Washoe County, an informal meeting was held by three Washoe County Commissioners, a majority of the board, two Commissioners being out of town.

The subject of the Nevada Historical Society and the possibility of expense, should the State Building title be transferred to Washoe County and during subsequent developments should the Historical Society be caused to move into

temporary quarters and then returned to new or refurnished quarters, was considered. The Washoe County Commissioners unanimously agreed that in the event of such expense, then Washoe County either by virtue of the County General Fund, or the County Fair and Recreation Fund, would pay this expense and cause no expense to the State of Nevada. The County Commissioners present at the informal meeting were Commission Chairman J. C. McKenzie, Commissioners Leo Sauer and Jack Cunningham.

I am hopeful that this does clear up any questions concerning Washoe County's willingness to accept the State Building.

Very truly yours,

C. B. KINNISON,
County Manager.

DRS. PETTY, GRUNDY AND BASH
CARSON MEDICAL CENTER

CARSON CITY, NEVADA, April 1, 1963.

MR. ARCHIE POZZI, *Pozzi Motor Co., Carson City, Nevada.*

DEAR ARCHIE: At a recent meeting of the medical staff of the Carson-Tahoe Hospital, Senate Bill No. 18 providing for two practical nurses on the professional State Board of Nursing and also for a qualified two-year school of nursing, now under consideration by the Legislature, was considered. After considerable discussion the medical staff voted unanimously to oppose such legislation.

We in the medical profession are keenly aware, probably more so than most people realize, of the acute shortage of doctors and allied medical personnel in the State of Nevada. This, of course, includes nurses as well as other ancillary individuals. The State Medical Association, various component societies of the State Medical Association and many individual doctors, including myself, are daily trying to interest doctors and other people to come to the State of Nevada to practice and work.

Although such a shortage exists, the medical profession in general feels that it is unwise to lower the qualifications of medical personnel in order to attract less qualified and less competent people into our state to practice medicine in its variety of forms. We are all torn between the desire of getting more help into the state and the desire to keep medical care in this state on a very high plane. We feel that relaxing our standards to help meet a temporary shortage will only incumber us in years to come and, in the long run, we would pay dearly for our laxity.

We feel that the appointment of practical nurses to the State Board of Nursing would open a door which would lower professional care in this state, a trend which would be extremely difficult, if not impossible, to reverse. This is the reasoning behind our objection to this legislation.

Sincerely yours,

RICHARD D. GRUNDY, M.D.

A separate set of estimates shall be used for each major class of commodities, and before the estimate forms are distributed among the using agencies, the names, the specifications and the units of measures of the commodities and the quantities consumed by the several agencies during the past period shall be listed on the forms.

3. Upon receipt of the estimate forms, the head of such using agency shall make his best estimate of his anticipated requirements for each commodity listed on each estimate form for the period specified. In so doing he shall be guided by the statement of quantities consumed in the past periods and his knowledge of the requirements for his program of work for the ensuing period. In arriving at the estimate of requirements, quantities in stock shall not be deducted from the actual quantities estimated to be needed.

2. All such materials, supplies and equipment, except as otherwise provided in this section, when the estimated cost thereof shall exceed $500, shall be purchased by formal contract from the lowest responsible bidder, after due notice inviting the submission of sealed proposals to the [director of the state department of purchasing] *chief of the purchasing division* at his office in Carson City, Nevada, until a date and hour as set forth in the proposal form, and at such date and hour the proposals shall be publicly opened. In awarding contracts for the purchase of supplies, materials and equipment, whenever two or more lowest bids are identical, the [director] *chief* shall give preference to proposals from firms operating with a place of business in Nevada which have paid state and county taxes in Nevada. In the purchase of equipment, consideration shall also be given to those firms which maintain an adequate supply of parts for such equipment in Nevada.

Any such cancellation shall necessitate readvertising for bids and a new award under the provisions of this chapter.

2. Any notice of appeal under the provisions of this section shall operate as a stay of action in relation to entering into any contract under such award until the expiration of 10 days and, if the appeal is taken, pending decision thereon.

Such local purchasing may be so authorized as in the cases of perishable articles and to meet other emergency requirements.

Assembly Bill No. 513.

Bill read third time.

Remarks by Mr. Gibson.

Mr. Gibson requested that the following telegram be entered in the Journal:

HONORABLE R. GUILD GRAY, *Nevada State Assembly, Carson City, Nevada.*

For your information the following was released to the press this date:

Washington—The U. S. Public Health Service reported today it will "move expeditiously" to expand its radiological health laboratory facilities at Nevada Southern University if the State Legislature paves the way with appropriate action at its current session.

Dr. Donald Chadwick, Chief of the Agency's Division of Radiological Health, described the Nevada Southern Laboratory as "highly essential" to the Public Health Service program of measuring the amount of radiation to which the general population is exposed.

Chadwick's remarks came in response to questions raised by Senators Alan Bible (D. Nev.) and Lister Hill (D. Ala.) during Senate Appropriations Committee examination of the agency's fiscal 1964 budget.

Chadwick was referring to a proposal before the Nevada Legislature which would authorize the issuance of bonds to cover the immediate cost of constructing four buildings adjacent to the present laboratory unit located at Nevada Southern.

If the bond issuance is approved, Chadwick told the committee he would request negotiations between the Federal Government and the University be initiated immediately to permit occupancy of the new buildings by the Radiological Health Division on a lease-back agreement. It has been pointed out that the rental fees paid to the University would amortize the construction costs over a seven to eight year period.

"If the Nevada Legislature approves the proposal and construction gets under way, we would hope to occupy the new buildings by the summer of 1964," Chadwick testified.

Chadwick said the proposed expansion would also enable the Public Health Service to increase its efforts to make available certain technical courses to Nevada Southern students. He pointed out that at present, the Public Health Service is cooperating with the University in the presentation of a two-year training course for X-ray technicians.

"This is one of the desirable features of such a facility," he said. "Not only does the laboratory perform a greatly needed service to the nation in radiological health research, but it also provides educational benefits for the University itself."

It was the result of action in 1959 by Senator Bible, who secured the necessary appropriations, that the Public Health Service chose Nevada Southern as the site of its first radiological health laboratory unit.

Cordially,

ALAN BIBLE.

MOTIONS, RESOLUTIONS, AND NOTICES

Mr. Wood requested that the following communication be entered in the Journal:

WASHOE COUNTY SCHOOL DISTRICT

RENO, NEVADA, April 9, 1963.

THE HONORABLE JAMES WOOD, *Nevada State Assembly, Carson City, Nevada.*

DEAR MR. WOOD: During my recent visit to the Legislature yesterday I was approached by a legislator who said I had been quoted as saying that the

Washoe County Schools did not need all of the funds which would be provided by A. B. No. 118. This is a totally untrue statement, and certainly one that must have been invented by a legislator to confuse the issue.

Let me say again, as I have said before and during the legislative session, that the Washoe County School District needs every cent of the requested formula because:

1. The starting salary in Washoe County is lower than in most counties of the state and other areas where we must compete for teachers. The starting salary in Washoe County for a B.A. degree is $4,800, while in many Nevada counties this amount is $5,000.

2. A large number of teachers are refusing to sign contracts because of the low salary schedule. Believe me, we are encountering some serious difficulties in this respect.

3. Among many other increased costs, the School District is faced with the Reno and Sparks sewer tax which will amount to $45,000 next year, which other districts do not have. If requested power rates are granted to the Sierra Pacific Power Company our bill will raise $35,000. Street improvements assessed against the District for new schools amounted to $31,000 last year and will be more next year. Most districts do not have these costs.

4. New subdivisions are being developed in all Reno and Sparks areas. We have to provide for more students every six months than most counties have in total enrollment.

5. Remember, also, that we take a "penalty" of over $200,000 because of our low ratio of assessment while many counties receive a "bonus."

It is my belief that if the increase in the school formula has to come from the proposed increased sales tax, and this has to be sold to the voters, then certainly any reduction in the requested school formula will lose a great many votes and endanger the passage of the additional tax.

Sincerely yours,

PROCTER R. HUG, *Superintendent.*

Governor's message stating his objections read.

THE STATE OF NEVADA
EXECUTIVE CHAMBER

CARSON CITY, April 8, 1963.

THE HONORABLE L. E. TYSON, *Speaker, Nevada State Assembly, Assembly Chambers, Carson City, Nevada.*

DEAR MR. TYSON: A. B. No. 134 amends existing law in the following particulars:

1. It precludes the use of central mailing facilities for the legislative and judicial branches of government.

2. It precludes the engagement of the Superintendent of Buildings and Grounds for the purpose of leasing and equipping office buildings for the legislative and judicial branches of government.

3. It provides that the Legislative Commission rather than the Superintendent of Buildings and Grounds shall assign all space on the second floor of the Capitol Building and the Annex.

I have the following comments respecting the legislation.

1. The central mailing facility was established for the purpose of handling the mail in an orderly, economical fashion. The application of the principle applies equally to any branch of government. It has accomplished this purpose. The legislative and judicial branches should at least be given the right to take advantage of the facility, if they so desire.

2. The legislative and judicial branches of government may very well desire to make use of the staff of the Superintendent of Buildings and Grounds for the purpose of leasing and equipping office buildings. Neither branch should be precluded from using the available services if they so desire.

3. All branches of government have a continuing space problem. A portion of the second floor of the Capitol Building and the Capitol Annex has in the past few years between legislative sessions been used by agencies of the executive department when no other space was available. The Legislative Counsel Office, Statute Revision and press corps, have had the use of all the space necessary or requested by them. Any space requested by these two agencies has been and will continue to be available. The balance of the space should, however, be utilized to its maximum and most efficient capacity by the executive branch of government. The Superintendent of Buildings and Grounds should make such assignments according to the over-all plan for housing.

For the above reasons I veto A. B. No. 134 with the suggestion that the bill could have the desired effect by some simple amendments.

GRANT SAWYER, *Governor.*

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

Remarks by Messrs. Pozzi and Swackhamer.

The roll was called, and the Assembly sustained the veto of the Governor by the following vote:

SPECIAL ORDERS OF THE DAY

The hour of 11 a. m. having arrived, vetoed Assembly Bill No. 369 of the 52nd Session was considered.

Vetoed Assembly Bill No. 369 of the 52nd Session.

Bill read.

Governor's message stating his objections read.

THE STATE OF NEVADA
EXECUTIVE CHAMBER

CARSON CITY, April 20, 1963.

HONORABLE L. E. TYSON, *Speaker, Nevada State Assembly, Assembly Chambers, Carson City, Nevada.*

DEAR MR. SPEAKER: I endorse the principle that officials generally should deposit in the State Treasury, both for their own protection and in the public interest. However, in my opinion the funds covered in A. B. 369 constitute an exception.

When the Labor Commissioner collects money from delinquent employers for the benefit of workers, the workers should be paid immediately. The procedure and handling required under A. B. 369 would make immediate payment impossible.

I have vetoed A. B. 369 because I believe it would result in unreasonable delay in the payment of wages due to workers, and that severe hardship would be unavoidable in many cases.

Respectfully,

GRANT SAWYER, *Governor.*

The question was put: "Shall the bill pass, notwithstanding the objections of the Governor?"

Remarks by Messrs. Von Tobel and Christensen.

The roll was called, and the Assembly sustained the veto of the Governor by the following vote:

YEAS—2.

On request of Mr. Petrini, the privilege of the floor of the Assembly Chamber for this day was extended to Mr. R. M. Hardenbrook.

REMARKS FROM THE FLOOR

Mr. Gibson requested that the following remarks be entered in the Journal:

I would like to say that as a member of the Clark County Delegation, and particularly as Chairman of the Ways and Means Committee, I have appreciated very much the support and consideration of the members in our problems. The people sent us here to solve their problems and we have been very aware that we have no way to solve them without the help of the members of this Assembly. There have been many reports in the papers in Clark County which have not indicated the true picture of the assistance we have received here and I know every member of the delegation joins me in expressing their thanks to the whole Assembly and that none of our problems would have been solved in any manner without considerable help of the members of the legislature from other parts of the state.

While we probably haven't solved all the problems, we certainly have taken action and have gone a long way toward overcoming the problems which our people sent us up here to solve.

As concerns the Ways and Means Committee, I would like to express my appreciation to this Committee for the consideration and support they have given me as Chairman. I have never had the privilege of working with a finer group of men in any capacity and I am grateful for this experience.
